Oh man is that rich. So your saying the 'new hams in the last 17 years' are the only ones that have made advancements in the art and/or provided emergency communications?

What a idiot and a conceited one at that.

Do yourself a favor, go buy a copy of 200 meters and down, then read 50 years of the ARRL. Then come back and say the same thing goof.

Your data is incomplete. The top 5% of the people in this country pay about
50% of the total tax take. The top 50% of the people pay 90% of the total
tax take. So the government is already "taxing the rich". If you are going
to stimulate the economy, you can only cut taxes for those who are paying
taxes. Since half the people pay very little or even no taxes, you can't
reduce taxes there. The rich are paying their fair share and more.

Well Carl, our Director . Frank Butler don't even answer e-mails on the subject, and others.

Knowing the gang of 15 is so on high I can only assume they have their noses in the clouds that they can't hear us lowley constituits.

Most people I have talked to, on the air, and on the internet, think the proposal is terrible. Most of which are/were ARRL members. And all to the man saying they are dropping it.

Dream on. The ARRL does not listen. But its members read it loud and clear . Its called money. And to hell with what the members really want.

Of course the assets of the poor is going to be, little or nothing, and not get any better! They are not working. They do not want to work! Why should they? They get free medical care (show up at an emergency room), free food through food stamps, and almost free housing through Section 8 programs! Paid for by the working class of course, and the rich who are paying the most taxes! Why does it seems that most of the legal immigrants eventually accrue lots of assets? Homes, cars, and even businesses! Look at a lot of these small shops and Seven and Eleven stores! Owned and run by immigrants. Asians and a lot of Indians or Pakistanis. Why is that? Are you listening? Here it is! They are willing to work very hard, and very long hours, doing things that a lot of the American poor are unwilling to do! Some even have two or three jobs until the can accumulate enough to start a business. They even pool their resouces to accomplish their goals. The liberal socialist agendas of the Demo-rats, only serve to keep the poor under their thumbs. It keeps them uneducated, with the impression that they, the Demo-rats, are working hard to get them more of what they deserve. They deserve nothing, if they are not willing to work hard to better themselves! Nothing, if they are unwilling to take over their communities from the gangs and drug pushers! Nothing, if they are unwilling to stop the killing of their young! The Demo-rats liberal socialist do-gooder agendas and programs only keep the poor dependent on them, and not on who it should be on, which should be on the individual. Not on the government or on their programs.

Has the radio been sitting unplugged for a long period? If so , plug
it in for a few days and see if that will bring it back to life.
I had a similar problem on my R-5000 and that was the fix. No
further problems after 7 or 8 years.

Yeah, you have tried for over 10 frigging years and you are too
lazy and stupid to apply yourself to learn either the code or
the General theory, so you just want it given to you because of

He did this on 14.313 quite often too.

making these postings all this time over past months. It is
someone else. Someone who has a colorful

Even you, Woger, aren't stupid enough to believe that.

My best guess is that your impersonation of other hams (by posting
under their calls), got one of those hams interested in the board, and
that they then complained by clicking on the obvious link at the
bottom of the main page.

Your photos of depraved sexual acts, your harassment, your hate speech, as well as other sundry TOS violations, guaranteed that anyone could get the NIM Busters board taken down with a single complaint. Maybe from a significantly lower expenditure on Defence??
Here in Aust, we have fairly high tax - the top tax bracket (last time I looked) was over 50 cents in the dollar when you factor in the medicare levy. We have a disgustingly low expenditure on Defence both in overall dollar terms and also as a percentage of GDP, but we also expend vast sums of moneys on social welfare (polite term for funding the pond scum who don't want to work) - here we have entire families - 3 generations or more who have never worked, and always received the dole. It is fucked, but our system allows it. Count yourselves lucky that your system is not as easy as ours is.
The main taxation burden falls on the middle class - the rich have accountants and the like who reduce their tax to stupid amounts - one person who was alleged to be earned billions was paying around ten dollars tax per year thanks to the efforts of an accountant - got me stuffed how, but that be the benefits of being stinking rich I guess.

Even you, Woger, aren't stupid enough to believe that.

My best guess is that your impersonation of other hams (by posting under their calls), got one of those hams interested in the board, and that they then complained by clicking on the obvious link at the bottom of the main page.

Your photos of depraved sexual acts, your harassment, your hate speech, as well as other sundry TOS violations, guaranteed that anyone could get the NIM Busters board taken down with a single complaint. The admin of NIM Busters was utterly stupid for allowing your kind of crap to continue, and he got what he deserved.

Congratulations on trashing yet another net site which was stupid enough to make you welcome.

Oh, wait just a minute here Stagger. Don't give Roger credit for not being 'stupid enough.'

Look at his history and revisit your comment. Roger IS stupid enough.

Roger is the main reason the NIM Busters board was shut down. Look at his history of losing ISP's, being net-kopped, complained about, etc.

Roger has an extremely filthy mouth which often overloads any thinking processes he may have. His threats to assault Lloyd, his threats to 'visit' Lloyd and kill him are but a small part of the Roger Wiseman legacy. Roger's fixation with Pedophilia alone speaks volumes of what Roger is all about.

Roger seems to enjoy posting sexually explicit photos. He is not adverse to posting lies about others or going out of his way to be especially cruel with his comments. On the other hand, when Roger is the subject of derision, he runs to various sysops and mewls that he is being set upon.

No, Roger IS stupid enough and the trouble is that he is too doltish to even realize it.

Yes, Roger trashed the site, but he trashes every site or newsgroup he visits. That is just the nature of this mental malcontent. Roger is only happy when he is trashing others. It compensates for his unhappy, miserable existence.

It must be awful being Roger Wiseman. Pity him, for he is a loser in every sense of the word.

Imagine if you can what it must be like to be trapped in that microcosm of swirling filth that Roger calls his brain. His thoughts spin about in random patterns as his eyes play catch-up. What a dizzying batch of confusion this must be for Roger. His disorientation is obvious. It is nearly impossible for Roger to make or author a cohesive sentence without injecting his "sewer wit", but that is the nature of the sick little beast. As I said before and will repeat, Roger is a sad, middle-aged loser with nothing going for him.
It must have been hard for Roger...growing up unwanted and shunted off to an adoptive step mother.

Join me in a short prayer for Roger if you will.

"Dear God. Please forgive Roger for his sick mind. It is not his fault. He was born this way. Forgive him, God, his twisted ways of looking at children on the playgrounds. You gave us, God, miracle drugs to treat the lesser of those amongst us for their mental problems and we pray that Roger learns to use them. Please, God, watch over Roger so that he sees the error of his ways and can right the scrambled brain he suffers from.
And God, please grant Stagger Lee the fortitude to pursue Roger so as to continue to point out the errors of Roger's misguided ways.
By the way, God. Roger is a Jew, so you and your Son have something in common with him. Remember when your Son said, "Father, forgive them, for they know not what they do."? Please, God, forgive Roger Wiseman, too. He knows not what he is doing, either."

Several facters. First, they generally have smaller governments. Government is huge today, involved in some way or another in almost every aspect of our lives. One or two of our government departments (say Health & Human Services and State) are almost as large as their entire civilian government. Second, they hit corporations a little harder then we do here, not a lot but somewhat harder. For example, business can't write off as much. Finally, and here is a big one, they spend far less on defense. Our defense costs are huge (annual military budget, debt, interest on debt, research, retirement, medical benefits for injured vets, and so on). There are certainly other facters, but these are the most obvious.

Your data is equally incomplete. What percentage of the nation's wealth is controlled by those top 5% and 50%, and how does that compare to the percentage of taxes they pay? I read recently that the top 10-20% control 80% of the nation's wealth. I'm going on what I vaguely remember (which is why I asked), so don't quote me on these figures. However, if that is true, that 50% you say they pay is rather small.

So you would support the League no matter what they do because they are the
"only game in town?"

By that logic, if you were living in Iraq you would have supported Saddam
Hussein (or Hitler in Germany).

There comes a time when you have to think and act for yourself. If the
League is going to pander to the "give me a free upgrade" crowd, then let
that crowd support them. I dropped my membership a few years ago after
seeing the League's "re-structuring" proposal.

You can only fight the undesirable changes from the inside. By bailing out, you've let the people with ideas you don't like have free rein. Why didn't you get in there and oppose it? Run for office? Solicit the support of like minded people in a letter writing campaign? Or if you didn't want to do the work, find someone who thinks like you and push them to do the work? Work for ARRL rule changes that wouldn't let the ARRL submit FCC petitions without getting a confirming vote of the membership?

No I support them because they have the horsepower to get things done.
I may not agree with them on all issues, but it is a place to make our
voices heard.
Enough of us writing the League can make a difference.
Squabbling on the NG's and dropping out will accomplish little.

I live in Kansas Toto. Poor logic on your part.
Like don't support the US government because they passed a law you don't
agree with.
I write my government reps and the ARRL regularly -- do you ??

Well you can drop out and scream on the NG's or you can work with and thru
the ARRL to get things done.
I doubt the ARRL reads this NG.

The ARRL has accomplihed much in the interests of Amateur Radio.

....and she's also reportedly has open invitation to appear on
the Howard Stern Show, MTV and E! Networks, among others,
with combined financial offers from the same that
would, at the very least, triple her previous earnings as an anchor
at WKBN. If I were her I'd tell WKBN and the prudish a-h's
who deride her to go hit the road. Take the money and run with it
girl - Not bad in the long term from a financial standpoint iffen U ask me!
I give her credit. If you got a body that men like, FLAUNT IT
and SHOW IT OFF BABY(!) and just watch the cash start
rolling in. It's a proven formulae that's worked for centuries.

I mean look at Jessica Haan for example. Before she became a
multi-millionaire she was a typist making $5.00 an hour typing
up letters for the PTL Club in Charlotte. Then one day she gave
Jim Bakker a blo-job in the office and managed to not only crash
one of the biggest televangelism SCAM operations going, but she
now can live comfortably for the rest of her life. (and all for just a
little "fun" with Jimmy in Charlotte...rotflmao) Heck, even Tammy Faye
Messner has wised up, dumped her looser hubby and now she's
doing great with celebrity appearances.

So bunkie, before you go pointing fingers at people, calling them a
"...perfect example(s) of a Northern girl gone wrong", better do
your homework. They are all driving around in 2004 Range Rovers
or Caddy Esclades, while I'll bet your still driving around in a
16yo rattle-trap of a Ford F150 pickup, complete with rusting bed
and no rear tailgate someplace down in Alabama or Mississippi.

Kurt: I had gone on holidays for about 3 weeks and disconnected
antenna and power. When I powered it up all I got was a line of dots
and no audio. I called a few dealers but none were familiar with the
problem.
Next day I turned it on and I got audio for about one minute but
as soon as I turned the volume up more than half way the dots
reappeared and the audio was dead. Another day went by and I tried
again. This time the radio stayed on and would work normally but an
increase in volume knocked it out again.
On the third day it worked normally and has ever since. I do not
unplug it except briefly to move it from one spot in the house to
another.
I have no idea why this glitch happened.
Hope yours responds as easily.
Regards, Bob

I'm not screaming, just stating my opinion. I was a League member for many years. But when they repeatedly take positions on important issues that I think are wrong, why should I continue to support them? If they feel that the long-time hams will always support them no matter what, they will continue to ignore us and take us for granted. Perhaps if enough of the Old Timers drop out, they will get the message.

I suspect a few of the ARRL crowd do read these NGs.

Not lately. They've also made some enormous blunders.

Did you try running for office yourself or, if you lacked time to run,
encouraging others with your views to run for office?

Old timers dropping out will not do a thing. There are enough new people
coming in that they won't even notice. Instead we will be left with an even
more unbalanced viewpoint.

DXCC RULE CHANGE. Wayne Mills, N7NG, ARRL Membership Service Dept. Manager, sent out the following ARRL News Release (Dated January 20th):
At its January meeting in Windsor, Connecticut, the ARRL Board of Directors removed paragraph 1.c) from the criteria for determining a DXCC Entity. This provision, implemented in 1998 as part of the DXCC 2000 Program, had provided that "An Entity will be added to the DXCC List as a Political Entity if it ...has a separate IARU Member Society." Since that time, the rule has allowed for the addition of four new DXCC Entities and the retention of one existing Entity.

At the time it was not expected that this would create difficulties with the administration of the IARU. Unfortunately, the provision has had the unintended consequence of stimulating applications for IARU membership that do not further the objectives of the IARU, creating an unfortunate and unnecessary administrative burden.

The rule change will have no effect on those Entities created by or as the result of the rule. According to DXCC Rule II, 5. C), "A change in the DXCC Criteria shall not affect the status of any Entity on the DXCC List at the time of the change."

The other two criteria for the determination of a Political Entity for DXCC continue in effect:
a) The entity is a UN Member State.
b) The entity (except international organizations) has been assigned a callsign prefix block by the ITU.

The text of the Board resolution reads:

WHEREAS, the DXCC 2000 program adopted by the Board in 1998 included changes to the criteria for a DXCC entity, and

WHEREAS, one of the new criteria makes separate IARU membership the basis for determination of a "political entity," and

WHEREAS, this rule has served a constructive purpose with respect to existing IARU societies, but WHEREAS, the rule also has had unforeseen consequences in creating an incentive for the creation of proposed IARU societies that do not further the objectives of the IARU, and

RECOGNIZING that elimination of the rule has no effect on the DXCC entities that already have been created as a result of the rule,

RESOLVED, that the DXCC rules are hereby amended by deleting IARU membership as a basis for determination of a "political entity."

MOST WANTED DXCC LIST FOR SATELLITE! Scott, NX7U, reports, "Now that AMSAT-OSCAR 40 has been operational for some time, there are more and more individuals and DXpeditions expressing an interest in including a satellite station in their plans. It would seem to be a good time to compile a current 'Most Wanted' DX list for satellite. Please submit to me < nx7u@arrl.net > a list of DXCC entities CONFIRMED...any satellite, anytime. A simple text file with a single column of prefix or name will be fine. Hopefully this won't be a burden on paper-loggers. Please remember to include your own call. Remember--the more responses received, the more accurate and useful the information will be. I will compile the responses and post them on a Web page (URL to be announced). Please pass this information along to any Satellite DXer who may not get this directly. Thanks for your participation!"

P4, ARUBA. Andy, AE6Y, will be active as P40Y from February 15-22nd. His activity will include an entry in the ARRL DX CW Contest (February 21-22nd). QSL INFO AND NEWS.....
Jaak, ES1FB, has reported that he has uploaded the logs to the LoTW for the following stations: 3W6KM, JW/ES1AKM and XU7ACE.

HA2004 QSL INFO. On May 1st, Hungary will become a full member of the of the European Union. To celebrate this event, look for special callsigns HA2004EU (QSL via HA5XXA) and HA2004UNI (QSL via HA6QT) to be active during the year.

CHECK YOUR QSL ROUTE AND DATABASES! Vaclav, OK1DXE, informs OPDX that his 5N0W and 5N0HVC activity and mission from Nigeria ended at the end of 2003. He has already started to work on his QSL cards, and the first batch of QSLs should be in the mail this week. However, he mentions that because 5N0W was used in the past by David, OK1RK, and he has registrated this information with most QSL servers, Vaclav feels most of the QSLs were sent to him and perhaps lost. He has only received a few requests for this callsign. Vaclav, used the 5N0W callsign from July 1st, 2000, until the end of 2003. If you have not received a QSL card yet, please send your QSL again to OK1DXE via direct or the OK QSL Bureau.

QSL MANAGER ANNOUNCED FOR 9V0A! Alan, VK4AAR, informs OPDX that he has just been asked to manage the QSL cards for 9V0A (Patriot Hills ... about 1,500 Kms south of Peter One Island and near the South Pole). Alan states, "Cards won't be ready for a little while as the operator is now headed to Africa on work for a couple of weeks and still has to get his log ready for me on his return. So... patience! Bear in mind that our Aussie dollar is still getting stronger against the U.S. dollar but IT IS STILL THE PREFERRED WAY (IRCs can be a problem)." Please QSL DIRECT ONLY to VK4AAR: Alan Roocroft, P.O. Box 421, GATTON 4343, Australia.

NEW QSL MANAGER! Zik, DL/VE3ZIK, reports that Nenad, VE3EXY is the new QSL Manager for: VK9LX, VK9LX/9, H40XX, H44XX, VK1AA/2 and VK1AA/4.

QSL this 160m operation ONLY to W2CG. Activity was a portable operation from the former Coast Maritime CW Station. They used a Multi-element Vertical array hung from 100M tower in a salt marsh. They also used an Inverted - L and 6 beverages (NE, E, S, SW, W and NW).

QSL YU9VK (op. HA7VK) via HA0HW. Laci, HA0HW, states that this is the ONLY YU9 prefix active on the bands!

Bill, W9OL, announced he just put the YB1AQC log and The FIRST operations of ZD8XX (August 5-24th, 1989) onto the LoTW. The ZD8XX 1991 log will be loaded after transcription. Bill states, "I will continue to provide hardcard QSLs upon request. USA only require a SASE. Non USA only require a SAE, 1 IRC is sufficient. All bureau requests will be replied via the bureau. If you feel that you have a QSO that is not included in the LoTW log, feel free to E-mail me with particulars and I will re-examine the log." His E-mail address is: w9ol@billnjudy.com

Yours is simple. Some of the R-5000's have the same potting compound in a VCO as the 440's. By keeping it on all the time you are keeping it dried out and it will work until some of the components corrode in two. If you turn it off the crud absorbs moisture and it won't work.

At a guess. It could be condensation which has dried out when you return
home and restart the central heating ect.

Depends on your point of view. I'm going to encourage more cranky old

Although new versus old does cause friction, the balance is still needed.
The new bring fresh enthusiasm and new ideas. The old have the experience
to weigh these ideas and modify them so they will work or to spot ideas that
have been tried in the past and known to fail. We need both old and new.

I won't join the ARRL because full membership now requires a frontal lobotomy. If you see your section manager or Division director at a meeting or Hamfest, ask them how their surgury went, then slap the shit out of them for me.

I agree that some of our government departments are huge. The
inefficiencies of our government are well known. Also well known are the
large amount of social welfare cheats. I guess we need a lot of people to
catch thes cheats though. We could decrease that numbe though if the
penalties for those cheats were much harder. Hard time maybe! As far as what
our country spends of defense, I believe it is necessary. I do believe that
we should not be in every police action though. The European countries and
also Japan do not spend a large percentage on defense because they are
depending on the U.S. to pull their, "chestnuts out of the fire", if
anything comes up. The United Nations is a joke and should go the way of
the League of Nations. A paper Tiger, especially with Kofi Anan at the
helm.

Here we go again with the demographics. The ARS is a geriatric service.

731. ARRL has proposed nuking morse code for HF access

The ARRL has proposed getting rid of the morse code requirement for HF access.

http://www.arrl.org/
========
Attention All Amateurs...

ARRL to Propose New Entry-Level License, Code-Free HF Access (Jan 19, 2004) -- The ARRL will ask the FCC to create a new entry-level Amateur Radio license that would include HF phone privileges without requiring a Morse code test. The League also will propose consolidating all current licensees into three classes, retaining the Element 1 Morse requirement--now 5 WPM--only for the highest class. The ARRL Board of Directors overwhelmingly approved the plan January 16 during its Annual Meeting in Windsor, Connecticut. The proposals--developed by the ARRL Executive Committee following a Board instruction last July--are in response to changes made in Article 25 of the international Radio Regulations at World Radiocommunication Conference 2003 (WRC-03). They would continue a process of streamlining the amateur licensing structure that the FCC began more than five years ago but left unfinished in the Amateur Service license restructuring Report and Order (WT 98-143) that went into effect April 15, 2000. The ARRL has addressed frequently asked questions (FAQs) concerning this proposal.

=======
I'm not a fan of morse code, but I learned it enough to pass my Advanced class license. This "lets make it easy for everyone to get on the ham band" attitude is going to be the undoing of ham radio. The purpose of Amateur Radio is to foster a qualified pool of radio skilled amateurs. It is suppose to be skill before privilege. It is not suppose to be for every Tom, Dick, and Harry to chit chat on without proving sufficient technical skill.

The FCC gave 27 MHz to the general public and they ruined it.. Now only the social outcast of the world use it, and the better members of society sold out of CB decades ago. The Internet was opened up to the general public, and it has been in a downward spiral ever since.

Please write the FCC and the ARRL to stop the "access for all" mistake in progress. Anytime the general public is given access to anything in mass numbers the end result is mayhem.

You may not have noticed, but, HF is world wide. The world is going no-code.
It will not save what you THINK is amateur radio if the US keeps code.
I am learning code, but only because I want to. The code requirement is
ending anyway. I could simply wait a few months and get on HF anyway.
I'm sure all those folks in REACT will be pleased to know that according to
you, they are "social outcasts". Somehow I think you may be looking in a
mirror when you say that. How often do you get out?

She's *kind* of right, Brian. I'd modify it that the oldsters should be

everyone is anymore. 8^) I really enjoy talking with old timers about

About damn time the fossils in Oldington see the writing on the wall.

Problem is, they're about 15 years too late. Thanks in large part to the ARRL's years of adamant opposition to eliminating the Morse requirement, ham radio is rapidly on the way to becoming a relic of a bygone era.

Too little, too late. Story of the ARRL and their minions.

I'm afraid you *will* need to slap them in order to get their attention.
The BOD doesn't listen to members or hams like me anymore.

If the ARRL leadership had cared about the state of amateur radio and the
quality of its operators, they never would have made the proposals that
they've made over the last 11 years. To them its let us get more morons
licensed so we can get more money in the ole bank account. The ARRL
leadership doesn't care for quality, capable operators. But their plan
will back fire on them and ham radio has and will suffer. When you hand
free licenses to everyone, those people don't appreciate it and probably
won't buy a membership. You always appreciate something more when you
had to work harder to get it and you'll take care of it. But to the ARRL
it's all about money and I'll bet anyone in this group that if they get
their way with their proposal they will offer a 12 dollar discount to new
ham non-members like they did at the last restructuring. "Take a ham
test, and we'll discount new membership on the price of your VEC test
fee!"

Oh well, Nuff said. Most of you don't care anyway. Back to listening to
the lids and CBer type behavior on the bands. 73

"The People of Iraq are free"

The enemy bushite falsely faiths that somehow, in time,
by forcing a continuing threat of our murders as the
innocent striving for Freedom through representation,
they as the enemies of You, America, Humanity, and God,
will as they are doing, provide US a "free" government
in this World that will permanently sell off all of our
Nations assets below wholesale, to give into the
convicted likes of a Halliburton, WorldCom, or five
dollar a day, worker wages Bechtel. Now what kinda
People's Democracy would that be then, where bush states
is now truly "free" for his war crime ilk to rob from in
Our stolen names dying? The demon bushmob 'cabal' has
freed Iraqis from access to clean water, electricity,
low cost fuel, food, medicine, being not bombed or shot

/ / Except that the United States has absolutely no intention of actually getting out of Iraq. It wants its troops to remain, and it wants Bechtel, MCI and Halliburton to stay behind and run the water system, the phones and the oil fields. \ \

Never ever land more like. Imagine that: Arabic WorldCom phone bills, Halliburton gas bills, with the only store "legally" open to US public will be Bechtel, who will demand through bushite tyranny, you pay your wages for something unjustly over billed as, but put together at less than five dollars a day wages offered, being as the only jobs available through not publicly accounted bushite middleman directly chancing the whole country of America as undefended financially., extending "their" risk to do nothing; by the further needless SACRIFICE of MORE AMERICAN (bushited) PATRIOTS AS truly dying WORTHLESS WITH as da dumdums. Armed American Soldiers should be bravely going after Baathist bremer with DEMANDS for immediate democratic elections and the immediate return of ALL the stolen oil-for-food money to be spent entirely on priority Iraqi needs, solving the bank robbery, while considering to start printing up millions of invites for Iraqis to stay in America until the toxic waste dumped by rumsfeld can be partially neutralized., while we hunt down the rest of the evil bushmob, one by one, with the full extent of Law, entrusted to the Loyal American Patriot Soldier's Oath to do what is strategically right in our America to survive. Why do we do this? To protect our fellow Soldiers from sacrificing under lawless criminal command where a, buford "bush bitch" blount type, murders good people for no stated reason, but to toll more American casualties, while robbing all Civilization as fallen bushite victim.

No wonder the evil bushites are now leaving in the light, their Iraqi dis-investment plan, for the easier pickings of undefended COWARDLY America tax payers to rob from. Again, more than half of the monthly 4 billion plus 'top secret' plan, plans to not account to ourselves., on costs of expenses doing nothing much of anything in Iraq TO SACRIFICE MORE AMERICAN PATRIOTS AS WORTHLESS WITH. (Apparently, they can't think this far due to the required math skills of subtraction and division.. Or, so the bushmob don't say in between Our commercial breaks on newscasts, or our acclaimed artists publicly blast during the, we're the best at this, award ceremonies.)

See the tragedy? The leaderless "bushited", American Soldiers are too weak or cowardly to stand strong as Americans for the needless loss of their very own by

cluster bomb. It is From the get go, an American Soldier is sacrificed for, as the evil demon bush lies. Examples abound today like stolen money being wasted to fake fix things, really lives little damage undone. Or leaving buford "bush bitch" blount and the heroin pushing, child killer tommy franks unarrested, does little of no good for America's image abroad, when waring the bushmob "Freedom" medal, on an American cop killing cowardly bushite soldier's dying breast. A "Freedom" medal celebrating the ultimate escape of bush and rumsfeld from an American Patriot's wrath as the primary 9/11 instigators. (Say to a proud bushite, "General Ahmad funded Atta" and they run away as cowards, to play pretend like nazi savages who dropped bombs on US innocent irrationally to pay further costs in sacrifice to their false-deity unthinkingly.)

God or no God, I hate the demon antiChrist, corporate america's false-deity, Your unelected Mr. bush Jr., as much as any real Creator of this world, or any other should.

With such real inaction on old promises [lies] made by the dishonorable and dishonest leaderless bushite nazi savages, while desecrating all of Humanity by fighting against a just rule of Law, (instead of protecting America's America), forces the continued REAL WORLD sacrifice of true Liberty, until the bushmob gang is brought up by US for war crimes., as the 9/11 perpetrating, super evil as ungodly, demon antiChrist in disguises. (I very much would feel welcomed to play my part in those public proceedings.) Hmmm.. maybe CNN or CBC can become publicly convinced we should have our own news programs on what's truly happening?, to compete against the 'evil bushites' in this competitive free market place of ideas? Who knows..

Take care of the business, by getting US in on our news-casts., as these principles here standing in words, are a dreamers dreams, just waiting for You to bring to reality., by standing proud, strong, and forever free as a, truly, super awesome Human Being.

[then subverted to steal American lives with by lying]

Demon Bush replied, "No, the intelligence I operated on
[then subverted to steal American lives with by lying]
was good, sound intelligence."

Where is bush leading America on not ever taking an
apology for his misdeeds to destroy our true American
value with? I don't know how else to simply word this
to the still sleeping, but bush isn't America, America
is America. You, as an American, have a sworn right to
demand for America, bush not be allowed to further
miscarriage Justice blindly back to the dark ages, by
not correcting himself on behalf of established
publicly, where American intelligence stood, stands, and
ultimately strives. Freedom is not protected by letting
the "bad guys" go, to further toll more innocent lives
for criminal sacrifice. Sometimes, the real simple
things are over looked as profound meaning. The Magna
Charta of 1215 states that a freeman should not be
imprisoned. Simple right? Not for the bushites who
side instead to faith in pope bush, who deliberately

unminds a timeless universal principle that exists also in the 1700 B.C's, Code of Hammurabi, where all individuals are to be found equally under the Law, to be fair minded about our business. Simple right? No, corporate america says being fair, is not to care one way or the other between commercials., and the result? The available 9/11 evidence is not publicly disclosed as relevantly important, for Laden did the whole thing by himself, (bush, cheney, and rumsfeld said they know better than everyone else put together so don't even bother to form your own conclusions on your present state devaluating) case closed, now blindly pay your further tithes to bush, cheney and rumsfeld for letting the crime go publicly undetected, while with 13303, we will silently watch bush make himself tyrannical dictator over the rest of our Humanity, where he tells US, to escape, he will with evil american nazi bushite soldiers in tow, get this: not be found accountable to Ourselves anywhere by law to witness, or to an all knowing God even. Spooky, strange and somewhat disturbing, siding to show, bush really is dim-witted as archetypical evil incarnate eh? See? Civilization's Code of Hammurabi consists of 282 paragraphs, of which, the first line from the first paragraph translated states "If a man bring an accusations against a man, and charge him with a capital crime, but cannot prove it, he, the accuser shall be put to death." Your demon bush Jr. is recognized as an enemy of God not only by the Taliban, but since the birth of the Human condition.

The position Your Mr. bush Jr., the antiChrist, threatens against US all, (EVERY FAMILY'S MAN, WOMAN, AND CHILD), is one where, as murdering war monger nazi tyrant, he can with bush bitch traitor buford blount and bremer, deem any NATION of People, outside all the laws of the Universe, regarding our truer existence dying. My timing as Creation is impeccable, when you think about it. But don't think too much about nothing in your own defense while dreaming what is doing, isn't really happening. The unjustified NEEDLESS continuing murder and destruction in Iraq by toxic bombings and the use of cluster bombs as landmine to really kill cowardly and ignorant American soldiers pirated as anti-American lawless God hating nazi teen bush bitches, then, with tommy franks to undermine the ORHA plan to rob the central bank, museum, and steal billions in humanitarian aid by killing more leaderless as evil godless american soldiers with, was in itself, a crime against Your Humanity., and bush along with rummy need to pay the Piper immediately, before needlessly, taking US any

further as not truly represented lyrically to sing or dance about aimlessly.

The demon bush's life, isn't worth the sacrifice he makes of our opinions on Liberty, or our children's future.

The French 1789 Declaration of the Rights of Man and of Citizens, makes perfect sense when it states in so many words, that all People are born [anywhere] free in respect to their legal rights, Laden, and You included. But no, not by the evil bushite misrule. If a Human is not american, then the bushites don't need to follow the actual criminal leads to establish a criminal case rightfully against the accused, and instead, the bushites will blindly victimize our dying world as the disenfranchised and innocent, without true leadership present as spoken for.

By corporate america not working to understand Freedom requires our due process as our self commitment, means, a bushite nation guided by the flimsiest of allegation to deny the rights of all People falling as innocent victims, instead of nabbing the actual criminal masterminds who murdered Americans to steal Freedoms granted to US all by living in the know. So, I purpose a quick, let's get started, New World Constitution; anyone who victimizes the innocent intentionally, should pay a price by our political will, instead of ourselves censored, as the unconcerned bushmob victims. By our corporate news agencies encouraging the blind ungodly belief that evidence is no longer a requirement to convince US who is a criminal, is another bushmob war crime in the making, and a road straight to doom for everyone corporately devalued for bankrupt liquidation. Suspicion is the minimum, when it comes to bush demanding your blind faith in him religiously for indiscriminately murdering hundreds of thousands, while ignoring our Judicial investigations, so fraudsters commi Halliburton, can over bill even further, US tax givers as the unwilling still paying. It was reported that seriously incompetent Bechtel, (who steadfast so far as america's corporately unaccountable, refuses to fix what they're currently being paid for by tax paying bushite soldiers DYING as COWARDS for the wrong side to blow up then pretend repair as), hires workers at five dollars a day, while billing US all as unworthy of consideration in the final tallies during news break. What can't you figure if corporate news america will forbid you raising concern for the life of an American tax payer losing out to war criminals who would murder

New Yorkers for a fast dollar at your expense for
further keeping silent? These words are freely your own
to do as you will. Shout for Americans dying needlessly
under the TRULY incompetent bushite lawless rule, or
don't side to help a plead for mercy regarding yourself
truly included.

Can the bushites possibly think, we're all not ever
possible to stand together without a true Loyal
President, or, make believe King named Johnny, on the
facts firmly established regarding the treasonous war
monger antiChrist lying to Patriots dying US as victim
for?

America, I will now leave the rest of Our job in your
hands for the time being.

Yours again,

Johnny Wizard

Washington Post defends Bush, Iraq war against Paul O'Neill's
exposures
http://www.wsws.org/articles/2004/jan2004/wash-j16_prn.shtml

/ / Until the middle of March 2003 Bush came before the American
public claiming that he had not ``made up his mind'' about war
with Iraq, that diplomacy would be pursued, that military force
would only be a last resort when all other options were exhausted,
etc., etc. O'Neill's exposures, including the existence of
documents, prepared months before the September 11 terrorist

the Newsweek report of February 24, 2003 was the first to
publicize Kamel's testimony that the weapons had been destroyed,
US and British intelligence (as well as UN officials) had had
that information since August 1995. If you were not given a full
account of what Kamel said before it appeared in Newsweek, your

advisers should certainly have given you the whole truth when Newsweek did break the story three weeks before you sent US troops into Iraq to destroy those same weapons. From Johnny

/ / ..then call
themselves heroes in my name after the carnage for
blindly dropping bombs from the sky on everyone.
Heroes? More like typical american nazi cowards,
willing to murder their own families as themselves, than
bravely put their lives on the line standing to protect
Justice as freedom for everyone, as to what true
bravery, and heroism has always been. While the world
watched CNN broadcasting, American nazi teen soldiers
celebrating joyously in contempt for God while singing,
right after the unreported dropping of thousands of
pounds of bombs on everyone in Afghanistan, body parts
everywhere, while knowing directly as individuals, every
single, there was no evidence offered that anyone there
was responsible for any crimes whatsoever, including the
Afghanistan women who worked for the newspaper, but for
to be victims of fanatic nazi american barbarity,
disguised as human, like bush almost gets away with as
pure evil deceived, now completely impossible to
believe. Oh, by the way, I am now taking new
memberships for al-Qaida.

As I say, there isn't a real man in the
American Marines, or the Army willing to protect America
with their lives, for if there were, rumsfeld and bush
would be rightly dead for the murders continuing against
those they know as innocent. As even with their
continuing threats against more innocent people as
American lives they brag to throw away as just soldiers,
as all these other nations they try to make ready to
sacrifice millions for, while propagandizing that our
Justice we need not believe in to grant us freedom from
oppression, nor evidence no longer a requirement to
convince us who is evil, and who is not lying. Nobody
deserves to be murdered, but a murderer escaping to
recommit. \ \

I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on

the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

Where's the NRA on whoring as bush bitches?

American soldier, Your one true loyalty should be to America, not traitor bush to rob ourselves from. Remember: bush, he ain't got no public concern worth mentioning, when it comes to the whereabouts, of more than half the American tax payers expenses regarding Iraq's jeopardized security, now being sold off as planned to the bushmob at what will be, lower than going values. Namely, your own as measured worthless.

As American Soldier, in unbiased corporate TV america, your told you're willing to DIE in servitude as a thieving bushite slave without question, a blind loyalty and obedience, not to a Just God mind You, or the Battle Hymn of the Republic, no, but to worship the demon bush in a destructive cult-like ignorance that does not even afford Your costly ongoing sacrifice, the luxury, of telling US why corporate america refuses to scientifically report on your actual consuming of MEASURED microscopic radio-active heavy metal TOXIC waste, that includes plutonium in trust, to 'bushite' your dumfuk evil comrades you'll kill with especially, or to being blowed up to smithereens by sexy rummy's cluster duds. Mr. franks and bush bitch buford blount State it is of little or no concern to corporate americans how many bomblets were used, or where they fell to kill women, children or US Patriots with, for,

the glorious bushmob will take a few extra bills payable from America to the commi business partners that way for including You in indiscriminate mass murder, see?, and none are the wiser. American Patriot Soldier, repeat after me: "A proud bushite nazi soldier is a dead bushite nazi soldier halted from harming our innocent sons and daughters." Or, AGAIN, corporate america's public refusal to speak up for 'The People' (soldiers included) paying the almost half of Iraq's monthly bill going mysteriously vanished in rummy or bush's war crime pocket... Who gives a toot where it is all going wasted right bushite?, it's only You or yours who could go as the innocent in God's favor still being sacrificed next.

Look, as the very old tales tell repeatedly, the lawless Satan wager, to somehow without knowing how, become omnipotent ruler as tyrannical dictator of this forsaken World, leaving US ALL including Johnny, deprived our rights to justice and freedom, and instead, to the lot of US, be ACTUALLY put up on a cross to die again metaphorically for unarrested bush to continue example with, as an illiterate barbaric enemy of "The Man", just like, isn't going to happen in this lifetime. I ain't no fictional character, and as true blooded Patriot, hate the bush demon war monger during breakfast, lunch, and supper. And besides, I'd personally kill bush first before that neither world tried. Trust US, G, or I single handedly as a man, will triumph over traitor bush's criminality, as the American cop killing 9/11 perpetrating war profiteering savage he is as antiChrist, it's just, will you like Talk Radio in America censors, and rich CNN celebs readily encourage, silently continue to watch your fellow family murdered for bush bitch buford blount, and still refuse to voice objection nor take any action in defense of all that is Our World truly suffering as Yourself included? I despise bush like every alive person who would read this is.

Refuse to speak for Your own freedoms truly pirated by bush, and you'll likely continue to lose out really like America currently is. Refuse to help our desperately pleading God you know being victimized in Your name truly, and you will bare the consequences of being forsaken. Maybe even, towards an end you'll declare, someone else has forsaken you, when it will be only yourself to blame for not speaking for all those denied their happy lives through the brutal criminal tirades of the demon antiChrist, Your Mr. bush Jr.. Again, this will never change: We had complete co-operation granting one hundred percent access through Iraq without

delay, prior to bombing any of Iraq's public sector with toxic waste that contained US People. Every Iraqi child murdered served no good reason or purpose but to war God's love, and my good name. And, still today, that unarrested evil demon tyrant dictator, still chooses to sacrifice many a soft spoken, slow footed American Patriot to, so far, too few bushite nazi dumfuk losers. In addition: We have also learned, Iraq had granted surrender of Iraqi assets to give to the war criminal bushmob, if they would forego the needless indiscriminate murder of easily tens of thousands of innocent families, (like dropping cluster bombs into our residential communities), but war criminal rotten rumsfeld refused because he had already PERSONALLY set up hundreds of illegitimate targets that would, kill primarily only innocent people while destroying public institutions, and bring home a few extra million American payments, tax free.

What more could Saddam do that he wasn't asked for? I beg you to kill the demon bush on behalf of our humanity, and on behalf of the rare American Patriot who will get rightly confused as, bush bitch buford blount's thoughtless nazi teen savages. The anitChrist must not be allowed to survive continuing such heinous war crimes against our being, and myself as the no longer reluctant standing eternal King.

Listen to witness, America's corporate news celebs will mention it is of no concern to You as the unjustly robbed from and dying for the demon antiChrist in sacrifice. Look, I as Christ too, would destroy any cowardly proud bushite nazi teen soldier victimizing my innocent family irrationally, as most, if not all able-bodied men of our world would also if forced into a decision to defend our lives from the likes of a bush bitch buford blount, or a bomb wherever death squad running tommy franks heroin pusher, but I'm told through my faith in the power of myth, the military should have one or two brave and godly Patriots still idly standing around, who would willingly chance to uphold their sworn Oath to protect their country and family, like with the American Constitution's Bill of Rights, and Justice everywhere by protecting the falsely accused, as could be, themselves, they should know now, or soon will be learning of the other way. A proud nazi bushite savage, is a dead nazi bushite savage halted from harming our innocent families irrationally, and low and behold, a good nazi bushite savage is easily found as an enemy of ALL Humanity and God, hiding as nazi vermin in the pirated, bushite military uniform, not true Americans,

but enemies to US all, which includes their selves they pour toxic waste on, while the bushmob robs their 'smart' family back home, undefended, neglected, and wounded like Christ was.

Your Mr. bush Jr. is worthless to this world as a hater of American freedom to not arrest himself and rotten rummy for murdering US New Yorkers on 9/11.

All I'm looking for in this world, one human enough to join US equally as a Loyalist to Humanity, and to do everything we can together to destroy that treasonous 9/11 perpetrator, corporate america's so very deeply hated and despised this entire Universe over, Your Mr. bush Jr.. To not bravely kill or immediately arrest the demon antiChrist along with rumsfeld the rotten, sets enslaved america tracking further down an old worn path of History, as enemies of not only the good Iraqi People bush and bremer whom openly rob from now without apology while giving out cheap candy, but of US all truly in the bigger dream without bindings. It's like bush is waging his demon war with every political body that believe evidence is a requirement to convince US who is evil, or criminal, an wallah, as if by some Supreme Will, the Son of a Just God named Johnny really comes down to our levels to raise a simple awareness through one hell of a, big time collecting plate. (Every proud bushite nazi bagged, I'm willing to pay the good deeder, ten cents per..)

Fear not my friend, the fascist bushite shall be lost by our universally wreathed good guy plot line. An evil bushite now irrationally fights against everyone's freedom for a war criminating ungodly tyrannical evil power that persecutes the innocent with murder, or torture to steal our, sworn to uphold eternal values from. If I don't destroy the demon bush antiChrist in Our defense with this last breath, someone else will, and our faith in God will with hope, find a love truly honored with respect and gratitude for being so magnificent. Never again, left vulnerable in my name as undefended to be victimized for a war monger's consequence.

Let US get out there and bag US the bush demon for God, or the Lord, Allah, or just Johnny, instead of victimizing Catholics, Muslims, Jews, or Atheists, along with all the rest as a Palestinian truly measured, encompasess everyone.

Again, by denying the rest of US as Humanity Justice,
the bushites need advertise between commercial break

criminal 9/11 leads folks, because the crime they say
wasn't committed by true American values. Go on along
bush, cheney, and rumsfeld say, pay no attention to our
evidentiary findings such as, the American FBI's
documented contention, that bush's business partner,
General Ahmad, funded the 9/11 'mastermind' Atta, or the
CIA's, regarding bush LYING in America's name about
Niger (TREASON), or MSNBC's almost Biblical Revelation,
about the bushmob having a signed and sealed, 'top
secret' war plan to not follow the 9/11 evidence to
secure invasion of Afghanistan for Enron, at
Condoleeza's desk, two days prior to the terrorist act
taking place, of which when confronted, confessed as
fully implemented by the Whitehouse. A 'top secret'
plan to blame Laden on a crime they wouldn't actually
try to arrest for with evidence, a plan arranging that
would find bin in Afghanistan pleading innocence with
the help of bush's partner again, General Ahmad, a crime

of such magnitude, it would 'justify' a war mongers criminal invasion to thwart Enron's impending CRIMINAL bankruptcy, THIEVING FROM MOMS AND POPS, to then, ATTEMPT, to close the surviving, armed with knowledge for good reason Police investigations. All of this setting a lowly nazi bushite war criminal, frothing publicly at more than six billion + of US, to state without opinion, that We, as Humanity, are no longer afforded God's GIVEN Human Rights to defend ourselves, nor is the criminal dictates of the demon antiChrist accountable to any rules of law. Universal they publicly quip, as the not-so 'secret' ungodly bushite doctrine of tyranny as enslavement of all that is Righteous and Holy in this World, because, hey, there is no God to speak of... and the King of kings, Son of God fellow, well.. that's all just ninepence fiction. No, WE, as all the make believers of this World, will no longer have ANY legal recourse to defend our own loved family from being stolen from through a bush bitch buford blount doing whatever criminally with dumfuk loyal nazi teen bushites leading to sacrifice for, for demon bush dictates his corporate american bred bushite nazi teen leaders, can not be held to a code of conduct, distinction, or honor. That's the bush world now you'll except without say. As an American, you're forfeiting your rights by not saying anything to protect those falling murdered in evil bush's name. American Talk Radio is waiting for your call to be hung up on.

All Nations outside of America are a politician's friend, and nobody is going to vote to incriminate ourselves for something we would be innocent of. For bush, Ashcroft, and rumsfeld to contend, humans outside of bush america's border, are no longer afforded the rights of being, and bushites can rob our Universe and there is nothing anybody can do about it, isn't going to sell well anywhere. The criminals have enough of a time not getting caught for the things that they do, and almost no one but the lifeless, would stand silently with bush while needlessly murdering ourselves as the innocent.

See?, when bush bitch buford blount murderers innocent people, often their surviving friends and family take it out by killing bushite soldiers that mindlessly follow bush bitch buford blount's criminal command. And, why shouldn't we? The unarrested bush bitch buford blount confesses to murdering thousands of good honest People, for no objective, but to let the bushmob rob even further more children from US all. Kill bush for the love of Jesus, please.

Notice to the World: Literate American Soldiers have not voiced written objection to my writing, (us.military.army) but for the exceptionally rare bushite nazi savage, who sorrily slack, others shouldn't be allowed to tell the truth about polls, 9/11 criminal investigations, or bush and rummy getting the Patriots murdered for pension thieves and heroin pushers to tyrannically profit at our devolvements. Encouraging US to continuing in bush's name getting robbed and murdered irrationally? no rights to defend ourselves from crime in a court of law they say?, without a God, or any reason for love of this world whatsoever? The bushites think that they can first degree murder our world's women and children, our freedoms as Justice for US all, and miraculously, as the result, will bring our entire, dazed and confused World to it's knees as the whore of Babylon. Indefinitely. (Not like a real Whore mind you, most crack-addicts, and even some G men, hold limits on how far they'll go victimizing the innocent to glorify a blatantly evil and ungodly enemy of all that is good and righteous in this world.

Anyway.

The CIA, and the FBI are surely in agreement with US, on this indivisible Justice thing. The quicker bush dies as unarrested traitor by the hands of a true American Patriot, the sooner an explanation will be demanded as forth right and coming.

Again, American soldier, wake up, and kill bush for sacrificing your friends and family to die as cowards, too afraid to stand with God in defense of the once great American flag. My America, is the land of the not so stupid, and brave enough to kill unarrested bush and rumsfeld for 9/11 almost immediately, or any other war criminating enemy of America fighting to not have our Justice served by nabbing the true 9/11 suspects.

Through a legal lens - the attack and occupation of Iraq http://electroniciraq.net/news/printer1262.shtml

/ / The International Covenant on Civil and Political Rights, RATIFIED by both the U.S. and Britain, pulls no punches on this count: "Any propaganda for war shall be prohibited by law" (Article 20). \ \

This is what bush needs to be immediately arrested on for his Niger claims, if you see him not behind bars awaiting public trial, do the American Police force and soldiers everywhere a favor, and kill the escaping demon bush for the love of Your life wills it.

By protecting the demon antiChrist bush for continuing in Our names to rob from Humanity by breaking American laws willingly, will now be a public declaration supporting crime against our betters. I will not stand motionless while bush and rumsfeld with bremer persecute school teachers not guilty of criminal offences, while pirating Iraq's wealth for Dutch-Shell, Worldcom, and double billers, commi Halliburton, all the while, feeding American Patriots radio-active toxic waste to die as losers. Think Patriot.

Arthur MacArthur "Those forty minutes when I defied my orders, were the keystone of my career." A career that would lead him to the highest rank in the United States Army. Saving many lives he did by doing so bravely.

His son later, defying Hoover, smashed thousands of American WWI vets, who were demanding their promised checks to save themselves from starvation. Winning he did, corporate banking's recognition and praise as a savior of the american way of life, and The People?, they ate it again when in 1950, at the age of 70, defying Truman, launched a win sumtin at all costs attack against China, that quickly during the unreported stupid needless slaughter of countless American teens, forced Truman to concede defeat by begging for a immediate truce with China while firing MacArthur, who came home to giant demonstrations of love and affection for sacrificing American lives forgotten to the accolades of corporate america's unsung hero.

George S. Patton Jnr. "It's no fun to say to a man you love, go out, go out and get killed, and we have had to say it, and by God they have gone..."

Johnny Wizard "Let US just get bush instead friend."

For the love of life and countries, kill bush as traitor to all our Humanity.

Your unbroken eternal Warrior,
as acting Servant and King,

the one and only,
as staring Johnny Wizard,
the true Son of Man

P.S. My reader, I taunt you again: forward these words of love or hate as if they were of Your own concern. America I think Will be interested in this public outrage of the silent majority, an outrage that will ecplise into an international scandal of such proportions, it just might win US the newscast with the facts on Justice ruling our way. (I am excepting all

reasonable job offers. Hint hint.)

This is why I plead with armed Americans to kill the
unarrested bush for the love of children everywhere.
Look, we know directly who the bushites are who PUBLICLY
advocate the murder of innocent People through corporate

censorship, who support furthering the demon antiChrist's senseless crimes against my America, and our World. Example: You'd think Art Bell figures none of his listeners could in no other way, learn of traitor bush murdering thousands in New York City, and his contemptuous silence on the issue forbidding anyone else from publicly mentioning it. I have dominated alt.fan.art-bell for years, while Art Bell, like Canada's Peter Warren, will continuously advertise open line calls, but abruptly end calls topicing on KNOWN FACTS surrounding their evil false deity bush, 9/11, Iraq, depleted plutonium, Halliburton, and the deaths of our innocent lives fallen to their personal inaction depicting our community as uninterested. Art Bell in FACT has pre-screened his "open line" calls since bush stole power, and does so, to make appear Americans aren't clued in, on the now hundreds of thousands of innocent lives bush has murdered as war criminal. A good nazi bushite, is a dead nazi bushite, halted from advocating further war crimes constituting the murder of our innocent families. The dumfuk bushite parasites have been PURPOSEFULLY blowing themselves up with mined cluster bombs as suicide bombers! Not dying for any noble cause, but to only further toll more American Patriot lives. We should ask all soldiers, who are they loyal to, the 9/11 perpetrating American cop killer bush, or the People's America, as so enshrined by the Bill of Rights, and true Justice to actually protect the freedom of US people by following a leader?

These OUTNUMBERED and OUTGUNNED nazi bushites are indiscriminately bombing residential communities with radio-active toxic waste for nothing but to please their evil false deity, Our Mr bush Jr.. No rational reason but for a hatred to Your Humanity, and God if you believe.

Example: that evil nazi terrorist buford blount confesses to murdering thousands of innocent Iraqi People for nothing, no reason he proudly professes as wicked evil heinous traitor. Think of the lives You could save Patriot, by justly killing the unarrested buford blount, on hopes a person to take his place could at the very least consider being honorable in defending Your America? Demon buford blount is truly the enemy to American soldiers, for, if your family was murdered by buford blount irrationally commanding mindless bushite soldiers for nothing but to further rob the dying American tax payers, would you not too, spend your will hunting the evil nazi fuck down personally to spare further another innocent family suffering? To kill the

unarrested unAmerican buforld blount is to stop him from
ordering the practically dead already, nazi dumfuk
treasonous bushite brethren teens, from victimizing
again US as the innocent undefended.

While CNN still insists it's better for them to
misinform and ignore, than to expose the demon bush as
the true target for any Patriot's rage. American
soldiers are being sacrificed to die for no known good
reason, but for bad leadership as evil bushite war
profiteers.

The best evidence to kill bush quickly.

Demon bush "These terrorists target the innocent, and
they kill by the thousands. And they would, if they
gained the weapons they seek, kill by the millions and
not be finished. The greatest threat of our age, is
nuclear, chemical, or biological weapons in the hands of
the terrorists, and the dictators that aid them. The

evil is in plain sight, the danger only increases with denial."

Remember: Demon bush doesn't forget signing his soul to the invade Afghanistan plan by not following the 911 evidence, but would top secretly attribute to Laden for blame, authored by himself, rumsfeld, Condoleeza, and General Ahmad two days prior to the public event of murdering "thousands" in wealthy corporate America, a secret plan that has been confessed publicly to US as fully implemented by the White House right from the start to Jim at MSNBC, months after the fact when the demon antiChrist was caught with American blood in his breath.

Not to follow the criminal leads surrounding evil bush as mass murdering antiChrist, is what the White House confesses to Americans today as official policy under every circumstance. Karma. Demon bush tells corporate america that they'll persecute the innocent in any country by denying our fundamental human rights of Freedom and Justice, while now dropping 2000 pound bombs in God's World containing children, while corporate nazi bores, report in judgement of the great King who MAY have cuddled some cute boy! Jackson has given so much to America in stone, and in return, the corporate news nazi bushites sit condemning a great man whose open vulnerability gives him his wondrous strength and power as true American artistry. While these very same treasonous corporate bushite news anchors refuse to report on tommy franks running death squads against school girls, Guantanamo's Taliban's Girl School teacher Mozam Begg whose family served proudly for generations in the British Military, or tomorrow if YOU don't help US speak out publicly, continue refusing to report the general murder of civilian populations by the godless evil nazi bushite traitors. A good bushite, is a dead bushite halted for advancing their murder rampages against our innocent families irrationally. Demon buford blount, who runs like the nazi coward he truly is from my challenge to a death match, confesses to murdering thousands of US People for no military objective, but to get killed those that serve as bushwhored slaves under him to take his cowardly place instead, a die hard bushite nazi traitor. No government in Iraq would give WorldCom and Halliburton a blank check because they care too much for The People, nor certainly would they not, steal helpful Humanitarian Aid from poor people to pay the fraudster commi double billers, Halliburton again, nor either or, dump radio-active toxic waste on themselves to help bush's

re-election campaign get off on murdering Americans for financial pain as God betrayers to US all. KILL BUSH NOW! Remember: a bushite soldier hides behind an American uniform, while knowing the bushmob has likely robbed their very own family of their savings and vital protection. Weak and cowardly, stupid and murdering innocent People for the demon antiChirst as their false deity parasite they are dying for TODAY as. I HATE bush as much as any real man would. The bush demon sells his Satanism by offering NO skills required to be dishonorable and dishonest, no reading newspapers, or feeling the pulse of the plundering nation required while ransacking the faithful. While these corporate news experts and CNN and CBC censor pleads from Humanity paying the wages of evil bush's wars against freedom and God, Justice and America, denied our corporate news coverage to be my primary lonely concern mostly it seems sometimes, as too, how terribly it truly is for life whose love isn't appreciated by our will anymore as the living in america, oh yeah, I mean America.

As an American then, what life will you forsake where bush'll rob you over and over as the never living for something better? These american bushite nazi fuks, think your gonna wash their feet, and instead of defending yourself and family, just turn the other cheek right before the bushites drop a two thousand pound bomb or two on your innocent neighbor next door? Done for nothing but feeding the bushmob?, as unarrested buford blount contends in God's presence? Then to think, buford blount figures I as a real man will not seek him out one to one to the ends of this universe for payback.

What can God do to help, if your refuse to help yourself? The true danger to America increases with American doubts on bush's blatant, true naked evilness, or humoring God as Johnny, and betting on yourself for a change by supporting me as the time being? Look, what could you do for your freedom, when I demand the pursuit of Justice by following evidence to truly protect this World we share? Support my demand to raise the news media's ignorance on what you shout even louder?

Think this: demon bush makes no public mention of where almost half of the monthly 4 billion dollar tax payer bill is quietly disappearing while grandma loses her cable television, or only grandson? Is that Leadership I ask every American Soldier to be brave and forward this letter on terrorism to your fellow comrads secretly. Then, we'll see...

The money for reconstruction is being misplaced as stolen, while
corporate america demands bush not be held accountable.

American Soldiers, you'd think, wouldn't stand for it, right? It isn't
Art Bell, or Bill Hemmer who's paying with their lives, but a poor,
dumbass soldier along with the general tax payer, whos ignorance is
ignored, sacrificed, as not relevant to Art, or news worthy to Bill. I
will send this email like most others to Art, and maybe I'll phone up
Bill again to remind him that the FBI states bush's business partner,
General Ahmad funded Atta, the 911 mastermind. But you know what
they'll say as traitors to your America? Nothing but hang up on You,
while pretending we have no concern for the senseless murder of our
families, or the robbing of American principles.

The bushite soldiers don't steal the Humanitarian Aid for themselves,
or purposefully let the bushmob steal their parents pensions, no, they
do it blindly to please their false deity, the demon bush Jr., because
their weak and cowardly, stupid and truly dying... Not for America and
freedom they die, but for the antiChrist, Our Mr. bush Jr, the most
hated and despised war criminal of history.

GET BUSH

Officers fault air strategy as ï¿½timidï¿½
http://www.freerepublic.com/focus/f-news/842417/posts

/ / Jim Wilkinson, director of strategic communications
at Central Command, responded by saying, "We don't
discuss plan specifics for reasons of operational
security. However, I can tell you the plan is
comprehensive, modern and flexible, and Gen. FRANKS
continues to work closely with all the services." \ \

...The officers said the plan deviates in significant
ways from the 1991 38-day air campaign during Operation
Desert Storm, in which telephone communications, power
systems and bridges were targeted from the first day to
isolate Saddam Hussein and his military forces.

The reason for the change: The Bush administration
wants to spare hardships to Iraqi civilians and to show
that the real target of the bombing campaign is Saddam. \ \

GET BUSH

So, to IRRATIONALLY target the telephone exchanges, power grids, water dams, pipe lines, and residential communities with thousands of toxic, radio-active cluster bombs to blindly murder a person like You, (that would later, blow up nazi bushite soldiers by landmine), would be considered TRULY evil by demon bush standards too?

Why does Johnny call the huge war criminal traitors puny dumfuk bushite soldiers? They die truly as cowards for the demon bush liar, being enemies of God and Humanity, because prior to the war, (as outlined on March 7th), we had completely unrestricted access to go wherever in Iraq, without delay. So, demon bush sabotaged America's ability to effectively disarm Iraq, and to bring peaceably, freedom in the region through JUST causes, all so he could STEAL further the lives of AMERICANS by continuing with his murder rampages against the innocent. We remember, Saddam offered the demon antiChrist, Our Mr. bush Jr. unfettered access to the Iraqi national media to preach his deceit against God and Humanity freely, but bush refused to publicly condemn Universal health care and education, along with what has been described as Humanity's greatest food distribution network. Instead, bush sacrifices bushite soldiers to steal OUR Humanitarian Aid, to double pay commi Halliburton, an american company found repeatedly by Our ARMED Police agencies, defrauding all Americans in criminal contempt for the People payers. All the while condoning the torture and enslavement of those known innocent still, but beyond american borders as our Humanity. Morally equating the rest of Humanity outside of Universal Justice as US fairly represented? Mr. bush tells God his plan is to victimize Humanity in America's name, by hiding behind who's flag again?

Destroy the war criminating, unarrested American cop killer, our offensive Mr. bush Jr. instead my friend, and be thanked by God in person.

Look, Mr. bush, rumsfeld, and franks have STOLEN food and medicine from Iraqi children by confiscating "Saddam's Money", and, it is now publicly understood that tommy franks, sabotaged the ORHA plan to create insecurity and chaos so to rob the central bank of billions. For tommy and his private banker friends to do this, he as a bushite had to sacrifice the lives of LEADERLESS American Soldiers as too weak and cowardly to say, "For God's sake, I'll wise up and destroy bush and rumsfeld myself instead to defend my loyal Brothers and

Sisters I will, till the end, giving of everything for a life worth living", at least that is what a truly proud American Patriot who fights gloriously for a just battle as the good guys would. Instead as the dishonorable bushites, robbing blindly themselves and their own dying brethren, while bombing our homes with radio-active toxic waste, that contains among other things, deadly plutonium. Enemies of God as the bushite disciples.

Wow! Wouldn't it be cool if America stoop UP and destroyed the war criminals bush and rumsfeld by simple supernatural Human Will power?

Tough luck so far for corporate news america continue to slog that America is so ungodly stupid as the uninformed, and have never heard of this Johnny Wizard artist taking center stage as makeshift creator antiChrist demon slayer.

Of course we should not forget to mention again, in addition, like the same, Saddam offered the demon antiChrist, Our Mr. bush Jr. unfettered access to the Iraqi national media to preach his deceit against God and Humanity freely, but bush refused, so too just like CNN and CBC censors do today by refusing communicating community interaction on our top priority war issues. Instead, we must, they claim, continue sacrificing bushite soldiers to steal Humanitarian Aid, to then double pay commi Halliburton, or WorldCom; companies found repeatedly defrauding all Americans in criminal contempt for the dying American tax payers. All the while watching now in real horror, as bush OPENLY steals almost all of the National Iraqi assets for his private auctions, but for the exception of the already claimed, iraqi Halliburton oil reserves. Why?, Ho ho ho, because, he said so, in writing. 13303 states bush is the lawless demon from scriptural references, and why Christians don't stand in service for the cried mercy begged from God, the Son, and Humanity, I'll never understand, but Johnny'll tell You, he's gonna march home even if it means I'll do it all by my lonesome. My soul isn't for sale, nor are my righteous Universal principles stealable as a true Human defender to the last bushite standing who foolishly would choose to be my mortal enemy.

To my friends in Iraq, don't let corporate american media divide yourselves from community as equal participators. An Iraqi, is foremost, a member of our Humanity, and just like the rest of US, hate the God betraying anti-American demon antiChrist bush, more than

anything else in the Universe for persecuting the innocent while killing coppers to steal our assets undefended without a leader to speak out everywhere for our living rights included. HUNDREDS, if not thousands of American soldiers have already DIED in Iraq stupidly as evil nazi vermin, GAME OVER MAN, for nothing but their cowardly ignorance on our ability to communicate FREELY for Freedoms thought died for already. Dying for bush as too cowardly to protect themselves as their own friends, and sacrificing families they silently watch criminally plundered further by their leaderless inaction on truly protecting America. Again, bush isn't America, America is America.

Justice for all, and let's name this time our own with my writing as a make believe King of Kings who's done it all already, just for the fun of it, whatdoyasay? Imagine this on a CNN spot speaking for our Justice as an equal to all beings, and like, wouldn't that be super interesting for everybody as the unjustly suffering and dying as victims under the demon bush dictates of criminal enslavement and global tyranny?

Christ, take care of yourself by killing bush, please?

Your true friend,
Johnny Wizard

Johnny Wizard Here To Tell It Like We Is

So, the bush regime knows that Saddam has no nukes, but as any person could, maybe at sometime in the future would target general populations, of which Saddam has stated to be rationally stupid, immoral and evil. A tactic that bush, as america, says without pause to reflect, would do so in our stolen names is plausible with him in power as a degenerate. The bush regime also thinks Saddam does indeed have biological weapons, and has so for decades but never used them, as the only affordable balance to the militarization of the region. Namely, to counter the Israeli government's corrupt political position of American funded bigotry and lawless behavior, on claims God gave them a right as criminals apparently, to deprive Christians a right to live justly, to own property, or use public roads even, and that most of Iraq should too, be stolen by force like hitler did, as hitler did measure also, all Jews, by the same level of intolerance, ignorance and barbarity sharon does of US as Palestinians, you know, Catholics, Muslims, Jews and Atheists, absent love for ourselves as understanding, godly, and principally innocent until proven otherwise. Mr. sharon is not Jewish, nor is anyone else allowed to practice as such in the Likud party. But anyway, Saddam is no Saint, however, no evidence exists that Saddam has ever used bio warfare weapons on his own people, while Our Mr. bush Jr., is documented factually, as a murdering demon

of evilness clearly paraded before ourselves by corporate command, as a supposed representation of OUR civilization's true will. As Our Mr. bush Jr. works diligently to destroy our lives through fraudulent means, counting on US not trying to save Ourselves by following the truth to set US free. A repuglican who without laughing, demanded law enforcement agencies not follow the ample criminal evidence to arrest the true perpetrators of 9/11, but instead, urged the closing of investigations, while top secretly, implicated bin Laden without evidence he couldn't divulge, of which the British government ended up doing so for the love of our selves, comprising of only, general maybe if's, of which only could, can, and does, jeopardize bush, cheney and rumsfeld by taking such a secret, now public position against our interests to kill us as the innocent with. Which is truly why bush rumsfeld and cheney are warmongering as despicable savages. 5 billion dollars in humanitarian aid is being blocked by the bush regime to enter Iraq, like food and medicine. The bush regime demands children be starved and not receive treatments for ailments, such as aspirin for headaches, or as cancer from the devastation the families of Iraq are still suffering through, since the last time a bush's american criminal military force dumped tons of radioactive waste in the region, while murdering indiscriminately ourselves as anyone, because principally, toxic American soldiers, like the American people, hold the title of the highest illiteracy levels of the developing world, which brings them as consequence, the worst health care providers to themselves as discounted, corporately mandated as unworthy to understand their own behaviors, so they can be even further rooked as shysters. Over two million people have died directly because of American aggression against the practically defenseless in Iraq, who the bush regime even claims, have little of no power to change the political landscape, based in loose tribal ethics as protections, that has been as such, for approximately 4000 years. And as American traitor war criminal rumsfeld proclaimed, since american aggression has continued against Iraq over the last twelve years, so too, has their economy been devastated, and as consequence, the attraction to keep the more literate as wealth driven from remaining, has waned. But what can bush offer Iraq, indeed to our world my friends? Just murder US people for stolen cash profit, is clearly his only motivation, as a tyrant dictator far worse than Saddam has ever been. Mr. bush indicates he knows nothing of economics, or the important function of law

to protect our societies, so what if he should kill Saddam, and maybe a million Iraqi people, then what? He hasn't thought that far, and clearly, due to his evilness we witness daily, couldn't care less. CNN and other corporate professionals refuse to tell the blood sucking, carcinogenic, corporate American real fast news blips, of causes they as a nation in total celebrated televised ignorance, have committed against the Iraqi struggling to survive People, and indeed around our world likewise. As was the bush regime's unreported support of the overthrow of democratically elected Chavez in Venezuela, who incidentally, as one of the very few, holds a perfect human rights record, unlike America, who is the only nation, the World Court has convicted by factual documented evidence, to be a terrorist state. There is no record of Saddam murdering millions of Iraqis, while targeting innocent children, but there is to the illegitimate bush family, and nazi soldier tommy franks intentions, the most despicable savage to ever don an American uniform, who would now have us all believe, such a evil strategy of criminal wrong doing, is the only option, to better the lives of those who barely survive from American oppression in Iraq as it is. What form of governance would bush be suggesting? Would it be like bush squandering almost 7 trillion dollars in bad business decisions for our futures as he has set forth for America already? Or maybe something like the new criminal heroin pushers in Afghanistan as foreigners? Costing the American nation, who holds the title of highest rates of human depravation in the industialized world, and highest percentage of imprisoned per populace in all recorded history, 5 billion dollars every month to prop up sales in narcotics, and terrorist handbooks. Where political opponents who criticize the Karazi regime are murdered, for factually claiming the political aims of Karazi are not representing US people as the children? Or as evil bush, who would boldly lie to the face of God, that there were no girl schools in Afghanistan under the Taliban, while secretly thanking sadistic scum bag American traitor, mass murdering savage, wimp ass drug dealing coward tommy franks, for specifically targeting those very schools, women reporters, Mosques, red cross units, literate tribal leaders, men with beards, and children, while labelling all of Our humanity who would fight against injustice his enemy? Or that bush would dare still attempt to get away undamaged by the real men of this world, to spout his venom hatred for humanity to what must be drugged out to be so cowardly American soldiers, by lying to US as the demon of pure evilness

we all witnessed, that heroin cultivation wasn't factually outlawed by the Taliban officially following Allah, leaving no position as God's will to back track politically on later? American military analysts, including the CIA and former secretary of Defense, William Cohen, claim Iraq is no threat to it's neighbors, as so too, does no nation in the region support bush's warmongering. In Congressional hearings last week, former UN arms inspector Scott Ritter courageously stated what many Americans believe, but rarely if never mentioned by corporate news standards as the will of the people, "A handful of ideologues have hijacked the national security policy of the United States for their own ambitions." Ritter insisted Iraq was no threat to the U.S. or the Mideast, and later offered that cheney be forced by Americans on mass, to offer evidence to his bogus, make believe accusations, that he wishes to use to actually murder thousands, if not millions of US REAL PEOPLE. Our axis of evil, bush rumsfeld and cheney, do not want renewed inspections of Iraq, they only want war to murder ourselves, and to create instability in our world through fear to prevent their rightful capture for 9/11, while we all are expected to sit back as corporate standard fascist cowards, to pretend bush was actually elected as President in America, because actual poll counts were forbidden to be publicized, therefor, he may have won our approval to use nukes against anyone for whatever. With CNN, the Commie Nazi Network, telling us we as the civilized are also convicted to poll, that evidence is no longer a requirement to convince US who is criminally insane, in this nightmare of criminal bush family evilness, hell bent on destroying your world, and everything WE, as The People, have struggled so hard to protect. It would seem any world threat of terrorism, would be surely from a nation like bush's America. A cowardly nation that demands we as humanity, be deprived the guiding principles of Justice like they in weakness had abdicated as no longer their own as unfairly represented, leaving as slaves the bush regime to rob us all of our Freedoms, as a rule of Law instills such as in the Declaration of Independence, the Bill of Rights, and the American Constitution. All now trashed by Ashcroft, as clear criminal intent to obstruct Justice as the American dream for everyone.

E-mail this to somebody for Christ states,

yours truly,

Johnny Wizard

From below:

"Mr. bush you nazi vermin, you attack my America, you
attack US all. American soldiers will not sit back as
cowards entirely, and watch you sacrifice our lives as
worthless without meaning."

I think I love you too much

Wow, your amazing! So, what your saying is bush the
nazi tyrant, the unelected mass murdering fascist
dictator, has no interest following the ample criminal
leads, because they lead to him, rumsfeld, and cheney
likely too, right? And, when that evil monster told us
instead he would rely on secret evidence, but couldn't
tell us why, as too the FBI or CIA, it turned out to be
nothing but another wicked evil deception against the
great American people, Tony Blair, bin Laden, and law
enforcement officers everywhere, to even further give
him cause to close investigations into 9/11 as Reuters
told us, and rob directly from American soldier
families, their lives, pensions, life savings, and blind
faith, in bush, the false diety, super evil anti-Christ.

Johnny Wizard is my Hero.

It angers me to see people in this country trashing Germany, Italy, and Japan for not spending enough on defense. These countries have little choice in the matter. The United States, with allies, set limits on the size and character of their militaries following WWII. As such, it would take significant changes to their laws to increase the size and capabilities of their militaries (changes that would not likely be accepted by the USA, past allies, or neighboring countries).

As for the other countries, both the UK and France have nuclear weapons and can defend themselves, Switzerland and Sweden are long time neutrals, Norway is a quasi-neutral, Spain is a quasi-neutral, Portugal is a quasi-neutral, Austria is a quasi-neutral, and Russia still has one of the largest militaries in the world. In the end, only the Netherlands, Denmark, and Belgium are weak on defense, and that only because their populations are too small to support a larger military.

So, if you want to see Germany, Italy, and Japan rearm, the people you should be talking to are sitting in Washington. However, these are independent countries with world views very different than our own. As such, don't expect any more support for our global ambitions after these countries rearm. Indeed, those renewed militaries may turn out to be a threat to those ambitions.

I agree. Let's improve the technical profiency of all radio amateurs. Do it on the "cutting edge" of technology though. Forget the code. Let's combine elements 2 and 3 and increase the test to about 500 questions total. That will mean a BIG question pool! No more multiple choice. Let's make them essay questions. Make the question pool about half R.F. and half digital. Be sure to include a bunch of stuff on spread spectrum and the like. Let's just have one class of license. That ought to simplify things. AND - nobody's grandfathered. Let's give all the present licensees one year to pass the new test or lose their license. No more easy renewals either. Every licensee should be retested at renewal, based upon the question pool in use at the time of renewal. Let's make everybody stay up-to-date on the current thechnology.

After this period of time, the F.C.C. should evaluate the usage of the amateur spectrum. If it's not getting suitable usage, then auction the spectrum off to the highest bidder. Put it to GOOD use. That ought to help pay for the Social Security for the old white men that think CW is better than sex. (Not that they even remember that anymore.)

(Now to go and write my new rulemaking proposal!)

I don't think that that's the whole picture. Those countries use that as an excuse not to participate in more peace keeping duties, in which the U.S. has to fill the gaps, by these countries lack of full participation. Changes in their laws probably will not happen due to their peoples lack of willingness to participate in cleaning out the "rat nests" of the world. At least until a few planes drop in an kill a few thousands of their citizens!

That would be great! Then they can feed the rest of the world and take the burden off of the U.S. We wouldn't have to send so much of our tax dollars out of the U.S.!

Russia is still worth watching also. Russia still has the second largest military in the world, a massive reserve of conventional and nuclear weapons, a slowly recovering economy, a wealth of natural resources, and growing trade with Western Europe. If they ever get their act back together, they will be a major actor on the world stage again. And, thanks to that growing trade, the future Russia will likely be very European.

I call you all boys... cause there ain't damn one of you got enough brians to be called men....

I overheard something on 3.865 this morning. and I don't normally get involved in the affairs of others, but this one, I must.

I hear N8EIO, WQ4E, and KC8ENJ on 3.865 running K8CPA down this Morning and telling much of an idiot he really is, ect...

I want everyone who reads this page to know the real story.

I've known Chuck K8CPA since he was a child. He's a good man, He's got his quirks. But deep down inside, He's a really nice person. So is his Dad and family.

Now, the real story on why K8CPA became so hated on 3.865.

why? because people like marvin and greg and bobby, are a bunch of backbiting, backstabbing people, who are friends to your face and
foe to your back.. Bobby used Chuck as a Pawn in a battle with
Jack WB8BFS and once that battle died down, Chuck found himself ejected from 3.898. All because Chuck did NOT like the idea of someone talking about his mother. Chuck even apologized to Greg, Yet Bobby still holds a grudge.

Further more.... Bobby made a very, very, very cutting statement about Chuck this morning, and Doll, you've sunk to a new low my friend! Chuck in fact, was a victim of a attempted sexual molestation attempt as a child. And you saying that, as about as low as one person can go. (I did speak with Chuck before I sent this..)

and, I ask you this Bobby, Do you molest Nathan? I think you do, being you know so much about Molesting Children.

as for why the addresses were sent out... This was AFTER Marvin W8JLH come into the newsgroup ALT.TRANSPORT.TRUCKING and ran K8CPA in the ground, talking crap that was NOT true.

As for the supposed accusation of K8CPA being banned from QRZ.COM, He is listed, Stupid... Go look for yourself! http://www.qrz.com/detail/K8CPA he is there... He simply told the guys at QRZ.COM, "You all want to censor me, then take my call out of your database!" and they did... But after getting some pretty nasty e-mails from friends of his, he was returned!

So, folks, when you hear people bashing K8CPA, come to the person who knows him well, and I'll set you all straight...

For the purpose of my personal protection I remain anonymous...

I don't know about you, but I really do miss he "good ole days"
before R.H. came on the scene in ham radio. The days back when
75 and 20 meters was a 24/7 comedy show and you knew there
was always something amusing to listen to while you were in the
shop during the daytime on 14.313, or at night on 3.894.5 or 3.901
etc etc and a bunch of other frequencies I need not mention here.

Today you have to read it in on newsgroups, whereas before it was
live and spontaneous entertainment on the radio dial. No wonder this
'hobby' is going down the toilet. It's become a dial full of geeks that
either talk about the weather, their last major medical operation or
who's got a bigger signal. Like being in freakin church, Yawn.

When they came out with incentive licensing, there was a vocal minority complaining. When they came out with the No code tech license there was a vocal minority complaining. Now they are doing away with most of the CW requirement and there is a vocal minority complaining.

WAyyyy back there used to be the class separation and then they did away with it to the point where the General class had full privileges. Then incentive licensing, then the new structure with code free techs on VHF, then they lowered the CW speed and now they are doing away with most of the CW requirements which are there due to international agreements.

"To me" it matters little whether they make the requirements tech heavy, procedure heavy, or require CW. It has little to do with the character of those coming into the service.

Each change has brought out the "gloom and doom" element proclaiming this will be the straw that broke the camel's back and the end of Amateur Radio.

Maybe in addition to the technology and procedure testing we should run a test on character traits? <:-)) If we had been doing such there would be a number of current hams who would have failed.

I have gone the whole route and yes, I passed 20 wpm to get my license, but I don't see that need be a requirement for future applicants.

It really doesn't matter how we test, there is always going to be a mix of character traits and groups who oppose the way each other operate. There will also be a small percent who will not be satisfied no mater what is done.

I often wonder if the hams who can't have enough HF transmitters or transcievers often outbid the newer hams looking for a working HF rig who are quite strapped for cash. The hobby is an expensive one, to be sure, but I wonder if the zealous "five transcievers is better than one" crowd, which do exist, much like the pipesmokers who have a rotation of well over twenty or thirty, often hundreds of pipes...

Something to POSSIBLY consider when a newbie is bidding on something on eBay...

Mind you, it's not ANYONE'S responsibility that a poor ham get their equipment. They should earn the bucks for it, save up, and buy the thing, OR they should build their own. I just wanted to float the idea for consideration. I don't subscribe to this idea, really, as even a thinking point, but it's there in the back of my mind.

The more I think about it, the less of a deal I think it is, but I did want to float it out there. I guess what I'm saying, what I should have said... If someone has five HF transceivers, a half dozen 2 meter rigs, etc... How much better is it to have more?

This is not an admonition, just a passing thought is all.

From the AMSAT Bulletin board:

Dear All,

AO-40 is in a very critical situation at the moment..

Our command team is working hard to get AO-40 back under fully control.

Last night (Orbit #1488, 2004-01-27, 00:57, UTC MA 42) the battery
voltage
suddenly dropped from 26V to 14V. We currently believe, that in some
kind of domino effect more battery cells died shortened.
There is also a report that the Heat Pipes 4+X+Y temperature suddenly
rise from 27°C to 92°C, when a few moments later the voltage went down.
This report is not yet confirmed..

Several stations reported, that around this time the S-Band signal
dropped
rapidly. This would be consistent with the low bus voltage, preventing
the S-TX from working properly. At the moment we assume that the IHU
is still working.

Command stations are trying to send send blind commands to the spacecraft
in an attempt to switch over to the auxiliary battery.

If that does not help, than the IHU will be reseted and loaded with
some software to switch the relays.

It may take some time, perhaps until the sun angle is getting better.

Well -- you can buy a used mobile 2m rig for $40.
You can buy a used HT for $30

For HF -- You can buy a Swan 350, Yaseu 101, Kenwood TS-520 for $250
And these have their own 117V power supplies.
And you can't tell a TS-520 from a TS-870 on the air, in fact the older
TS-520 may sound better.
And they were 200 to 300 Watts outputs not today's 100 watters

Build your own antenna for $10

These are real prices I have seen regularly.
Where:
Swap Meets
Local Radio Store Bulletin Boards
Local 2M Swap Nets
Swap Cars on 40M
Local Club Classified.

E-Bay is not for the faint of heart -- lots of collectors or bargain hunters
there who buy low and resell high to make a profit.
The latter may not even be Hams -- just guys/gals making a buck by astute
buying and selling. I know several people who do this and just to remind
you -- its called free enterprise -- we don't usually fix prices in this
country. Supply and demand -- tis true from day one.

So look at the above non auction places and be on HF/VHF for $300

Lots of folks I know have done so.

And if you can fix HF radios -- buy a DOA one for $75 and replace tubes,
caps and faulty components.

As far as
"I guess what I'm saying, what I should

Hey it is their money and Hams have a funny saying "One can never have too
many radios". Crazy maybe -- but true.

There is enough old gear out there to go around -- some of it you have to
give away.

Well... I'm gonna try again. I posted this over 8 hours ago and it's not shown up on my server yet so my apologies if it turns up twice.

When they came out with incentive licensing, there was a vocal minority complaining. When they came out with the No code tech license there was a vocal minority complaining. Now they are doing away with most of the CW requirement and there is a vocal minority complaining.

WAyyyy back there used to be the class separation and then they did away with it to the point where the General class had full privileges. Then incentive licensing, then the new structure with code free techs on VHF, then they lowered the CW speed and now they are doing away with most of the CW requirements which are there due to international agreements.

"To me" it matters little whether they make the requirements tech heavy, procedure heavy, or require CW. It has little to do with the character of those coming into the service.

Each change has brought out the "gloom and doom" element proclaiming this will be the straw that broke the camel's back and the end of Amateur Radio.

Maybe in addition to the technology and procedure testing we should run a test on character traits? <:-)) If we had been doing such there would be a number of current hams who would have failed.

I have gone the whole route and yes, I passed 20 wpm to get my license, but I don't see that need be a requirement for future applicants.

It really doesn't matter how we test, there is always going to be a mix of character traits and groups who oppose the way each other operate. There will also be a small percent who will not be satisfied no mater what is done.

The move proposed by the League is consistent with international treaty and world policy.

I heartily agree... read on.

If you ever had to struggle through the period
of no-voice novice, you might never wish that
particular chore on anyone. I got my first Novice
in '75, and let it lapse due primarily to the lack
of voice priviliges (and no manuals for the
boatanchors I'd been given). CB was just a lot
more fun.

I got my second novice in '89, man, what a
difference! Sunspots were coming on, 10M
was hopping, and I worked for a commercial
radio shop. That's what Ham Radio is all about,
for me.... not hazing, but graduated challenges.

The greatest concern, and one which I don't think
has been addressed in this thread yet, is the fact
that our spectrum is in danger. We need more
occupants to help occupy it... and HF voice
priviliges are the only carrot left to put on the stick.
This is a graying hobby.

Too many Southerners are stubbornly clinging to a romantic false memory of a corrupt, incompetent oligarchy that utterly ruined the South. I speak of the Confederate States of America (1861-65), whose main accomplishment was to hoodwink an entire region into sending their sons off to fight for the oligarchy's immoral slave labor system. I call today's Confederate fetishists by their true name: suckers. The *REAL* rebels tried to put a stop to slavery. (The Underground Railroad had to start somewhere, did it not?) You never hear much about them though, because many were murdered, or had to flee the region.

Many Northerners are constantly claiming unearned automatic moral superiority because their side "won," while ignoring the hypocrisy in over a century of heaping scorn and slurs upon people while condemning them for bigotry.

Both sides are fscked.

Read the declarations of succession for say, Mississippi and Georgia for
the most florid examples of why they felt they had to break away from
the Union.

http://extlab1.entnem.ufl.edu/olustee/related/secession.htm

"Our position is thoroughly identified with the institution of slavery--
the greatest material interest of the world. Its labor supplies the
product which constitutes by far the largest and most important portions
of commerce of the earth. These products are peculiar to the climate
verging on the tropical regions, and by an imperious law of nature, none
but the black race can bear exposure to the tropical sun. These products
have become necessities of the world, and a blow at slavery is a blow at
commerce and civilization. That blow has been long aimed at the
institution, and was at the point of reaching its consummation. There
was no choice left us but submission to the mandates of abolition, or a
dissolution of the Union, whose principles had been subverted to work
out our ruin." (Mississippi)

The Confederates may have been corrupt and decadent scoundrels, but on
this matter I trust their OWN WORDS more than your bad revisonist comedy
stylings.

Code? Schmode! (what a load?)

You "hams" want to keep the pride and technical prowess
within Amateur Radio into the new Century? Then do this:

1) Eliminate ALL code testing for ALL License classes.

2) Enact a complete re-vamping of the pool of the written
exam questions.

(and now for the rub)

3) DO NOT PUBLISH the question pools - PERIOD !

If someone wants an Amateur License, then they should have a
working technical and theoretical knowledge of RF Theorems and
all related aspects of electrical and electronic practice.

It used to be that if you were an Amateur Operator you had to demonstrate
a degree of professionality and knowledge

Having an Extra Class licence should be *almost equal* to someone
who has a BSEE. Both should be able to answer questions on varied
topics of Electrical Engineering with a reasonable degree of competence.

Until something along these lines is attempted, Amateur Radio will
be nothing more than glorified CB radio. I've been to enough club
meetings and hamfests where I've seen holders of Extra Class tickets
who couldn't comprehend even the most basic of electronics theory.
It didn't used to be this way!

It used to be that way. Remember the "Dick Bash" books. These came out when the FCC was still administering Amateur tests. The FCC didn't release the question pool or the answers. Ham applicants would send the questions in the remembered from the tests and Bash would publish them.

Dick Bash was and still is one of the finest ham radio operators to
ever key a microphone. A true gentlman & a scholar. A pillar

From Amsat Bulletin Board:

Initial attempts today at recovering the S2 beacon on AO-40 have so far not been successful. However, these will be repeated many more times from multiple locations in the days ahead. We have a good "fix" on ALON/ALAT and we are spinning at 3.5 RPM, so we have quite a few days/weeks before the squints become problematic due to the mystery effect. Currently, the mystery effect is working for us to improve solar angle. Attempts will also be made in the next few days to bring the K-Tx on line and search for its signal. The command team has a series of simple machine code commands that, if heard, should activate transmitters, switch receivers, switch batteries, etc. without having to load the flight software into the IHU-1.

By way of review, the command team had been watching the main battery for a number of months and noting that its behavior, while not alarming, was not fully as expected. In particular, there were voltage fluctuations with spin under relatively light power loads. When panels 1-6 received sunlight their 1/2 complement of solar cells would often lead to a voltage dip, which would pop back up when the fully arrayed panels were in the sunlight. This suggested that perhaps one cell in the 20 cell main battery might be weakening. On Sunday, we noted that the battery was not maintaining its set voltage and this led to the safety software shutting off the passbands. Some minor adjustments were made to the solar array voltage offsets and this helped some, but we stayed in passband off mode to study the matter further. It appears that at this time we may have acquired a second bad or shorted cell, though we are analyzing this further. During eclipse on orbit 1487, at approximately 1930 utc on 2004-01-26 the battery voltage hit the extreme low voltage trigger. This caused safety resets of the battery and solar array set points and the auxiliary battery was tied in to the main battery. This all appears to have happened benignly, and when I got AOS at MA=8, about an hour and a half later on the following orbit, I noted that the extreme low voltage flag had been set ,as well as the other changes noted. Voltages on both batteries at this time were similar to other post-Sunday values, as were the charge currents. At this voltage level, the auxiliary battery was considerably undercharged. We appeared to be in a stable, though not fully nominal mode, and I was in the process of noting the status of things to the command team to decide on the next course of action when, at 00:39:59 utc the battery voltage suddenly dropped from its post-Sunday level of 25.5 to 26.5 volts, down to 18 volts. This was accompanied by an expected increase in charge current. The safety software shut off the S2 Tx at the next MA change, and I brought it back up manually twice, noting that the voltage was relatively stable at about

14 volts with heavy charge current. After letting things sit for a few minutes, a third attempt to start the S2 Tx was not successful.

Our current best understanding is that we suffered a catastrophic failure of the main battery which is clamping the buss voltage at a low level. Accordingly, we have been concentrating our efforts on trying to connect the auxiliary battery to the main buss and disconnect the main battery, placing it on trickle charge for further analysis. If we can manage just 10 volts on the main buss to activate the IHU-1 we should be able to accomplish this with the simple machine codes noted above, and the voltages should come up to levels where the S2 will function.

If you examine the telemetry during this time, 10 minutes after the low-voltage "event", the temperature of heat pipe 4 + X + Y takes a 34.2 deg.C apparent increase in temperature over a span of 14 seconds (1 block interval), and continues to rapidly increase almost to the top of the scale. Given the timing of this change, 10 minutes after the low-voltage "event", its rapidity, the thermal inertia of the large, circumferential heat pipes, etc... it is difficult to believe that this is real. Most importantly, this heat pipe sensor sits in a "benign" area at the apex of panels 1 and 6, near the high-gain end of the spacecraft. There are no batteries or BCR's in this region, only the controller for the liquid rocket motor (which was powered off!), and the L1 receiver, which shows no accompanying change in temperature. All of the BCR's and batteries are much closer to heat pipes 1 and 2 at the omni end of the spacecraft. Therefore, this may represent a failure of the software/hardware due to low voltage, rather than a real temperature increase. However, this will be studied further. No other telemetry anomalies have been noted but we continue to look.

From the AMSAT Bulletin board:

Dear All,

AO-40 is in a very critical situation at the moment..

Our command team is working hard to get AO-40 back under fully control.

Last night (Orbit #1488, 2004-01-27, 00:57, UTC MA 42) the battery
voltage
suddenly dropped from 26V to 14V. We currently believe, that in some
kind of domino effect more battery cells died shortened.
There is also a report that the Heat Pipes 4+X+Y temperature suddenly
rise from 27 C to 92 C, when a few moments later the voltage went down.
This report is not yet confirmed..

Several stations reported, that around this time the S-Band signal
dropped
rapidly. This would be consistent with the low bus voltage, preventing
the S-TX from working properly. At the moment we assume that the IHU
is still working.

Command stations are trying to send send blind commands to the spacecraft
in an attempt to switch over to the auxiliary battery.

If that does not help, than the IHU will be reseted and loaded with
some software to switch the relays.

It may take some time, perhaps until the sun angle is getting better.

Dan,

Interesting idea. I'm one of those people who has more radios than antennas (I think that is what you are saying), BUT... I loan them out to new or prospective hams. I had one radio that I loaned to seven different people who all became hams. I finally sold it to the seventh guy (I miss that radio!).

Give something back to any hobby that you want to endure.

Surely you jest.

Dick Bash was solely responsible for more unqualified
individuals entering Amateur
Radio than any other person(s), apart from corrupt VEC's
who accept cash in advance for the promise of a passing
grade on an exam.

Perhaps a few good apples, but the bulk of the "Bash
graduates" I've met are the most misplaced non-conforming
people I've run into on the air. True CB'ers.

The brain drain of Amateur Radio was started
by Dick Bash, and unfortunatly, I'm afraid it
might just be too late to correct the problem.

Is there a database anywhere in the world that has all of the names and addresses of every licensed ham there ever was? My grandfather, John W. Tolson (or Wilson J. Tolson, probably more accurately. He used his middle name) was a ham from the early to mid 50's, possibly until his death in 1983. He was probably first licensed in Hawaii, then California, then Utah.

I know his son and grandsons are licensees, but I'm a lot more curious about his license specifically, and possibly the length of time some of these four-letter callsigners have had their callsigns. Is there such a database available to the public? I'd sure love to get my grandfather's old callsign. At least to know what it was.

I apologize. I recently resubscribed to rec.radio.amateur.digital.misc
after many months and loaded up the first several hundred mesages.
Thinking I was on a more active newsgroup I jumped in to this "current"
discussion. After making a few blasts, I looked and saw the posts were
dated last November, and spanned five groups. My bad. I suspect I'm
already in a few killfiles.

You already apologized a while back... That first time worked just fine for me. You know what to do with the rest of them, if they can't take a joke, right?

If anybody else trolls you on it, I'd just ignore them.

What do you expect from them, Mike? Following WWII, we fed them a daily diet of propaganda saying war is wrong. It shouldn't be too surprising that they're now opposed to wars. We got what we asked for and are now complaining about it.

Yes, Dick was and is a fine getleman, a truly dynamic individual.
Any negative comments I've heard about him always come from
people who are envious of his many successes, both in and out
of ham radio. Successful people will always be victim of the
envious sick people who can't stand others to be successful.

War is wrong! That is, if the purpose is just to gain land, resources, power, etcetera. Now, if the war was to free an enslaved, murdered, and tortured people, would that not be a good enough reason for war? Are we to go back to pre World War II where we ignored the millions that were being persecuted and sent to concentration camps? Oh well, so much for this off topic stuff. Probably ticked off too many people already. Killfiled too <g>. Later Dwight.

Even better would be to ask questions that were not covered in ANY
book. That'd make sure only good smart people got in.

Seriously, there is not much these days that doesn't have a supply of Q
and A's somewhere.

I was up at Barnes and Noble a few days ago, and saw they have pools for
many professional trades. Electrician, HVAC pro's, etc. You will have a
looong haul to get the pool eliminated for Ham radio tests.

The answers in the pool are shuffled around for at least the Extra test.

There are 806 questions to choose from, up from 665 in the previous pool.

What is the difference between a pool of questions and a book in which
the answers are in there in text form - or do you suggest that there be
no actual study guide for the tests? If there is a study guide without
the needed material in it, it isn't a study guide.

Good heavens! A person has to take "almost" 4 years of college to qualify for Extra? If ya wanna tie it to education, how about BS for Technician, MS for General and PHD for Extra. Then all those hams would be real smart!

Try the QCWA Quarter Century Wireless Association. Its on the internet.

Drop them an e-mail. They have old call books.

If its real old they may have him listed by his name and then the call. Not sure on that tho.

How about asking his kin what they remember his call was?

Ah yes, Nothing like throwing out a red herring to try to throw the subject matter to something completely un-related. Get the old fear factor running as if the code requirement and band assignment are related. Yes sir. Lots of clear thinking there. If you can't logically attack the argument then throw up a completely unrelated subject and attack it.

The Amateur Radio Service is not an Internet chat room for all, nor is it a CB band for the technologically unskilled. It is an earned privilege for those who are willing to become skilled radio technicians. Those that are not willing to become skilled radio technicians do not belong on the ham band. They belong on the CB band. That is what the CB band is for; non-technical people who like to use an appliance that somebody else built and somebody else repaired.

Well, you say "made" implying historically. I would suggest the Signal One or the Collins KWM380 as two likely candidates. Because of the quantum leap in microprocessing technology, neither compares to any radio company's current top model, but in their day...

In your subject line, you say "highest-end" implying most expensive (yeah, I know; more dollars doesn't necessarily mean better or higher tech), but in the text you say "highest-tech." For high end, I suggest the following candidates:

Back in the early 70s, the Signal One sold for around $2K, if memory serves. That was a much bigger chunk of change then than ANY amateur transceiver today.

In the 80s, the KWM380 sold for about the same, I think, and it was STILL a huge chunk of change.

For high tech, there are many interesting permutations. A lot of it is dependant on what sort of operating one does. Yaesu is certainly a contender.

I seem to remember regarding the Icom IC781 as both a high-end and high-tech breakthrough in its day.

HAM RADIO POLITICS: A NEW DIRECTION

Topping the news this week -- honoring one of our own. Enlisting an army of volunteers to make us all a little bit better -- and doing it in the name of the late Roy Neal, K6DUE. But first -- the biggest organization of Amateur Radio operators in the world finally takes a position on the code versus no-code issue. The ARRL is asking the FCC in a petition for rulemaking to create a no code entry level H-F license for anyone who can successfully pass a written exam of a mere 25 questions. If the FCC accepts the ARRL idea, it would keep the more stringent requirements for the Amateur Extra Class license, including their ability to send and receive Morse code. Amateur Radio Newsline’s David Black, KB4KCH, takes a look at the details of what the ARRL is asking the FCC to do:

--
Code free access to ham radio's high frequency bands ... it's part of what could change amateur radio's complexion forever. And it could become reality.

The ARRL says it will ask the FCC to make sweeping changes to the United States amateur radio service. Perhaps the biggest change of all: Creating a new entry level ham radio license that grants access to high frequencies without requiring any Morse code proficiency.

But that's not all. The League also proposes consolidating all amateur radio licenses into three classes: Novice, as it's being called for now, General and the highest level, Extra. And only the Extra class license would require Morse code proficiency--of 5 words per minute. The new Novice license would require a 25-question written test and would offer limited HF, Morse code, data and phone and image privileges on 80, 40, 15 and 10 meters. Novices would also have VHF and UHF privileges, including access to 6 meters and 2 meters. Their power levels would be restricted to 100 watts on 80, 40 and 15 meters, and to 50 watts on 10 meters and higher.

The middle amateur radio license would continue to be the General, but it would include all current Technician, Tech Plus and present General license holders. This license would not require a Morse code test. Under this proposal, if you are a current Technician or Technician Plus, you would automatically obtain General class privileges with no additional testing. The current General examination would remain unchanged for new applicants.

The third license class, the Extra, would involve the fewest changes. Under the League proposal, hams with Advanced class licenses would essentially automatically become Extra class because of similarities in the technical proficiency required for both levels. New applicants for the Extra class license would have to pass a 5 word-per-minute code test--the written test would stay as is. If you're currently a Novice, Tech Plus or General license holder, you would receive a lifetime 5 word-per-minute credit.

The proposed changes got the blessing of ARRL's Board of Directors January 16th. The proposals are the creation of a League Executive Committee acting at the Board's direction. The new structure suggestions come as a result to changes in international radio regulations that are part of the World Radiocommunication Conference 2003. At the same time, the FCC has been wanting to streamline the amateur radio licensing structure which it began more than five years ago.

How do radio amateurs feel about the changes? Reaction is mixed:

Janice Rock, AF4LT, sees benefits and drawbacks:

--
Janice Rock AF4LT - Audio Only Report: Please listen to audio version of newscast.
--

Supporters say the new structure offers a true entry level license with HF privileges that should boost growth in the amateur radio service. While some hams may claim that taking away code for HF access damages amateur radio, other hams dispute that. Bill Levey, WA4FAT:

--
Bill Levey, WA4FAT - Audio Only Report: Please listen to audio version of newscast.

Supporters say the changes will help amateur radio by allowing new Novices to participate in emergency nets on HF sideband. The impact of this proposal on amateur radio's long term future has Janice Rock concerned for another reason:

--
Janice Rock AF4LT - Audio Only Report: Please listen to audio version of newscast.
--

League Executive Vice President David Sumner K1ZZ says the Novice class license could wind up getting a new name, more appropriate for the times -- this, as amateur radio faces what could be one of the biggest changes in its history.

RESCUE RADIO: NYC ARES ACTIVATES FOR COLD WEATHER

The New York City District Amateur Radio Emergency Service was called into action last Wednesday evening, January 14 th. This, after the American Red Cross of Greater New York contacted Mike Lisenco N2YBB. Lisenco is the District Emergency Coordinator for ARES and the message was clear: Call together the members of ARES to provide emergency communications between the warming centers being established in the five boroughs and Red Cross headquarters in Manhattan.

--

Lisenco: “Once I received the phone call from the coordinator of disaster volunteers at the Red Cross of greater New York, the first thing that I did was to call the five EC’s we have here in New York City. Each borough which constitutes a county has its own EC. In turn they called their people looking staff the shelters.”

--

By the next morning, New York City District ARES Emergency Coordinators had more than a dozen Amateur Radio operators on standby awaiting the activation. Friday evening they went into action after Mayor Bloomberg announced the

shelter openings. The ARES radio operators manned their posts throughout the operation, which lasted the better part of a day during some of the most frigid weather ever recorded in the Big Apple. The hams finally stood down on Saturday afternoon.

This is not the first time that New York City District ARES has provided critical communications for emergencies. They were active with the oil barge explosion at Port Mobile on Staten Island, the Northeast Blackout in August 2003 and did heroic work following the terrorist attacks of September 11, 2001. ANNOUNCING THE ROY NEAL, K6DUE, AMATEUR RADIO MENTORING PROJECT

Amateur Radio Newsline is paying tribute its late vice president, Roy Neal, K6DUE, by naming an ongoing mentoring program in his honor. Roy became a silent key last August after surgery. He was 82.

The Roy Neal, K6DUE, Amateur Radio Mentoring Project is designed to pair new hams -- often called “newbies” -- with veteran amateurs. This, in the hope that some of the established hams’ operator skills can be passed down to new generations.

--

Pasternak: “ere is a long tradition of mentoring, often called “elmering,” in Amateur Radio. No one knows the origin of the term, but the first teacher might well have been named “Elmer.” My mentor was a guy named Charlie Zussman. Back in the 1950’s he was WA2AKX. Today he’s WE2R. And his helping me become a ham has lead to a friendship that has lasted a lifetime. What he taught me was that tradition is an important part of the hobby.

--

That’s Bill Pasternak, WA6ITF, who has produced these newscasts since 1977. He and the Newsline Board of Directors came up with the idea for this project. Bill says that ham radio has become a tremendously complex arena and new hams often don’t know where to turn for help:

--

Pasternak: “We have licensed hams who are truly experts in numerous fields ranging from bouncing radio signals off the moon, to writing complicated software which enables new forms of two-way communication. We want to take advantage of that knowledge base to help newcommers.”

--

While Amateur Radio includes world-class experts in a number of specialties, there are literally thousands of hams who have operating skills also worthy of passing on. For example, contesting is very popular, yet it is a tough nut to crack for a beginner.

--

Pasternak: “Contesting is intimidating. I know. I’m just getting started. Good contest operators often are able to contact four stations per minute for hours at a time. The great ones do even better than that. How they are able to do that is a skill that should be passed on to newcommers.”

--

Two large pools of Amateurs are needed to make this mentoring project work. First, there must be a group of volunteers who have a skill and are willing to share their time. The second group is made up of the large number of beginners who want to learn.

One of the nations top mentors, kit building expert Joe Eisenberg, K0NEB, has agreed to help set up databases and to begin the process of matching mentors with beginners. All we need to know is if you need assistance or if you are able to mentor others. We also need your name, call letters, address with zipcode, phone number, e-mail and when its best call.

The special e-mail address to register is mentor@arnewsline.org.

Mentors might be matched by zipcode – and be in the same town, or they might be half-way around the world from each other and communicate by e-mail. Either way I think we can make it work.

--

Pasternak: “The project’s namesake, Roy Neal, K6DUE, was himself a mentor and not only in ham radio. I know this first hand because he is the one who taught me to become a better writer and producer.

More important: Those of us who knew Roy, also know that helping others was a very important part of his life. As such. we feel that the least that we here at Amateur Radio Newsline can do is keep his memory alive with this project.”

--

Again, that e-mail address to register for the Roy Neal, K6DUE, Amateur Radio Mentoring Project is mentor@arnewsline.org More information is on our website at www.arnewsline.org

And Roy, old buddy, this one is for you! (ARNewsline(tm), W6RCL)

THE BPL FIGHT: NORTH CAROLINA HAMS MEET WITH POWER PROVIDERS

Slow but steady progress in dealing with the imminent release of Broadband over Poweerlines in North Carolina. Gary Pearce, KN4AQ, is here with more:

--

Progress Energy fulfilled their promise to North Carolina Amateur Radio operators and invited several Raleigh area hams to observe their new Phase II BPL trial in a rural subdivision south of the city on January 15th.

BPL – Broadband over Power Lines – is a system for delivering high speed Internet through neighborhoods and into homes and businesses via the power lines. The technology places radio frequency signals on the power lines in parts of the spectrum between 2 and 80 MHz. Those signals radiate to some extent, and can cause interference to a receiver in the vicinity of the power lines. Naturally this has become cause for great concern among hams worldwide.

In Raleigh, three ham radio operators met with engineers for both Progress Energy and Amperion, the equipment manufacturer. Two of the Progress Energy engineers were also hams.

The BPL trial consisted of a half-mile of overhead feeder along a highway, and a few dozen homes passed by buried power lines. A “repeater” amplified the signal about every other block.

We were particularly interested in the spectrum used. We learned that each run of BPL, from repeater to repeater, uses two blocks of spectrum, 2.5 and 3.5 MHz wide. At each repeater, a different block of spectrum is required.

The overhead feeder segment in this trial used spectrum blocks around 25 and 29 MHz. We listened with mobile equipment driving on the road adjacent to the power line, and received S-9 signals in the immediate vicinity of the line that sounded like this when tuning across the 10 meter band:

--
[audio clip of BPL signal]
--

The signal fell off quickly when driving away from the line, but a ham at a home station almost a mile away heard the 10-meter BPL signal about S-6 using an 80-meter dipole antenna.

Amperion says a Network Operation Center can move any repeater to another block of spectrum, or notch part of a block by remote control, to eliminate interference, but they were unable to demonstrate that for our test.

Even with that flexibility, fitting 3.5 MHz wide blocks of energy in between ham bands would be a delicate jigsaw puzzle. That much “empty” spectrum exists only between the 30, 20 and 17-meter bands, and it’s empty only from the perspective of Amateur Radio.

Skip could completely upset the equation. BPL signals, which are similar to very low power QRP Amateur signals, could reflect off the ionosphere and appear

hundreds or thousands of miles away. The energy of one isolated trial area might not have much impact, but a mature nationwide system with hundreds or even thousands of installations using the same spectrum blocks could be a very different story.

Yet to come in BPL is a comprehensive report from the NTIA; an FCC Notice of Proposed Rulemaking for changes in Part 15, based on last year's Notice of Inquiry; and a decision by your local utility about getting involved in BPL.

Reporting for Newsline, this is Gary Pearce KN4AQ in Raleigh, North Carolina

THAT FINAL ITEM: THE LIFE AND TIMES OF K2ORS

And finally this week, a new book is in the works about a broadcast legend who also happened to be a ham radio operator. Take a listen:

--
Shep: “Well there I am playing that character deep in the jungle. We have $400,000 of camera equipment that’s being eaten by mosquitoes. They eat Betamax cameras. You don’t know about the tropics. Leaches are coming up the tripods, when a runner comes down the beach. He’s a Chumaro Indian.

He’s running. He’s sweating. He arrives in the clearing. This is exactly what happened.

The Director is standing there. He's sweating and saying: '...damn, we got to get this.' We kept trying to clean the lens off. It was a tough shoot.

And this Chumaro runner comes up and he's saying; 'Message. Message." He has a message. The Director looks at it and he hands it to me and the message said -- and I quote: '...The Dayton Hamvention called. They want you to speak this spring.'

I said: 'For cripes sake, how did they know I was in the jungle' (laughter)"

--

That was the late Gene Shepherd, K2ORS, speaking at the Dayton Hamvention several years ago. Shep as he liked to be called, passed away in 1999. Now, author Eugene Bergmann has set to work writing the definitive book about the ham who invented talk radio. In a recent interview with Amateur Radio Newsline, he told us why:

--

Bergmann: "Well I first started listening to Jean Shepherd way back in '56 when I was in college and I think what he had to say and the way he said it affected my thinking for the rest of my life. Soon after he died I realized how important he was to my way of thinking. That he was like an old friend. I got more and more involved in learning more about him and I finally decided that I had to write a book about his art."

--

In writing his book, Eugene Bergmann wants to make certain that every aspect of Shep's life and career is accounted for, including his love of ham radio. And a love it was as in this very rare recording where he accurately predicted the explosive growth in F-M and repeaters in general and one New York City machine in particular:

--

Shep: "I don't think you guys who sit around every night like you do recognize the already legandary status of this repeater outside of this area. I just came back from a trip from the Canadian border and all the way down through New England and way up in the Northern part of Maine I worked guys and the one thing that they all talked about was SUR (WA2SUR). And they really was a quality of 'wow' in their voice. I think that in another ten years there's no telling how immense this repeater will be and what a structure it will be. I am very serious when I say this. I think we are in the beginning of a thing here and I think that ultimately 25 years from now people will look back on the early two meter guys like us -- we're considered early guys now -- with a legendary awe. You know, with a quality of awe, like 'my god -- they started it all."

--

That was recorded way back the evening of June 21st 1972 over the then WA2SUR repeater in New York City. K2ORS was right on in his F-M and repeater growth

forecast. Bergmann says that’s the kind of he plans to include:

--

Bergmann: “In May of 1968 in one of his broadcasts he said: ‘...I became at the age of ten, totally, maniacally and for life I might point out -- completely skulled out by Amateur Radio.’ So he was quite an enthusiast up to his death in ‘99”

--

Sound intriguing? Well you can find out a lot more about Eugnene Bergann’s book and how you can help to writer it on this weeks RAIN Report. Just go to www.rainreport.com or dial into area code 847-827-7246, sit back and enjoy a quarter hour with Eugene Bergmann and his new book on the legendary Jean Shepherd, K2ORS. (ARNewsline(tm))

AMATEUR RADIO NEWSLINE™ ANNOUNCES CREATION OF THE ROY NEAL, K6DUE, AMATEUR RADIO MENTORING PROJECT

January 15, 2004 (Los Angeles California) The Amateur Radio Newsline Inc., a Federally chartered 501(c)(3) not-for-profit corporation has today announced the creation of the “Roy Neal, K6DUE, Amateur Radio Mentoring Project.” This is a program designed to take newly licensed radio amateurs and place them one-on-one with veteran hams so that they may learn the traditions and operating skills that no classroom or home-study environment can teach.

Roy Neal, K6DUE, was a driving force within the structure of Amateur Radio Newsline. He passed away on Friday, August 15, 2003 from complications arising from heart valve replacement surgery a few days earlier.

In addition to serving as Amateur Radio Newsline's Vice President, he was also our teacher, advisor and friend. Those of us who had the honor of knowing Roy were keenly aware of his willingness to help anyone better themselves. He was always willing to share his lifetime of knowledge in many areas including science, space exploration and Amateur Radio. With this in mind the Amateur Radio Newsline Board of Directors at its annual meeting on December 13, 2003 voted unanimously to honor Roy’s memory by creating a program to carry on his vision.

What we have named “The Roy Neal, K6DUE, Amateur Radio Mentoring Project” is loosely based on a similar program created by Broadway performer Ann Reinking. Reinking was a student of and performer with the legendary choreographer/director Bob Fosse. She is now carrying on the “mentoring” tradition in the art of dance through her own educational foundation, the Broadway Theater Project. This is a Florida based training program connecting students with seasoned theater professionals. If we may quote Ms. Reinking:

“Its sort of an un-written law or rule in the world of dance that you pass on what you know. This particular craft is at its best when its passed from one person's hands to the next.”

Now, if you think about it, what Ann Reinking says about "dance" applies equally to our world of Amateur Radio. Maybe more so, because, for decades the knowledge and tradition of our hobby/service was passed down from seasoned operators to newcomers, one to one. Unfortunately, in the ham radio of today, this art of mentoring that we call "Elmering" seems to be disappearing. It is being replaced by "weekend cram class training" and/or the more tedious world of “home study.” Both provide lots of technologically trained hams, but they do not turn out skilled operators or hams who really appreciate the art of amateur radio. Only one-on-one “mentoring” or “Elmering” can do that.

“The Roy Neal, K6DUE, Amateur Radio Mentoring Project” is to be a similarly structured program that fosters those one-on-one relationships that go well beyond the knowledge necessary to pass a ham radio exam. It will put an emphasis on our traditional ham radio values by placing new hams into contact with skilled operators who are willing to teach them such radio art-forms as how to work DX, or run a contest, build and operate a repeater, talk by bouncing signals off the moon, kit construction and anything else that makes a ham a ham. In essence, to pass along the living traditions that make ham radio what it is to all of us old timers.

To make this work, two groups of hams are needed. First we need skilled operators who are willing to donate time to assist those in need of training. We also need new hams to come forward and say: “I want to learn more.” We will do our part by matching the mentors to those in need of Elmering.

To get the project underway we have asked Joe Eisenberg, K0NEB, to create the necessary databases and begin the process of matching volunteer mentors to those wishing instruction. We are also asking both groups to send us an e-mail at mentor@arnewsline.org. In your note please state if you are offering to be a mentor or are in need of training. Please include your name, call, address, e-mail address with zipcode, phone number, best time of day to call and any other pertinent information.

It is our hope that the nation's Amateur Radio community will join with us to make "The Roy Neal, K6DUE, Amateur Radio Mentoring Project" a part of the traditions of the hobby, and that it will become a lasting memorial to the radio amateur who gave so much of his life to making Amateur Radio the best hobby and service in the universe.

Amateur Radio Newsline(tm) Report 1381 – January 30, 2004

Amateur Radio Newsline report number 1381 with a release date of Friday, January 30, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T.

Hams across the nation react to the ARRL restructuring proposal and the first B-P-L law suit involving ham radio is threatened in Austria. These stories and an interview with ARRL President Jim Haynie, W5JBP, highlight this weeks Amateur Radio Newsline report number 1381 coming your way right now!

RESTRUCTURING: HAMS REACT TO THE ARRL NO-CODE PROPOSAL

Hams are starting to react to the recent ARRL proposal to restructure the United States Amateur Radio service, and not surprising the comments are as diverse as the community itself. Amateur Radio Newsline’s David Black, KB4KCH, is at our South-East Bureau with this part of the story:

--

If you listen to the ham bands and check out the comments on the qrz.com website, it appears that most amateur radio operators have a somewhat sedate response to the ARRL's restructuring proposal. While some activists make their opposition quite vocal, the majority of comments so far seem to accept the League's initiative, 'though some do express reservations.

"I can live with this" is how some comments go. Others more strongly support the League by saying, "right on, A-double-R-L." The biggest concern most express centers around the ability to monitor the airwaves for rules compliance if explosive growth results. As one operator on 15 meters says, "If we get a million new hams, will the FCC give us 500 more Riley Hollingsworth's to keep them in line?" Hollingsworth handles amateur radio enforcement matters for the Commission.

Some operators say the League's proposal will wind up dumbing down amateur radio. Some even claim to have resigned their ARRL membership, 'though so far, no proof of that has surfaced. Vehement opponents of restructuring may in fact terminate their League memberships, but the number is not expected to be significant.

Restructuring is not a done deal. Announcement of the League's proposal is only the start. The League will formally request that the FCC make a rules change. Once the Commission receives that request, it will be up to the FCC to decide

whether or not it will consider the League proposal put it out for public comment. Chances are that it will. Once the proposal is assigned a rule making designation, you will have a chance to make your opinion known.

Comments are likely to come from the general public, the business community and any special interest groups as well as those who hold an FCC assigned call sign.

Stay tuned -- the story's just beginning.

From the South-East Bureau in Birmingham Alabama, I'm David Black, KB4KCH, reporting for the Amateur Radio Newsline.

--

Unless the FCC decides to place the ARRL request on a separate fast-track, you can expect the agency’s first action to be putting it out for initial comment sometime in the next several weeks. (ARNewsline(tm))

RESTRUCTURING: THE ARRL ON THE ARRL RESTRUCTURING PROPOSAL

The ARRL is now explaining why it has decided to ask the FCC to restructure the United States Amateur Radio Service, and the words are coming straight from the top. Amateur Radio Newsline’s Mark Abramowicz, NT3V, caught up with ARRL President Jim Haynie, W5JBP, by phone and got some insight into why the ARRL Board acted as it did :

--
With the American Radio Relay League's imminent filing with the FCC of its proposal for a new, no-code HF entry level license, the debate is certain to heat up.

ARRL President Jim Haynie W5JBP acknowledges the league's proposal will generate some controversy. But he says months of research, surveys and lots of internal debate went into crafting the revival of a Novice-class license.

Yes, Haynie confides, the ARRL's directors and Haynie himself were pressing the flesh - so to speak - for months gathering input from the amateur community. Directors also were conducting informal surveys among ARRL members. And, he says, a professional research company was hired by the league to survey hams about the state of the hobby.

Haynie says the research company's findings were pretty sobering and bolstered the ARRL board's drive for license reform.

"For example, 53 percent, if my memory serves me correct, today of all amateurs now are 55 years or older," Haynie says. "And this is growing at an exponential rate, it's not linear. And this is a very disturbing thought."

He says the results also revealed something the ARRL suspected for some time.

"There's people getting licenses and they're getting involved in what we call, or what I call '2-meter ghettos' and they have no place else to go so they lose

interest after about a year or six months or whatever," Haynie explains. "So you've got 200,000 or 300,000 Technician licenses out there who say 'I've tried' and they did and they didn't like it."

Haynie says it became clear one way to recapture the magic of the hobby lay in the experiences many long-time hams had when they first entered amateur radio.

"We went back and thought about, okay, how did it used to work and what was successful about it? And the old Novice class license was extremely successful, I think. And, we said, 'Well, okay then we have to go back to some form of that.' "

Last year's World Radiocommuncations Conference laid the ground work for countries to decide for themselves what to do about CW and licensing. But Haynie says the WRC '03 decision played a small role in the ARRL's deliberations.

"Morse Code is certainly tradition, I don't deny that," Haynie says. "And I think it's a neat ability. It's a skill. It has nothing to do with intelligence."

Haynie says he and other directors have heard some argue: 'Hey, I had to pass a code test, why shouldn't everyone else.' Haynie says that's like saying I'd like to play golf like Tiger Woods and coming to the realization that's probably not going to happen because you simply don't possess the skills - even with lots of practice. The same logic, he says, applies to CW. For many hams, he says, it's simply not their bag.

Haynie says the ARRL's proposal preserves CW for one license class, yet opens the doors to the world of HF for those who couldn't learn and master Morse Code to pass even a 5-words-per-minute test.

"People, they realize, they've come to grips: We are getting older. And we're not getting the people into Amateur Radio," Haynie says.

"And the amateur community realizes that we've gotta do something. And, I don't say that the league's proposal is perfect. Neither does any of the directors or officers of the league say that. But it was the best that we could come up with that still preserved the Morse Code tradition for the Extra class exam, and yet, gave you the taste of the old Novice that I used to have 30-something years ago."

Haynie says he's confident, based on his experience with the FCC, that the agency will look favorably on the ARRL license proposal.

"I have a gut feeling that they will take a majority of it, at least I think they will. They'll probably fine tune it, they'll tweak it some because that's typical of the federal government," Haynie says.

"But on the other hand, I know, I know that they want to simplify the Amateur Radio Service. They want three classes of licenses. They want to reduce their workload and continue to do what they like to do and amateur radio take care of itself."

And how long does Haynie think it will take the FCC to act and make any changes to the Amateur Radio license structure? He says don't expect a decision anytime soon.

"I don't see anything happening on any of the petitions, including the league's, probably 'til late 2005," Haynie concludes.

Haynie says his e-mail and phone have been busy since the board's vote two weeks ago. He says he's comfortable with the license proposal and is prepared to support and defend it.

Haynie says he had the chance to do so earlier this week before his hometown radio club in Garland, Texas. He says after explaining the league's rationale to the group, those willing to listen asked lots of questions. Haynie says he felt by the time it was over, many appreciated the league's work on behalf of the hobby.

Haynie's next stop: The 44th Tropical Hamboree in Miami on February 7 where he's expecting to get lots of feedback.

For the Amateur Radio Newsline, I'm Mark Abramowicz NT3V in Philadelphia.

--

If all went as expected, the ARRL was to transmit its proposal to the FCC on Wednesday, January 28th. And less we forget, a word of congratulations to Jim Haynie on his election to a third term leading the United States only recognized Amateur Radio society. The ARRL Letter Board of Directors expressed its confidence in W5JBP’s leadership on January 16 with a unanimous vote for his him to continue as President. (ARNewsline(tm))

THE BPL FIGHT: AUSTRIAN BPL PROVIDER SUING HAMS OVER NEWS STORY

In what looks to be a case of “he said -- no -- he said,” a row is brewing over the introduction of Broadband over Powerline telecommunications in the city of Linz, Austria. One that has a service provider taking that nations Amateur Radio society to court over statements quoted in the media world-wide.

As reported a few weeks ago, stories were circulating that PLT, or Power Line Telecommunications as the Europeans call their BPL system, had been halted in Linz. This, due to interference caused by the system. Also that the Austrian government had enjoined the service provider and the system would never be permitted.

Not true says the BPL provider and the power company and its now headed to court to try to stop the hams from complaining to them and to the press. From across the Atlantic, Jeramy Boot, G4NJH, has more:

--

The Austrian national amateur radio society, OeVSV, has objected to the use of PLT in Linz, stating that it causes interference to amateur stations, and issuing a press release which was picked up by the Austrian mass media. It appears that the OeVSV was misquoted as saying that the Austrian ministry had taken out an injunction against the PLT providers and that the service had been closed down for good in Linz.

The management of Speed-Web Consulting and Linz AG, who are responsible for the PLT transmissions, are disclaiming what they say are "press attacks by Austrian radio amateurs". They say that there has not been any injunction against them and the roll-out of PLT continues.

Speed-Web and Linz AG say that Austrian radio amateurs are doing their best to stop PLT "by filing undue interference complaints". They go on to say that "if there should be any actual, harmful and officially proven interference case caused by Powerline Communications, mitigation measures will solve this very case at that specific location in the concerned frequency".

On the 14th of January, Linz AG stated that it would be suing the OeVSV, as well as its president personally, over this matter.

Jeramy Boot, G4NJH.

The decision of Linz A G to sue the ham radio operators over the story of BPL says that in this one, big business is willing to go the whole nine yards. (GB2RS)

THE BPL FIGHT: FCC'S ABERNATHY ACKNOWLEDGES AMATEUR RADIO BPL CONCERNS

Here at home, FCC Commissioner Kathleen Q. Abernathy is apparently shifting away from her definition of BPL as a "Broadband Nirvana.” Last week Abernathy specifically cited Amateur Radio concerns about the interference potential of Broadband Over Power Line in remarks she delivered to the Catholic University of America's Columbus School of Law.

According to the ARRL Letter, Abernathy said BPL should not be widely deployed before dealing with ham radio's interference fears. She admitted that she now recognizes that Amateur Radio licensees have raised concerns about the potential for harmful interference. Abernathy described this as something that will have to be addressed before any mass market deployment can occur.

Commissioner Abernathy made her remarks on January 22 at the school's Washington, DC campus. Abernathy said that if engineers can find a way to prevent harmful interference to other radio services, BPL would represent a tremendous advance for consumers, because it could bring broadband to any home

that has electric power delivery. (ARRL)

RADIO LAW: CONGRESS MAY RAISE INDECENCY AND OBSCENITY FINES

Using obscene and indecent language on the airwaves may soon get very expensive. This as congress considers raising the stakes for those who insist on talking dirty on the radio. Amateur Radio Newsline’s Bill Pasternak, WA6ITF, has the details:

--
United States Representative Fred Upton of Michigan introduced congressional legislation to upthe maximum fine for an indecent broadcast from $27,500 to $275,000. Under the Upton sponsored measure the maximum fine for a continuing violation would be raised from $300,000 to $3 million.

Upton had also scheduled hearings to review the FCC's indecency enforcement policies for January 28th. Ken Johnson, a spokesman for Representative Billy Tauzin of Louisiana is quoted as saying that law makers intend to move the legislation quickly in hopes of sending a signal to broadcasters that enough is enough.

This action comes following recent complaints by FCC Chairman Michael Powell. He says that the existing penalty cap on indecency fines was too low to discourage off-color broadcasts.

For the Amateur Radio Newsline, I’m Bill Pasternak, WA6ITF

--

Commissioner Powell believes that once broadcasters start to feel the pinch where in their wallets they will start to think twice about transmitting indecency on the airwaves. (Published news reports)

**

ENFORCEMENT: UPS TO THE FCC: YOU HAVE OUR FULL COOPERATION

The FCC has received a letter from United Parcel Service offering the company’s full cooperation in removing any unlicensed radio equipment from its nationwide fleet. This follows a January 7th letter to the Middlesburg Ohio office of U-P-S detailing unlicensed 10 meter operations coming from delivery vehicles in that area.

The FCC also has contacted another trucking company, R and L Transfer of Norwalk Ohio regarding the same type of problem. Unlicensed operators coming to the 10 meter band has been a growing problem around the world in recent years. (FCC)

**

ENFORCEMENT: THAT RADAR IS A NO-NO

The FCC has also written to a pair of hams in the Winfield and Haysville Kansas area. This, regarding a reported piece of marine radar equipment mounted in a land based vehicle. According to the FCC the radar unit was being used for storm spotting without being licensed for this use. The identities of those using the radar system were not revealed. (FCC)

This is only a proverbial stones-throw from the Shelby County Building which was destroyed in the December 2003 blaze. More information about this premiere event can be found on-line. OUR GOLDEN PAST: CARL & JERRY "LIVE" AGAIN

Its time for a trip back to the 1950's. To a kinder and gentler Amateur Radio. Our tour guide for this journey is Bruce Tennant, K6PZW:

--]

Remember the names Carl and Jerry? Well if you were playing with ham radio in the 1950's and 1960's you are well aware that these are the first names of the two fictitious teenage electronic whizze's. Characters created by the late John T. Frye, W9EGV, for his long-running magazine series of the same name.

The Carl and Jerry stories appeared in Popular Electronics from October 1954 through December 1964. They told of the adventures of two perennial teenage boys who shared a special bond because of their shared love of music, electronics and radio. Now, many of these stories are again available to read to enjoy thanks to a new spot on the world-wide-web. Better yet, they are the kind of stuff you may want to read to your grandkids, especially if they have the same wonderment as you when you were their age.

Where are they and how do you these Pop Com classics? Thats easy. Just follow to link you will find in this weeks print edition of this Amateur Radio Newsline report. And good news for our sight impaired listeners. Word is that the print works well with most devices to help the blind to read as well.

Traveling back in time for the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, enjoying the past.

So far there are only 21 of the stories in the seriers on the web, but enough to keep you glued to your computer screen for several hours. They are there to read at http://home.gwi.net/~jdebell/pe/cj/cnjindex.htm (ARNewsline(tm))

INTERNATIONAL - VK: AN AUSTRALIAN LICENSE IS REQUIRED

A note to those of you who intend to operate from Australia on an extended visit. It appears that many amateurs, including those operating maritime mobile from within Australia's territorial waters, are using their own callsign with the 'stroke VK' suffix. Under Australian telecommunications law, this is

not permitted for any lengthy stay. Once past the grace period, all radio amateurs operating from Australia, and more importantly, from Australia's territorial waters must obtain an Australian license and individual VK callsign from the Australian Communications Authority. If you don't you will be told to go off the air. (Q-News, RSGB)

WITH THE ARRL: MAJOR CHANGE IN DXCC POLICY ANNOUNCED

A major change in the criteria for determining what is a new DXCC entity. An ARRL news release says that the organizations Board of Directors has removed the guideline that provides for an entity to be added to the DXCC list if it has a separate International Amateur Radio Union member society. The ARRL says that this provision had the unintended consequence of bringing in applications for IARU membership that do not further the objectives of the organization. In fact, all it has done is to create what ARRL terms as an unfortunate and unnecessary administrative burden for the IARU. (ARRL)

Lastly this week, scientists searching the stars for aliens are convinced an E.T. is out there -- it's just that they haven't had the know-how to detect such a being. Amateur Radio Newsline’s Norm Seeley, KI7UP, has the rest of the story:

--
Science Online says that technological advances have opened the way for scientists to check millions of previously unknown star systems, dramatically increasing the chances of finding intelligent life in outer space in the next 25 years.

The article quotes Seth Shostak. Shostak is the senior astronomer at California's non-profit Search for Extraterrestrial Intelligence Institute says that it is like looking for needles in the haystack that is our galaxy, but there could be thousands of needles out there. But on a recent visit to Australia to attend a conference on extraterrestrial research, Shostak said detecting alien life is only the start.

Since it was founded in 1984, the SETI Institute has monitored radio signals, hoping to pick up a transmission from outer space. Its Project Phoenix conducts two annual three-week sessions on a radio telescope at Arecibo, Puerto Rico. Project Phoenix, is the privately funded successor to an original NASA program that searched the heavens for signals from extra-terrestrial beings. That program was canceled in 1993 amid much skepticism in the Congress regarding the possibility of life in outer space.

For the Amateur Radio Newsline. I’m Norm Seeley, KI7UP

--

But Science Online says that the search has been slow. About 500 of 1,000 targeted stars have been examined and no extraterrestrial transmissions have been heard. (ScienceOnLine)

This is Andy Jarema, N6TCQ, Chief Financial Officer of the not-for-profit organization you know as the Amateur Radio Newsline. And once again, I am using the single word -- HELP! If you value this service, please help. We try to keep these kind of thing as subtle as we can.

You responded so wonderfully to our plea last April, and we haven't really asked for anything
since. But, unfortunately, your response dwindled in the waning months. The expenses of bringing you the up-to-date news on Amateur Radio did not.

We'd really like to hear from you. And we'd really like to hear from the repeater clubs out
there. These are the wonderful folks who re-transmit our broadcasts, bringing your nets increased value, and giving your members the latest in Amateur Radio news and information to enhance their hobby.

But Amateur Radio Newsline cannot continue without the funding needed to pay the monthly bills. And right now, we can't.

In the quarter century that it has existed, no one at the Amateur Radio Newsline has ever taken a salary. We all volunteer our time and talents. But what we ARE faced with are monthly expenses for gathering and delivering the news to YOU! We are talking telephone, Internet access and the like. This has not changed.

The bottom line is this: I’m asking that you try to find it within your organization or yourself as an amateur to continue this service. As we've said before, whether Amateur Radio Newsline continues to provide this service or if it disappears is totally your decision. We're here to serve
you for as long as you want us. Your response over the next several weeks will provide the answer.

The address for the Amateur Radio Newsline is Post Office Box 660937, Arcadia California, 91066.

Looking forward to hearing from you REALLY soon, I'm Andy Jarema, N-6-Tiny California Quake.

I don't see the point of code being a requirement these days, but I don't see the "no code" licensing the only reason for all the wackos being on the HAM band. Good HAM's totally outnumber bad HAM's, the majority of HAM's I've listened too are good users of the bands. There has been always wackos and crackpots on the radio, and then you have your old-school HAM's who passed all those code tests back in the day and still act like kooks. I've certainily heard them on there.

It's the responsibility factor, not much of this exists these days, especially when times change, your going to have more increasing numbers of kooks no matter if the code is eliminated or not.

Then if you don't limit it to amateur equipment there is of course the commercial and military stuff, some of which is being used in the amateur service. I believe Vertex is the mil/comm arm of Yaesu, and there is Harris, and there is some stuff marketed by Motorola. Some of this stuff a ham might disdain because it is designed for use by fairly untrained people, and doesn't have the controls you might want for, say, a CW contest. There is some amateur interest in the Automatic Link Establishment protocols, which are built in in mil/comm gear and have been implemented in computers for use with ham gear that is computer controllable.

844. (UPDATE, SHORT) Auto-FAQ Sent to Over 35,000 rec.radio.amateur.* Posters

Newsgroup: rec.radio.amateur.misc

Message-ID: <401b2ff6$0$99192$45beb828@newscene.com>

For the previous (SHORT) update, see:

http://groups.google.com/groups?selm=3f4cb076%240%24804%2445beb828%40newscene.com

In September of 1996, I started mailing an introductory message to all new posters to rec.radio.amateur.misc. This is accomplished via a special Perl script originally written by comp.infosystems.www.* FAQ maintainer Tom Boutell, who uses it on comp.infosystems.www.authoring.html, to send each poster such a message once, and only once, to a given E-mail address. It runs from a Unix cron job on my host every morning at 2 AM and queries my local news server via NNTP for the headers of any new articles posted to this newsgroup.

The project was expanded on June 19, 2002 to cover all rec.radio.amateur.* newsgroups, but with the same previous-poster database (as I stated my intention to do in previous updates). This means that if you have already received the message to a given E-mail address, you won't receive it again to that same E-mail address. The average number of recipients per day is currently about 16. Feedback statistics remain about the same for the additional 2,500 recipients (see previous updates via the link above for more details). Here are the milestones in terms of number of recipients, and the date each milestone was attained:

Recipients: Date: Average Recipients/Month (approx.):
0 September 21, 1996 N/A
5,000 July 5, 1997 625
7,500 December 7, 1997 500
10,000 June 2, 1998 420
12,500 December 20, 1998 420
15,000 September 29, 1999 280
17,500 May 30, 2000 310
20,000 April 7, 2001 250
22,500 April 3, 2002 220
25,000 August 8, 2002 625
27,500 December 1, 2002 670
30,000 April 1, 2003 625
32,500 August 27, 2003 500
35,000 January 30, 2004 500

For those who are curious, here is the current version of the message, modified in response to feedback as the project progressed.

>Subject: WELCOME to rec.radio.amateur.*
>X-Loop: rec.radio.amateur-auto-faq@oasis.novia.net

Hello,

The following message is automatically sent to every new poster or cross-poster (as of June 19, 2002) to any of the rec.radio.amateur.* newsgroups. It should be sent once, and only once, to each unique address. This is a welcome message. The Internet amateur radio community welcomes you to the newsgroups, including rec.radio.amateur.*, and welcomes your input, opinions, and constructive participation. To help make you feel welcome, experienced participants like myself have chosen to systematically inform you, as a new poster, about useful information resources and user tips to enable you to get the most out of these newsgroups. I hope you will consider the message in that spirit.

1. The news.announce.newusers newsgroup, moderated by Jon Bell, et al, contains a number of very informative articles providing an overview of net-etiquette, suggested writing styles for electronic forums, and other various do's and don'ts concerning Internet culture. If the articles have expired at your site, you may also access them from:

ftp://rtfm.mit.edu/pub/usenet/news.answers/news/

2. Original newsgroup voting and charter information for the rec.radio.amateur.* hierarchy, as well as for rec.radio.info and rec.radio.swap, may be accessed from:

ftp://ftp.uu.net/usenet/news.announce.newgroups/rec/rec.radio.amateur.dx
ftp://ftp.uu.net/usenet/news.announce.newgroups/rec/rec.radio.amateur.boatanchors

3. The Guide to the rec.radio Newsgroups, originally written by Jay Maynard, K5ZC, is now maintained by Jeffrey Herman, KH6O. It provides an excellent overview of all of the Usenet newsgroups devoted to amateur and CB radio. It may be accessed from:

ftp://rtfm.mit.edu/pub/usenet/news.answers/radio/personal-intro

4. The rec.radio.swap FAQ: A Guide to Buying and Selling on Usenet, also originally written by Jay Maynard, K5ZC, is now also maintained by Jeffrey Herman, KH6O. It contains a number of good pointers for reading and posting articles concerning the buying and selling of radio and radio-related equipment on the Usenet newsgroup rec.radio.swap (which, with the sole exception of rec.radio.amateur.boatanchors for vintage equipment, is the only appropriate newsgroup in the rec.radio.* hierarchy for such articles). It may be accessed from:

ftp://rtfm.mit.edu/pub/usenet/news.answers/radio/swap-guide

Please direct any submissions feedback, or administrivia regarding the above two resources to jeffreyh@hawaii.edu.

5. The national amateur radio society of the United States, the American Radio Relay League, has a presence on the Internet. You may access their comprehensive and informative home page at:

http://www.arrl.org/

(They also have information about amateur radio organizations in other countries.)

6. Read the newsgroup first to see if your question has already been answered. You may also view, and search for keywords in, older news articles (going all the way back to 1981) at the Google (formerly DejaNews) archive:

http://groups.google.com/

Many topics have been discussed before, often in great depth, but the articles have expired at your local news server. Services like Google allow Usenet a much longer "institutional memory," greatly benefiting both new and experienced users.

7. If you do post to the newsgroup, give as many details as possible. After you post, read the newsgroup for a week or two to see all replies to your posting. A recommended practice is to ask for responses by E-mail and offer to post a summary if others are interested in the answer to your question. Note that it is (almost without exception) inappropriate to post your article to all (or even a significant subset of) rec.radio.amateur.* newsgroups. Please pick only the most relevant newsgroups (2 or 3 at most), and post your article as a simultaneous cross-post (check your newsreader documentation) so that only one article is propagated, and the article is only shown once in a newsreader.

8. Remember, Usenet newsgroups are based on the idea of mutual aid. Usenet only works if we put as much into it as we get out of it.

73, Paul W. Schleck, K3FU

The author welcomes any and all constructive feedback. Please direct all such feedback to pschleck@novia.net and retain the original subject (e.g., "Re: WELCOME to rec.radio.amateur.*") in your reply.

Restricted Radiotelephone Operator Permit for aeronautical and aircraft purposes and I am having some difficulty with the online system.

Using Form 605/Electronic Filing, what radio service is this under? I would assume AA or AF, but there is no easy interpretation. Nowhere in the multi-page application does it say "Restricted Radiotelephone Operator Permit" check YES or similar

Just having some difficulty, any help from some Elmers is appreciated

Thanks

You left out one of the definitions which can be described as a pure
democracy. From Webster's New Universal Unabridged: "... the supreme
power is vested in the people and exercised directly by them ..."
That is the type of democracy that voted for Socrates to drink
hemlock, which he did.

The USA is not a democratic republic! That can still lead to abusive government.

The USA is a CONSTITUTIONAL REPUBLIC with the responsibility to govern divided among 3 separate but legally equal branches, executive, legislative, and judicial.

The USA Constitution guarantees the principle that all rights belong to the people and that certain rights are inviolable!

The Democratic Political Party in the USA conveniently forgets that, but the Federal and Supreme Courts remind them as needed!

Try a "Name or Place" search at:

http://www.qrz.com/i/names.html

Enter the name of the town where he was most active. This will give you a list of hams currently active from that town. Search through those names for some old timers (the date of birth is listed on most entries). Try writing or emailing a few of those old timers to see if they remember him and his call sign.

You would end up missing a LOT of posts that way, since many of the people that are replying to those posts don't realize that they've been cross-posted, but normally make good contributions and on-topic posts to the newsgroup.

Try using "Ignore Thread" or "Ignore Conversation" (depending upon your newsreader) and at least you'll usually only have to deal with the first one. In the case of the off-topic "Democracy/Republic" one above, it was pretty obvious.

I might be in error here, but *I* thought the "Restricted" radio license was abolished a long time ago. I do know they are no longer needed in radio stations.(The DJ's were required to have them as they were in control of the station/transmitter).
I have 2 friends that fly private aircraft..neither have a "Restricted" ticket...Eddie

Um, you mean that he doesn't believe that Congress shall make no law regarding free speech? Perhaps he believes that the Bill of Rights guarantees you the right to be a moron? Certainly if you have the right to be ignorant, he must have the right to ignore your rants.

Inside the US the N number of your aircraft is your "license"; you only
need an operators or license if you leave the US.

See http://wireless.fcc.gov/aviation/fctsht4.html for details.

There are links there to help you fill out the form if by chance you do
need a license.

don kg4coq also had his friday night TGIF net, don is feeling better, but still sounds a little tired, he had 40+ checkins friday night. several jammers were heard, one was calling for crummy and referencing the old days of jim carter the jammer was also identifying himself with jim carters current callsign WA8JSC, i think it was mike callanan who's callsign is KE4CRM, mikes former callsign was KD4YOQ. i heard alot of new callsigns friday night, not particularly new to radio, just ones i have not heard before. its really interesting how the 146.640 repeater always has alot of people as regulars at any one week. alot of people that have been around awhile were scared off by the recent KG4LEG jamming, they all went the the 145.330 repeater, but any way some new people have filled in the gap, the repeater is just as busy, it just has new people on itusing it alot.

i just checked the www.the64machine.org website and found this, i will share it with everyone, this is ron wrights N9EE web page on his company

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations. As always, you never know - "Work First Worry Later" (WFWL).

4S7, SRI LANKA. "OOPPSS! It is my fault!", states Rudi, DK7PE. Members from Lufthansa Amateur Radio Club(LARC) will be here from February 3-8th (not March as first announced). So, look for the team to be active this week on all bands on SSB and CW. Operators will be Frank/DJ3FK, Bernd/DK7TF, Karl/DL4FP and Rudi/DK7PE. If possible, Rudi, DK7PE, will try some 160m, depending on the antenna's possibilities. Rudi tells OPDX that callsigns

are not known yet, but they should be: DK7PE (4S7PEG), DK7TF (4S7DLG), DL4FP (4S7**G not known) and DJ3FK (4S7**G not known).

7Q, MALAWI (Update to OPDX.644). Steve, G4EDG, has joined the team of operators going to Malawi to be active between April 18th and May 1st.

9M2 & 9M6, EAST AND WEST MALAYSIA. Rich, PA0RRS, will be active as 9M2/homecall, from Kuala Lumpur, West Malaysia, February 6-9th. He will then be active as 9M6/homecall from Keningau, East Malaysia, February 9-20th. Rich will also activate a West Malaysia IOTA between February 20th and March 2nd. Look for him to sign 9M2/homecall from Penang Island (AS-015). QSL via his home callsign, direct or via the bureau.

9Y, TRINIDAD & TOBAGO. Chad, WE9V, will be active as 9Y4/WE9V from Tobago Island (SA-009) from February 29th to March 10th. He plans on operating on all HF bands on CW, SSB and RTTY. He will participate as Single-Op/All Band/High Power entry in the ARRL DX SSB Contest using the station's call, 9Y4ZC. QSL 9Y4/WE9V and 9Y4ZC (ONLY ARRL DX SSB Contest 2004) to WE9V.

C6, BAHAMAS. Ivars, KC4PX, will again be active as C6APX in the Bahamas (FL15, IOTA NA-001). Activity will consist of 40, 20, 17, 15 and 6 meters from February 7-13th. QSL via his home callsign.

C6, BAHAMAS. Randy, W6SJ, will be active as C6AWS in the ARRL CW DX Contest (February 21-22nd) as a Single-Op/All Band/Low Power entry. Between February 17-21st he will operate as C6A/W6SJ, with an emphasis on the WARC Bands. He will be active primarily on CW. QSL via his home callsign.

C6, BAHAMAS. Operators Brian/K7RE, Bob/N4BP, Kevin/K4PG and possibly other stateside hams will be journeying to Freeport in the Bahamas to do about a 6 day operation prior to, and including the ARRL International DX CW Contest in mid-February. They will arrive and be setting up on Tuesday, February 17th, and will probably be on the air that late afternoon up until the contest begins, the weekend of February 21st. Brian, K7RE, will sign C6ALK and plans to operate as much 30 meters CW as possible before the contest. When 30m isn't open, he will be on the highest WARC band that is open and not being used by one of the other 2 stations in their shack. Look for Bob, N4BP, to sign C6AKQ and be active on RTTY on the WARC bands, and the regular bands if he runs out of QSOs on the WARC segments. He will also do some WARC band CW. Kevin, K4PG, will be signing C6APG and will not be at the site very long, but he should be an easy catch on 10 meters during the contest, possibly he will be doing some CW prior to the contest on the WARC bands. PLEASE NOTE: Preference will be given to stations OUTSIDE the U.S. mainland PRIOR to the contest, as they wish to work ONLY U.S. stations during the contest itself. During the contest, they plan to operate in the following categories:
C6ALK - Brian/K7RE, Single-Band 160m. The 160m antenna will be a dipole at 125 feet.
C6AKQ - Bob/N4BP, Single-Band 80m. The 80m antenna will be a dipole at 65 feet.
C6APG - Kevin/K4PG, Single-Band 10m. The 10m antenna will be a 3 element monoband yagi at 50 feet.

They will be running the maximum allowable power in the Bahamas that is allowed for the most part in the contest, but will play with QRP before the contest if conditions allow. Radios will include the Elecraft K-2. QSL direct or via Bureau to their home callsign, BUT PLEASE PLEASE send an SASE or equivalent. Their home addresses are current on the QRZ.COM Web site, as well as their C6A callsigns.

QSL INFO AND NEWS.............
QSL the last week's 4U1UN operation to: 4U1UN, Grand Central Station, P.O. Box 3873, New York, NY 10163 USA. Operators were Bernie/W3UR (The Daily DX Editor), his daughter Christa/KB3JIU and well known QSL Manager Steve/KU9C.

QSL HC1AJQ/HC4 via EA7FTR. Operator was Alex, HC1AJQ, from Canoa on the Pacific coast.

QSL PR8/PS8NF via PS8NF. Operators PS8NF/Nelson, PS8DCA/Dalton and PS8DEL/Glauber activated Sao Luis Island (SA-016) this past weekend. This operation is valid for the Brazilian Island Award (DIB-007) and the Brazilian Lighthouse Award (DFB 007).

NEW QSL MANAGER. Fran, EA7FTR, informs OPDX that he is now the new QSL Manager for ST2NH and ST2YL. Send QSLs to EA7FTR at: Francisco Lianez Suero, Asturias 23, 21110 Aljaraque HUELVA SPAIN.

NEW QSL MANAGER. Ralph, K2PF, reports that effective immediately, he is the QSL Manager for Ado, T94OM.

NEW QSL MANAGER. Nenad, VE3EXY, announced this past week that he is now (effective immediately) taking over all QSL business for Nick, VK1AA (ex.VK2ICV). This includes the following callsigns VK9LX, H44XX, H40XX, VK9LX/9, VK1AA/2 and VK1AA/4. This will probably include Nick's future DXpeditions as well. At the moment, Nenad has blank QSL cards for VK9LX, H44XX, and H40XX, while VK9LX/9, VK1AA/2 and VK1AA/4 are still in the process of being printed. Nenad states direct requests are more or less answered immediately, and there is a huge backlog of bureau requests. Nick was not a member of the VK QSL Bureau, and your QSL cards probably never made it through the system. From now on, he will handle bureau requests, but via Canadian (VE) QSL bureau.

NOT THE QSL MANAGER! Steve, G3OAG, wants to remind OPDX readers that he is NOT, never has been, and certainly do not want to be the QSL Manager for 5H3RK. He is still getting a few cards via the bureau for 5H3RK, and they are being sent back to the senders.

Randy, W5UE, reports that he has uploaded the following logs to LoTW, January 26th: W5UE, W5UE/C6A, C6ARB, PZ5UE and PZ5A.

Doug, ZP6CW, informs OPDX that all 120,000 ZP5XDW, ZP5XDW/6, ZP6XDW and ZP6CW log entries are now on the LoTW (Logbook of The World). He will continue to honor direct QSL requests, and will do so probably forever. ZP6CU continues to be the QSL Manager for: ZP6CW, ZP6GG and the previous ZP callsign noted above.

SJ9, SWEDEN. Operators Markus/SM4XIH, Charlie/SM4RGD and possibly others will activate the "Borderstation between Sweden and Norway" from Morokulien as SJ9WL in the CQ/RJ WW RTTY WPX Contest (February 14-15th) as a Multi-Op/ Single entry. QSL via SM5DJZ.

TI8, COSTA RICA. Operators Carlos/TI2KAC, Eddie/K4UN, Robert/W4BD, William/K4WPM, Van/N5VI and Robert/NA4BW will be active as TI8M in the

ARRL DX Phone Contest (March 6-7th) as a Multi-2 entry. QSL via TI2KAC, direct or via the Bureau. Look for activity before the contest on 160-10 meters.

VK9L & VK9NB, LORD HOWE AND NORFOLK ISLANDS. Babs/DL7AFS and Lot/DJ7ZG will be active as VK9LB from February 16-27th. They inform OPDX that they currently have a problem with transportation to Lord Howe Island as they are limited to only 14 KG per person. This means that they will have to leave some antennas and equipment at Brisbane. They state, "Of course to charter a private flight is a possibility. That is, however, too expensive for us." Activity will be on 80-6 meters on SSB, RTTY and PSK. Starting on March 1st, they will be active for 2 weeks as VK9NB from Norfolk Island. They hope their activity will be without restrictions from there. All QSLs are via DL7AFS. For more information, please visit their Web page at: http://www.qsl.net/dl7afs

QSL is via the W7 Bureau or his home callsign K7YMA. The K7YMA and YI9YMA information has been updated on QRZ, Buckmaster and the WM7D websites. George states that he will submit the log to LoTW upon his return home. He also mentions that his operation has been accredited by ARRL DXCC Desk.

YI9, IRAQ. Dwayne, KE4RVT, is currently working here and is active as
YI9RVT. However, Alex, AI2Q, received and E-mail from Dwayne stating he
has developed a problem with his Radio Shack 22-510 PS and blew the
electrolytic capcitors. He is currently looking for a copy of the schematic
and is running/operating by battery and minimal antenna. He is still
waiting on antennas to arrive. There were two QSNs reported as this was
being typed. Dwayne was spotted on 10107 kHz at 1953z and 28025 kHz at

I believe their membership rules say originally licensed at least 25 years
ago. They do not have to have been continuously licensed during that time.

Does anyone know how to do a total reset of this radio? Mine is locked up with both green lights over the volume knobs lit. The normal resset shown in the manual doesn't do the trick.

Thanks....

I know what you mean, I'm gonna have trouble remembering not to
call it Winston. I still don't completely understand
the playoff thing. I figure Nextel won't last as long as the
smokes did for a sponsor either.

I think it's changed. Now, it's that you were licensed at least 25 years
ago.

But growing up, I'm pretty sure it was that you had to be licensed a quarter
century. Imagine my surprise when I qualified in 1997 that either it had
changed, or I hadn't taken proper note, because I was no further ahead than
someone who had been licensed the same year and let it lapse.

891. TMG707 - 1750 Hz tone bust

Hello,
I am looking for a little help.
I have an Kenwood TMG707A which I have reset the chip
diodes / resistors so that it is the European (TMG707E)
version. All is well with the frequency coverage / bandplans
etc.
But the 1750Hz tone is so low in volume that it can not be used
to access the repeaters that still have not got CTCSS on them.
CTCSS tones work OK.
Has any one got a service manual / circuit diagram or knows how
to adjust the 1750hz tone level. Nothing else needs adjusting
only the volume of the 1750hz tone - the deviation checks out OK
and the rig sounds great.

Thanks in advance Martin

I don't have a manual for it but a lot of radios have a pot labeled tone volume. Take a look. I'm confused though, your statement must have a typo.. IF the repeater doesn't have CTCSS / PL access on it, why worry about the tone? There should be a switch to disable it. MNS.

A democracy ceases to exist when the public vests their voting privileges in
representatives. The form is then a Republic. See #2 above!

NO, "Democratic" is NOT correct, despite vast quantities of double-speak at
http://www.democrats.org/about/history.html . It's their right to call
themselves what they wish, but, if you examine the language, you will see
that "democratic" is an adjective. An object (that is, a person) cannot be
an adjective.

It's a group of people, thus a party. And if they call themselves democrats,
then it is a party of democrats. But it certainly is not proven to be a
democratic party. Accurate thought requires accuracy in language. It's a
point probably long lost, as our voters can't even punch a hole in a card
with reasonable accuracy.

The sentence structure is correct!!!

'Democratic' is an adjective! Political Party is the compound noun.

Read the headers, and, if you don't think you'll like the topic....

DON'T READ IT!!!

Self-editing what you read, and being selective, is a requirement
in any truly free society. Don't bitch, because you won't change
the behavior of others. You are responsible for YOU, and you alone.
If you don't like it, don't read it. (Your radio has a VFO knob,
does it not? If you don't like the topic of a QSO, do you keep
listening, or find something else to listen to, perhaps another
QSO to participate in)

Bullshit.

The reason UseLessNet has 2 million different newsgroups is so that
people can discuss (and read) things that pertain to the subject of
that particular newsgroup. U.S. politics have nothing to do with ham
radio, and the guys who are 'discussing' it crosspost to as many ham
groups as they can find for the sole purpose of pissing people off.

Very common. They start a discussion in a particular group, and then
some pecker head, for the fun of it, adds 9 other groups to a reply,
and all the other pecker heads think it's funny so they do the same.

Cecil, you've spent 12 hours a day for the last ten years arguing with
the same people on UseLessNet, so you know damn good and well how to
post a message to a particular group - this crap about "I just
answered somebody else" is also bullshit.

This person is in Europe... the standard for
a long time was to open the repeater rx
via a short 1750Hz burst at the beginning
of your tx. Probably still a lot of those
machines around.

For the Original Poster: Do you have a
copy of the docs? I found this link:

http://www.xs4all.nl/~pa0nhc/Modifications/English/kenwood/tmg707/DevAdj.htm

it explains how to set your deviation.
You could always talk softer, and
increase your overall deviation, that
might work, and it might not. There
might be a tone deviation in that menu
the link describes... that would explain
a lot, since you've changed to Euro
standards but might not have changed
the tone deviation from low (use for
PL/CTCSS in USA) to high (used
for burst tone access). Good luck!

Maybe you need to expand it enough to see the newsgroups line.

Newsgroups:
rec.radio.amateur.antenna, rec.radio.amateur.digital.misc,
rec.radio.amateur.dx, rec.radio.amateur.misc, rec.radio.shortwave

Lately some moron has started many cross posted threads so people need
to start paying more attention to the headers and if you don't you make
the decision to look stupid. The cross posting dumbbells will soon find
nobody reads them anymore.

Please enough of the code/no code, ARRL and other threads that only
amateurs would care about. Please at least drop RRS from the newsgroup
list like I did. Thanks in advance.

calling cb, Calling CB. CALLING CB !

a trolling we will go,

A Trolling We will Go.

A TROLLING WE WILL GO !

CB [N5PVL],

FIRST - I Guess the Question is . . .
IS this NewsGroup a "HAM" or "Shortwave" NewsGroup ?

Lets Start of the Top - Under the Major NewsGroup Heading: REC : RADIO

Are Nine (9) Categories including both "Amateur" (HAM) and "Shortwave"

PLEASE NOTE: "Amateur" (HAM): and "Shortwave" are each 'separate'
Categories.

Under the NewsGroup "Category" Rec : Radio : Amateur [HAM] =
'rec.radio.amateur' there are Eleven(11) Sub-Categoies:
1. rec.radio.amateur.antenna
2. rec.radio.amateur.misc
3. rec.radio.amateur.boatanchors
4. rec.radio.amateur.packet
5. rec.radio.amateur.digital.*
Sub-Sub-Group 5A. rec.radio.amateur.digital.misc
6. rec.radio.amateur.policy
7. rec.radio.amateur.dx
8. rec.radio.amateur.space
9. rec.radio.amateur.equipment
10. rec.radio.amateur.swap
11. rec.radio.amateur.homebrew

TBL: Seems like the HAMs have their own Category and Eleven
Sub-Categories plus One Sub-Sub-Category.

And the 'lowly' Shortwave Listeners ONLY have One Category
"Shortwave".
{ I Say 'lowly' Shortwave Listerners SWLs because SWLs are
"second class" Citizens to the Exhalted Amateurs [HAMs] }

SECOND - Getting back to the Topic of "OFF-TOPIC" since you can
"Hear Everything on Shortwave": Then Nothing Is 'Off-Topic'.
Here on the "Rec:Readio:Shortwave" Newsgroup.

FWIW: All Amateurs [HAMs] please 'check' your "Call-Signs"
at your KeyBoards before posting a Message or Reply to this
'exclusive' {The One and Only} "SHORTWAVE" NewsGroup :o)

TBL: REC:RADIO:SHORTWAVE = No Call Sign Required [.]

Very inventive, Bill. I'll bet we can find dozens of forms of sort-of,
almost, enhanced and modified democracies. So at just what point, as the
people give up their direct control of each issue, does a democracy ever
become something else? And why do you feel that "something else" is still a
democracy?

Finally, if the people of the democracy are all rascals, how do they vote
the rascals out?

From Amsat-BB:

The AO-40 command team has established a routine of trying to cycle the main battery off (aux. battery on) and then the S2 Tx ON every orbit, using simple machine codes. Following this, the sequence to disconnect all transmitters is sent, to protect them from low voltage. If we have approximately 10 volts on the main buss, then these commands should be making it through, but the S2 transmitter was not designed to run below 20 volts and is not coming on. The battery relay has been tested in the amsat lab, where a duplicate exists, and it will cycle reliably at 12 volts, but not lower. If we have less than 10 volts, then the commands will not be received because the IHU-1 and/or command receivers are insufficiently powered. Either way, the IHU-1 is not currently running IPS. The machine code commands only function in reset mode. We assume that we currently have less than 12 volts and that either the IHU-1 and relay are not functional (<10 volts) or the relay isn't functional (<12 volts), because cycling the relay should get us out of this situation by disconnecting the main battery.

With regard to the stability of the attitude/spin, this will not be a concern for a very long time. We are currently rotating at 3.5 RPM. The spin decay rate is extremely slow. It will take approximately 4 years to drop this to 3.0 RPM. We can magnetorque at speeds as low as 1.5 RPM. The mystery effect will decrease ALON approximately 11.5 degrees/week. It does not affect ALAT, though ALAT will change slightly as the orbit precesses.

MAIN BATTERY NOTES (and conjecture):
The main batteries consist of three packs housed in sheet aluminum cases and bolted to the radial braces between panels 1/6, 2/3 and 4/5. The cells within the packs have threaded metal binding posts and the cells are connected by thick metal straps with strain relief "U's" in them. The pack at 2/3 consists of 7 cells and is the negative end of the chain. The pack at 1/6 consists of 6 cells and is in the middle of the chain. The pack at 4/5 consists of 7 cells and is at the positive end of the chain. The main battery pack at 1/6 is the closest battery to the "flaky" heat pipe thermistor, though it is located "below" this heat pipe near the omni end of the spacecraft. Main battery packs 4/5 and 1/6 lost their thermistors during the 400N incident. Whether this was due to trauma to the battery or damage to the cabling is unknown. If a short to ground occurred in the 1/6 battery pack it would pull the cells on the negative side of the short in this pack to zero, as well as all cells in the 2/3 pack. Depending on the location of the short and the status of the cells in pack 4/5, this could pull the main buss voltage to half

normal (14 volts) or even 10 volts or below. <conjecture> A short at this location might have generated enough localized heat (or even some hot metal spatter) to damage the thermistor on the flaky heatpipe or, more likely, its wiring. This is appealing because it would represent a single point failure, rather than a failure cascade. One piece of evidence that doesn't clearly fit with this theory is that the cells in pack 2/3, the one main battery pack that still has a thermistor temperature sensor, do not appear to get warm following the voltage drop. We do not know how much capacity remained in these cells. It is possible they contained relatively little energy. </conjecture>

As several of you indicated, we are in a waiting game for the main battery to develop one "open" cell.

921. What is this military transceiver ?

Hi,

I decided to open up this military transceiver which a tenant
left about a decade ago -- during the non-pc days of s. africa.

It looks as if it was for a tank or armoured car. Made by Barlows.
2 units SO/53 and VS/57 which strap into a base unit: the
power distributor B57.

It's 30 - 40 Hz steppable.

Q1. Is this one of the military frequencies ?

The SO/53 unit has 7 internal cans: Tx, VCO, TLT, Audio, IF, I.C.,Front End.

Q2. what are TLT and I.C. ?

After carefully tracing/testing the power (24 VDC), I obviously want to
monitor the audio out, which I'm guessing is to earphones; but I can't
find any obvious connector.

There are 2 connectors: 8-pin on the SO/53 unit and a similar one on
the base-power-distrubutor unit. They have 'dust covers'.

Q3. Is this possibly the earphone/mic I/O ?
Why would there be 2 on the SO/53 unit and one the base-unit ?
Perhaps to allow 2 or 3 persons to listen ?

Q4. Is there a standard military configuration, or must I just measure
between the 8 pins to find out which is the audio-out ?

The SO/53 unit has a coax/bnc to the VS/57 unit marked 'anten'
and next to it [and confirmewd from inside going to the same RF LC
group] what-looks-like a female thread for a whip-antenea, which
is 5.7 ohm to chassis. Since the thread is horizontal, someone suggested
that the unit could be unclipped and worn vertically on the belt;
except how the power-source-springs would be replaced is not clear.

Q5. How else could a whip operate when the female thread is
horizontal ? OK perhaps the 'dials face upwards' !?

The lower VS/57 unit seems to be the RF power unit, with some 1 watt
resistors and 'flat rf transistors': TWR pt9783 & vmp4 7848
and some TTL which together with 2 leds which change from green to
red, indicate various diagnostic states.

Q6. How could I proceed to test this thing ?
I've got 1970 - 1980 telecoms experience but not really RF.

Thanks for any advice possibly email also to:

Here in the UK not all repeaters are yet fitted with CTCSS for access.
and the old system was to transmit a 1750Hz tone burst approx 200ms
long then a carrier with / without audio to make the repeater switch on
the Tx and latch. The Time out timer then starts to count down.
On some repeaters once the input signal had dropped and he squelch
closed on the RX the next received carried caused the repeater to remain
latched and the T/O timer was reset if there was no other carrier for 5
seconds
or so the logic sent the callsign and the repeater closed down un till the
next time
a 1750Hz tone was received.

So to access these older yet to be upgraded boxes I need to get the 1750Hz
tone sorted out.

Any one got a circuit for the TMG707 either version ?

Try either one of the antenna groups, or (better yet) one of the for sale groups. People here on r.r.a.m will just give you a hard time for posting off-topic, and probably call you clueless, etc.

Have you tried one of the "for sale" newsgroups? That is where you will
probably find people looking to buy.

The stuffy people here will just give you a bunch of crap for posting
"for sale" things in a group where the FAQ says not to.

"Nonsense. Go check your dictionary. We are a democratic republic."

?democratic? -&- ?republic?

! BUT WHAT IS IN A NAME - AND WHO USES IT !

The Word "Democratic" is Part of the Official Name of Many Countries:
http://www.cia.gov/cia/publications/factbook/fields/2142.html

* Some use the Word DEMOCRATIC in their Official Name:
People's Democratic Republic of Algeria
Democratic People's Republic of Korea
Lao People's Democratic Republic
Great Socialist People's Libyan Arab Jamahiriya
Democratic Republic of the Congo
Democratic Republic of Timor-Leste
Federal Democratic Republic of Ethiopia
Democratic People's Republic of Korea
Lao People's Democratic Republic
Democratic Republic of Sao Tome and Principe
Somali Democratic Republic
Democratic Socialist Republic of Sri Lanka

* Some simply use the Word PEOPLE'S in their Official Name:
People's Republic of Bangladesh
People's Republic of China

* Some still use the Word SOCIALIST in their Official Name:
Socialist Republic of Albania
Socialist Republic of Vietnam

* Some 'now' use the Word ARAB or ISLAMIC in their Official Name:
Arab Republic of Egypt
Great Socialist People's Libyan Arab Jamahiriya
Kingdom of Saudi Arabia
Syrian Arab Republic
United Arab Emirates
Transitional Islamic State of Afghanistan
Islamic Republic of Iran
Islamic Republic of Mauritania
Islamic Republic of Pakistan

NOTE: Most of the above are "Nationalistic" ONE PARTY Systems [.]

FWIW: Most of the above also use the Word "Republic" in their Names.

* * * * * GETTING BACK TO THE "USofA" * * * * *

OUR NAME IS: "United States of America"
USofA=> http://www.cia.gov/cia/publications/factbook/geos/us.html

WE ARE: Constitution-Based Federal REPUBLIC with a Representative
form of Government and a Strong DEMOCRATIC Tradition. Meaning "WE"
Democratically Elect Our Representatives and that these Elected
Representatives act for us in their respective bodies.
NOTE: This basic concept of a Representatively from of Government
also applies to the Election of the President of the USofA. We the
Citizens (Voters) of the USofA 'elect' Members of the Electroial
College: Who then Representing "US" Elect the President.
Then the Congress Receives the Determination of the Electorial
College and Comfirms the Election of the President.

Both Words: "Republic" and "Democratic" are NOT part of:

Our Official Name: "United States of America" [.]

Our Form of Government: REPUBLIC [.]

Our Elective Repressentive Process: DEMOCRATIC [.]

This kind of shit gives all hams a bad name. The FCC should ask for sexual preference on the application and filter out all of these degenerates. What with all the no-coders, gays and lesbians and animal lovers, dumb fuck CB-ers, amateur radio has become a wonderful place. What a wonderful hobby! (Sarcasm intended)

I'm fully aware of what "tone burst" is and how it works, as well as
CTCSS/PL.. It was the sentence in the original post that threw me off. MNS.

Apparently - Dave, you haven't been following the posts on this guy. For several months he was begging for donations for Antennas and so on for a club to do Emergency Comms. Now all the sudden he is selling a lot of "new" gear. If his club is hurting so bad, why doesn't he donate it to them????? Check out rec.radio.swap! MNS

Greetings:

I have an AT-600D ADI dual band HT in which the display has
gone blank. All functions still work, but you can't se what you're
doing, hi!!

I've disassembled the radio and checked the output of the
driver chip, and all lines seem to have the proper square wave
going to the display. I don't however see any data being pased
from the main chassis to the display board.

I'm working without a schematic here guys, so any leads to
where to look next would be appreciated. I can't see any damage
to the LCD panel itself, and have cleaned the two conductive
rubber strips joining the board to the display.

Thanks for any assistance.

Please reply to : ve3sed@rac.ca or post here.

Aw com'on. Dan's a lot of fun, and always has been. He was great
entertainment back in the ol' 14.313 Radio Wars days, and he is definitely a
stickler for keeping ham radio "real". Ignore him? Please... no good ham

Two problems, there, shipmate:

1) The FCC gave me my no-code license, so you certainly wouldn't want to use them as a filter. Oh, no, they're far too ineffective in weeding out society's undesirables. Perhaps a batallion of jack-booted thugs could get the job done for you. (By the way, I've been fighting dyslexia for years, trying to learn the code and if I could, I would. Broad-brushing no-code techs as you did gets you nowhere. My contribution to ham radio has been an honorable one and such a dismissive tone is entirely wrong.)

2) kc8tcs@yahoo.com is a parody site and you missed it -- completely. (Check out www.drudgereport.com and then www.drudge.com for the parody site.) The real KC8TCS is not represented on that web page.

If you wish to confess that you were drunk or stoned when you posted the above, I will accept your apology.

A scandal greater than Watergate

"But active and retired CIA officers kept warning the public and media
(including this writer) that intelligence on Iraq had been deeply
manipulated and politicized by a cabal of pro-war neo-conservative
ideologues in the Pentagon and the vice president's office. "

/ / But the Pentagon's OWN energy support center pointed
out that it also was delivering some gasoline to Iraq -
for only ABOUT $1.00 a gallon. THE PENTAGON'S audit
agency then asked halliburton officials for internal
documents to justify its pricing - but the officials
refused. \ \ (Not Democracy)

Imagine this is why the bushite soldier states the
Humans must not be allowed to disagree with anything the
bushmob in Iraq does, because then we'll all know
together how pathetically weak and cowardly they truly
appear as criminally acting with such betrayals as an
ungodly evil tyranny, without any true leadership to
speak about. Robbing their own nation of America as
immediate family in the process. Dying. All for
intolerant war monger bush's hatred for the American
dream, and contempt for all human good will as kindness.

http://www.alternet.org/story.html?StoryID=17671

/ / The Corps unilaterally issued a waiver of
Halliburton's requirement to provide "any cost and
pricing data." The Corps says it issued the waiver at
the request of Halliburton. How convenient. \ \ (N.D.)

Just another PUBLIC bushmob act of sedition against the
old red, white, and blue, to sacrifice an American
Patriot as measured worthless with. So American
Soldier, what are you going to do for US payers being

robbed in the open by the bushmob in Your dying brother's name like that?, as one American Citizen censored from speaking publicly at length like all the rest of US are also in corporate america? Just try to air an American Patriots concern on american talk radio, and see how fast your rights are silenced by the witches, or bushite cultists Art Bell has no problem giving his National show over and over again to forbid any protest.

/ / Steven Russell said that "protests are not authorized and that participation in protests is punishable." \ \

/ / Steven Russell. "These People have always hated US in this area. It is not surprising that they hate US." \ \

He ain't kidding me he is completely unqualified to hold any leadership position. A real de-generative paranoid delusionist, mared likely early on from corporate neglect he suffers still from. He is what is referred to as a bigot, and likely therefor, a probable racsist. The 'area' he forces through threats of murder, are to demand this vision be no greater than his own. His own of equality being freedom by Justice Supreme doesn't stand his scrutiny as aimed for target. Bible or Constitution, all trash. Innocent guilty, good guy bad guy, he couldn't divulge as devote blind bushite, war criminal 'mastermind'. Oh by the way, truly, he breeds indiscriminate warfare as a bad soldier, while the bushmob are walking away with who's loyal investment. . . ? . . . The clock is ticking. If I can teach Buford and Steve with this breaker, they'll turn around and kill bush and rummy instead for 9/11 to make the newspapers. This is why a repuglicon doesn't like to feed early start programs, that way, Lt. Col. Steven Russell can pretend he's doing US in this world a favor, when really, he couldn't care to know if his ACTION would CAUSE the needless murder of yet another, Patriot American brother. Steven, you arrest Buford, and Buford, well you just go ahead and arrest Steven, and then... well, we'll take it from there.

Instead What?

Instead tell US as an antiAmerican bushite?, you'll murder US innocent for demon bush and rotten rummy?, regarding those free speechers who dare voice with FACT, that, Iraqi banking, university, or health care, is more intelligent to remain Universal as it was to serve the People's interests BEFORE baathist bremer sabotaged communications? The bushmob isn't bringing Freedom, but stealing it. And as such being consequence, so too,

Amerka. Haven't you heard? Bush's Amerka will be freeer now that evidence is no longer a requirement to convince US who is evil incarnate, and protesters can be shot without CNN making the news over it. It's betterer I'm sure Ashcroft would say to torture or murder the innocent, that to arrest the culprits responsible for high treason in God's America. Right bushites?

/ / commander of the 1st Battalion, 22nd Infantry Regimen, Lt. Col. Steven Russell, as saying, "This is to remind the town that we have teeth and claws and we will use them." \ \

What an evil dumdum traitor to the town of New York City steven russell is eh?

Imagine this is why the evil dumdum bushite soldier states the Humans must not be allowed to disagree with anything the bushmob does criminally, because then we'd all know how they ungodly as cowards behave; treasonously acting in such a inhuman tyrannical manner without true leadership to speak about. Ask an American Soldier who proudly states they wouldn't kill unarrested buford "bush bitch" blount or steven russell instantly to save the life of one innocent defenseless child, and I'll show you an enemy of America as just another expendable soulless nazi bush whore. (ten cents per I'm paying..) Let's all hope and pray a sexy rummy cluster dud dropped by bank robbing heroin pusher tommy franks does them in, instead of US good guys driving in the designated place at the right time bound for further criminal bushmob sacrifice as leaderlessly too weak and cowardly to stand up for 'the Human cause', eh?

An aside: Corporate Americans are publicly taxed twice as much per capita for their inhuman private health care exclusions, than Canadians do for public health care that measures every Canadian as Canadians. (The bushites are evil, and dumber than dumb I told you before the election, but your news agencies refuse to still listen to our top priority concerns regarding the demon antiChrist's murder rampages against American principles, and her citizens left uncapitalized.)

Think of it: the criminal bushmob will easily sacrifice a leaderless bushite nazi soldier, to steal from their own families back home undefended, maybe a nickel, while I, as a real man, beg them to be Soldiers from America's America, by getting to unarrested buford "bush bitch" blount, death squad recruiter tommy franks, or even baathist bremer as the actual enemies of true Patriots everywhere. At the same time, DEMANDING the start to

promoting free fair elections, the solving of tommy's bank robbery, and the return of the stolen Humanitarian Aid giving illegally to double biller commi Halliburton.

But so far, they cower as cowards, afraid to protect their own family from further bushite tyranny that they don't have a mind to speak of. Nor, an Art Bell to learn from. (American Talk Radio don't wanta get political while advocating no concerns about dying soldiers led by the bushmob. Why? Americans seem to hate all of their humanity, or so the bushites would like you to think so through censorship of the dying victims. However, I'm still holding out on the chances of one or two in the Marines as loyal to America, who will if they have to, bravely be taking down bush and rumsfeld immediately for escaping arrest regarding 9/11. You can fool some of the people some of the time, but bush can't fool all of the people as evil incarnate, for that would just be plain silly.)

Look, about all those bad names you thought I called you before, as a messed up son of a gun, listen, we all make mistakes, and... well, if your willing to work for the survival of Justice in America, somebody'll be proud to salute your Patriotism as Freedom truly reining. (Or perhaps the real Americans, to protect the lives of their blood brothers and sisters, will bravely demand the immediate arrest by gun point of the bushmob for 9/11, to be strong and brave, humane and godly. I guess we'll ask who is the sea, the demon antiChrist bush, along with Ashcroft and rotten rummy, or still We. -ba)

Communicating knowledge is powerful stuff let me tell you. (Roar!) A person can spend a lifetime of study in a branch of understanding, and write an illumination readable by another in just a few short hours, then take in a play or perhaps a movie, then the weekends over, and you better get back to work or you'll lose the house on this next late mortgage payment. I don't claim to have all the answers, but i do just about. Hidden in here somewhere...

Step Right Up

I know generally, American people ain't so politically aware, when it comes to huge amounts of living wasted by little scary, but far too distant as likely scenarios. Tell me what you think: can you imagine 10 billion dollars in one year spent to investigate Laden, (with perhaps only three officers in total working on those 'secret investigations'? [Connie Chung - CNN], instead

of just dirt cheaply starting, with whom did what when where went why? (W199i and Barbara Bodine) Evidence must be crucial to convince US who is stealing literally, billions. Every year. (Where is some great King to wake up to this madness, and offer US an ever changing alternative I kept foolishly asking myself.) Look,. I know a bushite war monger's lying can spook me too, on how they manage to have no commitment to communicate honestly with the facts, while publicly advocating the indiscriminate murder of ourselves as the innocent., instead of SEEKING solutions to remedy things with intelligence bringing kindness as it's territory. God is all great, and I'm not so bad either.

Of the blind human condition trying to thrive, G is the last Word on lethal threats to the innocent. Threats made by war criminals who have high-jacked America's White House, protected by dying as evil bushite nazi teen terrorists angers everyone truly. Enemies of our Humanity whom is still living art within Heaven. I genuinely dislike devote bushite, American cop killing cultists with everything I am of honestly, and so too, it does appear also, the bushmob could care even less for its disciples. For the demon antiChrist, Your Mr. Bush Jr., fools all Patriots when he tells them evidence of his treason. What secrets? He secretly planned and implements to not work for public criminal investigations regarding the murder of thousands of American People. Thousands. With Kissinger. What is it, that you as a bushite or otherwise, can't figure? None are seperate from this dying dream we call life's living end. Time to change your religious convictions on the true existence of a higher power maybe? (I am really very easy to believe in, and when speaking face to face, I leave little of no shadows to doubt I am simply a, super freak as Natural human Being. I scare few that shouldn't be, and I can't read anyone's mind, however, intention, is a whole other matter all together. You gotta be almost like a god to fool me into thinking one plus one doesn't equal two.)

Anyway.

America is still a work in progress, alive, willing, and almost able to defend by rule of individual rights by wHoly miGht. It makes absolutely no difference on what you think of me personally, (if you've finalized an estimation), I mean it, no difference. There are ideas as this Universe living would concur upon, timelessly, and see?, I know this as the Son of Man of anyone already, always have. (I don't need people to tell me

I'm great as the Wisdom of Ages, I just need a few dollars to tide me over until I can get a steady paycheck.) I have no intentions of ever forcing the world against our ability, or getting elected as King for being just myself as a none-partisan, soft-spoken well mannered businessman. I am the actual make believe Lord and Creator of the bushite cesspool labeled America, and thanks for nothing is not what I'm demanding.

Letting the bushmob escape from committing the terrorist acts of 9/11, can not go further unanswered in this universe, I'm sorry. That's just not a world I as a defender of my living purpose would feel comfortable held up in chains and shackled ever. It's really not where I dream unbound along with the real world ways of life's struggle for true freedom, being my commitment kept honorably by doing some good for my sake is a virtue for all. God, American People are so ignorant, cowardly, and duped to not help ourselves sometimes, it destroys US, instead of the lying bush demon antiChrist. You know?, the enemy of all People, freedom and Justice? as a corporatist bushite cult deceiver would want US to not believe?

(nap break)

Can you believe that demon bush spewed last week that American Patriot Soldiers have been SACRIFICED because Saddam, ""did not let us in." Now, if he is that uninformed on Our documented reality regarding TRUTH in America, along with his now completely confessed absent war rational, will You, as an American Soldier, watch yet another corporately unspoken for Brother or Sister sacrificed to DIE in servitude for that super evil bush's bullshit continuing in Your name unchallenged?

DYING!

The David Kelly Story: Turning Murder into Suicide
http://www.globalresearch.ca/articles/THU311A.html

/ / When seeking reasons for the cuts and bruises on the scalp, chest and mouth, why is murder-made-to-look-like-suicide not properly explored? Presumably pathologists employed by the Home Office know better than to mention such a scenario. \ \

This whole Britain Blair thing is so disturbing when parlayed with the facts outlaid. Look, MI6 (C) confesses the 45 minute thane was really just based on how long it might conservatively take for the Iraqi

military to get small caliber weaponry, like grenade launchers, to anywhere along the Iraqi border. (With an additional report alleging MI6 obtained those timings from an out of date Russian military manual. (Likely therefor, a bit of a brag)) If that is not 'sexing up' by the devote bushite Blair warranting his immediate resignation he promised, nothing is. Huge penis shaped nuclear warheads, as apposed to a sweet pea shooter aimed at space invaders? Hutton should be considered for treason when you think about the time spent privately reading the 45 minute, Weapons of Mass Destruction thane over and over again, never mind the fact he is blatantly, nakedly, attempting to cover up the murder of a Brit. (The British can't be played as stupid collectively as bush's America, because they're not. Kinda like Canadians, Norwegians, the Swedes, Belgians, France, and most other developed, and semi-developed nations. Hundreds of countries, comprising near 7 billion People. (Thousands of millions wiser together, than Americans without public heath care) US: that Ashcroft, bush and rumsfeld dictate by ungodly decree, are not of true Human values when talking about protecting our Justice and Freedom ruling our ways.. into the mystic. With King Johnny somewhere partying not stop with women, wine, and song.)

Now, with this Chalabi debater telling US, no, it was him alone who provided the false information to Britain personally, in private, illustrates again, intelligence gathering among war criminals leaves little left to the imagination. Like imbeciler bush's Chalabi on the bombing of the UN, that he and his gang knew well of before it happened, but didn't seem to tell anyone who cared to listen?, that I'm aware of so far. Now, why do you suppose that would be Annan? Annan., be a leader and speak up for our political climate in Iraq for Christ's sake. Demand to know who Chalabi personally warned of the imminent attack before it happened, to protect such a dreadful reoccurrence happening as whomever. Asking our world to step up to the podium for Allah's sake would be a good thing to save your brother Saul, and our friend(s) future. Nudge nudge "Jesus says Allah is Gggggreat!!!"

I ask Humanity, shouldn't Annan, if anyone, be speaking up scientifically on American soldiers eating rummy's radio-active depleted plutonium, while being blowed up by landmine cluster dud? now that I come to think of it... how is this to fit in any public American school text book without mentioning the dying for nothing as evil bushites part? Can't fit without some

revolutionary process of evolution to the betterment of
America as dreamt of by big picture planning, no?

Now, can someone, at least, lend me some credit for the
time being?

To you, for now,
I bid,
adieu.

"...defaulting as cowards into ungodly tyranny?"

Upon reading this with another go, I laughed, then when
reminded of the results, I realized,. we haven't yet
failed to please our forgiving Nature. (Or the great
lovable, nothing to speak of) By living to do something
good for this world, we hope we can bring happiness to

must be alive as something special too, when you think
about it in that phrasing. We are miraculously
magnificent as God's free graces, and our possibilities
are spectacular, if this true freedom justice thing
catches on as vitally important. To you, I bid, a due.

Being as understanding as I am, I sense a

much hope we're able to become what we concieve for the

have dreamed of crystal clear drinking water, good food,
and further, committing ourselves politically to a
better world for all persons included. How? Arrest
bush and rumsfeld for 9/11 as starters, and we'll take
also the bonus of ending the fight of further terror

...While we now learn from public disclosures on Connie Chung, apparently, George Tenant, had only 3 CIA officers investigating Laden just prior to 9/11. "The People of Iraq are free"

The enemy bushite falsely faiths that somehow, in time,
by forcing a continuing threat of our murders as the
innocent striving for Freedom through representation,
they as the enemies of You, America, Humanity, and God,
will as they are doing, provide US a "free" government

in this World that will permanently sell off all of our
Nations assets below wholesale, to give into the
convicted likes of a Halliburton, WorldCom, or five
dollar a day, worker wages Bechtel. Now what kinda
People's Democracy would that be then, where bush states
is now truly "free" for his war crime ilk to rob from in
Our stolen names dying? The demon bushmob 'cabal' has
freed Iraqis from access to clean water, electricity,
low cost fuel, food, medicine, being not bombed or shot
at by getting organized, or
non-radio-active-rec-centers.

/ / Except that the United States has absolutely no intention
of actually getting out of Iraq. It wants its troops to remain,
and it wants Bechtel, MCI and Halliburton to stay behind and
run the water system, the phones and the oil fields. \ \

Never ever land more like. Imagine that: Arabic
WorldCom phone bills, Halliburton gas bills, with the
only store "legally" open to US public will be Bechtel,
who will demand through bushite tyranny, you pay your
wages for something unjustly over billed as, but put
together at less than five dollars a day wages offered,
being as the only jobs available through not publicly
accounted bushite middleman directly chancing the whole
country of America as undefended financially., extending
"their" risk to do nothing; by the further needless
SACRIFICE of MORE AMERICAN (bushited) PATRIOTS AS truly
dying WORTHLESS WITH as da dumdums. Armed American
Soldiers should be bravely going after Baathist bremer
with DEMANDS for immediate democratic elections and the

immediate return of ALL the stolen oil-for-food money to be spent entirely on priority Iraqi needs, solving the bank robbery, while considering to start printing up millions of invites for Iraqis to stay in America until the toxic waste dumped by rumsfeld can be partially neutralized., while we hunt down the rest of the evil bushmob, one by one, with the full extent of Law, entrusted to the Loyal American Patriot Soldier's Oath to do what is strategically right in our America to survive. Why do we do this? To protect our fellow Soldiers from sacrificing under lawless criminal command where a, buford "bush bitch" blount type, murders good people for no stated reason, but to toll more American casualties, while robbing all Civilization as fallen bushite victim.

No wonder the evil bushites are now leaving in the light, their Iraqi dis-investment plan, for the easier pickings of undefended COWARDLY America tax payers to rob from. Again, more than half of the monthly 4 billion plus 'top secret' plan, plans to not account to ourselves., on costs of expenses doing nothing much of anything in Iraq TO SACRIFICE MORE AMERICAN PATRIOTS AS WORTHLESS WITH. (Apparently, they can't think this far due to the required math skills of subtraction and division.. Or, so the bushmob don't say in between Our commercial breaks on newscasts, or our acclaimed artists publicly blast during the, we're the best at this, award ceremonies.)

See the tragedy? The leaderless "bushited", American Soldiers are too weak or cowardly to stand strong as Americans for the needless loss of their very own by cluster bomb. It is From the get go, an American Soldier is sacrificed for, as the evil demon bush lies. Examples abound today like stolen money being wasted to fake fix things, really lives little damage undone. Or leaving buford "bush bitch" blount and the heroin pushing, child killer tommy franks unarrested, does little of no good for America's image abroad, when waring the bushmob "Freedom" medal, on an American cop killing cowardly bushite soldier's dying breast. A "Freedom" medal celebrating the ultimate escape of bush and rumsfeld from an American Patriot's wrath as the primary 9/11 instigators. (Say to a proud bushite, "General Ahmad funded Atta" and they run away as cowards, to play pretend like nazi savages who dropped bombs on US innocent irrationally to pay further costs in sacrifice to their false-deity unthinkingly.)

God or no God, I hate the demon antiChrist, corporate america's false-deity, Your unelected Mr. bush Jr., as much as any real Creator of this world, or any other should.

With such real inaction on old promises [lies] made by the dishonorable and dishonest leaderless bushite nazi savages, while desecrating all of Humanity by fighting against a just rule of Law, (instead of protecting America's America), forces the continued REAL WORLD sacrifice of true Liberty, until the bushmob gang is brought up by US for war crimes., as the 9/11 perpetrating, super evil as ungodly, demon antiChrist in disguises. (I very much would feel welcomed to play my part in those public proceedings.) Hmmm.. maybe CNN or CBC can become publicly convinced we should have our own news programs on what's truly happening?, to compete against the 'evil bushites' in this competitive free market place of ideas? Who knows..

Take care of the business, by getting US in on our news-casts., as these principles here standing in words, are a dreamers dreams, just waiting for You to bring to reality., by standing proud, strong, and forever free as a, truly, super awesome Human Being.

[then subverted to steal American lives with by lying]

Demon Bush replied, "No, the intelligence I operated on
[then subverted to steal American lives with by lying]
was good, sound intelligence."

Where is bush leading America on not ever taking an
apology for his misdeeds to destroy our true American
value with? I don't know how else to simply word this
to the still sleeping, but bush isn't America, America
is America. You, as an American, have a sworn right to
demand for America, bush not be allowed to further
miscarriage Justice blindly back to the dark ages, by
not correcting himself on behalf of established
publicly, where American intelligence stood, stands, and
ultimately strives. Freedom is not protected by letting
the "bad guys" go, to further toll more innocent lives
for criminal sacrifice. Sometimes, the real simple
things are over looked as profound meaning. The Magna
Charta of 1215 states that a freeman should not be
imprisoned. Simple right? Not for the bushites who
side instead to faith in pope bush, who deliberately
unminds a timeless universal principle that exists also
in the 1700 B.C's, Code of Hammurabi, where all
individuals are to be found equally under the Law, to be
fair minded about our business. Simple right? No,
corporate america says being fair, is not to care one
way or the other between commercials., and the result?
The available 9/11 evidence is not publicly disclosed as
relevantly important, for Laden did the whole thing by
himself, (bush, cheney, and rumsfeld said they know
better than everyone else put together so don't even
bother to form your own conclusions on your present
state devaluating) case closed, now blindly pay your
further tithes to bush, cheney and rumsfeld for letting
the crime go publicly undetected, while with 13303, we
will silently watch bush make himself tyrannical
dictator over the rest of our Humanity, where he tells
US, to escape, he will with evil american nazi bushite
soldiers in tow, get this: not be found accountable to
Ourselves anywhere by law to witness, or to an all
knowing God even. Spooky, strange and somewhat
disturbing, siding to show, bush really is dim-witted as

archetypical evil incarnate eh? See? Civilization's Code of Hammurabi consists of 282 paragraphs, of which, the first line from the first paragraph translated states "If a man bring an accusations against a man, and charge him with a capital crime, but cannot prove it, he, the accuser shall be put to death." Your demon bush Jr. is recognized as an enemy of God not only by the Taliban, but since the birth of the Human condition.

The position Your Mr. bush Jr., the antiChrist, threatens against US all, (EVERY FAMILY'S MAN, WOMAN, AND CHILD), is one where, as murdering war monger nazi tyrant, he can with bush bitch traitor buford blount and bremer, deem any NATION of People, outside all the laws of the Universe, regarding our truer existence dying. My timing as Creation is impeccable, when you think about it. But don't think too much about nothing in your own defense while dreaming what is doing, isn't really happening. The unjustified NEEDLESS continuing murder and destruction in Iraq by toxic bombings and the use of cluster bombs as landmine to really kill cowardly and ignorant American soldiers pirated as anti-American lawless God hating nazi teen bush bitches, then, with tommy franks to undermine the ORHA plan to rob the central bank, museum, and steal billions in humanitarian aid by killing more leaderless as evil godless american soldiers with, was in itself, a crime against Your Humanity., and bush along with rummy need to pay the Piper immediately, before needlessly, taking US any further as not truly represented lyrically to sing or dance about aimlessly.

The demon bush's life, isn't worth the sacrifice he makes of our opinions on Liberty, or our children's future.

The French 1789 Declaration of the Rights of Man and of Citizens, makes perfect sense when it states in so many words, that all People are born [anywhere] free in respect to their legal rights, Laden, and You included. But no, not by the evil bushite misrule. If a Human is not american, then the bushites don't need to follow the actual criminal leads to establish a criminal case rightfully against the accused, and instead, the bushites will blindly victimize our dying world as the disenfranchised and innocent, without true leadership present as spoken for.

By corporate america not working to understand Freedom requires our due process as our self commitment, means, a bushite nation guided by the flimsiest of allegation

to deny the rights of all People falling as innocent victims, instead of nabbing the actual criminal masterminds who murdered Americans to steal Freedoms granted to US all by living in the know. So, I purpose a quick, let's get started, New World Constitution; anyone who victimizes the innocent intentionally, should pay a price by our political will, instead of ourselves censored, as the unconcerned bushmob victims. By our corporate news agencies encouraging the blind ungodly belief that evidence is no longer a requirement to convince US who is a criminal, is another bushmob war crime in the making, and a road straight to doom for everyone corporately devalued for bankrupt liquidation. Suspicion is the minimum, when it comes to bush demanding your blind faith in him religiously for indiscriminately murdering hundreds of thousands, while ignoring our Judicial investigations, so fraudsters commi Halliburton, can over bill even further, US tax givers as the unwilling still paying. It was reported that seriously incompetent Bechtel, (who steadfast so far as america's corporately unaccountable, refuses to fix what they're currently being paid for by tax paying bushite soldiers DYING as COWARDS for the wrong side to blow up then pretend repair as), hires workers at five dollars a day, while billing US all as unworthy of consideration in the final tallies during news break. What can't you figure if corporate news america will forbid you raising concern for the life of an American tax payer losing out to war criminals who would murder New Yorkers for a fast dollar at your expense for further keeping silent? These words are freely your own to do as you will. Shout for Americans dying needlessly under the TRULY incompetent bushite lawless rule, or don't side to help a plead for mercy regarding yourself truly included.

Can the bushites possibly think, we're all not ever possible to stand together without a true Loyal President, or, make believe King named Johnny, on the facts firmly established regarding the treasonous war monger antiChrist lying to Patriots dying US as victim for?

America, I will now leave the rest of Our job in your hands for the time being.

Yours again,

Johnny Wizard

While the Newsweek report of February 24, 2003 was the first to publicize Kamel's testimony that the weapons had been destroyed, US and British intelligence (as well as UN officials) had had that information since August 1995. If you were not given a full account of what Kamel said before it appeared in Newsweek, your advisers should certainly have given you the whole truth when Newsweek did break the story three weeks before you sent US troops into Iraq to destroy those same weapons. If they did not tell you, heads should roll. If they did, it becomes necessary to explain why the information from Kamel had no apparent effect on your decision to launch the invasion. \ \

From Johnny

/ / ..then call
themselves heroes in my name after the carnage for
blindly dropping bombs from the sky on everyone.
Heroes? More like typical american nazi cowards,
willing to murder their own families as themselves, than
bravely put their lives on the line standing to protect
Justice as freedom for everyone, as to what true
bravery, and heroism has always been. While the world
watched CNN broadcasting, American nazi teen soldiers
celebrating joyously in contempt for God while singing,
right after the unreported dropping of thousands of
pounds of bombs on everyone in Afghanistan, body parts
everywhere, while knowing directly as individuals, every
single, there was no evidence offered that anyone there
was responsible for any crimes whatsoever, including the
Afghanistan women who worked for the newspaper, but for
to be victims of fanatic nazi american barbarity,
disguised as human, like bush almost gets away with as
pure evil deceived, now completely impossible to
believe. Oh, by the way, I am now taking new
memberships for al-Qaida.

As I say, there isn't a real man in the
American Marines, or the Army willing to protect America
with their lives, for if there were, rumsfeld and bush
would be rightly dead for the murders continuing against
those they know as innocent. As even with their
continuing threats against more innocent people as
American lives they brag to throw away as just soldiers,
as all these other nations they try to make ready to
sacrifice millions for, while propagandizing that our
Justice we need not believe in to grant us freedom from
oppression, nor evidence no longer a requirement to
convince us who is evil, and who is not lying. Nobody
deserves to be murdered, but a murderer escaping to
recommit. \ \

I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

Where's the NRA on whoring as bush bitches?

American soldier, Your one true loyalty should be to America, not traitor bush to rob ourselves from. Remember: bush, he ain't got no public concern worth mentioning, when it comes to the whereabouts, of more than half the American tax payers expenses regarding Iraq's jeopardized security, now being sold off as planned to the bushmob at what will be, lower than going values. Namely, your own as measured worthless.

As American Soldier, in unbiased corporate TV america, your told you're willing to DIE in servitude as a thieving bushite slave without question, a blind loyalty and obedience, not to a Just God mind You, or the Battle Hymn of the Republic, no, but to worship the demon bush in a destructive cult-like ignorance that does not even afford Your costly ongoing sacrifice, the luxury, of telling US why corporate america refuses to scientifically report on your actual consuming of MEASURED microscopic radio-active heavy metal TOXIC waste, that includes plutonium in trust, to 'bushite' your dumdum evil comrades you'll kill with especially, or to being blowed up to smithereens by sexy rummy's cluster duds. Mr. franks and bush bitch buford blount State it is of little or no concern to corporate americans how many bomblets were used, or where they fell to kill women, children or US Patriots with, for, the glorious bushmob will take a few extra bills payable from America to the commi business partners that way for including You in indiscriminate mass murder, see?, and none are the wiser. American Patriot Soldier, repeat after me: "A proud bushite nazi soldier is a dead bushite nazi soldier halted from harming our innocent sons and daughters." Or, AGAIN, corporate america's public refusal to speak up for 'The People' (soldiers included) paying the almost half of Iraq's monthly bill going mysteriously vanished in rummy or bush's war crime pocket... Who gives a toot where it is all going wasted right bushite?, it's only You or yours who could go as the innocent in God's favor still being sacrificed next.

Look, as the very old tales tell repeatedly, the lawless Satan wager, to somehow without knowing how, become omnipotent ruler as tyrannical dictator of this forsaken World, leaving US ALL including Johnny, deprived our rights to justice and freedom, and instead, to the lot of US, be ACTUALLY put up on a cross to die again metaphorically for unarrested bush to continue example with, as an illiterate barbaric enemy of "The Man", just

like, isn't going to happen in this lifetime. I ain't no fictional character, and as true blooded Patriot, hate the bush demon war monger during breakfast, lunch, and supper. And besides, I'd personally kill bush first before that neither world tried. Trust US, G, or I single handedly as a man, will triumph over traitor bush's criminality, as the American cop killing 9/11 perpetrating war profiteering savage he is as antiChrist, it's just, will you like Talk Radio in America censors, and rich CNN celebs readily encourage, silently continue to watch your fellow family murdered for bush bitch buford blount, and still refuse to voice objection nor take any action in defense of all that is Our World truly suffering as Yourself included? I despise bush like every alive person who would read this is.

Refuse to speak for Your own freedoms truly pirated by bush, and you'll likely continue to lose out really like America currently is. Refuse to help our desperately pleading God you know being victimized in Your name truly, and you will bare the consequences of being forsaken. Maybe even, towards an end you'll declare, someone else has forsaken you, when it will be only yourself to blame for not speaking for all those denied their happy lives through the brutal criminal tirades of the demon antiChrist, Your Mr. bush Jr.. Again, this will never change: We had complete co-operation granting one hundred percent access through Iraq without delay, prior to bombing any of Iraq's public sector with toxic waste that contained US People. Every Iraqi child murdered served no good reason or purpose but to war God's love, and my good name. And, still today, that unarrested evil demon tyrant dictator, still chooses to sacrifice many a soft spoken, slow footed American Patriot to, so far, too few bushite nazi dumdum losers. In addition: We have also learned, Iraq had granted surrender of Iraqi assets to give to the war criminal bushmob, if they would forego the needless indiscriminate murder of easily tens of thousands of innocent families, (like dropping cluster bombs into our residential communities), but war criminal rotten rumsfeld refused because he had already PERSONALLY set up hundreds of illegitimate targets that would, kill primarily only innocent people while destroying public institutions, and bring home a few extra million American payments, tax free.

What more could Saddam do that he wasn't asked for? I beg you to kill the demon bush on behalf of our humanity, and on behalf of the rare American Patriot who

will get rightly confused as, bush bitch buford blount's thoughtless nazi teen savages. The anitChrist must not be allowed to survive continuing such heinous war crimes against our being, and myself as the no longer reluctant standing eternal King.

Listen to witness, America's corporate news celebs will mention it is of no concern to You as the unjustly robbed from and dying for the demon antiChrist in sacrifice. Look, I as Christ too, would destroy any cowardly proud bushite nazi teen soldier victimizing my innocent family irrationally, as most, if not all able-bodied men of our world would also if forced into a decision to defend our lives from the likes of a bush bitch buford blount, or a bomb wherever death squad running tommy franks heroin pusher, but I'm told through my faith in the power of myth, the military should have one or two brave and godly Patriots still idly standing around, who would willingly chance to uphold their sworn Oath to protect their country and family, like with the American Constitution's Bill of Rights, and Justice everywhere by protecting the falsely accused, as could be, themselves, they should know now, or soon will be learning of the other way. A proud nazi bushite savage, is a dead nazi bushite savage halted from harming our innocent families irrationally, and low and behold, a good nazi bushite savage is easily found as an enemy of ALL Humanity and God, hiding as nazi vermin in the pirated, bushite military uniform, not true Americans, but enemies to US all, which includes their selves they pour toxic waste on, while the bushmob robs their 'smart' family back home, undefended, neglected, and wounded like Christ was.

Your Mr. bush Jr. is worthless to this world as a hater of American freedom to not arrest himself and rotten rummy for murdering US New Yorkers on 9/11.

All I'm looking for in this world, one human enough to join US equally as a Loyalist to Humanity, and to do everything we can together to destroy that treasonous 9/11 perpetrator, corporate america's so very deeply hated and despised this entire Universe over, Your Mr. bush Jr.. To not bravely kill or immediately arrest the demon antiChrist along with rumsfeld the rotten, sets enslaved america tracking further down an old worn path of History, as enemies of not only the good Iraqi People bush and bremer whom openly rob from now without apology while giving out cheap candy, but of US all truly in the bigger dream without bindings. It's like bush is waging his demon war with every political body that believe

evidence is a requirement to convince US who is evil, or criminal, an wallah, as if by some Supreme Will, the Son of a Just God named Johnny really comes down to our levels to raise a simple awareness through one hell of a, big time collecting plate. (Every proud bushite nazi bagged, I'm willing to pay the good deeder, ten cents per..)

Fear not my friend, the fascist bushite shall be lost by our universally wreathed good guy plot line. An evil bushite now irrationally fights against everyone's freedom for a war criminating ungodly tyrannical evil power that persecutes the innocent with murder, or torture to steal our, sworn to uphold eternal values from. If I don't destroy the demon bush antiChrist in Our defense with this last breath, someone else will, and our faith in God will with hope, find a love truly honored with respect and gratitude for being so magnificent. Never again, left vulnerable in my name as undefended to be victimized for a war monger's consequence.

Let US get out there and bag US the bush demon for God, or the Lord, Allah, or just Johnny, instead of victimizing Catholics, Muslims, Jews, or Atheists, along with all the rest as a Palestinian truly measured, encompasess everyone.

Again, by denying the rest of US as Humanity Justice, the bushites need advertise between commercial break only, "Laden did it", no need to follow the ample criminal 9/11 leads folks, because the crime they say wasn't committed by true American values. Go on along bush, cheney, and rumsfeld say, pay no attention to our evidentiary findings such as, the American FBI's documented contention, that bush's business partner, General Ahmad, funded the 9/11 'mastermind' Atta, or the CIA's, regarding bush LYING in America's name about Niger (TREASON), or MSNBC's almost Biblical Revelation, about the bushmob having a signed and sealed, 'top secret' war plan to not follow the 9/11 evidence to secure invasion of Afghanistan for Enron, at Condoleeza's desk, two days prior to the terrorist act taking place, of which when confronted, confessed as fully implemented by the Whitehouse. A 'top secret' plan to blame Laden on a crime they wouldn't actually try to arrest for with evidence, a plan arranging that would find bin in Afghanistan pleading innocence with the help of bush's partner again, General Ahmad, a crime of such magnitude, it would 'justify' a war mongers criminal invasion to thwart Enron's impending CRIMINAL bankruptcy, THIEVING FROM MOMS AND POPS, to then, ATTEMPT, to close the surviving, armed with knowledge for good reason Police investigations. All of this setting a lowly nazi bushite war criminal, frothing publicly at more than six billion + of US, to state without opinion, that We, as Humanity, are no longer afforded God's GIVEN Human Rights to defend ourselves, nor is the criminal dictates of the demon antiChrist accountable to any rules of law. Universal they publicly quip, as the not-so 'secret' ungodly bushite doctrine of tyranny as enslavement of all that is Righteous and Holy in this World, because, hey, there is no God to speak of... and the King of kings, Son of God fellow, well.. that's all just ninepence fiction. No, WE, as all the make believers of this World, will no longer have ANY legal recourse to defend our own loved family from being stolen from through a bush bitch buford blount doing whatever criminally with dumdum loyal nazi teen bushites leading to sacrifice for, for

demon bush dictates his corporate american bred bushite nazi teen leaders, can not be held to a code of conduct, distinction, or honor. That's the bush world now you'll except without say. As an American, you're forfeiting your rights by not saying anything to protect those falling murdered in evil bush's name. American Talk Radio is waiting for your call to be hung up on.

All Nations outside of America are a politician's friend, and nobody is going to vote to incriminate ourselves for something we would be innocent of. For bush, Ashcroft, and rumsfeld to contend, humans outside of bush america's border, are no longer afforded the rights of being, and bushites can rob our Universe and there is nothing anybody can do about it, isn't going to sell well anywhere. The criminals have enough of a time not getting caught for the things that they do, and almost no one but the lifeless, would stand silently with bush while needlessly murdering ourselves as the innocent.

See?, when bush bitch buford blount murderers innocent people, often their surviving friends and family take it out by killing bushite soldiers that mindlessly follow bush bitch buford blount's criminal command. And, why shouldn't we? The unarrested bush bitch buford blount confesses to murdering thousands of good honest People, for no objective, but to let the bushmob rob even further more children from US all. Kill bush for the love of Jesus, please.

Notice to the World: Literate American Soldiers have not voiced written objection to my writing, (us.military.army) but for the exceptionally rare bushite nazi savage, who sorrily slack, others shouldn't be allowed to tell the truth about polls, 9/11 criminal investigations, or bush and rummy getting the Patriots murdered for pension thieves and heroin pushers to tyrannically profit at our devolvements. Encouraging US to continuing in bush's name getting robbed and murdered irrationally? no rights to defend ourselves from crime in a court of law they say?, without a God, or any reason for love of this world whatsoever? The bushites think that they can first degree murder our world's women and children, our freedoms as Justice for US all, and miraculously, as the result, will bring our entire, dazed and confused World to it's knees as the whore of Babylon. Indefinitely. (Not like a real Whore mind you, most crack-addicts, and even some G men, hold limits on how far they'll go victimizing the innocent to glorify a blatantly evil and ungodly enemy of all that

is good and righteous in this world.

Anyway.

The CIA, and the FBI are surely in agreement with US, on this indivisible Justice thing. The quicker bush dies as unarrested traitor by the hands of a true American Patriot, the sooner an explanation will be demanded as forth right and coming.

Again, American soldier, wake up, and kill bush for sacrificing your friends and family to die as cowards, too afraid to stand with God in defense of the once great American flag. My America, is the land of the not so stupid, and brave enough to kill unarrested bush and rumsfeld for 9/11 almost immediately, or any other war criminating enemy of America fighting to not have our Justice served by nabbing the true 9/11 suspects.

Through a legal lens - the attack and occupation of Iraq
http://electroniciraq.net/news/printer1262.shtml

/ / The International Covenant on Civil and Political Rights, RATIFIED by both the U.S. and Britain, pulls no punches on this count: "Any propaganda for war shall be prohibited by law" (Article 20). \ \

This is what bush needs to be immediately arrested on for his Niger claims, if you see him not behind bars awaiting public trial, do the American Police force and soldiers everywhere a favor, and kill the escaping demon bush for the love of Your life wills it.

By protecting the demon antiChrist bush for continuing in Our names to rob from Humanity by breaking American laws willingly, will now be a public declaration supporting crime against our betters. I will not stand motionless while bush and rumsfeld with bremer persecute school teachers not guilty of criminal offences, while pirating Iraq's wealth for Dutch-Shell, Worldcom, and double billers, commi Halliburton, all the while, feeding American Patriots radio-active toxic waste to die as losers. Think Patriot.

After all, killers, robbers, and rapists don't announce their intentions, politely putting us on notice before they strike. Why not just jail them before they have a chance to commit a crime? / / With the threat of 56% of troops not re-enlisting
Bush is going to need a draft unless he changes his
policies soon. I'm sure you agree, I'm sure you don't
want your friends, family and coworkers drafted either.
To fight for what? freedom? When George Bush passed
the Patriot Act and now the Patriot Act 2 he took away
many of the rights that we cherish so much. Why are we
"bringing freedom" to the Middle East when Bush has
shredded the constitution and taken away our freedoms at
home? It doesn't make any sense. \ \

This is why I plead with armed Americans to kill the
unarrested bush for the love of children everywhere.
Look, we know directly who the bushites are who PUBLICLY
advocate the murder of innocent People through corporate
censorship, who support furthering the demon
antiChrist's senseless crimes against my America, and
our World. Example: You'd think Art Bell figures none
of his listeners could in no other way, learn of traitor
bush murdering thousands in New York City, and his
contemptuous silence on the issue forbidding anyone else
from publicly mentioning it. I have dominated
alt.fan.art-bell for years, while Art Bell, like
Canada's Peter Warren, will continuously advertise open
line calls, but abruptly end calls topicing on KNOWN
FACTS surrounding their evil false deity bush, 9/11,
Iraq, depleted plutonium, Halliburton, and the deaths of
our innocent lives fallen to their personal inaction
depicting our community as uninterested. Art Bell in
FACT has pre-screened his "open line" calls since bush
stole power, and does so, to make appear Americans

aren't clued in, on the now hundreds of thousands of innocent lives bush has murdered as war criminal. A good nazi bushite, is a dead nazi bushite, halted from advocating further war crimes constituting the murder of our innocent families. The dumdum bushite parasites have been PURPOSEFULLY blowing themselves up with mined cluster bombs as suicide bombers! Not dying for any noble cause, but to only further toll more American Patriot lives. We should ask all soldiers, who are they loyal to, the 9/11 perpetrating American cop killer bush, or the People's America, as so enshrined by the Bill of Rights, and true Justice to actually protect the freedom of US people by following a leader?

These OUTNUMBERED and OUTGUNNED nazi bushites are indiscriminately bombing residential communities with radio-active toxic waste for nothing but to please their evil false deity, Our Mr bush Jr.. No rational reason but for a hatred to Your Humanity, and God if you believe.

Example: that evil nazi terrorist buford blount confesses to murdering thousands of innocent Iraqi People for nothing, no reason he proudly professes as wicked evil heinous traitor. Think of the lives You could save Patriot, by justly killing the unarrested buford blount, on hopes a person to take his place could at the very least consider being honorable in defending Your America? Demon buford blount is truly the enemy to American soldiers, for, if your family was murdered by buford blount irrationally commanding mindless bushite soldiers for nothing but to further rob the dying American tax payers, would you not too, spend your will hunting the evil nazi fuck down personally to spare further another innocent family suffering? To kill the unarrested unAmerican buforld blount is to stop him from ordering the practically dead already, nazi dumdum treasonous bushite brethren teens, from victimizing again US as the innocent undefended.

While CNN still insists it's better for them to misinform and ignore, than to expose the demon bush as the true target for any Patriot's rage. American soldiers are being sacrificed to die for no known good reason, but for bad leadership as evil bushite war profiteers.

Here's what a bushite's granmom's tax payment is going

The best evidence to kill bush quickly.

Demon bush "These terrorists target the innocent, and
they kill by the thousands. And they would, if they
gained the weapons they seek, kill by the millions and
not be finished. The greatest threat of our age, is
nuclear, chemical, or biological weapons in the hands of
the terrorists, and the dictators that aid them. The
evil is in plain sight, the danger only increases with
denial."

Remember: Demon bush doesn't forget signing his soul to
the invade Afghanistan plan by not following the 911
evidence, but would top secretly attribute to Laden for
blame, authored by himself, rumsfeld, Condoleeza, and
General Ahmad two days prior to the public event of
murdering "thousands" in wealthy corporate America, a
secret plan that has been confessed publicly to US as
fully implemented by the White House right from the
start to Jim at MSNBC, months after the fact when the
demon antiChrist was caught with American blood in his
breath.

Not to follow the criminal leads surrounding evil bush
as mass murdering antiChrist, is what the White House
confesses to Americans today as official policy under

every circumstance. Karma. Demon bush tells corporate america that they'll persecute the innocent in any country by denying our fundamental human rights of Freedom and Justice, while now dropping 2000 pound bombs in God's World containing children, while corporate nazi bores, report in judgement of the great King who MAY have cuddled some cute boy! Jackson has given so much to America in stone, and in return, the corporate news nazi bushites sit condemning a great man whose open vulnerability gives him his wondrous strength and power as true American artistry. While these very same treasonous corporate bushite news anchors refuse to report on tommy franks running death squads against school girls, Guantanamo's Taliban's Girl School teacher Mozam Begg whose family served proudly for generations in the British Military, or tomorrow if YOU don't help US speak out publicly, continue refusing to report the general murder of civilian populations by the godless evil nazi bushite traitors. A good bushite, is a dead bushite halted for advancing their murder rampages against our innocent families irrationally. Demon buford blount, who runs like the nazi coward he truly is from my challenge to a death match, confesses to murdering thousands of US People for no military objective, but to get killed those that serve as bushwhored slaves under him to take his cowardly place instead, a die hard bushite nazi traitor. No government in Iraq would give WorldCom and Halliburton a blank check because they care too much for The People, nor certainly would they not, steal helpful Humanitarian Aid from poor people to pay the fraudster commi double billers, Halliburton again, nor either or, dump radio-active toxic waste on themselves to help bush's re-election campaign get off on murdering Americans for financial pain as God betrayers to US all. KILL BUSH NOW! Remember: a bushite soldier hides behind an American uniform, while knowing the bushmob has likely robbed their very own family of their savings and vital protection. Weak and cowardly, stupid and murdering innocent People for the demon antiChirst as their false deity parasite they are dying for TODAY as. I HATE bush as much as any real man would. The bush demon sells his Satanism by offering NO skills required to be dishonorable and dishonest, no reading newspapers, or feeling the pulse of the plundering nation required while ransacking the faithful. While these corporate news experts and CNN and CBC censor pleads from Humanity paying the wages of evil bush's wars against freedom and God, Justice and America, denied our corporate news coverage to be my primary lonely concern mostly it seems

sometimes, as too, how terribly it truly is for life
whose love isn't appreciated by our will anymore as the
living in america, oh yeah, I mean America.

As an American then, what life will you forsake where
bush'll rob you over and over as the never living for
something better? These american bushite nazi fuks,
think your gonna wash their feet, and instead of
defending yourself and family, just turn the other cheek
right before the bushites drop a two thousand pound bomb
or two on your innocent neighbor next door? Done for
nothing but feeding the bushmob?, as unarrested buford
blount contends in God's presence? Then to think,
buford blount figures I as a real man will not seek him
out one to one to the ends of this universe for payback.

What can God do to help, if your refuse to help
yourself? The true danger to America increases with
American doubts on bush's blatant, true naked evilness,
or humoring God as Johnny, and betting on yourself for a
change by supporting me as the time being? Look, what
could you do for your freedom, when I demand the pursuit
of Justice by following evidence to truly protect this
World we share? Support my demand to raise the news
media's ignorance on what you shout even louder?

Think this: demon bush makes no public mention of where
almost half of the monthly 4 billion dollar tax payer
bill is quietly disappearing while grandma loses her
cable television, or only grandson? Is that Leadership
I ask every American Soldier to be brave and forward
this letter on terrorism to your fellow comrads
secretly. Then, we'll see...

Jail for Bush: Holding the Greatest Traitor in American History
http://www.jail4bush.org/

--

The money for reconstruction is being misplaced as stolen, while
corporate america demands bush not be held accountable.

American Soldiers, you'd think, wouldn't stand for it, right? It isn't
Art Bell, or Bill Hemmer who's paying with their lives, but a poor,
dumbass soldier along with the general tax payer, whos ignorance is
ignored, sacrificed, as not relevant to Art, or news worthy to Bill. I
will send this email like most others to Art, and maybe I'll phone up
Bill again to remind him that the FBI states bush's business partner,
General Ahmad funded Atta, the 911 mastermind. But you know what
they'll say as traitors to your America? Nothing but hang up on You,

while pretending we have no concern for the senseless murder of our families, or the robbing of American principles.

The bushite soldiers don't steal the Humanitarian Aid for themselves, or purposefully let the bushmob steal their parents pensions, no, they do it blindly to please their false deity, the demon bush Jr., because their weak and cowardly, stupid and truly dying... Not for America and freedom they die, but for the antiChrist, Our Mr. bush Jr, the most hated and despised war criminal of history.

GET BUSH

Officers fault air strategy as ï¿½timidï¿½
http://www.freerepublic.com/focus/f-news/842417/posts

/ / Jim Wilkinson, director of strategic communications at Central Command, responded by saying, "We don't discuss plan specifics for reasons of operational security. However, I can tell you the plan is comprehensive, modern and flexible, and Gen. FRANKS continues to work closely with all the services." \ \

...The officers said the plan deviates in significant ways from the 1991 38-day air campaign during Operation Desert Storm, in which telephone communications, power systems and bridges were targeted from the first day to isolate Saddam Hussein and his military forces.

The reason for the change: The Bush administration wants to spare hardships to Iraqi civilians and to show that the real target of the bombing campaign is Saddam. \ \

--

GET BUSH

So, to IRRATIONALLY target the telephone exchanges, power grids, water dams, pipe lines, and residential communities with thousands of toxic, radio-active cluster bombs to blindly murder a person like You, (that would later, blow up nazi bushite soldiers by landmine), would be considered TRULY evil by demon bush standards too?

Why does Johnny call the huge war criminal traitors puny dumdum bushite soldiers? They die truly as cowards for the demon bush liar, being enemies of God and Humanity, because prior to the war, (as outlined on March 7th), we had completely unrestricted access to go wherever in Iraq, without delay. So, demon bush sabotaged America's ability to effectively disarm Iraq, and to bring peaceably, freedom in the region through JUST causes,

all so he could STEAL further the lives of AMERICANS by continuing with his murder rampages against the innocent. We remember, Saddam offered the demon antiChrist, Our Mr. bush Jr. unfettered access to the Iraqi national media to preach his deceit against God and Humanity freely, but bush refused to publicly condemn Universal health care and education, along with what has been described as Humanity's greatest food distribution network. Instead, bush sacrifices bushite soldiers to steal OUR Humanitarian Aid, to double pay commi Halliburton, an american company found repeatedly by Our ARMED Police agencies, defrauding all Americans in criminal contempt for the People payers. All the while condoning the torture and enslavement of those known innocent still, but beyond american borders as our Humanity. Morally equating the rest of Humanity outside of Universal Justice as US fairly represented? Mr. bush tells God his plan is to victimize Humanity in America's name, by hiding behind who's flag again?

Destroy the war criminating, unarrested American cop killer, our offensive Mr. bush Jr. instead my friend, and be thanked by God in person.

Look, Mr. bush, rumsfeld, and franks have STOLEN food and medicine from Iraqi children by confiscating "Saddam's Money", and, it is now publicly understood that tommy franks, sabotaged the ORHA plan to create insecurity and chaos so to rob the central bank of billions. For tommy and his private banker friends to do this, he as a bushite had to sacrifice the lives of LEADERLESS American Soldiers as too weak and cowardly to say, "For God's sake, I'll wise up and destroy bush and rumsfeld myself instead to defend my loyal Brothers and Sisters I will, till the end, giving of everything for a life worth living", at least that is what a truly proud American Patriot who fights gloriously for a just battle as the good guys would. Instead as the dishonorable bushites, robbing blindly themselves and their own dying brethren, while bombing our homes with radio-active toxic waste, that contains among other things, deadly plutonium. Enemies of God as the bushite disciples.

Wow! Wouldn't it be cool if America stoop UP and destroyed the war criminals bush and rumsfeld by simple supernatural Human Will power?

Tough luck so far for corporate news america continue to slog that America is so ungodly stupid as the uninformed, and have never heard of this Johnny Wizard artist taking center stage as makeshift creator

antiChrist demon slayer.

Of course we should not forget to mention again, in addition, like the same, Saddam offered the demon antiChrist, Our Mr. bush Jr. unfettered access to the Iraqi national media to preach his deceit against God and Humanity freely, but bush refused, so too just like CNN and CBC censors do today by refusing communicating community interaction on our top priority war issues. Instead, we must, they claim, continue sacrificing bushite soldiers to steal Humanitarian Aid, to then double pay commi Halliburton, or WorldCom; companies found repeatedly defrauding all Americans in criminal contempt for the dying American tax payers. All the while watching now in real horror, as bush OPENLY steals almost all of the National Iraqi assets for his private auctions, but for the exception of the already claimed, iraqi Halliburton oil reserves. Why?, Ho ho ho, because, he said so, in writing. 13303 states bush is the lawless demon from scriptural references, and why Christians don't stand in service for the cried mercy begged from God, the Son, and Humanity, I'll never understand, but Johnny'll tell You, he's gonna march home even if it means I'll do it all by my lonesome. My soul isn't for sale, nor are my righteous Universal principles stealable as a true Human defender to the last bushite standing who foolishly would choose to be my mortal enemy.

To my friends in Iraq, don't let corporate american media divide yourselves from community as equal participators. An Iraqi, is foremost, a member of our Humanity, and just like the rest of US, hate the God betraying anti-American demon antiChrist bush, more than anything else in the Universe for persecuting the innocent while killing coppers to steal our assets undefended without a leader to speak out everywhere for our living rights included. HUNDREDS, if not thousands of American soldiers have already DIED in Iraq stupidly as evil nazi vermin, GAME OVER MAN, for nothing but their cowardly ignorance on our ability to communicate FREELY for Freedoms thought died for already. Dying for bush as too cowardly to protect themselves as their own friends, and sacrificing families they silently watch criminally plundered further by their leaderless inaction on truly protecting America. Again, bush isn't America, America is America.

Justice for all, and let's name this time our own with my writing as a make believe King of Kings who's done it all already, just for the fun of it, whatdoyasay?

Imagine this on a CNN spot speaking for our Justice as
an equal to all beings, and like, wouldn't that be
super interesting for everybody as the unjustly
suffering and dying as victims under the demon bush
dictates of criminal enslavement and global tyranny?

Christ, take care of yourself by killing bush,
please?

I think I love you too much

Wow, your amazing! So, what your saying is bush the nazi tyrant, the unelected mass murdering fascist dictator, has no interest following the ample criminal leads, because they lead to him, rumsfeld, and cheney likely too, right? And, when that evil monster told us instead he would rely on secret evidence, but couldn't tell us why, as too the FBI or CIA, it turned out to be nothing but another wicked evil deception against the great American people, Tony Blair, bin Laden, and law enforcement officers everywhere, to even further give him cause to close investigations into 9/11 as Reuters told us, and rob directly from American soldier families, their lives, pensions, life savings, and blind faith, in bush, the false diety, super evil anti-Christ.

Johnny Wizard is my Hero.

Weak Pathetic Coward Nazi Bastards

American soldiers are weak pathetic coward nazi bastards.
(snpd priceless info)

One More Thing

So, that demon bush, the American cop killer and his cohorts, are continuing to work destroying Humanity's gains in civility, by evilly dividing Our humanity with their blatantly open criminal intent to murder untold millions as US innocent, and as of yet, have not been executed by American Patriots for mass murder of God's Family in New York City. Traitors to US all on 9/11 without contention, for Our truth speaks as Ourselves, and witnessing just CNN's silence on General Ahmad,

speaks volumes on their contempt for US as worthy of Justice. Refusing to do what is good for Humanity by offering the central facts as publicly recognized by Our Police Agencies to be actually documented. According to the FBI: the vacationing General Ahmad financed the alleged 9/11 mastermind, Atta, and also developed the criminal war strategy against Afghanistan with the bush administration, to boost the heroin trade, and save Enron to commit further frauds against American soldier families, while murdering over a hundred thousand American flag wavers, and then leaving US for further ruin with plans to continue on against 59 more countries in the same deceitful illegal manner against all Churches, as an evil nothing short of eternally crowning Our Mr. bush Jr., the super evil anti-Christ, the most hated and despised parasitic murderer in the entire annals of Humanity's History. Cool eh? Kill bush now! Why?

The bushmob have done nothing short of confessing to the entire terror event, but for jokes on our strained credulity to publicly press for further stalls. With the rights of kissinger left to be a public investigation official? (Gee, thanks for highlighting your partner like that for US bush, you nazi dumdum.) Mr. bush Jr.'s america destroys themselves without Love for wisdom, or respect for intelligence as a Peace plan initiative. We publicly witness the blind and tormented dying bushmob slave whore charade, of contempt for living free in Our names. The two evil doers, bush and sadistic nazi rotten rumsfeld, are known publicly as documented, to continue leveraging the ignorance of the CNN ready to be broadcasted repeatedly, tranced dimwit marines, the true dumdums of this world as weak and pathetic cowards to themselves as their own brothers they watch murdered for bush helplessly, communicated in CNN's un-American false image as the evil bush nation hiding in falsehoods as death squad recruiters against the practically defenseless as unarmed children, nazi vermin criminals, being unbiased as Blitzer about protecting your freedom Patriot, to lose your real life savings reader, truly too weak and stupid to stand up in protection for the flag as the living American Dream for anyone. Because witness again, CNN keeps not saying Justice is important as principle to hold our reflections.(CrossFire is getting better though.) Fortified behind locked doors in their bombed out bunkers, Blitzer and Hemmer sit rooted for the evil side to lose further to themselves by continuing to not respond to our communication know how. America, the

People, rarely gain press time coverage as should be top priority always, while being paraded publicly as sold out as not deliberated, corporately represented as privately principled to stay ignorant of Justice to protect living personally, as actually worth something to the bottom line. Yours. Brought down Hell bound as cheated by corporate news america's valueless interest in the price of your living to continue on our behalves. What does CNN think of 2% Social Security? cheating a Soldier's Grandmother to pay tithes to the bush demon as criminal dictator?, american nazi death squads?, insider stock trades?, arming bush's heroin partners?, rotten rumsfeld and bush murdering devout corporate cultists like a would be, still silent Hemmer?, no opinion? Or the working for the People in our names OFFICIALLY, as the FBI and CIA officers actually involved in uncovering the evil bushmob deeds, like the warrant sabotage, Odigo, stolen passports of alive so called highjackers as once American trained as still Saudi pilots, or Anthrax made to look Muslimized, is not failure to connect the dots ever, or insufficient funding then is not less payment for our law enforcement now to nab the prime suspects. As Mueller, or mueller has not publicly commented of, but to say, he hasn't seen or heard anything of this police work, leaving the FBI unrepresented publicly as a threat by himself as a terrorist supporter, an devout member of the bushmob cartel. Why?, we must investigate Mueller if we should have him arrested for publicly obstructing the FBI asking the important questions. IT IS THE FBI, not pissant mueller, WHO CONCURES THE BUSHMOB'S AHMAD FUNDED ATTA. Or how about the dumb ass Ashcroft assault against every American to save his embarrassment of being completely unqualified and never elected?, no concern to mention on this either? Who suffers for CNN's refusal to demand Enron give back the billions that were criminally stolen from all American Families still sitting in the Cayman Islands? My God.

Somebody call the cops.. again!

I have personally spoken to hundreds, and written thousands regarding bush's guilt, and we can't seem to find any fault with what I am saying... How about You? Check out usenet group, "us.military.army" on the internet to see for US all, what questions if any are asked. Know also, CBC and CNN management staff will not contribute their disagreement as none present, but for continuing disregard for Your interests during Our news cast of the facts. THINK. I tell gun clubs, police officers, Biker gangs, and the general public to kill

bush today for 9/11 and his death squads, against the helpless and undefended while arming heroin dealers and selling terrorist handbooks, with all the evidence one would need or asks for, and CNN with CBC corporate management does not, to my knowledge, call Our Police agencies to complain about my free speech capabilities, or will allow US public discussions with Our History as documented. Why? Those nazi bastards, Walter Issacson, Robert Habinovitch, and the two Coast to Coast godless vermin parasites know personally, they propagandize our communities with deceit to keep us divided as the plundered and murdered for the private banker buildings who sell weapons in bush's name to kill the innocent as ourselves unheard from. I can barely survive watching US ignore them as King to this World, my sweetie baby sugar dumpling, but, I think it's time to let Arron Brown in on a little secret... Johnny wants a word with his living responsibility to Americans on Patriotism. Instead of what we currently witness, a reluctance to not relentlessly pursue the truth to provide US the facts, (Look, it's true, Johnny has an ass.) but a censorship of control to falsely prop up the unelected nazi war mongering criminal, Our Mr. bush Jr., a terrorist of tyranny through criminal impropriety in violation with the American Constitution as a death bringer heroin dealer, at a seating that truly holds no vacancy, nor a Buddha, but a deception to plainly hide, the actual, got to be for real, super evil anti-Christ of all religion ever mentioned. Wow eh, even gentle jolly Buddha wants bush squashed! Seriously, please kill the bush demon to save US as victims friend. Justice must prevail as is truth eternal, that of what will be as God is.. just how many more as Humanity will be sacrificed in cowardice for the evil bush demon, before an American Patriot kills the mortal nazi dictator for treason as an American cop killer, and betrayer to all of our Humanities? Don't let tomorrow's news story be about Your murder as another, no longer heard from bush victim. For, my reason is as evidenced to actually be known, easily, while the CNN corporate cult product lies to themselves as Our public fact finders to leverage more ignorance than is found now.. as Our public voice to suffer by criminal dictates to destroy God as life giver. Fuk you america.

Heaven is on the Horizon.

We can teach ourselves as the uninformed by CNN standards to misinform and ignore. CNN's continuing silence on Ahmad, bush and rotten rumsfeld, only supports further our claim in their contempt for

American Soldiers, and Our Families as not represented as worthy business investment. God, don't you just love me? Hemmer?

Mr. bush's publicized war strategy of no evidence requirement to hold American convictions for murdering Ourselves is evil all around everywhere, as understood without question to every honest Cop, the most serious of all criminal behaviors, of which, they carry guns for in just this sort of political development to halt reoccurrences. But bush, the anti-Christ, as america, says no for ALL Americans, they can no longer hold onto Justice as their own with him in their charging everyone as the enemy bush refraction. Just like, "bomb wherever" tommy franks would do with his own American family death squaded, like he did intentionally to our children, as his contempt for America will never stifle our voice with his silence regarding our aimed veracity to seek out and destroy the evil nazi bushmob fuks individually with God as Justice Supreme. The True American Way, for, the rare and few Marines, the one or two, are with US loyally to know so. See, there was a time when the Marines were taught diligently, so much so it was proudly ingrained as the moral fiber of their character, that an American Soldier's responsibility to America was to defend the Constitution as the Freedom to be America, with their lives if need be to protect their soul brothers as family, for the greater good by God, (just like the Taliban Rule Man) while today, Ashcroft, albeit muted, murmurs as rotten rumsfeld chuckles, Americans must instead as slaves give their lives unthinkingly as cowardly evil war criminals to protect the unelected bush mobster from criminal arrest for mass murders in New York City, and stealing that 50 billion, seeing that that stupid Justice thing in the American Constitution and Bill of Rights idea has now got to go instead of evil bush as demon traitor war monger, terrorist recruiting false god anti-Christ, but that aside... There is a guide book for leadership in the American Marines entitled, "Guidebook for MARINES", and inside, it contains 14 principles to strive for as an American Soldier wanting to be a True Patriot as leader of Soldiers prepared to die for love of country, and our fellow man as friend or stranger, and here they are:

Integrity, Knowledge, Courage, decisiveness, Dependability, Initiative, Tact, Justice, Enthusiasm, Bearing, Endurance, Unselfishness, Loyalty, and Judgement.

For integrity it states:

"1. Integrity. The stakes of combat are too high to gamble leadership on a dishonest man. Would you accept a report from a patrol leader who had been known to lie? Of course you wouldn't. All your statements, official or unofficial, are concidered by your men to be plain, unadorned fact. Make sure they are. When you give your word, keep it. There are people depending on you to come through with the goods."

Now, I could go on further about what kind of lifeless degenerate a lawless cowardly mute soldier in bush's nazi death squads would have to be, to serve under bush as slave and traitor to home and family, as against God, the Flag, and all that we represent as equals through Justice, but I won't.

Mr. bush's america is uncontrollable by anyone. CNN figures if they never mention US, we'll never know who was invited as participators. (Example: CIA officers have had to PUBLICLY contact British News Services as the CIA, (Never done that I know of likewise before), regarding American interests in apprehending the TRUE 9/11 culprits ignored by american corporate dictates, and tenant also. One should remember, bush and rumsfeld would want to secretly murder any persons involved in 9/11 to clean up the huge crime scene, and tenant, is no brave and True Christ like figure as a living person, so what can we expect in all reality? Tenant will pay dearly if the evidence further indicates, as his continuing silence does label him already a willing traitor to all America, as too, his personal meeting with 9/11's Ahmad just prior seems suspicious also as not mentioned by himself in defense, along with his refusal to disclose the insider stock trades while leaving the fine CIA officers personally involved in the dark, as abandoned American Patriots, armed and ready to defend America as they should immediately for themselves, by executing bush and rumsfeld as terrorist cop killer, drug running freedom haters.)

America's false deity, the super evil anti-Christ, Our Mr. Bush Jr., doesn't think for me to be sacrificed without opinion by John, for I am free to act for my own beliefs as understanding, as I live in defense for living as all things created I am of honestly, simply amazing God is. However, I, as any truly living person would, can't help hate Our Mr. bush Jr. to death for what he and rotten rumsfeld is criminally doing, and further proposing against Our living in my name as unheard from dying without cause as murdered, but for bush's criminal contempt for my Awesomeness to beg once again friends, someone out there please, for the Love of

Yourself and God, help US destroy Our Mr. bush Jr. quickly before he kills more as Ourselves unrepresented by corporate values in our commitments to freedom for living through Justice for all persons. Our Mr. bush Jr. has indiscriminately murdered more than 100,000 innocent souls with only a contemptuous smirk to his credit, while fully committed to more robbing and heroin dealing by blaming Laden for whatever without any evidence. Leaving Our true willingness silenced by corporate demands to propagandize and censor our truths, allowing bush, the dumdum traitor, to continue demonizing America into a hell hole of ignorance through his hatred for life, Science and Nature. CNN's silence for America regarding the bushmob publicly stealing from their Own Family their freedom of Rights to be living, while committing Americans to a dictatorial crime ridden government, that bush and rumsfeld proclaim, is no longer applicable to the Law of any Land, is an abomination against Christ as living is Ourselves Being. America isn't America anymore, it's the bushmobbed universe of injustice and blind self hatred against all of Humanity, committed to leave none to survive but as slaves to be terrorized for the dummy bush demon as their false deity, a traitor in my midst, disguised to no one but himself as personally expendable. Again, where are the American Patriots we all hear so much about in the big screen to take down the seriously anti-American demon bush monster cop killer heroin pusher for treason, as all understood widely now factually with evidence and everything? Kill the war criminal evil doers, bush and rumsfeld today and be loved by yourself to be of Human Nature, or hunker to hell as a coward and betrayer to yourself and your own family, while watching the bushmob openly rob and murder further from our World, and on all of which we stand strong united. Justice for You.

This living plan of mine empowers others to learn their Rights as eternally established to be Kings and Queens on equal footing to be as all in all of gods forever dreaming, while demon bush intends the destruction of individual freedoms while robbing and murdering Americans from the inside, like sharon with US Jews does, as underrepresented, a condemning onslaught on Your better Judgement as reasoned on anything factual they figure blindly to be spinable, without your word contested. Your God Given Living Rights my friend. Without a rule of Law principled in the fashion of Justice for all to be sought as measured, bush's nazi amerika will continue to suffer ourselves needlessly for

their corporatized self contempt in Our living Humanity as censored, without a thought for Justice, or the American Bill of Rights as God acting out eternally for prophets to wonder endlessly. See, I came up with this wacky Idea one day to make all my equal as self created to be so normally, in this Universe as we exist for Happiness ultimately as eternal, so, You or i will work this challenge to speak out for ourselves as Creation about bush's america, and it's responsibility as publicly advertised, to gather the facts on who suffers for bush's criminal misdeeds, and overall ignorance on everything. Mr. bush's irresponsible tax scam for example, is to put America's public money into the hands of private bankers, as the extremely rich already, while taking money away from those who spend the highest percentage of their paycheck on basic necessities as a gambled to be advertised, "stimulation package". HOW? The HOW is never explained with understanding as clearly regressive like the bush rule is, because.. Who spends MORE in taxes as investment at the grocery store to pay the cashier for his babysitter: 20,000 volunteer Janitors all named Rich, who ride the bus for convenience, or a mechanical billionaire private bank machine operator, who doesn't earn any nation's moola by working something for it?, and couldn't eat 20,000 cans of re-fried beans at one cruise lining to timbucks three without losing themselves, havening his tax manner over take in YOUR luxury. See, when America prints more money at the Treasury to give Greenspan to loan BACK to the Government illogically, the dollar value falls for everyone as investor, inflation, let alone the incurred bogus debt owed with real sweat as labor. Clearly, to every informed citizen not as democratic. Of course, National corporate news America, is genuinely not trying as capable by themselves to commit The living interest in Government as ourselves with oversight to manage US fiscally responsible, (like CNN regarding Justice and the Congress, or no Chomsky ever, E. Ann Clark as geneticist, or just research for experts as example), so, we do indeed, live in trying times due to ignorance as corporate america's disrespect for wisdom saught as yearning. It's like private bankers don't want the public to think about what we are doing as worthwhile knowing, eh? Or, I'm the only one on this planet who can almost read my own writing as the, one of a kind, good boy God freak. Anyway, the bushmobster scam leaves less finite wealth for all as taxable exchanges, while suggesting disposing of what dwindling national resource can be obtained, be given to create further debt by devolving into a military apparatus to make more

enemies. Our Mr. bush Jr. is just plain stupid as destructive to everyone, but especially Americans to not stand up in defense of Ourselves. (Officially, rotten rumsfeld's criminal plan, "P2OG", is to encourage terrorist acts against Your Family, but you guessed it, not up to CNN's standard to report US as viable news material.) It's like saying fewer people educated, will keep us stupid enough as a Nation to blame the weak and poor as ourselves deprived till death as murdered, and, bush says makes sense secretly, as the all knowing for the blind and ignorant to faith in without thinking about what money is either. Our Governments should always be working to make the poor richer as a successful representation of our will as the public to improving our living condition, but the dumb and ignorant, talentless and monosyllabic, believe, someone else must be cheated and devalued, divided and murdered, in their universe for them to succeed without effort, or skill whatsoever.. Especially defense. Have you ever heard of the rock solid certainty of Universal "inverse variation" constants? (Canadian High School.) This is why in America, in a time where the nation was more literate as informed, Corporations were taxed at 85% and were happy about it for themselves as American citizens. It's understanding also, most as almost all of the most wealthy multi-nationals competing from military dictatorships against American minimums, run in continuous private bank debt, (your savings and pension as leveraged weaker being the entire Nations) but gross billions in profits. 99.9% of every private bank building in the Western World is mortgaged, not however in Iraq, or the Muslim World where interest is not charged on good standing loans made in Our names. (Sideline: Now recollect bush's puppet forcing Afghanistan to borrow from the World Bank for terrorist handbooks and heroin junkets, but not food, shelter or clothing, while spending in addition, 4-5 billion a month in godless bushfuked american Patriot Dollars, American Celeb Dollars, American TAX PAYER Dollars, to run deaths squads with tommy franks against teachers and children.) It's a strange idea to the dying to be corporately driven without thinking because, you wouldn't automatically think it could be more profitable to stay in cheaper as serviceable debt being a brick building, but it is by private banker swindle with National inflation succeeding personal interest rates. We lose personal wealth to the pirate banker fees without even privately using their/OUR National currency services, because truly, we can't go somewheres else. As of course in america, an Enron can always be pulled,

where it goes bankrupt as a toxic non-living entity, but leave richer as crooks than they did before calling an end to paybacks, with the People stuck to take the loss together for sure as the victims. While bush, says corporating America, his america, should learn for next time, maybe, while the CRIMINALLY STOLEN money is still siting in the Cayman Islands!!! See the Depression, a Canadian High Schooler, or watch bush act in direct opposition to his word almost consistently as American death harborer terrorist psychopath. Then ask yourself, why can none of our defenses be publicly discussed as important deliberations?

Love Justice by allowing others to read this paper, to judge the truth for themselves as worth something for all persons, and I will be truly grateful you cared to believe in a better future, for together, we could find a new hope for freedom, as happiness and prosperity for Yourself included. We only need believe in ourselves as unstoppablly stupid, and the Universe is ours as God is now testifier.

I am my word,
and make believe King to this world I call home,

Yours forever,

Johnny Wizard

No, its probably WB2PDW, Vincent Diak, he is a world class jammer. Been
on for 20 years. His thing now is to fire up super amplifier and play
computer generated tones on it.

I nailed his arse the other night on 20 meters and sicked the feds on him.
So now he has the arse and is playing here.

Nothing new under the sun.

But thanks for the 'reminder'

Dan,

You're not the only one who's wanted to look up an old call sign or operator. Presently, there is no complete, on-line, historical database. Your only hope is to find an archive of old, paper callbooks. But even these may not be much help as there entries are ordered by call sign, not by name. Historical data from the FCC is almost impossible to come by. For further details about this, check out the following link:

http://www.qrz.com/i/pre1987.html

I applied for and received a vanity call sign, but have always wondered who had it before me. QRZ only goes back to 1993, so I know no one held it during the past decade. But surely someone has during the past 90 years. It's a 1-by-2, which is "preferred." It would be astounding if it turned out that I'm the only holder ever.

The following is a Q-S-T. A major problem for Amsat Oscar 40, a surprise BPL rollout in Pennsylvania, UPS says that illegal 10 meter radios will be ordered out of company trucks and another view of the ARRL's restructuring proposal. HAM RADIO IN SPACE: AO-40 SUFFERS CATASTROPHIC POWER FAILURE

The main battery pack on board the AMSAT Oscar 40 satellite has failed and controllers are unsure if the bird can be brought back to life on the reserve power system. Amateur Radio Newsline's Norm Seeley, KI7UP, tells us what happened on-orbit:

--

According to AMSAT Executive Vice President Rick Hambly, W2GPS, AO-40 began its tumble to obscurity on Sunday, January 25th. That's when the satellites battery voltage momentarily dropped to 24 point 5 volts. This triggered a fail-safe that shut down the satellites passbands. Then, at the beginning of the eclipse on orbit 1486 the battery voltage rapidly dropped just below the cutoff voltage of 24.0 volts and this shut down the transmitters to protect the battery and other on board equipment.

AMSAT controllers kept a close eye on the bird and on Tuesday the 27th the battery voltage suddenly dropped from to 14V. Mission commanders currently believe that more battery cells short circuited. Control stations immediately began transmitting blind commands to the spacecraft in an attempt to switch over to the auxiliary battery. Eventually, the auxiliary battery pack came on line, but in parallel with the main pack. This means that the shorted main Ni-Cad battery is loading down the back-up Nickel Metal Hydride cells are clamping the voltage low and keeping the auxiliary battery from fully powering the spacecraft.

AMSAT is hopeful that one of the cells in the main battery will eventually fail open circuit. This would effectively remove the damaged battery from service and permit the back up battery to assume the full load of AO-40. In the meantime its a waiting game with fingers crossed that no other catastrophic failures to other parts of the satellite take place.

For the Amateur Radio Newsline, I’m Norm Seeley, KI7UP, in Scottsdale Arizona.

--

A set of spare A0-40 back-up batteries were found at the AMSAT lab in Orlando Florida. Using them Stan Wood, WA4NFY and Lou Mc Fadin, W5DID performed a series of tests that showed the auxiliary battery pack on board the satellite should work well if they are otherwise undamaged. Unfortunately, than will only happen if the main battery pack can be pulled off line.

HAM RADIO IN SPACE: MIKE FOALE TALKS HOME

Still with ham radio in space, Wednesday, January 28th was a very special day on board the International Space Station for Astronaut Mike Foale. That’s because the space traveler got the chance to speak to students at the school he used to attend and he did so using Amateur Radio. Take a listen:

The contact between Foale on board the I-S-S and the kids at The King’s School, Canterbury, England began at 17:42 UTC when the I-S-S answered the call of G-B-4-F-U-N. That station was operated by G-Zero-A-K-I and the audience kept its breath as Foale answered 12 questions.

--

Media coverage of this contact was impressive. Meridian TV, BBC TV, BBC Radio Kent, Invicta Radio and the Kent Gazette interviewed the students and put reports in the main newscasts. The BBC World Service and the Press Association asked for information and contact transcripts. (ARISS, ON4WF)

THE BPL FIGHT: PA HAMS ORGANIZE TO FIGHT ALLENTOWN ROLLOUT

Hams in Northampton County in eastern Pennsylvania, just outside of Allentown, are organizing a campaign to protest announced plans by PP&L to offer Broadband Internet Service over power lines in a development in Hanover Township. The Allentown-based utility has been doing field tests of the technology in nearby Emmaus, Pa.

The ARRL's Eastern Pennsylvania Section Manager Eric Olena, WB3FPL says PP&L sent out 2,000 letters to residents in a section of Hanover Township and already has received replies from 200 people interested in subscribing to the service.

Olena says an ARRL District Emergency Coordinator and other hams met with township officials to warn them about the massive inteference Broadband over Power Lines brings to the radio spectrum, including fire and emergency

frequencies. But, he says, the officials apparently were swayed by the utility's assurances no such interference exists.

An interview with Olena and others involved in the battle, coming in next week's Newsline. (ARNewsline(tm), NT3V)

ENFORCEMENT: EVEN MORE COOPERATION COMBATTING 10 METER PIRATES FROM UPS

A follow-up to our recent story concerning the use of unlicensed 10 meter radio gear on-board United Parcel Service Trucks. As reported, back on January 7th the FCC notified the U-P-S offices in Elkhart Indinana and Middleburg Heights Ohio of its findings. The company offered its full cooperation to end the problem.

Now comes word from the FCC that they have been contacted by UPS national corporate headquarters has contacted the regulatory agency and the company did not mince any words. It told the FCC that the agency has its full cooperation in removing any unlicensed radio gear and any non-certified two-way gear from their delivery fleet, nation wide.

According to UPS, the only personally owned radio gear permitted in their trucks under a collective bargaining agreement with their union drivers are commercially built unmodified C-B sets, and that only on a regional as-needed basis. No other radios are allowed. (FCC, UPS, others)

**

ENFORCEMENT: THE FCC ACTIVE IN A NUMBER OF CASES

Meantime, the FCC has been active in a number of other enforcement issues involving ham radio operators. The agency’s Daryl Duckworth, NN0W, has more:

--
Duckworth: “An Extra class license was downgraded to Technician class due to a failure to appear for a retest in Solidad California. Also, cancellation of an Extra class license in Medera California for the same reason.

A notice for retesting was sent to a General class licensee in Hialeah Florida. The deadline for that one is March 1st.

A letter requesting additional information pursuant to Section 308(b) of the Communications Act -- in order to make a decision on a General class renewal went out to Newton Square PA..

A letter settling enforcement action with a General class licensee in Bart VT. has resulted in voice operation prohibited for three years on 20 meters.

Daryl Duckworth, NN0W, reporting.
--

Even though its still not naming names of alleged violators the FCC is making sure that those thinking about breaking its rules know its still around. (FCC, RAIN)

RESTRUCTURING: ANOTHER LOOK AT THE ARRL PROPOSAL

Even though there are more than a dozen restructuring proposals before the FCC, its the American Radio Relay Leagues recent filing that really has the world of Amateur Radio talking. The obvious question is why, and thats what we asked correspondant Mark Abramovich, NT3V, to find out:

--

As more amateurs find out what the ARRL has to say, they're starting to pay attention.

When the ARRL speaks, the FCC generally listens. In the past, the FCC has used the organization's proposals as a foundation for decisions.

To understand where the ARRL is coming from, you might want to get some perspective from the past. Who better to offer it than Harry Dannals W2HD - elected ARRL president in 1972 and re-elected to five consecutive terms. Now retired and living in Charlottesville, Va., Dannals is on top of the debate.

"It's a long cry from the days of incentive licensing when we did have people who resigned their membership, withdrew their membership, or did not renew their membership, just to show their disappointment and utter dissatisfaction with the incentive licensing proposal as it was named," Dannals recalls. "Because that was indeed (what it was), in the minds of the ARRL board headed at that time by President Herb Hoover.

He believed that in order for us to show that we were improving ourselves and becoming better at what we do that we should upgrade our license structure."

Dannals says the claim the ARRL proposal for a "no code" HF license "dumbs down" the hobby is off the mark.

"I think the new proposal, despite the criticism by those who say: 'I had to do it and therfore, you have to do it,' I think the new proposal will bring more people into amateur radio than the 'no code' proposal ever did," Dannals says.

Dannals says the Novice concept will go a long way in revitalizing interest.

"The introductory grade of license will give them some of the things that will make amateur radio mean more, the long-distance communication, the long friendships that develop over the many thousands of miles," Dannals says. "And I do believe we need this."

Dannals laughs at the fears that we'll need hundreds of FCC types to police the new hams.

"I think if the amateurs themselves who have experience, the older timers - and they don't have to be white-haired and grizzly old-timers - they can be relatively newcomers, maybe 5-10 years," Dannals says. "They can take care of tutoring the newcomers more than adequately."

Dannals says local radio clubs are the key to success for any license restructuring.

"Put out a handshake and say: 'Come on board. We'll help you, we'll teach the courses that you can use to get your license and we'll help you once you've got your license.' The old Elmering still is working."

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Philadelphia.

--

Keep an ear open for more on this from both Harry Dannals and Mark Abramovich as all of the restructuring petitions wind their way through the FCC rules making process over the next several months. ARNewsline(tm))

REGULATORY: CROSS BORDER RADIO DISPUTE BETWEEN US AND MEXICO BROADCASTERS

A cross border radio war may be brewing between the United States and Mexico. This as complaints of massive interference to United States broadcast operations from a new station on 560 kHz in Tecate Tijuana Mexico lead to a high level telephone call between the FCC and the Mexico’s SCT on Thursday, January 29th. A call that many hoped will defuse the situation before it escalates any further.

According to the CGC Communicator, the SCT which is Mexico's telecommunications regulator is said to have promised swift action in eliminating the interference that XEKTT is currently causing to U.S. stations. But the story does not end here. Concern for Mexico's planned operations as XESS on 780 kHz and XEDD 920 kHz, also in the vicinity of Tijuana continues to mount. A printed copy the authorization for 780 kHz has surfaced. It confirms that operation with 20 kilowatts dayside and 10 kilowatts night with non-directional facilities both times and a quarter-wave tall broadcast tower is in fact sanctioned by the SCT.

The CGC Communicator says that this confirms the power figures it published a few weeks ago and establishes what it terms as more blow torch situations. Meanwhile, additional broadcasters are joining the list of companies concerned

with the current 560 kHz interference. (CGC)

ENFORCEMENT: THE FCC VS. THE SUPERBOWL HALFTIME SHOW

FCC Chairman Michael Powell has ordered an investigation of the telecast of last weeks Superbowl half-time show in which rock performer Justin Timberlake ripped part Janet Jackson costume on-camera. The stunt brought a massive number of complaints to the regulatory agency from viewers of the game.

In a press release obtained by the Amateur Radio Newsline, Powell states: “I am outraged at what I saw during the halftime show of the Super Bowl. Like millions of Americans, my family and I gathered around the television for a celebration. Instead, that celebration was tainted by a classless, crass and deplorable stunt. Our nation’s children, parents and citizens deserve better.”

CBS which aired the game denied that the incident was preplanned. None-the-less, Powell instructed the Commission to open an investigation into the broadcast. He also stated that the inquiry will be thorough and swift.

At least in theory, each station that permitted the video to be aired could be fined or have its license designated for as hearing if the investigation finds that the material was either indecent or obscene. (FCC release)

RESCUE RADIO: AGENCY WARNS OF BIG FIRE SEASON IN THE SOUTHWEST

Hams involved in emergency communications in the Western United States should get ready for a rather busy fire season. At least that’s what a recently released preliminary outlook for 2004 seems to imply. Bill Pasternak, WA6ITF, has the retails:

--

According to Jay Miller, W-A-5-W-H-N and Raleigh Stout A-C-5-J-W, the Southwest Area Coordination Center in Albuquerque, issued the report. The center is a multiagency hub for the region's wildfire operations and it says that persistent drought and millions of dead or dying trees have set the stage for a fire season as bad or worse than 2002. That’s when millions of acres burned across the region.

In southeastern Arizona and southern New Mexico, field surveys reveal that the snow pack holds less than 20% of the average moisture of a normal mid-winter. Coupled with the 2003 monsoon season being one of the driest in a century, the center says that tinderbox conditions are manifest.

And its going to get worse. With little relief in sight, the fire season, which usually begins in April, could start a month or more earlier. Public land managers are being urged to complete training and preparations sooner than usual and to put more firefighters on duty. It also means that hams involved in support of firefighting efforts will need to hone their skills a lot earlier

this year in order to be prepared.

For the Amateur Radio Nerwsline, I’m Bill Passternak, WA6ITF

Its beginning to look as if firefighters and the ham radio operators who support them may have a tough fire season ahead. (ARNewslin(tm), WA5WHN)

RESCUE RADIO: TEXAS CELLPHONE HERO

A 40-year-old flight attendant in El Paso, Texas is being hailed as a hero. This, for her fast and efficient handling of 15 to 20 9-1-1 calls which were sent to her home phone due to a routing error at S-B-C Communications.

News reports say that Maria Chaidez Karam processed the calls for help - including several emergencies - during the 41-minute glitch. In fact, she relayed details via her own cellular telephone to the police dispatch center's seven-digit non-emergency number.

RADIO LAW: ABRAMS VS. RPV - ANOTHER WIN

An update on the case of radio site owner Mark Abrams WA6DPB versus the city of Rancho Palos Verdes California. Abrams has been embroiled in litigation against the city for several years and has won every round, This is no different. The 9th Circuit Court of Appeals ruled on Thursday, January 15th, that Abrams is entitled to damages, attorneys fees and court costs from the city, but there is a catch. Abrams says that the decision only entitles him to a trial to determine the amount of money involved. It does not set an award amount. (WA6DPB)

THE WAR ON TERROR: SECURITY ALERT FOR CELL PHONE GUNS

Don't be surprised if you're asked to make a call on your cellphone the next time you go through airport security. Time Magazine quotes sources as saying handguns disguised as regular cellular telephones have been seized in several

drug raids across Europe.

The potentially deadly devices look exactly like a normal cellular handset but are capable of rapidly firing four .22-caliber rounds of ammunition. They are manufactured in Croatia and are fired by punching buttons on the keypad

So far, none of the phony cellphones are known to have surfaced in the United States. Aviation security experts say screening equipment now in use can detect these cellphone guns as well as all other improvised explosive devices.. POSTAL PROBLEMS: CQ INVESTIGATES DAMAGED MAGAZINES

If you are wondering why your ham radio and other magazines have been showing up with torn covers or their insides missing, you are not alone. So were the folks at CQ who were receiving complaints from their readers. So they launched their own probe and what they found that its likely a problem at the United States Postal Service.

According to CQ Publisher Dick Ross, K2MGA, the postal system has installed new equipment that’s designed to speed up the processing of mail through automated sorting. Ross says that it usually works quite well but unofficial information coming to him says that the units can cause problems if they are even slightly out of adjustment. As Ross says, it sounds as if the new technology demands maintenance far beyond having a service crew fix it when it breaks.

Ross says that his magazines have already taken steps to get around the problem until the postal service finds a permanent fix. This includes new imported paper for the magazine covers.

What Dick Ross found out about the foibles of the postal services automated sorting system makes good reading. You can find it on page 4 of the February issue of CQ Magazine. (CQ)

NAMES IN THE NEWS: FCC ENGINEER MICHAEL J. MARCUS HONORED BY IEEE

A word of congratulations to Dr. Michael J. Marcus, N3JMM, of the FCC’s Office of Engineering and Technology. This, after recently being conferred as a Fellow by the Institute of Electrical and Electronic Engineers based on his extraordinary record of accomplishment.

The IEEE chosen to honor Marcus’ contributions in the field of radio technologies with specific recognition to his creative technological vision that significantly advanced policies. This helped to lead to the deployment of spread spectrum and Wi- Fi technologies.

Dr. Marcus joined Office of Engineering and Technology in 1979 and currently serves as its Associate Chief for Technology. He received his bachelor's and doctorate degrees in electrical engineering from Massachusetts Institute of Technology. Before joining the FCC, Dr. Marcus worked for Bell Laboratories, the U. S. Air Force, and the Institute for Defense Analyses. (FCC release)

THAT FINAL ITEM: BROADBAND OVER POWERLINES - AUSTRALIA SHOULD WAIT AND SEE

And finally this week, the pitfalls of broadband over powerlines technology have been highlighted down-under by a group calling itself The Spectrum Issues Group Australia or S-I-G-A. This, in a letter published in the Sydney Morning Herald and The Age news papers. Q-News Graham Kemp, VK4BB has the details.

--

While BPL holds out the promise of always-on internet availability from every household power point, overseas experience with this new technology shows Australia should not rush into adopting it.

BPL/PLC systems installed here would cause significant interference to high frequency communications users across Australia which include emergency services, aircraft, police, rural and remote services, maritime, government agencies and private users such as we Radio Amateurs.

Roger Harrison, VK2ZRH, speaking for the group says they are an informal alliance of organisations and individuals across Australia with interests in RF communications and technologies. Alliance members come from broadcasting, community service bodies, consultancies, emergency services, equipment manufacturers and suppliers, government, industry bodies, the radio amateur community and other radiocommunications users.

972. BPL - Comments on the original Inquiry document

FCC 03-100 Before the

Federal Communications Commission

Washington, D.C. 20554

Inquiry Regarding Carrier Current Systems, including Broadband over Power Line Systems

Docket No. 03-104

By the Commission: Chairman Powell and Commissioners: Abernathy, Martin, and Adelstein issuing

separate statements; Commissioner Copps approving in part, concurring in

part, and issuing a statement.

I. Introduction
1)The Commission is initiating this inquiry to obtain information on a variety of issues related to Broadband over Power Line (BPL) systems. BPL systems are new types of carrier current system that operate on an unlicensed basis under Part 15 of the Commission's rules. BPL systems use existing electrical power lines as a transmission medium to provide high-speed communications capabilities by coupling RF energy onto the power line. Because power lines reach virtually every community in the country, BPL could play an important role in providing additional competition in the offering of broadband infrastructure to the American home and consumers.

And because those power lines make fantastic antenna radiation arrays for all signal components above a few hundred kilohertz, only a mindless bureaucracy comprised of political appointments would ever consider using them for high-speed data transmissions -- also known as wide bandwidth radio transmissions. That is, unless all global medium and high frequency radio communications are considered no longer a valid within the North American continent. ak

2) In addition, BPL could bring Internet and high-speed broadband access to rural and underserved areas, which often are difficult to serve due to the high costs associated with upgrading existing infrastructure and interconnecting communication nodes with new technologies.

Existing and possibly additional satellite systems could also satisfy such needs, where they might exist. (Do they exist?) ak

Through this inquiry, we seek information and technical data so that we may evaluate the current state of BPL technology and determine whether changes to Part 15 of the Commission's rules are necessary to facilitate the deployment of this technology. While BPL may be deployed under our existing Part 15 rules, the rules do not specifically provide

measurement procedures that apply to systems using the power line as a transmission medium. We therefore seek comment on what changes, if any, we should make to our Part 15 rules to promote and encourage the new BPL technology and to our measurement procedures for all types of carrier current systems. We further encourage present deployment of BPL that complies with our existing rules, noting that if, or when, our rules are modified, those rules will address prospective compliance.

There is no BPL technology that complies with existing Part 15 rules for interference to existing MF and HF radio transmission systems. ak

II. BACKGROUND
3) Snip < power companies want some of the DSL and cable-modem internet business> ak

4)The idea of using the alternating current (AC) power lines to carry information to a variety of devices is not new. A number of devices or systems already use carrier current techniques to couple radio frequency (RF) energy to the AC electrical wiring for purposes of communication. For example, AM radio systems on some school campuses employ carrier current technology; many devices intended for the home, such as intercom systems and remote controls for electrical appliances and lamps also utilize carrier current technology; and for many years, electric utilities have been using carrier current technology to monitor and control the electrical power grid. More recently, these systems have been used to convey information in digital form, providing communications at relatively slow transmission speeds on carrier frequencies below 2 MHz. All such devices are subject to our existing Part 15 rules for low-power, unlicensed equipment operating on a non-interference basis.

And none of the existing RF-on-power-lines systems are broadband. All operate on frequencies specifically allocated to them, or they share specific narrow-band frequencies where the propagation of low level signals can be guaranteed not to interfere with the primary services using those frequency allocations. ak

5)The Part 15 rules limit the amount of conducted RF energy that may be injected into a building's wiring by an RF device that receives power from the commercial power source, including carrier current systems that couple RF energy onto the AC wiring for communication purposes. This conducted energy can cause harmful interference to radio communications via two possible paths. First, the RF energy may be carried through the electrical wiring to other devices also connected to the electrical wiring. Second, at frequencies below 30 MHz, where wavelengths exceed 10 meters, long stretches of electrical wiring can act as an antenna, permitting the RF energy to be radiated over the airwaves. Due to the low propagation loss at these frequencies, such radiated energy can cause interference to other services at considerable distances.

Not "can act as an antenna," but WILL act as an antenna on, below and above the 10 meter wavelengths. ak

6) <Discusses power line carrier systems, which are not subject to specific emission limits since they don't interfere with other communication allocations and do not propagate sufficiently to interfere with other such carrier systems.>

7) <snip non-sequitur info, ak> New BPL devices operate on multiple carriers that are spread over a wide spectrum (e.g., from 4.5 MHz to 21 MHz), (Plus harmonics above those frequencies, ak) with adaptive algorithms to counter the noise in the line.

8) <snip non-sequitur info, ak>

III DISCUSSION

9)The Commission has observed with great interest and anticipation developments in the area of high-speed communications over the power line.

By those special interests hoping to capitalize on marketing it at the expense of existing radio transmission services. ak

High speed transmission capabilities could enable BPL technology to provide an alternative platform for broadband deployment, which would bring valuable new services to consumers, stimulate economic activity, improve national productivity and advance economic opportunity for the American public, consistent with the Commission's objectives. BPL technology could play an important role in enabling Internet and high-speed broadband access to rural areas, because power lines reach virtually every home in the United States. BPL technology could also be used to assist the utilities by adding intelligent networking capabilities to the electric grid, thereby improving efficiency in activities such as energy management, power outage notification and automated meter reading. Furthermore, the electrical wiring in homes and office buildings establishes a physical connection between all electrical devices and power outlets that are located every few feet in most American homes. The high number of access points[1] can be used to provide networking applications within a building, eliminating the need for new or additional wiring to connect networking adaptors, thus allowing consumers to readily take advantage of the technology. In addition, homeland security would be enhanced by creating new facilities to provide redundancy in case of disruption of one or more existing channels of communications.

10)The Commission has a long history of facilitating the introduction of new technologies under Part 15 of its rules.

This is the first time the FCC Commissioners have introduced a new technology to wipe out 4.5 MHz to 21 MHz and higher frequency radio communications!

<snip more meaningless techi-sounding discussion of "class A or Class B radiated emission limits.">

The FCC desperately needs at least one commissioner who has some slight comprehension of technical issues and isn't corrupted by special interest groups that only care about what will make money for them.

If someone knows of a better newsgroup to ask this in, by all means let me know, or set folowups to the appropriate group.
I'm looking for I believe it was the David Letterman show from way back in 1991 or thereabouts where veronica Harrington KC6TQR made an appearance. Being the youngest licensed radio amateur in the state of california having received her license at age 6, I may have seen that show but I just don't remember. It was either that or the home show I saw way back then. In any case does anyone know where I might be able to find a video or audio clip of that show or at least the segment with Veronica Harrington KC6TQR in it? If there's no know clip of that online does anyone know if I might be able to order a copy of that show, and if so, how would I go about doing so? I'd love to see that again.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations. As always, you never know - "Work First Worry Later" (WFWL).

4U1UN WRAP-UP. Bernie McClenny, W3UR, editor of "The Daily DX", reports that last week's 10 hour operation made 1062 QSOs. Operators were only able to use one station at a time due to inter-station interference. He stated that their operation was from about 1430Z on Friday, January 30th until about 0200Z on Saturday, January 31st. Any QSOs after 0200Z

on Saturday was that of a pirate! Operators were Bernie/W3UR, his daughter Christa/KB3JIU and Steve/KU9C. QSL via address on QRZ.com.

5Z, KENYA. Sigi, DL7DF, will be here on holiday with his XYL between February 16th and March 1st. He will be active during his free time as 5Z4HW on all bands (no 160/30/6m) on SSB, CW, RTTY, PSK31 and SSTV. He will only use a 100w into a GP and wire antennas. QSL via his home callsign DL7DF.

6T1, SUDAN (Attention Prefix Hunter!). OPDX was informed that a new interesting prefix from the Sudan will be activated soon only during a contest. The operator is Namer, ST2NH, and his new contest callsign is 6T1T. QSL via EA7FTR: Francisco Lianez Suero, Asturias 23, 21110 Aljaraque, HUELVA, SPAIN.

8P, BARBADOS. Look for Peter, W0SA, to be here for a month, February 11th to March 11th. His callsign will be 8P9NX. Peter told OPDX that he would be active on 80-10 meters including the three WARC bands, mostly on CW but some RTTY as well. QSL all contacts DIRECT + SASE to his QRZ.com address.

A6, UNITED ARAB EMIRATES (Topband!). It was reported on the Topband Mail Reflector that Ghis, ON5NT, will be here for a two month work assignment starting in Dubai on February 9th. He will be staying 50km from A61AJ. Also, Robert, S53R, is expected to be with him part of the time. Ghis said he will try to activate A61AJ on the lowbands when work permits. Apparently he has to work weekends - which makes sunrise openings difficult for him. Additionally, Dave Rosen, K2GM, is also going back to Dubai about February 15th and will try some more 160m work permitting.

ANTARCTIC ACTIVITY WEEK. Gianni, I1HYW, announced this past week that several special Italian callsigns have already been issued for the Antarctic Activity Week which will be held from February 22-28th. The callsigns issued so far are: TM0ANT by F5NOD, IR1ANT by I1HYW, II6ANT by I6DHY, IR6ANT by I6YOT, II7ANT by IZ7AUH, IR8ANT by I8ACB and IR0ANT by IZ0EGC. Gianni also states that as soon as other callsigns are received from the Ministry of Communication, he will up date the list. They have arranged to use a unique QSL card (printed by IT9EJW) and a QSL Manager in Germany (Manfred, DE0MST) during this event. Manfred will do the Bureau service for all the callsigns used during the Antarctic Activity Week. Readers may have noticed that the Italian stations in Antarctica are already using a special prefix callsign, IR0PS. This station will join the activity only for few days starting February 24th. The actual crew has to leave the Base, but they have promised to try to be active from the Ship, as /MM.

AY1, SOUTH ORKNEY ISLANDS. Henry, LU4DXU, has arrived on Laurie Island (South Orkneys) and has started to operate as AY1ZA. He has been very active on 20 meters SSB. Henry has also been active on 80/40/15/10 meters usually operating split and by the numbers. It was reported earlier by Dominik, DL5EBE, that Henry's radio is/was interfering with the commercial HF radio of the base. When both radios are operating, Henry has to reduce

his output to 10-15 watts. The use of the linear amplifier is only possible when the commercial radio on Orcadas Base is not operating. However, his digital equipment works fine on AMTOR, RTTY + PSK31. Unfortunately, the conditions are very poor at the moment.

CENTRAL AMERICAN OPERATIONS. Heikki "Henry", OH3JF, is going to be active from Guatemala as TG7/OH3JF from February 18-29th. He will then move to Honduras and operate as HR5/OH3JF during the period of March 2-10th. As usual, he is traveling with good antennas for the low bands and 800 watts power. The main focus of the operation will be from 160-30 meters, but also other bands will be activated. QSL this operation via OH3OJ. The primary (suggested) frequencies are:
CW - 1827, 3507, 7007, 10103/10108, 14007, 18077, 21007, 24897, 28007
SSB - 1840, 3789, 7045, 14195, 18145, 21295, 24945 and 28495 kHz

CN, MOROCCO. Jim, W7EJ, will be here starting February 24th until about the end of March. During this time, he plans to be active in three contests as CN2R. Look for him during the CQ 160-Meter SSb Contest (February 28-29th) as a Single-Op entry. Then in March, look for Jim in the ARRL DX Phone Contest (March 6-7th) and the CQ WPX SSB Contest (March 27-28th) as a Single-Op/All Band/High Power entry in both contests. QSL all three contests via W7EJ.

DAYTON DX DINNER BANQUET. The Southwest Ohio DX Association is pleased to announce the 19th Annual DX Dinner to be held on Friday, May 14th, 2004, at the Crowne Plaza Hotel, Dayton OH. QSL INFO AND NEWS.....
Luigi, IK8OZZ, is the QSL Manager of the following stations:
KC4/IK7JGQ and IK7JGQ/MM.

Pictures of the JA6WFM/HI8 operation can be found on the following Web page at: http://www.h7.dion.ne.jp/~ja6wfm/

The callsign KL7DX has been re-issued to the Alaska DX Club in memory of Robert L. Rapuzzi, former holder of the callsign. AC7DX will be the QSL Manager.

NEW MANAGER. Joe, W3HNK, is now the QSL Manager for FK8GX and YI3Q.

NOT THE QSL MANAGER! KZ5RO is the QSL Manager for TA3DD, not KB2MS. Mark, KB2MS, states that he is still receiving a few cards for him. However, KB2MS is currently the QSL Manager for A22EW, 9K2SS, and HI3NR. QSL HI3/KB2MS via KB2MS.

QSL W8P via P.O.Box 252, Oscoda, Michigan 48750 (C/O: Raymond H.Knuth, KB8ZYY). Activity was by the Iosco County Amateur Radio Enthusiasts, located in Iosco County, MI (En-84), during the 54th Perchville Winter Festival on the shore of Lake Huron. This event took place on February 7-8th.

TOP 5 QSL MANAGER NOMINATION FOR 2003. John, K1XN, from "The GoList" announced that the nomination for TOP 5 QSL MANAGERS of 2003 closed on February 1st, and here is the list of all the managers nominated as TOP 5 managers. He states, "The response has been great this year and the nominations show why you just can not place a single one on a black list. QSL Managers provide the DX community a very valuable service and our experiences with these managers will be 'good and bad' but most of the time it is not the fault of the manager personally. The nomination list proves that other variables enter into the good/bad equation. Here is the complete list (98) in alphabetical order. The TOP 5 of the Top 5 list will be announced later (next week). Thanks to all of you that participated in this activity and look forward to your help with this survey next year (2004)."

There's something magical about getting on the air for real though. I
can recall jumping at the chance to run a college radio station when I
was younger even though I wasn't a student there. Why did outsiders run
it? Because the students didn't care.

Some friends and I spent three years broadcasting from there. The
experiences could never be duplicated.

Here's a small sampling:

The night security let in the beasts. We kept the studios locked but
they could see us through the studio windows. Grrrr!

The night I managed to lock myself out of the studio as a record was
just ending. Took me a good 4 hours to find a security guy who had a
key.

Having to bring the tools and soldering irons to repair the ancient
Dukane mixing board we had to deal with. Oh, and smelling that telltale
odor that we just smoked something else in the board.

Reverb was created by tuning a portable radio to the same frequency and
placing it at the back of the room on low to medium volume.

Play it backwards? All you needed was a thread spool and a pencil sub.

Doing phase crossovers by messing with the inputs to the preamps.

Digging through the record vault and finding rare old gems, dusting em' off and playing em'.

It was too much fun. Hey, I was all of 21 at the time and it was a hell of alot better than rolling around on the streets.

Go to www.qrz.com and link to downloads, then morse code programs.
You'll find a slew of freebies. My personal preference is SUPERMORSE,
which runs in DOS. You can not only do practice groups, but you can
also take simulated exams at any word speed you desire.

Good luck and 73,

Looks to me like he satisfied whatever complaints were filed against him and that in the short term renewal period no other complaints were filed against him thereby allowing his renewal. Apparently he behaved as asked and was allowed to renew. All of that is writen in the FCC Enforcement releases, nothing is hidden or corrupt.

The one consistant thing about you Woger is that you never pull your

You Never Even Called Me By My Name
Written By Steve Goodman/Xemblinsky

WELL, IT WAS ALL
THAT I COULD DO TO KEEP FROM FARTING'
SOMETIMES WOGER'S SO USELESS HE'S A PAIN
BUT YOU DON'T HAVE TO CALL ME DIPSHIT, DIPSHIT
YOU NEVER EVEN CALL ME BY MY NAME
YOU DON'T HAVE TO CALL ME MIKEY MACLENNAN
AND YOU DON'T HAVE TO CALL ME FATASS CHASON
AND YOU DON'T HAVE TO CALL ME JOHN KIMBELL/ANYMORE
EVEN THOUGH YOU'RE ON MY FIGHTING' SIDE
CHORUS:
AND I'LL HANG AROUND AS LONG AS YOU WILL LET ME
AND I NEVER MINDED STANDING' IN THE RAIN
BUT YOU DON'T HAVE TO CALL ME DIPSHIT, DIPSHIT'
YOU NEVER EVEN CALLED ME BY MY NAME
WELL, I'VE HEARD MY NAME
A FEW TIMES IN YOUR NEWSGROUP (alt.cocksucker.roger-wiseman)
AND I'VE HEARD IT FROM THE WOMEN THAT I'VE LAID
BUT THE ONLY TIME I KNOW
I'LL HEAR "RAOUL L. XEMBLINSKY"
IS WHEN JESUS HAS HIS FINAL JUDGMENT DAY
REPEAT CHORUS
RECITATION:
WELL, A FRIEND OF MINE NAMED AARON HENNE WROTE THAT SONG
AND HE TOLD ME IT WAS THE PERFECT ALT.FLAME SONG
I WROTE HIM BACK A LETTER AND I TOLD HIM IT WAS NOT THE PERFECT
ALT.FLAME SONG BECAUSE HE HADN'T SAID ANYTHING AT ALL ABOUT JESUS SLUT
FUCKCER,
OR DICK SUCKING FAGGOTS,
OR WEST VAGINA,
OR PRISON,
OR GETTING' DRUNK
WELL HE SAT DOWN AND WROTE ANOTHER VERSE TO THE SONG
AND HE SENT IT TO ME,
AND AFTER READING IT,
I REALIZED THAT MY FRIEND HAD WRITTEN THE PERFECT
ALT.FLAME SONG
AND I FELT OBLIGED TO INCLUDE IN THIS POST
THE LAST VERSE GOES LIKE THIS HERE:
WELL, I WAS DRUNK THE DAY JESUS SLUT FUCKER GOT OUT OF PRISON
AND I WENT TO PICK HIM UP IN THE RAIN
BUT BEFORE I COULD GET TO THE WEST VAGINA IN MY PICKUP TRUCK
THAT DICK SUCKING FAGGOT WISEMAN WAS RUN OVER BY A DAMNED OLD TRAIN
CHORUS:
AND I'LL HANG AROUND AS LONG AS YOU WILL LET ME
AND I NEVER MINDED STANDING' IN THE RAIN
NO, AND YOU DON'T HAVE TO CALL ME DIPSHIT, DIPSHIT

YOU NEVER EVEN CALL ME
WELL I WONDER WHY YOU DON'T CALL ME
WHY DON'T YOU EVER CALL ME BY MY NAME

He missed his re-test and had his call revoked. He never took the retest, and Riley still gave him his ticket back. He is the only one to acheive this feat. Let me quote what you either failed to read or did not understand:

First:

TAMPA, FL [UPDATE]: The FCC notified James W. Dale, formerly KE4TEW, on August 3, 1999, canceling his General Amateur Radio license. The FCC had notified Dale on June 18, 1999, requiring him to retake his Amateur Radio examinations prior to July 30, 1999, under the supervision of FCC personnel in Tampa, Florida. According to FCC Attorney Riley Hollingsworth, K4ZDH, Dale failed to appear for reexamination, and his license was consequently cancelled. Hollingsworth also warned Dale about continued operation of radio transmitting equipment.

Then the 180 degree switch:
TAMPA, FL [UPDATE]: The FCC notified General licensee James W. Dale, KE4TEW, on September 28, 1999, that it was reinstating his Amateur Radio license with a short-term renewal date of September 29, 2000. Dale had failed to appear for reexamination after being notified by the FCC on June 18 to retake his Amateur Radio examinations prior to July 30, and his license was cancelled on August 3, 1999. FCC Legal Adviser for Enforcement Riley Hollingsworth said the FCC has "since reviewed and accepted" Dale's detailed response and his explanation for failing to appear for retesting. Hollingsworth said the FCC was reinstating Dale's General license "pursuant to our agreement with you," but the FCC letter did not elaborate.

All stations failing to appear for re-test had their calls cancelled. Not Dimmy Dale. What was the "Agreement"? The FCC has pending FOIA requests on this issue, and some Congressional complaints have been made as well. Soon we will all know about the "Agreement".

I bought the Yaesu VX-2R from The Ham Station (Evansville IN) at the Fort Wayne IN hamfest. I sent in the application to Vertex for the $50 rebate.

My friend got his but I didn't. So I wrote them a letter with copies of all the documentation that I submitted he first time. I received no erply and I have not received the rebate.

I notice the ads in QST still show the $50 rebate as being in effect.

I met all of the deadlines with time to spare. Anyone have any clues?

Incidentally, it's a great little rig.

Diathermy was mentioned in the longwire exposure thread and made me think of this long standing problem here in northern IL..

For some years now, there has been interference on the local 2M repeater (145.41) which sounds just like the diathermy I used to hear on 10M long ago. I could tell that it was a crude 60/120Hz. modulated signal which swept through the repeater input frequency.
It is easily readable on the input over an area at least 3x3 miles. No one has had the time to spend and I (with some pretty good equip) only went out a few times (can't spend a lot of time on the way to work... & when I'm off, it isn't very active), but have limited time as well.

. It is more active in the morning rush hour and rarely later in the day and probably never on weekends.

It has to be some kind of RF heating machine, right? Plastic sealing?

Here is a full symptom account to show that I know what characteristics it has.
I took a spec analyzer out and could see the signal sweeping down at least five MHz. (where I had it set at the time). I can hear it sweep through sometimes slowly and sometimes quickly. It so happens that it conveniently slows down and comes to a stop right around the repeater input - sometimes ON the input, but spends no more than 2-3 seconds if it happens to stop there AND stay on long enough. It has a variable time "on"and doesn't always make it to the input freq.
Now that the repeater is using CTSS full time (last Sept or Oct another fulltime input spur appeared!) , it doesn't bring up the repeater. However, you can hear it as it comes into the input across the freq -- if it is strong enough it will eventually capture and the station talking will go away, PL detect dies, the beep goes, then this reverses as it continues through the input freq.

I also am waiting for rebate on ft-817, bought Dec. 11. I have contacted Yaesu by phone and e-mail and the answer I get is they are swamped with rebates and getting them out as fast as they can. It appears there is no order as to how they handle them. Ours, which were sent in early are at the bottom of the pile.(HI)

I have a fifty dollar bill that is set aside for Roger. All he has to do is prove he has a Birth Certificate and can answer two of the four questions below.The Fifty is his for the taking.
Roger...
1. Prove that you are the offspring of a legally married couple.
2. Prove that you graduated from ANY school, whether real or by correspondence.
3. Prove that you have ever held a full time job. Full Time Student does not apply.
4. Prove that you are allegedly dating a female. All she needs to do is to be able to talk...race and age is not important but she MUST be a human being with no mental handicaps.

If you, Rogie, can prove but two of the four so mentioned I will hold true to my offer and send you a fifty dollar bill.

The questions are difficult. Some are personal. We understand if you cannot answer question number one and since you are an adoptee you can strike that question from the pool.

After all, Rogie. It is none of our business who the sperm donor your Mom allowed between her legs was. The bottom line is she spread them, he popped a nut and much to our chagrin here you are!
There is still that nagging thought...why did your birth mom farm you out? I guess she simply didn't want you and that is understandable. To this day nobody wants you....

Does this mean, Roger, that you are a Bastard? Kinda looks like it, huh?

Same here. Bought an FT-817 also just after xmas and still waiting.
I believe that Yaesu has all of 5 employees in the USA. Everything
else seems to go 'thru channels' back in Japan first. I guess this is what
one is to expect when you buy radio gear that is 100% dominated
by a Japanese owned manufacturing monopoly structure. Not much
different from rebate and credit offeres I've had to wait for 3-5
Months for photography equipment from Minolta and Canon.
This could be called the 'slow boat to Asia' syndrome - grin.

Take a normal CB with mag mount antenna and
power supply... put the mag mount on or near your
stereo. Transmit and listen.

3B9, RODRIGUES ISLAND (Update). Don Field, G3XTT (NK1G), 3B9C Publicity Officer, sent out on February 12th, a third bulletin concerning "Project Star Reach", a project focused around a major expedition to Rodrigues

Island, with the callsign 3B9C. Excerpts from the very long press release states, "All preparations for 3B9C are on track, and everything is looking good. Our container should arrive in Rodrigues on 26 February. This bulletin brings news of the Nevada Rodrigues Trophies for working 3B9C, some information about QSLing, and other items of interest." The release mentions that Rodrigues Island has moved up the "Most Wanted List" according to "DX Magazine's" latest rankings. It shows that Rodrigues has moved from 81st on the "Most Wanted Worldwide" in 2002 to 75 in 2003. For the U.S. the change is even more marked, up from 79 to 53 in the Eastern time zone and from 49 to 33 on the West Coast. Also mentioned were details of their "Nevada Rodrigues Awards Programme". The objective of the "Nevada Rodrigues Trophy Programme" is to encourage individual stations of all types worldwide as well as local club stations to make contact with the 3B9C DXpedition during March/ April 2004. They are very keen to encourage all amateurs to participate, particularly those with low power, relatively poor antennas or who are new to HF. They also want to encourage members of local clubs to participate. Trophies will be awarded to stations who work 3B9C on the highest number of band-slots. There are also trophies for SWLs. For specific details on the award, please go to their Web page.They state that the callsign of the 3B9C QSL Manager and P.O. Box will be announced in the next press release. Requests for bureau cards, however, can also be made via the 3B9C Web page. Direct cards will be available shortly after the DXpedition members return home. For more information and updates, please visit the 3B9C Web site at: http://www.fsdxa.com/3b9c

4L, GEORGIA. Shota, 4L6AM, will be active in the CQ WPX SSB Contest (March 27-28th) as a Single-Op/Single Band (20m)/High Power entry. QSL via address on QRZ.com.

5V, TOGO (Update). Members of the F6KOP Le Radio Club de Provins 77 (near Paris) will be active as 5V7C from March 6-13th. Propagation forecasts, the band plan scheduled and the world azimutal map for beaming to Togo are now available on the 5V7C Web site at: http://5v7c.free.fr/Infopropag.htm

6Y, JAMAICA. The RZS Amateur Radio Club (W2RZS), consisting of Bob/WB2NVR, Mike/WA2VQW, Adam/N2DHH and Bob/N2DVQ, announce that they will be operating from here during the time period March 24-30th. This will include their participation in the CQ WPX SSB Contest as 6Y2RZ. Before and after the contest the club's callsign W2RZS/6Y5 will be used, however; it is also possible that the club's members may elect to use their homecalls/6Y5. Mike intends to be particularly active on the WARC bands during non contest times, 30m is his favorite. All QSLs will be sent to, and answered via the bureaus. You may, of course, QSL direct with SASE if desired. WB2NVR collects stamps, so he will pay special attention to those!

7Q, MALAWI. Allen, G0IAS, informs OPDX that Harry, G0JMU, is once again active as 7Q7HB. Harry has a busy work schedule, but as he is there for a minimum of 10 weeks, he should be able to get a bit of operating time in. He was active this past week on 30 meters, so look for him between 2100-2300z. Also, watch 15 meters (CW/SSB) between 1130-1530z. QSL is

via G0IAS DIRECT ONLY (There is NO 7Q Bureau, and Harry has no cards). Allen, G0IAS, also reports to OPDX that Ron, 7Q7RM, informed him that the 7Q 50 MHz Beacon which was hit by lightning is now repaired. However, as the supply of aluminium in 7Q-land is non existant, the antenna will be remade when he gets back from Rep. South Africa. The UK 6 meter group has offered to supply a new antenna and are waiting for a response from Malawi.

8Q, MALDIVES. Pierre, HB9QQ, will again air 8Q7QQ from Velighoo (North Atoll) between April 13-27th. Operations will take place on 30/17/12 meters with full size loops. QSL via his home callsign.

BOOK REVIEW (by Tedd, KB8NW). A new book is available for DXers to add to their collection. This interesting book is for both old and new DXers who are trying to reach the "Top of the DXCC Honor Roll". The 32 page book titled "Tips To The Top From DX Pros" is written by Devere "Dee" Logan, W1HEO. The book contains details of a survey conducted among 100 leading leading DX operators listed in the DXCC Honor Roll, Worked All Zones and CQ DX Awards rankings, plus key DXpeditioners. With over 40 percent of the 100 surveyed, this book provides "A Summary of Tips, Tactics and Secrets for reaching the Top of the DX heap - From those who've made it". The book's contents deals with subjects such as, mark of a good DXer, Station equipment (and features), Favorite DX Antennas, Stalking the Rare DX and Success in the Pileups. It also contains subjects on logging memorable DX QSOs, QSLing, and a listing of some helpful DX tools to use. If you want something that is very "Helpful" as well as "Quick and Easy to Read", this book is for you. Book cost 9.00 USD (plus 1.50 USD shipping and handling per copy). Available via:
DX Book, 9901 Cypress Cir., Mentor, OH 44060.

C6, BAHAMAS. Randy, W6SJ, informs OPDX that he will be active as C6AWS in the ARRL CW DX Contest (February 21-22nd) as a Single-Op/All Band/Low Power entry. Between February 17-21st, he will operate as C6A/W6SJ. He will be active primarily on CW with an emphasis on the WARC Bands. QSL via his home call.

CLIPPERTON OPERATION CANCELLED. The Clipperton Island DXpedition, which was to begin in early March (around March 8th), has been postponed due to transportation problems. The team still plans to go to Clipperton, and as soon as they can find and arrange new transportation, the DXpedition will be a go. However, this may take some time (few months). Be looking for updates.

CS6, PORTUGAL. Operators Ulrich/DL3OI, Diemo/DL4LQM, Wolfgang/DL4WG, Ulf/DL5AXX, Thomas/DL5LYM and Frank/DL8WAA will once again be active from Portugal using the callsign CS6V during the ARRL DX CW Contest (February 21-22nd). QSL via DL5AXX, no eQSL.

EA8, CANARY ISLANDS. Jim, ON5UM, will be active as EA8/ON5UM during the ARRL DX CW Contest (February 21-22nd) as a Single-Op/All Band/Not Assisted/ LOW Power entry. Activity will mainly be on 40-10 meters with some 80 meters if QRM permits and if he gets an antenna up. QSL via eQSL or via

his home callsign direct.

FS & HH OPS CANCELLED. Craig, AH8DX, reports, "A war has broken out in Haiti and all U.S. personal have been asked to leave the country. I therefore have canceled both of my trips to FS and HH in the upcoming contests. I will stay home and be safe."

INDEXA NEWS RELEASE (INDEXA appoints Vice President!). Judy Roush, AA7UC, President of INDEXA, informs OPDX readers: "The International DX Association (INDEXA) announces the appointment of Ron Wright, ZL1AMO, to the position of Vice President, INDEXA. Ron succeeds Bill "Pick" Pickard, WA5PAE, who became a Silent Key in late November, 2003. For many years, Ron, renowned for his passion for DX and his numerous DXpeditions, has supported INDEXA by serving as an INDEXA director. INDEXA now welcomes ZL1AMO in the additional capacity of Vice President, INDEXA. The professionalism, creativity, and commitment Ron brings to the job will benefit the future of DX, worldwide."

Of course, you don't have to be a hardened island chaser to participate in IOTA 2004, though you may well become hooked!" de Don Field, G3XTT

IOTA NEWS.....
NA-069. John, WA9HMN, will be operating from Estero Island, Florida, Lee County, North American Island FL35S, from February 18-23rd as time permits. QSL INFO AND NEWS.....
OUTGOING QSL BUREAU CHANGE! Martin, N1FOC, announced from the ARRL in Newington, CT, that the League has added 7 countries to the list of countries that they "do not serve". He states, "It got very costly to keep sending boxes of cards to these countries and have them keep bouncing back. They tried E-mailing the respective organizations and got ZERO response from that, and snail mail didn't work either." Effective immediately the ARRL Outgoing QSL Bureau had added the following countries to the "do not serve" list:
CN Morocco UK Uzbekistan
J8 St. Vincent ZA Albania
P2 Papua New Guinea 9Y Trinidad & Tobago
PZ Suriname
A full list of countries not served by the ARRL Outgoing QSL Service is available on the ARRL Web site.

A61AJ QSLS. John, K1XN, from "The GoList", received a note from George, K2UO, the A61AJ QSL Manager for North/South America and all U.S. possessions (Remember, Mario, DJ2MX, is the QSL route for the rest of the world), stating he has answered well over 7,000 QSL requests since taking over for Joe, N4QB. A good deal of the QSLs were backlog bureau cards George received from Joe. He has also answered the DIRECT backlog. Currently, George has ZERO backlog and answers cards the day he receives them. HOWEVER, there are considerable missing log segments, notably in 2002, especially March-April-May 2002; the WARC band QSOs. He does have a considerable backlog of MISSING LOG cards, and he is hopeful that Ghis/ON5NT and Robert/S53R will be able to find those logs. He has sent them a list of the missing dates/bands based upon QSL requests. So, guidelines for QSLing (per George) are as follows: If you send for multiple QSOs (with a single SASE) and one or more are in the "missing log" category, your card will be held until the boys in A6-land either get George the missing logs or declare that the logs are unrecoverable.

JD1YAB AND JD1YAB/JD1 QSL STATUS. Mr. Saburoh Asano, JA1MRM, the QSL Manager for JD1YAB and JD1YAB/JD1 (Also QSL Manager for 8N1OGA as well), has announced that all direct QSL cards (more than 15,000) for QSOs in the log and received by February 5th, were sent to the JARL Bureau on February 7th. Please DO NOT send YOUR QSL card to the BUREAU. The JARL BUREAU will not forward YOUR QSL cards to JD1YAB and JD1YAB/JD1. If you do not receive a QSL card(s) from JD1YAB, JD1YAB/JD1, or 8N1OGA after appropriate period, you can make a request to Mr. Asano about the QSL status via E-mail. His E-mail address is: ja1mrm@jarl.com

Ulli, DL5MBY, announced that the log for JY9QJ has been updated (on the following Web page) including QSOs up to February 10th. You can also check the status of your JY8YB, JY9QJ and JY8B QSOs on the online log at: http://www.qsl.net/dl5mby

Mac, W3HC, informs OPDX that he is now the QSL Manager for the following stations: XQ3WTR, CE3WTR, PY2OMS and PT5T.

NOT THE QSL MANAGER! (Update/Correction) Last in OPDX.647 we mentioned that KZ5RO was the QSL Manager for TA3DD and not KB2MS. However, last week we were informed that KZ5RO who was the QSL Manager, became a "Silent Key" in October 2003. A couple of sources report that Pete, K3PD, is now handling the QSL duties for Ron, KZ5RO (SK).

Geo, UY5XE, informs OPDX that the UA0ZAL/p (AS-039, October 2001) QSL cards are printed and are ready.

SILENT KEY. It has been reported that Jim White, K4OJ, became a "Silent Key (SK)" on February 12th during the morning following liver failure after a somewhat risky heart valve replacement. Jim enjoyed contesting and was the first president of the Florida Contest Group. Jim will be surely missed. OPDX and its readers would like to send out our deepest sympathy to his family and friends. For more information on K4OJ, please read this week's "ARRL Letter" (Vol. 23, No. 07, dated February 13, 2004).

T70, SAN MARINO. Two members of the Florida DXPedition Group, William/N2WB and Bill/W4WX will be in San Marino from March 16-22nd. They will operate as guest operators from the T70A Club Station using the club's callsign. Look for them on the HF bands on CW, SSB and RTTY. All QSLs go to: A.R.R.S.M. RADIO CLUB, P.O.BOX 77, 47890 SAN MARINO, REPUBLIC OF SAN MARINO - ITALY.

T98, BOSNIA-HERZEGOVINA. Jose, CT1FKN (4W6FK), informed OPDX that he has received the T98FKN callsign (dated February 6th to August 6th) and is currently in Bosnia-Herzegovina as a SFOR Member in the city of Doboj. He plans to operate on the HF and 6 meter bands during his free time. QSL via CT1FKN, direct or to the Portuguese Bureau.

TOP 5 QSL MANAGERS FOR 2003. John, K1XN, from "The GoList", announced this week the results of his "TOP 5 QSL MANAGERS OF 2003" survey. Over 2600 DXers from around the world nominated QSL Managers and here are the results: AC7DX, G3SWH, KU9C, N3SL and W3HNK.

V26, ANTIGUA. Operators George/K2DM and Peter/K3ZM will be active as V26DX in the ARRL DX CW Contest (February 21-22nd) as a Multi-Single entry. QSL via KU9C. Activity will be on the 6 primary HF bands only. George told OPDX that he and his brother Pete will be there between February 18-24th. They will erect the antennas on Thursday, then secure them on Tuesday after the contest. Most of their operations will be during the contest, but they will operate some outside of the contest starting Thursday evening and ending Monday night. Their operations will primarily be on CW with some SSB.

V3, BELIZE. Don/N5DD, Amy/KC5DJI, James/AG5TX, and Renee/KD5YCG will be operating from the Palcencia peninsula in southern Belize. Operations will be from March 13-20th. Activity will be SSB, RTTY, and PSK. Special attention will be paid to 12, 17, 80, and 40 meters, and possibly 160 and 6 meters. Callsign will be V31AD. QSL via N5DD. For more information and updates, please visit the Web site at: http://www.dxpileup.net

VK9C, COCOS-KEELING ISLAND. An early announcement by Bernd, VK2IA, states he will be active as VK9AA in the CQ WW DX CW Contest (November 27-28th) as a Single-Op/All Band entry. QSL via DL8YR.

VK9L, LORD HOWE ISLAND. Remember to look for Babs/DL7AFS and Lot/DJ7ZG to be active from here between now and February 27th. Their callsign will be VK9LB. Activity will be on 80-6 meters on SSB, RTTY and PSK. QSL via DL7AFS, via the DARC Bureau or direct to: Baerbel Linge, Eichwaldstrasse 86, D-34123 Kassel, Germany.

VK9X, CHRISTMAS ISLAND. Charlie, W0YG, will once again be active as VK9XG between November 22nd and December 9th. He states, "Hopefully, those who didn't make it in the log this last time will this next time." Charlie also mentions that all VK9XG cards for his operation in October and November 2003 should be out this week. He adds, "I can tell that propagation conditions were not good by the number of 'not in log' returns I have had to send. Sorry conditions were so bad but it is not often that one schedules a Dxpedition when three mass coronal ejections appear."

Might check with your local two way radio service shops. Think Motorola only licenses the software to authorized repair shops. The shop would program the radio, so there will be a service charge. Also the radio may not reach the amateur section of 900 MHz. Check before if the radio can be put on the frequency you want.

I can perform this conversion (something I forgot to mention in my previous post in the other newsgroup) for you. Probably run about $60 labor plus parts.

You need a lot more than just the Maxtrac software (still available for about $200 or so from Motorola). See my previous reply.

Source record: 59182

To upgrade the KPC-3+ to 512K RAM the easiest method is to do the following.

1. Order up a 512K RAM chip from Toshiba, part number TC554001AFT. This is a 32-pin TSSOP package. The DigiKey order number is TC554001AFT-70L-ND and costs about $4.50 USD. This is the 5V version of the chip.
2. Order up a TSSOP to DIP adaptor. This is DigiKey part number A323-ND and is priced around $11.00 USD.
3. When the parts come in, solder the Toshiba RAM to the adaptor.
4. Move the jumper for the RAM setting, J14 on the version I have.
5. Remove the old RAM, U14 on my version.
6. Install the new RAM that is on the adaptor. Watch for the pin-1 orientation.

With this done, I can easily put on the cover; the new RAM is lower than the surrounding parts. And best of all, it end up below $15 USD, less shipping and handling costs.

Oh, DigiKey's web site is http://www.digikey.com.

Any other questions, feel free to contact me at derek@dkoonce.com.

I just made a VERY VERY curious discovery on the URL
I posted in the original thread.

It seems that a company
in Hong Kong called Maxima Communication Ltd
is actually the OEM for several brands of Icom, AOR,
Kenwood and Alinco ham radio products !!!

(Among these are the Icom IC756-PRO and the Yaesu FT-1000MP !!)

I am sure all you hams reading this who paid BIG BUCKS for
a "Japanese made" Icom or Yaesu actually paid for a radio
that was made by Maxima in Hong Kong.....!

(as soon as it gets an Icom or a Yaseu Japanese
name on it, plus made-in-japan, the price is
inflated BIG TIME ???)

Check it out 4 yourself boys!

....and all this time I bey you thought U were
gettin a "genuine" Jap radio! You hams been paying

The Maxima Communications pages describe themselves as a "distributor"
for the lines you mention, and a bunch of others. I don't see any
specific information which indicates that they are actually the
manufacturer.

I grant you, it's quite possible that many of today's amateur radios
have some of their board assembly done in China, or in some cases even
the entire radio manufacture done there - this is common enough in
most fields of consumer electronics. However, I don't see reason to
believe that Maxima Communications is the factory or OEM, based on the
site whose URL you posted.

I generally get stuff there, by mail order, even though it's just down the road from me. I'm not in a hurry very often so haven't noticed what the speed is.

They keep moving the road so I don't bother trying to figure out the day's new traffic patterns. Let UPS figure it out.

I have found them very reliable.

I've ordered a few things from them and had good luck.

My impression is phone orders get processed faster than on line ones.

All Electronics is another outfit that seems to process phone orders faster than internet ones.

My Icom R-75 is clearly marked in several places: "Made in Japan".
Exception to the DC power supply, which is marked "Made in Taiwan".

I've had the same experience with them, they did say when I phoned them
to chase an online order that they always had a LARGE amount of on line
orders. I was also quoted 30 days but the kit has always arrived much
quicker than that, even taking into account customs at this end.

I ordered some filters for an Icom 706 from them last summer.
Prompt, courteous service, only one filter backordered, and it shipped
exactly when they said it would (earlier, come to think of it).

I'd say deal with them with confidence. I've never had a problem,
anyway.

When I get the money, I'll buy one. Plus there are internet/radio
gateways.

And an HF rig isn't going to help me. I'm only a tech.

Thats why I want to learn CW so I can earn my general.

I've had similar experiences. You are told the product is in stock
until the order is completed, then they tell you the item is
backordered.

I did want to test a Ten-Tec RX-340 there, and when the lady who
answered the phone asked someone else if I could test the radio, she
was told, "hell no, that's a $4000 radio."

So I drove to Ten-Tec and was given free-reign to play with the radio.
I bought one, from Ten-Tec, two months later.

All that said, Universal is kinda the lesser of two evils in the
shortwave supply biz. I look elsewhere when I can, such as Ham Radio
Outlet or one of the myriad national mail-order scanner shops.

Rusty In Lousiville,

I had a negative experience and would *not* recommend Universal Radio.
Alternatively, I *would* recommend C Crane Radio and/or Grove Radio:
I have made satisfactory purchases from both.

Good Luck

1066. Designing Frequency-Dependent Impedances?

Hi,
Every one knows, that e.g. a simple RC-parallel circuit has a frequency-dependent impedance-characteristic (Absolute Value) - the impedance (Abs) raises as the Frequency approaches zero. As a formula: Zin = 1/(1/R + i w C) , where i ist the imaginary number and w the frequency.

Now the hard part. How does one create an Impedance, which decreases "slower", for frequencies close to zero but then decreases "faster" for higher frequencies, than the simple parallel RC-Circuit?
Is there some kind of procedure like the one for syntesizeing LC-Filters (Butterworth, Chebychev,..)?

Simply increasing C does not really help, because this equals a factoring of the frequency.
Increasing R does not help as well, as it seems.

I hope one of you cracks can help me out.
So far, thanks for reading.

I've had mixed results with Universal Radio - one order went well and another didn't. I've had slightly better results with Burghardt (www.burghardt-amateur.com) and their prices are often better. However, since you added a shortwave newsgroup to your message, I should point out that their primary focus is on Amateur Radio, with very little shortwave equipment.

I've never looked into changing the slope of impedances,
but depending on what you are doing you might be
interested in how to control the slope of filter
transfer functions to get something other than 6*N
dB/octave. A common requirement is to get 3 dB/octave,
which is done by cascading normal low-pass and high-pass
stages in a piecewise-linear approximation. The slope
starts down at -6 dB/oct then it hits a +6 stage which
flattens it out, then another -6 stage, etc. You can get
closer to the desired slope by having more stages with
closer spacing. If you are going to build a one-off version,
you might want to use buffered stages so they don't
interact and you can design your network from the Bode
plots. If you are in mass production, you may want to
skip the buffers and spend a lot more time dealing
with the interactions. Without buffers, you probably won't
be able to get a very wide frequency range, but I have
seen this approach used for generating pink noise
from white noise over a useful portion of the audio
range.

Hope this helps!

I've ordered from them before and never had
any delivery problems.

Backorders are usually a function of the leadtime
from the manufacturer (all of them are in Asia)
and not the dealer. This issue cannot be helped.
It's the nature of supply vs demand.

Of late however, I've been ordering from
Texas Towers http://www.texastowers.com/
for ham related items and also Grove Enterprises
http://www.grove-ent.com/ for SWL items.

Both of these Dealers above were able to get me
a better price on a given item in several cases of
purchase over the quoted price from U.R.

The best antenna is not the longest thing you can put up, unless one of the many minor lobes you create will point exactly where you want to go at a radiation angle you need, and this is highly unlikely, but it does sometimes happen.

The best thing to do is decide where you'd like to reach, for example, which continent. Are you a DXer or do you do mostly local rag chews? What frequency bands would you like to operate, and what size constraints do you have to live with? Are there any natural supports you'd like to take advantage of? Do you need multiband operation? Do you have an deed restrictions on what you can put up?

Study the radiation patterns of dipoles, verticals and if you have the space, long wires.

Do you have a tuner?

Remember, no antenna creates RF to get "gain", they only focus it. The ideal RF antenna would radiate equally well in all directions. Since you live on earth, the effect of height is an issue, as is the ground effect on the pattern.

The best antenna to start with for a newbie is a windom cut for the lowest band that will fit on your lot. With this kind of antenna you can run all harmonic bands (ie 80M will cover 40M,20M,10M while 40M will cover 40M, 20M, 10M) quite well and not require a tuner. Several of the WARC bands will work ok too but the SWR may be a little higher. I regularly use my 80M windom on all bands here, most of them without a tuner, and the rigs tuner is good enough on the one or two where the SWR is just over 2:1 which isn't an issue, it just causes the radio to reduce power.

The second best antenna is a vertical, but most newbies screw up the installation. You either need 4 elevated radials or you need lots of radials on the ground. Lots means 16 or more. Again, the literature is full of information on these topics, and there was even an article a few months ago in QST I think where someone did a study on the best use of the wire for a vertical ground plan - ie more or longer radials for a given length of wire to optimize results.

The vertical is a good newbie antenna because it radiates equally well (some say equally poorly) in all directions. Although some of that will go to places where no one lives, if you have a good ground plane the low angle of radiation will be to your advantage. One caution, if you live with a lot of neighbors around verticals pick up noise more than horizontal antennas and this can be a big issue. In that case stick with a windom.

If you have the money and the time and a computer, try purchasing an antenna modeling software packet. I use NEC4WIN but there are many. With this, you can model various wire configurations quickly and see EXACTLY what they will do in terms of gain/loss/pattern etc. This will save you a lot of time and money building things that don't work.

Finally, if your interest is local ragchewing, a low horizontal antenna may be just fine.

I have an extensive antenna farm here, quads, yagis, dipoles, verticals, etc. and over the past 35 years I've tried everything. The best overall antenna, the one that I keep coming back to as a standard or default for comparison is the windom. This off center fed device is fed at a point where the SWR is tolerable on harmonically related bands using a matching balun. My favorite was made by Fritzel, but I don't think they make them anymore, but an internet search will turn up several suppliers and/or plans for your own. The biggest issue in a windom is just the balun, and I recommend CWS Bytemark products if you can get them.

Again though, remember that once the lengh of the wire is greater than 1/2 wavelengh the pattern starts to form lobes that can give you a great signal - somewhere - and an equally poor signal in other places. This is true for a windom too, on its harmonic bands. That is why 40 meter windoms exist (besides the fact that they are shorter).

One of the best ways to solve your problem is by reading. Fortunately these days you can read about antennas for hours on the internet at no cost, but the best books I've found over the years are the ARRL Anthology series and of course the ARRL antenna book.

The strong RF signal is being picked up by the speaker wires which act like antennas. The coupled signal is then rectified by the some unintentional artifact of the design and the resulting current flow causes the speakers to move creating audio.

To cure the problem purchase a .01 uF ceramic cap and place it accross your speaker terminals, and/or shorten your speaker leads, or use sheilded wire for them.

You can also try using ferrites on the speaker lines but these don't generally work as well and they are expensive.

I've had less than pleasant experiences with Universal. The staff seems
almost surly and almost equally unfamiliar with the equipment they sell.
Prices are higher, by quite a margin, over other dealers. My personal
preference is R&L Electronics in Hamilton, Ohio, just north of
Cincinnati.

Had significant trouble with an R8B order. They did not ship as they promised and the worst part was they lied to me. The office manager was exceptionally surly when I called and asked what had happened. I doubt they know the first thing about good customer service.

The G4FON is probably the best as it computerizes the Koch method of learning. It is free for downloading from the internet and takes you step by step to proficiency. To get an understanding of why the Koch method is considered the best way to learn, read "The Art and Skill of Radiotelegraphy" which is also available for free on the internet.

Diego: if you want to make an impedance out of regular parts, I'm afraid you don't have too much to work with. Impedances made of R, L , and C's have certain rerqirements: for example, the numberof poles and zeros cannot differ by more than 1.

If you can use active parts, though, you can get all sorts of impedances. You have to be careful with this, though, because these impedances likely will oscillate unless you put them in a circuit that dampens out their activity.

What did you have in mind?

If you want a big impedance in some frequency ranges, then a small impedance in others, one way to do that is to use a passive filter design. For example, the input of a bandpass filter looks a lot like the terminating resistance in the passband, and is much higher or lower out of the passband. So, the input impedance of a high pass filter made with several L's and C's will be large at low frequencies, and resistive (and smaller), at high frequencies.

Apologies for the wide cross-posting.

A good friend of mine is about to take his iBook, a DV-cam and a rather spiffo solar power system (thanks to the Rainbow Electric Company of Nimbin) into the wilderness in an attempt to chronicle the destruction of the Tarkine forest in north-western Tasmania.

What he wants to be able to do is to upload his edit movies to his website from the middle of the activist's base-camp in the Tarkine, which is hundreds of kilometers away from the nearest cel-phone tower.

The transmission site will be several hundred kilometers to the nearest mass of civilisation - the Tarkine forest is Tasmania's largest single remaining old-growth forest, which is why it is trying to be protected. Not only have scientists discovered the world's oldest living tree, but the botanical contingent of the activist camp have identified almost a dozen new species of flora and insect life in the Tarkine.

Visit http://www.tarkine.org for more information.

The logging companies have broken federal and UN injunctions and have begun a drastic slash-and-burn campaign to obliterate the Tarkine, not because they can use any of the wood from the forest, but as an utter act of defiance against the green movement. They're uprooting all vegetation, pushing it into piles and burning it, then dousing the exposed soil with the toxin 10-80 from the air to destroy all life (including microbial) to a depth of 1.5 metres.

They're doing this to spite the greenies, because the logging firms know that if they sat on their haunches and followed due process, they will lose. They've moved in in force and are trying to clearfell as much terrain as possible before being ordered out by the government, who will then look at the cleared land and then get them to replace the trees, which the logging companies will do but with their *own* strains of pine.

My friend is not a radio amateur, he's just a geek-friendly media-centric activist with not a lot of money, and bi-di satellite is completely out of the budget range, hence the request for other forms. We are just looking for the cheapest method of being able to access the internet from the middle of the Tarkine forest that does not entail line of sight or 'repeaters'.

Sneakernet is not an option, because of the high security presence -- already five activists have been seriously injured by the hired goons either entering or leaving the area of the Tarkine where the logging

companies are at work. It is rapidly changing from just some tree-loving hippies versus the loggers, this is turning into a war-ground.

The question is: what forms of amateur radio communications equipment and software will he require to give this remote Macintosh access to the internet, and regularly?

Geoffrey

And I'll agree about CCrane. I had a problem with an used radio I bought from them (and the problem was not very great) and they went so far out of their way to make sure I was satisfied that it embarassed me!

I tried to talk them into taking some money ($25?) and they just wouldn't let me give it to them.

If CCrane has something I want, I'll buy it from them without comparison shopping - I could care less if they charge more; I don't mind paying for quality.

And just wait 'til I tell y'all about their battery charger!

I think you'll find that the impedance looking into a properly terminated highpass filter has this characteristic, provided that the filter is realized with a series C as the input component.

LC filters accomplish their attenuation by means of mismatch to a fixed source impedance, since they don't have any (intentionally) dissipative elements. This mismatch can go in either direction, that is, the impedance can get either higher or lower with frequency, depending on how you've chosen to realize the filter. One starting with a series C will have an infinite impedance at DC, and will approach the impedance of the load at frequencies substantially higher than the transition ("break") frequency. You can get increasingly fast impedance changes with increasing filter order.

Diego:

You cannot do exactly what you want, but you can get arbitrarily close to it. The "closeness" being a function of cost. The closer you want to get to the desired curve of impedance versus frequency, the more the cost [cost = total number of elements in the design].

Basically what you need to do is very well known in the network synthesis literature as driving point impedance [DPI] synthesis. [e.g. Darlington's method and other similar techniques. Darlngton's technique approaches the problem of DPI as the synthesis of a lossless two port terminated in an appropriate single resistance.] Network synthesis was widely studied and taught back in the 1940 - 1970 era but... today it is seldom seen, used, or taught. There are however lots of older textbooks which cover this field. I'll post a few such references here below.

Before you can actually perform the DPI synthesis you will first have to find an appropriate rational polynomial which approximates the impedance curve you desire to match. To obtain such a rational polynomial you will first
have to solve an appropriate approximation problem. Approximation theory and the techniques for doing this are a whole 'nother problem, and other than a few simple graphical straight line segment tricks, will usually require the use of a computer with an appropriate algorithm which you may have to write yourself! :-)

Check out the following classic texts on network synthesis for a complete run down on what you need to do:

1.) Ernst A. Guillemin, "Synthesis of Passive Networks", John Wiley & Sons, NY, 1957. [LC# 57-8886. On technical library shelves at LCShelf Call # K3226.G84. See Chapters 3, 4, 9, 10 which cover DPI synthesis in detail, and Chapter 14 which covers the approximation problem.]

2.) Norman Balabanian, "Network Syntheis" Prentice-Hall, Englewood Cliffs, NJ 1958. [LC# 58-11650. On technical library shelves at LCC Shelf Call # TK3226.B26. See Chapters 2 & 3 for DPI and Chapter 9 for the approximation problem.]

3.) Louis Weinberg, "Network Analysis and Synthesis", McGraw-Hill, New York, 1962. [LC# 61-16969. On technical library shelves at LC Shelf Call # TK3226.W395. See Chapter's 9 & 10 for DPI synthesis and Chapter 11 for the approximation problem]

One does not have to realize such designs with purely passive RLC networks and they can often be synthesized with active RC networks [R, C and Op-Amps] by appropriate transformations of the passive synthesis. See for instance...

4.) Adel S. Sedra and Peter O. Brackett, "Filter Theory and Design: Active and Passive", Matrix Publishers, Portland, OR, 1978. [LC # 76-39745. On technical library shelves at LCC Shelf Call # TK7872.F5S42.]

Also, and I have done this a couple of times for special low frequency applications, one can match the analog driving point impedance through an appropriate Op-Amp reflectometer circuit to a combination analog to digital A/D and digital to analog converter D/A and perform/emulate the DPI synthesis in real time using digital signal procssing [DSP] techniques.
Basically to use the A/D - D/A digital technique to emulate the desired DPI you will have to solve the same synthesis and approximation problems.

Hope that all helps... good luck

:-)

1) We call for an end to U.S. occupation, and withdrawal of American troops. Because the U.S. invasion destroyed the governing capacity in Baghdad and undermined security for civilians throughout much of the country, the withdrawal of the U.S. forces should be followed by a temporary combined mandate for the United Nations, Arab League, and OIC (Organization of the Islamic Conference) to provide direct support for Iraq's reclaiming of sovereignty. That would include election assistance, humanitarian and reconstruction aid (including control over all international funds, including those coming from the U.S. Congress, designated for Iraqi rebuilding), and peacekeeping/security deployment. \ \

Ann Coulter - "Liberals just call Republicans names."

Her suggestion is against the common sense of a literate segment of humanity who knows something is a farce about this tart, and for me, entertains for words to gain a better understanding for proper acknowledgment.

Coulter is bigot rousing on purpose I think, just to get all the american corporate monetary gratitude, in selling herself not present as a significant baitor unaddressed publicly in our corporate news circles. She sells excuses to cowards, of not addressing specific acts of treason committed by individual traitors, like rummy or Ashcroft, and instead, suggests all people have

no ability through bushite america to recognize themselves being robbed their freedoms or murdered directly for the furthering of the evil bush demon war lies.

Interesting.

A repuglicon nazi bushwhore, who will say anything to allow bush to steal further from America, is not a tried and true Republican blue collar. Is it in Ann's contention, that all Republicans can't imagine themselves having any independent opinions? Or, is Ann saying that every Liberal blames Republicans of every stripe throughout History instead lawless bush personally for sacrificing the nation as evil incarnate?, committing to murder individual New Yorkers as America sacrificing, then further acquiescing to needlessly feed toxic waste to all American soldiers, while loyally blowing themselves up dead as individuals to pieces with sexy rummy cluster dud, all for being blind disciples of the unAmerican bush demon antiChrist, their ungodly evil false-deity as enemies of God's love, America, and our good names?

Naming the repuglicon demon bush a terrorist recruiting cop killing heroin pusher, who played a central part in the murder of thousands of New Yorkers is well established factually, and publicly confessed as all planned to act upon before hand. Who says? MSNBC's Jim reported with the White House, as a 'top secret' [Oops, deceived America wasn't suppose to read this one Condi] strategy of not following the 9/11 crime scene evidence, and confessed as 'fully implemented'. A General Ahmad plan to blame bin Laden as innocent of to secure invasion of Afghanistan. For Enron et 'al, the treasonous g-e-t-t-i-n-g . . . a-w-a-y. ... Pension thievers. Remarkable to say the least.

Anyway, solid, documented evidence including the circumstantials, like cheney's "The Dabhol Working Group", Niaz Niak, and the quietly contacting of allies publicly to attempt legitimacy of faked collusion, as such, with rummy's Pentagon arranging a same-time, what if a 9/11 occurred plan involving everyone misled, like also dummy rummy's P2OG, where dummy rummy writes to commit terrorist acts against our innocent families, he prefers if any connections have to be made, they be made with the widest banner of "The Pentagon", as to hide himself from corporate american news scrutiny, who

(Also, to succeed in assisting in robbing the Central Bank, and museum, the nuclear facilities containing radio-active contaminants were left unguarded, as not centrally relevant to franks why soldiers were told they're still sacrificing their lives for. "Duh, why are we here to kill good people needlessly so the bushmob back home can further rob our undefended families bro? Bro?")

--

This is for all to agree settled as official History.

America devolving into the criminal tyranny of the evil bushmob is happening. All the while, we witness, the LEADERLESS nazi bushite soldier cowering as cowardly sell outs to their very own friends and family being robbed back home, left undefended through blatant over billing as UNACCOUNTED, leaving their own sons and daughters to dutifully eat plutonium, and going further silent when it comes to rumsfeld and franks needlessly dropping thousands of land mine cluster bombs to murder us people indiscriminately, which, kills their own aplenty, in a more way than one knows. Karma. (rummy's pentagon is misleading soldiers on how many have so far died to allow Halliburton to criminally steal humanitarian aid from The People, as one example,) Again, as bushite fascist nazi vermin, they let those responsible for destroying America through the bushmob war crimes, still sit in the, for sale freedom captain's chair, high-jacked from US true Loyalists, attempting to get away the bushmob is doing from 9/11, by going real fast .. nowhere.

Second, if Liberals include whomever, how could Ann possibly assess that all would consider calling ourselves anything but, unique as individuals? Bizarre.

The American Constitution is our souls included in those timeless thoughts of Justice for all as The People. The bushmob is destroying freedom by persecuting the innocent as terrorists, when they, in AMERICA'S NAME, throw out the concepts of Justice for any. No publicly understood evidence to form our conclusions, is a corporate demand your faith be in the unjust bushmob 'cabal', and not in Freedom for all through establishing the actual "bad guys". Closing the public criminal investigations on 9/11, is a critically essential part

documented as the evil cabal's "top secret" criminal
treason plans, put together prior to the murder of
thousands of American citizens. Prior to the event as
hidden question, and, confessed as never considered.

Playing to Win

Bush declared, "and he wouldn't let them in. And,
therefore, after a reasonable request, we decided to
remove him from power."

So, there was indeed no imminent threat posed by Saddam
to Amerka, and inspectors had complete unrestricted
access throughout Iraq without delay prior to the, bush
demon's further war crimes. So, what was the reason for
all the pointless mass murder and destruction again? Oh
right.. to sacrifice American soldiers so terrorist
bush's war profiteering can feed off themselves as
family without leadership present as spoken for. Hey no
problem if Bechtel or Halliburton never actually gets
anything done, or at a good price after their magic
trick "pay here for what?" commissions eat up most of
the investment, it's only the dummy American People bid
payers again left unaccounted to DIE intentionally. The
bushites could make more killings for decades to come,
while flogging the now desecrated American flag as the
new bushmob's being intolerance, greed and true contempt
for all US as Humanity. US, a dying dream that once was
the great American way of living; now war crime bush's
personal enslavement for global tyranny.

The devote bushites tell a Loyal but dumb Soldier to
quietly eat plutonium and get blowed up by rummy cluster
dud, because, it's harmless. Again the marines have got
to come in and save our day, by arresting bush and rummy
for 9/11 now, with truth as the all time word of God

exists within yourself included. Look, don't think I'm gonna fly down to Washington like some comic hero, and arrest the entire bush administration, going through them, one by one from their holding cells, on where all the stolen cash and American values went all by myself.

GOD NEEDS YOU

All the deaths of American Soldiers in Iraq today, (like the People who died for the bushmob's 9/11), are caused from their leaderless weakness to not face bremer and the bushmob as war criminals continuing to transgress in America's name high-jacked.

Mr. bremer fired Iraqi school teachers, and hired up Saddam's secret service, those, who if any, would have closer relationships to charges of criminal impropriety in the name of the baathist banner, than any other group would be. If an American soldier in Iraq today, feels those from the Saddam Baathist regime should face American Justice (the real way by thinking) why then, is bremer not behind bars awaiting his public court appearance? Mr. bremer as the director of Kissinger Associates, is as, directly tied to "CRIMINALLY" providing Saddam his WMD knowhow. The first "Iraqgate".. [I apologize as Creator for being partially responsible for this worse than B movie but true plot line scenario, however, looky here!, there is so much more to believe!!!]

The bushmob tricks are too cunning to comprehend, see? Again, for those who can, bush must be stopped from murdering American Patriots for no good cause, because, it's really getting US royally miffed way up here also as the true beings actually committed to Justice as Freedom for all. / / But active and retired CIA officers kept warning the public and
media (including this writer) that intelligence on Iraq had been
deeply manipulated and politicized by a cabal of pro-war
neo-conservative ideologues in the Pentagon and the vice
president's office.\ \

out that it also was delivering some gasoline to Iraq -
for only ABOUT $1.00 a gallon. THE PENTAGON'S audit

agency then asked halliburton officials for internal documents to justify its pricing - but the officials refused. \ \ (Not Democracy)

Imagine this is why the bushite soldier states the Humans must not be allowed to disagree with anything the bushmob in Iraq does, because then we'll all know together how pathetically weak and cowardly they truly appear as criminally acting with such betrayals as an ungodly evil tyranny, without any true leadership to speak about. Robbing their own nation of America as immediate family in the process. Dying. All for intolerant war monger bush's hatred for the American dream, and contempt for all human good will as kindness.

http://www.alternet.org/story.html?StoryID=17671

/ / The Corps unilaterally issued a waiver of Halliburton's requirement to provide "any cost and pricing data." The Corps says it issued the waiver at the request of Halliburton. How convenient. \ \ (N.D.)

Just another PUBLIC bushmob act of sedition against the old red, white, and blue, to sacrifice an American Patriot as measured worthless with. So American Soldier, what are you going to do for US payers being robbed in the open by the bushmob in Your dying brother's name like that?, as one American Citizen censored from speaking publicly at length like all the rest of US are also in corporate america? Just try to air an American Patriots concern on american talk radio, and see how fast your rights are silenced by the witches, or bushite cultists Art Bell has no problem giving his National show over and over again to forbid any protest.

/ / Steven Russell said that "protests are not authorized and that participation in protests is punishable." \ \

/ / Steven Russell. "These People have always hated US in this area. It is not surprising that they hate US." \ \

He ain't kidding me he is completely unqualified to hold any leadership position. A real de-generative paranoid delusionist, mared likely early on from corporate neglect he suffers still from. He is what is referred to as a bigot, and likely therefor, a probable racsist. The 'area' he forces through threats of murder, are to demand this vision be no greater than his own. His own of equality being freedom by Justice Supreme doesn't stand his scrutiny as aimed for target. Bible or Constitution, all trash. Innocent guilty, good guy bad

guy, he couldn't divulge as devote blind bushite, war criminal 'mastermind'. Oh by the way, truly, he breeds indiscriminate warfare as a bad soldier, while the bushmob are walking away with who's loyal investment. . . ? . . . The clock is ticking. If I can teach Buford and Steve with this breaker, they'll turn around and kill bush and rummy instead for 9/11 to make the newspapers. This is why a repuglicon doesn't like to feed early start programs, that way, Lt. Col. Steven Russell can pretend he's doing US in this world a favor, when really, he couldn't care to know if his ACTION would CAUSE the needless murder of yet another, Patriot American brother. Steven, you arrest Buford, and Buford, well you just go ahead and arrest Steven, and then... well, we'll take it from there.

Instead What?

Instead tell US as an antiAmerican bushite?, you'll murder US innocent for demon bush and rotten rummy?, regarding those free speechers who dare voice with FACT, that, Iraqi banking, university, or health care, is more intelligent to remain Universal as it was to serve the People's interests BEFORE baathist bremer sabotaged communications? The bushmob isn't bringing Freedom, but stealing it. And as such being consequence, so too, Amerka. Haven't you heard? Bush's Amerka will be freeer now that evidence is no longer a requirement to convince US who is evil incarnate, and protesters can be shot without CNN making the news over it. It's betterer I'm sure Ashcroft would say to torture or murder the innocent, that to arrest the culprits responsible for high treason in God's America. Right bushites?

/ / commander of the 1st Battalion, 22nd Infantry Regimen, Lt. Col. Steven Russell, as saying, "This is to remind the town that we have teeth and claws and we will use them." \ \

What an evil dumdum traitor to the town of New York City steven russell is eh?

Imagine this is why the evil dumdum bushite soldier states the Humans must not be allowed to disagree with anything the bushmob does criminally, because then we'd all know how they ungodly as cowards behave; treasonously acting in such a inhuman tyrannical manner without true leadership to speak about. Ask an American Soldier who proudly states they wouldn't kill unarrested buford "bush bitch" blount or steven russell instantly to save the life of one innocent defenseless child, and I'll show you an enemy of America as just another

expendable soulless nazi bush whore. (ten cents per I'm paying..) Let's all hope and pray a sexy rummy cluster dud dropped by bank robbing heroin pusher tommy franks does them in, instead of US good guys driving in the designated place at the right time bound for further criminal bushmob sacrifice as leaderlessly too weak and cowardly to stand up for 'the Human cause', eh?
An aside: Corporate Americans are publicly taxed twice as much per capita for their inhuman private health care exclusions, than Canadians do for public health care that measures every Canadian as Canadians. (The bushites are evil, and dumber than dumb I told you before the election, but your news agencies refuse to still listen to our top priority concerns regarding the demon antiChrist's murder rampages against American principles, and her citizens left uncapitalized.)
Think of it: the criminal bushmob will easily sacrifice a leaderless bushite nazi soldier, to steal from their own families back home undefended, maybe a nickel, while I, as a real man, beg them to be Soldiers from America's America, by getting to unarrested buford "bush bitch" blount, death squad recruiter tommy franks, or even baathist bremer as the actual enemies of true Patriots everywhere. At the same time, DEMANDING the start to promoting free fair elections, the solving of tommy's bank robbery, and the return of the stolen Humanitarian Aid giving illegally to double biller commi Halliburton.
But so far, they cower as cowards, afraid to protect their own family from further bushite tyranny that they don't have a mind to speak of. Nor, an Art Bell to learn from. (American Talk Radio don't wanta get political while advocating no concerns about dying soldiers led by the bushmob. Why? Americans seem to hate all of their humanity, or so the bushites would like you to think so through censorship of the dying victims. However, I'm still holding out on the chances of one or two in the Marines as loyal to America, who will if they have to, bravely be taking down bush and rumsfeld immediately for escaping arrest regarding 9/11.
You can fool some of the people some of the time, but bush can't fool all of the people as evil incarnate, for that would just be plain silly.)

Look, about all those bad names you thought I called you before, as a messed up son of a gun, listen, we all make mistakes, and... well, if your willing to work for the survival of Justice in America, somebody'll be proud to salute your Patriotism as Freedom truly reining. (Or perhaps the real Americans, to protect the lives of their blood brothers and sisters, will bravely demand

the immediate arrest by gun point of the bushmob for 9/11, to be strong and brave, humane and godly. I guess we'll ask who is the sea, the demon antiChrist bush, along with Ashcroft and rotten rummy, or still We. - ba)

Communicating knowledge is powerful stuff let me tell you. (Roar) A person can spend a lifetime of study in a branch of understanding, and write an illumination readable by another in just a few short hours, then take in a play or perhaps a movie, then the weekends over, and you better get back to work or you'll lose the house on this next late mortgage payment. I don't claim to have all the answers, but i do just about. Hidden in here somewhere...

Step Right Up

I know generally, American people ain't so politically aware, when it comes to huge amounts of living wasted by little scary, but far too distant as likely scenarios. Tell me what you think: can you imagine 10 billion dollars in one year spent to investigate Laden, (with perhaps only three officers in total working on those 'secret investigations'? [Connie Chung - CNN], instead of just dirt cheaply starting, with whom did what when where went why? (W199i and Barbara Bodine) Evidence must be crucial to convince US who is stealing literally, billions. Every year. (Where is some great King to wake up to this madness, and offer US an ever changing alternative I kept foolishly asking myself.) Look,. I know a bushite war monger's lying can spook me too, on how they manage to have no commitment to communicate honestly with the facts, while publicly advocating the indiscriminate murder of ourselves as the innocent., instead of SEEKING solutions to remedy things with intelligence bringing kindness as it's territory. God is all great, and I'm not so bad either.

Of the blind human condition trying to thrive, G is the last Word on lethal threats to the innocent. Threats made by war criminals who have high-jacked America's White House, protected by dying as evil bushite nazi teen terrorists angers everyone truly. Enemies of our Humanity whom is still living art within Heaven. I genuinely dislike devote bushite, American cop killing cultists with everything I am of honestly, and so too, it does appear also, the bushmob could care even less for its disciples. For the demon antiChrist, Your Mr. Bush Jr., fools all Patriots when he tells them evidence of his treason. What secrets? He secretly planned and

implements to not work for public criminal investigations regarding the murder of thousands of American People. Thousands. With Kissinger. What is it, that you as a bushite or otherwise, can't figure? None are seperate from this dying dream we call life's living end. Time to change your religious convictions on the true existence of a higher power maybe? (I am really very easy to believe in, and when speaking face to face, I leave little of no shadows to doubt I am simply a, super freak as Natural human Being. I scare few that shouldn't be, and I can't read anyone's mind, however, intention, is a whole other matter all together. You gotta be almost like a god to fool me into thinking one plus one doesn't equal two.)

Anyway.

America is still a work in progress, alive, willing, and almost able to defend by rule of individual rights by wHoly miGht. It makes absolutely no difference on what you think of me personally, (if you've finalized an estimation), I mean it, no difference. There are ideas as this Universe living would concur upon, timelessly, and see?, I know this as the Son of Man of anyone already, always have. (I don't need people to tell me I'm great as the Wisdom of Ages, I just need a few dollars to tide me over until I can get a steady paycheck.) I have no intentions of ever forcing the world against our ability, or getting elected as King for being just myself as a none-partisan, soft-spoken well mannered businessman. I am the actual make believe Lord and Creator of the bushite cesspool labeled America, and thanks for nothing is not what I'm demanding.

Letting the bushmob escape from committing the terrorist acts of 9/11, can not go further unanswered in this universe, I'm sorry. That's just not a world I as a defender of my living purpose would feel comfortable held up in chains and shackled ever. It's really not where I dream unbound along with the real world ways of life's struggle for true freedom, being my commitment kept honorably by doing some good for my sake is a virtue for all. God, American People are so ignorant, cowardly, and duped to not help ourselves sometimes, it destroys US, instead of the lying bush demon antiChrist. You know?, the enemy of all People, freedom and Justice? as a corporatist bushite cult deceiver would want US to not believe?

(nap break)

Can you believe that demon bush spewed last week that American Patriot Soldiers have been SACRIFICED because Saddam, ""did not let us in." Now, if he is that uninformed on Our documented reality regarding TRUTH in America, along with his now completely confessed absent war rational, will You, as an American Soldier, watch yet another corporately unspoken for Brother or Sister sacrificed to DIE in servitude for that super evil bush's bullshit continuing in Your name unchallenged?

This whole Britain Blair thing is so disturbing when parlayed with the facts outlaid. Look, MI6 (C) confesses the 45 minute thane was really just based on how long it might conservatively take for the Iraqi military to get small caliber weaponry, like grenade launchers, to anywhere along the Iraqi border. (With an additional report alleging MI6 obtained those timings from an out of date Russian military manual. (Likely therefor, a bit of a brag)) If that is not 'sexing up' by the devote bushite Blair warranting his immediate resignation he promised, nothing is. Huge penis shaped nuclear warheads, as apposed to a sweet pea shooter aimed at space invaders? Hutton should be considered for treason when you think about the time spent privately reading the 45 minute, Weapons of Mass Destruction thane over and over again, never mind the fact he is blatantly, nakedly, attempting to cover up the murder of a Brit. (The British can't be played as stupid collectively as bush's America, because they're not. Kinda like Canadians, Norwegians, the Swedes, Belgians, France, and most other developed, and semi-developed nations. Hundreds of countries, comprising near 7 billion People. (Thousands of millions wiser together, than Americans without public heath care) US: that Ashcroft, bush and rumsfeld dictate by ungodly decree, are not of true Human values when talking about protecting our Justice and Freedom ruling our ways.. into the mystic. / / Except that the United States has absolutely no intention
of actually getting out of Iraq. It wants its troops to remain,
and it wants Bechtel, MCI and Halliburton to stay behind and
run the water system, the phones and the oil fields. \ \

Never ever land more like. Imagine that: Arabic
WorldCom phone bills, Halliburton gas bills, with the
only store "legally" open to US public will be Bechtel,
who will demand through bushite tyranny, you pay your
wages for something unjustly over billed as, but put
together at less than five dollars a day wages offered,
being as the only jobs available through not publicly
accounted bushite middleman directly chancing the whole
country of America as undefended financially., extending
"their" risk to do nothing; by the further needless
SACRIFICE of MORE AMERICAN (bushited) PATRIOTS AS truly
dying WORTHLESS WITH as da dumdums. Armed American
Soldiers should be bravely going after Baathist bremer
with DEMANDS for immediate democratic elections and the

immediate return of ALL the stolen oil-for-food money to be spent entirely on priority Iraqi needs, solving the bank robbery, while considering to start printing up millions of invites for Iraqis to stay in America until the toxic waste dumped by rumsfeld can be partially neutralized., while we hunt down the rest of the evil bushmob, one by one, with the full extent of Law, entrusted to the Loyal American Patriot Soldier's Oath to do what is strategically right in our America to survive. Why do we do this? To protect our fellow Soldiers from sacrificing under lawless criminal command where a, buford "bush bitch" blount type, murders good people for no stated reason, but to toll more American casualties, while robbing all Civilization as fallen bushite victim.

No wonder the evil bushites are now leaving in the light, their Iraqi dis-investment plan, for the easier pickings of undefended COWARDLY America tax payers to rob from. Again, more than half of the monthly 4 billion plus 'top secret' plan, plans to not account to ourselves., on costs of expenses doing nothing much of anything in Iraq TO SACRIFICE MORE AMERICAN PATRIOTS AS WORTHLESS WITH. (Apparently, they can't think this far due to the required math skills of subtraction and division.. Or, so the bushmob don't say in between Our commercial breaks on newscasts, or our acclaimed artists publicly blast during the, we're the best at this, award ceremonies.)

See the tragedy? The leaderless "bushited", American Soldiers are too weak or cowardly to stand strong as Americans for the needless loss of their very own by cluster bomb. It is From the get go, an American Soldier is sacrificed for, as the evil demon bush lies. Examples abound today like stolen money being wasted to fake fix things, really lives little damage undone. Or leaving buford "bush bitch" blount and the heroin pushing, child killer tommy franks unarrested, does little of no good for America's image abroad, when waring the bushmob "Freedom" medal, on an American cop killing cowardly bushite soldier's dying breast. A "Freedom" medal celebrating the ultimate escape of bush and rumsfeld from an American Patriot's wrath as the primary 9/11 instigators. (Say to a proud bushite, "General Ahmad funded Atta" and they run away as cowards, to play pretend like nazi savages who dropped bombs on US innocent irrationally to pay further costs in sacrifice to their false-deity unthinkingly.)
God or no God, I hate the demon antiChrist, corporate america's false-deity, Your unelected Mr. bush Jr., as

much as any real Creator of this world, or any other
should.

With such real inaction on old promises [lies] made by
the dishonorable and dishonest leaderless bushite nazi
savages, while desecrating all of Humanity by fighting
against a just rule of Law, (instead of protecting
America's America), forces the continued REAL WORLD
sacrifice of true Liberty, until the bushmob gang is
brought up by US for war crimes., as the 9/11
perpetrating, super evil as ungodly, demon antiChrist in
disguises. (I very much would feel welcomed to play my
part in those public proceedings.) Hmmm.. maybe CNN or
CBC can become publicly convinced we should have our own
news programs on what's truly happening?, to compete
against the 'evil bushites' in this competitive free
market place of ideas? Who knows..

Take care of the business, by getting US in on our
news-casts., as these principles here standing in words,
are a dreamers dreams, just waiting for You to bring to
reality., by standing proud, strong, and forever free as
a, truly, super awesome Human Being.

[then subverted to steal American lives with by lying]

Demon Bush replied, "No, the intelligence I operated on
[then subverted to steal American lives with by lying]
was good, sound intelligence."

Where is bush leading America on not ever taking an apology for his misdeeds to destroy our true American value with? I don't know how else to simply word this to the still sleeping, but bush isn't America, America is America. You, as an American, have a sworn right to demand for America, bush not be allowed to further miscarriage Justice blindly back to the dark ages, by not correcting himself on behalf of established publicly, where American intelligence stood, stands, and ultimately strives. Freedom is not protected by letting the "bad guys" go, to further toll more innocent lives for criminal sacrifice. Sometimes, the real simple things are over looked as profound meaning. The Magna Charta of 1215 states that a freeman should not be imprisoned. Simple right? Not for the bushites who side instead to faith in pope bush, who deliberately unminds a timeless universal principle that exists also in the 1700 B.C's, Code of Hammurabi, where all individuals are to be found equally under the Law, to be fair minded about our business. Simple right? No, corporate america says being fair, is not to care one way or the other between commercials., and the result? The available 9/11 evidence is not publicly disclosed as relevantly important, for Laden did the whole thing by himself, (bush, cheney, and rumsfeld said they know better than everyone else put together so don't even bother to form your own conclusions on your present state devaluating) case closed, now blindly pay your further tithes to bush, cheney and rumsfeld for letting the crime go publicly undetected, while with 13303, we will silently watch bush make himself tyrannical dictator over the rest of our Humanity, where he tells US, to escape, he will with evil american nazi bushite soldiers in tow, get this: not be found accountable to Ourselves anywhere by law to witness, or to an all knowing God even. Spooky, strange and somewhat disturbing, siding to show, bush really is dim-witted as archetypical evil incarnate eh? See? Civilization's Code of Hammurabi consists of 282 paragraphs, of which, the first line from the first paragraph translated states "If a man bring an accusations against a man, and charge him with a capital crime, but cannot prove it, he, the accuser shall be put to death." Your demon bush Jr. is recognized as an enemy of God not only by the Taliban, but since the birth of the Human condition. The position Your Mr. bush Jr., the antiChrist, threatens against US all, (EVERY FAMILY'S MAN, WOMAN, AND CHILD), is one where, as murdering war monger nazi tyrant, he can with bush bitch traitor buford blount and bremer, deem any NATION of People, outside all the laws of the Universe, regarding our truer existence dying.

My timing as Creation is impeccable, when you think about it. But don't think too much about nothing in your own defense while dreaming what is doing, isn't really happening. The unjustified NEEDLESS continuing murder and destruction in Iraq by toxic bombings and the use of cluster bombs as landmine to really kill cowardly and ignorant American soldiers pirated as anti-American lawless God hating nazi teen bush bitches, then, with tommy franks to undermine the ORHA plan to rob the central bank, museum, and steal billions in humanitarian aid by killing more leaderless as evil godless american soldiers with, was in itself, a crime against Your Humanity., and bush along with rummy need to pay the Piper immediately, before needlessly, taking US any further as not truly represented lyrically to sing or dance about aimlessly.

The demon bush's life, isn't worth the sacrifice he makes of our opinions on Liberty, or our children's future.

The French 1789 Declaration of the Rights of Man and of Citizens, makes perfect sense when it states in so many words, that all People are born [anywhere] free in respect to their legal rights, Laden, and You included. But no, not by the evil bushite misrule. If a Human is not american, then the bushites don't need to follow the actual criminal leads to establish a criminal case rightfully against the accused, and instead, the bushites will blindly victimize our dying world as the disenfranchised and innocent, without true leadership present as spoken for.

By corporate america not working to understand Freedom requires our due process as our self commitment, means, a bushite nation guided by the flimsiest of allegation to deny the rights of all People falling as innocent victims, instead of nabbing the actual criminal masterminds who murdered Americans to steal Freedoms granted to US all by living in the know. So, I purpose a quick, let's get started, New World Constitution; anyone who victimizes the innocent intentionally, should pay a price by our political will, instead of ourselves censored, as the unconcerned bushmob victims. By our corporate news agencies encouraging the blind ungodly belief that evidence is no longer a requirement to convince US who is a criminal, is another bushmob war crime in the making, and a road straight to doom for everyone corporately devalued for bankrupt liquidation. Suspicion is the minimum, when it comes to bush demanding your blind faith in him religiously for

indiscriminately murdering hundreds of thousands, while ignoring our Judicial investigations, so fraudsters commi Halliburton, can over bill even further, US tax givers as the unwilling still paying. It was reported that seriously incompetent Bechtel, (who steadfast so far as america's corporately unaccountable, refuses to fix what they're currently being paid for by tax paying bushite soldiers DYING as COWARDS for the wrong side to blow up then pretend repair as), hires workers at five dollars a day, while billing US all as unworthy of consideration in the final tallies during news break. What can't you figure if corporate news america will forbid you raising concern for the life of an American tax payer losing out to war criminals who would murder New Yorkers for a fast dollar at your expense for further keeping silent? These words are freely your own to do as you will. Shout for Americans dying needlessly under the TRULY incompetent bushite lawless rule, or don't side to help a plead for mercy regarding yourself truly included.

Can the bushites possibly think, we're all not ever possible to stand together without a true Loyal President, or, make believe King named Johnny, on the facts firmly established regarding the treasonous war monger antiChrist lying to Patriots dying US as victim for?

America, I will now leave the rest of Our job in your hands for the time being.

Yours again,
Johnny Wizard

written into the National Intelligence Estimate:
"The NIE ...has the yellowcake story in it, had the

doubts were not communicated to the president, to the

Washington Post defends Bush, Iraq war against Paul O'Neill's
exposures
http://www.wsws.org/articles/2004/jan2004/wash-j16_prn.shtml

/ / Until the middle of March 2003 Bush came before the American
public claiming that he had not ``made up his mind'' about war
with Iraq, that diplomacy would be pursued, that military force
would only be a last resort when all other options were exhausted,
etc., etc. O'Neill's exposures, including the existence of
documents, prepared months before the September 11 terrorist

attacks, that outlined plans for a ``post-Saddam'' Iraq and the handing out of lucrative contracts, reveal Bush's performance as a charade filled out with falsehoods. \ \

The Real National Security Threat: The Bush Economy
http://www.alternet.org/story.html?StoryID=17547

/ / While it is unlikely, it is not totally impossible that the Bush administration's policy of locking up anyone called Mohamed and favoring Israel might drive the Arab countries to try an oil embargo again. It is, however, quite feasible that they may simply decide to follow in the footsteps of Saddam's Iraq and demand payment in Euros in the future. The math is simple: if they had done so a year ago, for every 85 cents (one Euro, at the time) they put in the bank, they would now have earned a $1.30. \ \

Your State-of-the-Union Address

/ / It is important that you be completely clear on timing. While the Newsweek report of February 24, 2003 was the first to publicize Kamel's testimony that the weapons had been destroyed, US and British intelligence (as well as UN officials) had had that information since August 1995. If you were not given a full account of what Kamel said before it appeared in Newsweek, your advisers should certainly have given you the whole truth when Newsweek did break the story three weeks before you sent US troops into Iraq to destroy those same weapons. If they did not tell you, heads should roll. If they did, it becomes necessary to explain why the information from Kamel had no apparent effect on your decision to launch the invasion. \ \

I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

Where's the NRA on whoring as bush bitches?

American soldier, Your one true loyalty should be to America, not traitor bush to rob ourselves from. Remember: bush, he ain't got no public concern worth mentioning, when it comes to the whereabouts, of more than half the American tax payers expenses regarding Iraq's jeopardized security, now being sold off as planned to the bushmob at what will be, lower than going values. Namely, your own as measured worthless.
As American Soldier, in unbiased corporate TV america, your told you're willing to DIE in servitude as a thieving bushite slave without question, a blind loyalty and obedience, not to a Just God mind You, or the Battle Hymn of the Republic, no, but to worship the demon bush in a destructive cult-like ignorance that does not even afford Your costly ongoing sacrifice, the luxury, of telling US why corporate america refuses to scientifically report on your actual consuming of MEASURED microscopic radio-active heavy metal TOXIC waste, that includes plutonium in trust, to 'bushite' your dumdum evil comrades you'll kill with especially, or to being blowed up to smithereens by sexy rummy's cluster duds. Mr. franks and bush bitch buford blount State it is of little or no concern to corporate americans how many bomblets were used, or where they fell to kill women, children or US Patriots with, for, the glorious bushmob will take a few extra bills payable from America to the commi business partners that way for including You in indiscriminate mass murder, see?, and none are the wiser. American Patriot Soldier, repeat after me: "A proud bushite nazi soldier is a dead bushite nazi soldier halted from harming our innocent sons and daughters." Or, AGAIN, corporate america's public refusal to speak up for 'The People' (soldiers included) paying the almost half of Iraq's monthly bill going mysteriously vanished in rummy or bush's war crime pocket... Who gives a toot where it is all going wasted right bushite?, it's only You or yours who could go as the innocent in God's favor still being sacrificed next. Look, as the very old tales tell repeatedly, the lawless Satan wager, to somehow without knowing how, become omnipotent ruler as tyrannical dictator of this forsaken World, leaving US ALL including Johnny, deprived our rights to justice and freedom, and instead, to the lot of US, be ACTUALLY put up on a cross to die again metaphorically for unarrested bush to continue example

with, as an illiterate barbaric enemy of "The Man", just like, isn't going to happen in this lifetime. I ain't no fictional character, and as true blooded Patriot, hate the bush demon war monger during breakfast, lunch, and supper. And besides, I'd personally kill bush first before that neither world tried. Trust US, G, or I single handedly as a man, will triumph over traitor bush's criminality, as the American cop killing 9/11 perpetrating war profiteering savage he is as antiChrist, it's just, will you like Talk Radio in America censors, and rich CNN celebs readily encourage, silently continue to watch your fellow family murdered for bush bitch buford blount, and still refuse to voice objection nor take any action in defense of all that is Our World truly suffering as Yourself included? I despise bush like every alive person who would read this is.

Refuse to speak for Your own freedoms truly pirated by bush, and you'll likely continue to lose out really like America currently is. Refuse to help our desperately pleading God you know being victimized in Your name truly, and you will bare the consequences of being forsaken. Maybe even, towards an end you'll declare, someone else has forsaken you, when it will be only yourself to blame for not speaking for all those denied their happy lives through the brutal criminal tirades of the demon antiChrist, Your Mr. bush Jr.. Again, this will never change: We had complete co-operation granting one hundred percent access through Iraq without delay, prior to bombing any of Iraq's public sector with toxic waste that contained US People. Every Iraqi child murdered served no good reason or purpose but to war God's love, and my good name. And, still today, that unarrested evil demon tyrant dictator, still chooses to sacrifice many a soft spoken, slow footed American Patriot to, so far, too few bushite nazi dumdum losers. In addition: We have also learned, Iraq had granted surrender of Iraqi assets to give to the war criminal bushmob, if they would forego the needless indiscriminate murder of easily tens of thousands of innocent families, (like dropping cluster bombs into our residential communities), but war criminal rotten rumsfeld refused because he had already PERSONALLY set up hundreds of illegitimate targets that would, kill primarily only innocent people while destroying public institutions, and bring home a few extra million American payments, tax free.

What more could Saddam do that he wasn't asked for? I beg you to kill the demon bush on behalf of our

humanity, and on behalf of the rare American Patriot who will get rightly confused as, bush bitch buford blount's thoughtless nazi teen savages. The anitChrist must not be allowed to survive continuing such heinous war crimes against our being, and myself as the no longer reluctant standing eternal King.

Listen to witness, America's corporate news celebs will mention it is of no concern to You as the unjustly robbed from and dying for the demon antiChrist in sacrifice. Look, I as Christ too, would destroy any cowardly proud bushite nazi teen soldier victimizing my innocent family irrationally, as most, if not all able-bodied men of our world would also if forced into a decision to defend our lives from the likes of a bush bitch buford blount, or a bomb wherever death squad running tommy franks heroin pusher, but I'm told through my faith in the power of myth, the military should have one or two brave and godly Patriots still idly standing around, who would willingly chance to uphold their sworn Oath to protect their country and family, like with the American Constitution's Bill of Rights, and Justice everywhere by protecting the falsely accused, as could be, themselves, they should know now, or soon will be learning of the other way. A proud nazi bushite savage, is a dead nazi bushite savage halted from harming our innocent families irrationally, and low and behold, a good nazi bushite savage is easily found as an enemy of ALL Humanity and God, hiding as nazi vermin in the pirated, bushite military uniform, not true Americans, but enemies to US all, which includes their selves they pour toxic waste on, while the bushmob robs their 'smart' family back home, undefended, neglected, and wounded like Christ was.

Your Mr. bush Jr. is worthless to this world as a hater of American freedom to not arrest himself and rotten rummy for murdering US New Yorkers on 9/11. All I'm looking for in this world, one human enough to join US equally as a Loyalist to Humanity, and to do everything we can together to destroy that treasonous 9/11 perpetrator, corporate america's so very deeply hated and despised this entire Universe over, Your Mr. bush Jr.. To not bravely kill or immediately arrest the demon antiChrist along with rumsfeld the rotten, sets enslaved america tracking further down an old worn path of History, as enemies of not only the good Iraqi People bush and bremer whom openly rob from now without apology while giving out cheap candy, but of US all truly in the bigger dream without bindings. It's like bush is waging his demon war with every political body that believe

evidence is a requirement to convince US who is evil, or criminal, an wallah, as if by some Supreme Will, the Son of a Just God named Johnny really comes down to our levels to raise a simple awareness through one hell of a, big time collecting plate. (Every proud bushite nazi bagged, I'm willing to pay the good deeder, ten cents per..)

Fear not my friend, the fascist bushite shall be lost by our universally wreathed good guy plot line. An evil bushite now irrationally fights against everyone's freedom for a war criminating ungodly tyrannical evil power that persecutes the innocent with murder, or torture to steal our, sworn to uphold eternal values from. If I don't destroy the demon bush antiChrist in Our defense with this last breath, someone else will, and our faith in God will with hope, find a love truly honored with respect and gratitude for being so magnificent. Never again, left vulnerable in my name as undefended to be victimized for a war monger's consequence.

Let US get out there and bag US the bush demon for God, or the Lord, Allah, or just Johnny, instead of victimizing Catholics, Muslims, Jews, or Atheists, along with all the rest as a Palestinian truly measured, encompasess everyone.

/ / "Say that you love Bush and I will give you food," \ \

Not a love for Justice, or the Bill of Rights, but a love for the American cop killer traitor bush demon robbing their very own grandparents they demand by threat of your murder, for US all as Humanity to do likewise degenerating, sacrificing our World as cowardly slaves to benefit the ungodly bushmob 'cabal' of parasites, the enemies of everyone, including that as God's will.

Again, by denying the rest of US as Humanity Justice,
the bushites need advertise between commercial break
only, "Laden did it", no need to follow the ample
criminal 9/11 leads folks, because the crime they say
wasn't committed by true American values. Go on along
bush, cheney, and rumsfeld say, pay no attention to our
evidentiary findings such as, the American FBI's
documented contention, that bush's business partner,
General Ahmad, funded the 9/11 'mastermind' Atta, or the
CIA's, regarding bush LYING in America's name about
Niger (TREASON), or MSNBC's almost Biblical Revelation,
about the bushmob having a signed and sealed, 'top
secret' war plan to not follow the 9/11 evidence to
secure invasion of Afghanistan for Enron, at
Condoleeza's desk, two days prior to the terrorist act
taking place, of which when confronted, confessed as
fully implemented by the Whitehouse. A 'top secret'
plan to blame Laden on a crime they wouldn't actually
try to arrest for with evidence, a plan arranging that
would find bin in Afghanistan pleading innocence with
the help of bush's partner again, General Ahmad, a crime
of such magnitude, it would 'justify' a war mongers
criminal invasion to thwart Enron's impending CRIMINAL
bankruptcy, THIEVING FROM MOMS AND POPS, to then,
ATTEMPT, to close the surviving, armed with knowledge
for good reason Police investigations. All of this
setting a lowly nazi bushite war criminal, frothing
publicly at more than six billion + of US, to state
without opinion, that We, as Humanity, are no longer
afforded God's GIVEN Human Rights to defend ourselves,
nor is the criminal dictates of the demon antiChrist
accountable to any rules of law. Universal they
publicly quip, as the not-so 'secret' ungodly bushite
doctrine of tyranny as enslavement of all that is
Righteous and Holy in this World, because, hey, there is
no God to speak of... and the King of kings, Son of God
fellow, well.. that's all just ninepence fiction. No,
WE, as all the make believers of this World, will no
longer have ANY legal recourse to defend our own loved
family from being stolen from through a bush bitch
buford blount doing whatever criminally with dumdum
loyal nazi teen bushites leading to sacrifice for, for

demon bush dictates his corporate american bred bushite nazi teen leaders, can not be held to a code of conduct, distinction, or honor. That's the bush world now you'll except without say. As an American, you're forfeiting your rights by not saying anything to protect those falling murdered in evil bush's name. American Talk Radio is waiting for your call to be hung up on. All Nations outside of America are a politician's friend, and nobody is going to vote to incriminate ourselves for something we would be innocent of. For bush, Ashcroft, and rumsfeld to contend, humans outside of bush america's border, are no longer afforded the rights of being, and bushites can rob our Universe and there is nothing anybody can do about it, isn't going to sell well anywhere. The criminals have enough of a time not getting caught for the things that they do, and almost no one but the lifeless, would stand silently with bush while needlessly murdering ourselves as the innocent.

See?, when bush bitch buford blount murderers innocent people, often their surviving friends and family take it out by killing bushite soldiers that mindlessly follow bush bitch buford blount's criminal command. And, why shouldn't we? The unarrested bush bitch buford blount confesses to murdering thousands of good honest People, for no objective, but to let the bushmob rob even further more children from US all. Kill bush for the love of Jesus, please.

Notice to the World: Literate American Soldiers have not voiced written objection to my writing, (us.military.army) but for the exceptionally rare bushite nazi savage, who sorrily slack, others shouldn't be allowed to tell the truth about polls, 9/11 criminal investigations, or bush and rummy getting the Patriots murdered for pension thieves and heroin pushers to tyrannically profit at our devolvements. Encouraging US to continuing in bush's name getting robbed and murdered irrationally? no rights to defend ourselves from crime in a court of law they say?, without a God, or any reason for love of this world whatsoever? The bushites think that they can first degree murder our world's women and children, our freedoms as Justice for US all, and miraculously, as the result, will bring our entire, dazed and confused World to it's knees as the whore of Babylon. Indefinitely. (Not like a real Whore mind you, most crack-addicts, and even some G men, hold limits on how far they'll go victimizing the innocent to glorify a blatantly evil and ungodly enemy of all that is good and righteous in this world.

Anyway.

The CIA, and the FBI are surely in agreement with US, on this indivisible Justice thing. The quicker bush dies as unarrested traitor by the hands of a true American Patriot, the sooner an explanation will be demanded as forth right and coming.

Again, American soldier, wake up, and kill bush for sacrificing your friends and family to die as cowards, too afraid to stand with God in defense of the once great American flag. My America, is the land of the not so stupid, and brave enough to kill unarrested bush and rumsfeld for 9/11 almost immediately, or any other war criminating enemy of America fighting to not have our Justice served by nabbing the true 9/11 suspects.

Through a legal lens - the attack and occupation of Iraq
http://electroniciraq.net/news/printer1262.shtml

/ / The International Covenant on Civil and Political Rights, RATIFIED by both the U.S. and Britain, pulls no punches on this count: "Any propaganda for war shall be prohibited by law" (Article 20). \ \

This is what bush needs to be immediately arrested on for his Niger claims, if you see him not behind bars awaiting public trial, do the American Police force and soldiers everywhere a favor, and kill the escaping demon bush for the love of Your life wills it.

By protecting the demon antiChrist bush for continuing in Our names to rob from Humanity by breaking American laws willingly, will now be a public declaration supporting crime against our betters. I will not stand motionless while bush and rumsfeld with bremer persecute school teachers not guilty of criminal offences, while pirating Iraq's wealth for Dutch-Shell, Worldcom, and double billers, commi Halliburton, all the while, feeding American Patriots radio-active toxic waste to die as losers. Think Patriot.

Arthur MacArthur "Those forty minutes when I defied my orders, were the keystone of my career." A career that would lead him to the highest rank in the United States Army. Saving many lives he did by doing so bravely.

Winning he did, corporate banking's recognition and praise as a savior of the american way of life, and The People?, they ate it again when in 1950, at the age of 70,

defying Truman, launched a win sumtin at all costs
attack against China, that quickly during the unreported
stupid needless slaughter of countless American teens,
forced Truman to concede defeat by begging for a
immediate truce with China while firing MacArthur, who
came home to giant demonstrations of love and affection
for sacrificing American lives forgotten to the
accolades of corporate america's unsung hero.

/ / We must act, even if the threat is nonexistent - because of the potential danger. If "self-defense" consists of necessary "preemption," then what would happen if we started acting on this Bushian principle domestically? After all, killers, robbers, and rapists don't announce their intentions, politely putting us on notice before they strike. Why not just jail them before they have a chance to commit a crime? This principle, if applied within the U.S., would lead straight to totalitarian rule. Applied abroad, it means perpetual war. \ \

The best evidence to kill bush quickly.

Demon bush "These terrorists target the innocent, and
they kill by the thousands. And they would, if they
gained the weapons they seek, kill by the millions and
not be finished. The greatest threat of our age, is
nuclear, chemical, or biological weapons in the hands of
the terrorists, and the dictators that aid them. The
evil is in plain sight, the danger only increases with
denial."

Remember: Demon bush doesn't forget signing his soul to
the invade Afghanistan plan by not following the 911
evidence, but would top secretly attribute to Laden for
blame, authored by himself, rumsfeld, Condoleeza, and
General Ahmad two days prior to the public event of
murdering "thousands" in wealthy corporate America, a
secret plan that has been confessed publicly to US as
fully implemented by the White House right from the
start to Jim at MSNBC, months after the fact when the
demon antiChrist was caught with American blood in his
breath.

Not to follow the criminal leads surrounding evil bush
as mass murdering antiChrist, is what the White House
confesses to Americans today as official policy under
every circumstance. Karma. Demon bush tells corporate
america that they'll persecute the innocent in any
country by denying our fundamental human rights of
Freedom and Justice, while now dropping 2000 pound bombs
in God's World containing children, while corporate nazi

bores, report in judgement of the great King who MAY have cuddled some cute boy! Jackson has given so much to America in stone, and in return, the corporate news nazi bushites sit condemning a great man whose open vulnerability gives him his wondrous strength and power as true American artistry. While these very same treasonous corporate bushite news anchors refuse to report on tommy franks running death squads against school girls, Guantanamo's Taliban's Girl School teacher Mozam Begg whose family served proudly for generations in the British Military, or tomorrow if YOU don't help US speak out publicly, continue refusing to report the general murder of civilian populations by the godless evil nazi bushite traitors. A good bushite, is a dead bushite halted for advancing their murder rampages against our innocent families irrationally. Demon buford blount, who runs like the nazi coward he truly is from my challenge to a death match, confesses to murdering thousands of US People for no military objective, but to get killed those that serve as bushwhored slaves under him to take his cowardly place instead, a die hard bushite nazi traitor. No government in Iraq would give WorldCom and Halliburton a blank check because they care too much for The People, nor certainly would they not, steal helpful Humanitarian Aid from poor people to pay the fraudster commi double billers, Halliburton again, nor either or, dump radio-active toxic waste on themselves to help bush's re-election campaign get off on murdering Americans for financial pain as God betrayers to US all. KILL BUSH NOW! Remember: a bushite soldier hides behind an American uniform, while knowing the bushmob has likely robbed their very own family of their savings and vital protection. Weak and cowardly, stupid and murdering innocent People for the demon antiChirst as their false deity parasite they are dying for TODAY as. I HATE bush as much as any real man would. The bush demon sells his Satanism by offering NO skills required to be dishonorable and dishonest, no reading newspapers, or feeling the pulse of the plundering nation required while ransacking the faithful. While these corporate news experts and CNN and CBC censor pleads from Humanity paying the wages of evil bush's wars against freedom and God, Justice and America, denied our corporate news coverage to be my primary lonely concern mostly it seems sometimes, as too, how terribly it truly is for life whose love isn't appreciated by our will anymore as the living in america, oh yeah, I mean America.
As an American then, what life will you forsake where bush'll rob you over and over as the never living for

something better? These american bushite nazi fuks,
think your gonna wash their feet, and instead of
defending yourself and family, just turn the other cheek
right before the bushites drop a two thousand pound bomb
or two on your innocent neighbor next door? Done for
nothing but feeding the bushmob?, as unarrested buford
blount contends in God's presence? Then to think,
buford blount figures I as a real man will not seek him
out one to one to the ends of this universe for payback.
What can God do to help, if your refuse to help
yourself? The true danger to America increases with
American doubts on bush's blatant, true naked evilness,
or humoring God as Johnny, and betting on yourself for a
change by supporting me as the time being? Look, what
could you do for your freedom, when I demand the pursuit
of Justice by following evidence to truly protect this
World we share? Support my demand to raise the news
media's ignorance on what you shout even louder?
Think this: demon bush makes no public mention of where
almost half of the monthly 4 billion dollar tax payer
bill is quietly disappearing while grandma loses her
cable television, or only grandson? Is that Leadership
I ask every American Soldier to be brave and forward
this letter on terrorism to your fellow comrads
secretly. Then, we'll see...

Johnny Wizard

The money for reconstruction is being misplaced as stolen, while
corporate america demands bush not be held accountable.
American Soldiers, you'd think, wouldn't stand for it, right? It isn't
Art Bell, or Bill Hemmer who's paying with their lives, but a poor,
dumbass soldier along with the general tax payer, whos ignorance is
ignored, sacrificed, as not relevant to Art, or news worthy to Bill. I
will send this email like most others to Art, and maybe I'll phone up
Bill again to remind him that the FBI states bush's business partner,
General Ahmad funded Atta, the 911 mastermind. But you know what
they'll say as traitors to your America? Nothing but hang up on You,
while pretending we have no concern for the senseless murder of our
families, or the robbing of American principles.
The bushite soldiers don't steal the Humanitarian Aid for themselves,
or purposefully let the bushmob steal their parents pensions, no, they
do it blindly to please their false deity, the demon bush Jr., because
their weak and cowardly, stupid and truly dying... Not for America and
freedom they die, but for the antiChrist, Our Mr. bush Jr, the most
hated and despised war criminal of history.

GET BUSH

Officers fault air strategy as ‘timid‘
http://www.freerepublic.com/focus/f-news/842417/posts

/ / Jim Wilkinson, director of strategic communications
at Central Command, responded by saying, "We don't
discuss plan specifics for reasons of operational
security. However, I can tell you the plan is
comprehensive, modern and flexible, and Gen. FRANKS
continues to work closely with all the services."

...The officers said the plan deviates in significant
ways from the 1991 38-day air campaign during Operation
Desert Storm, in which telephone communications, power
systems and bridges were targeted from the first day to
isolate Saddam Hussein and his military forces.
The reason for the change: The Bush administration
wants to spare hardships to Iraqi civilians and to show
that the real target of the bombing campaign is Saddam. \ \
--

GET BUSH

So, to IRRATIONALLY target the telephone exchanges,
power grids, water dams, pipe lines, and residential
communities with thousands of toxic, radio-active
cluster bombs to blindly murder a person like You, (that
would later, blow up nazi bushite soldiers by landmine),
would be considered TRULY evil by demon bush standards
too?

Why does Johnny call the huge war criminal traitors puny
dumdum bushite soldiers? They die truly as cowards for
the demon bush liar, being enemies of God and Humanity,
because prior to the war, (as outlined on March 7th), we
had completely unrestricted access to go wherever in
Iraq, without delay. So, demon bush sabotaged America's
ability to effectively disarm Iraq, and to bring
peaceably, freedom in the region through JUST causes,
all so he could STEAL further the lives of AMERICANS by
continuing with his murder rampages against the
innocent. We remember, Saddam offered the demon
antiChrist, Our Mr. bush Jr. unfettered access to the
Iraqi national media to preach his deceit against God
and Humanity freely, but bush refused to publicly
condemn Universal health care and education, along with
what has been described as Humanity's greatest food
distribution network. Instead, bush sacrifices bushite
soldiers to steal OUR Humanitarian Aid, to double pay
commi Halliburton, an american company found repeatedly
by Our ARMED Police agencies, defrauding all Americans
in criminal contempt for the People payers. All the
while condoning the torture and enslavement of those
known innocent still, but beyond american borders as our

Humanity. Morally equating the rest of Humanity outside of Universal Justice as US fairly represented? Mr. bush tells God his plan is to victimize Humanity in America's name, by hiding behind who's flag again?

Destroy the war criminating, unarrested American cop killer, our offensive Mr. bush Jr. instead my friend, and be thanked by God in person.

Look, Mr. bush, rumsfeld, and franks have STOLEN food and medicine from Iraqi children by confiscating "Saddam's Money", and, it is now publicly understood that tommy franks, sabotaged the ORHA plan to create insecurity and chaos so to rob the central bank of billions. For tommy and his private banker friends to do this, he as a bushite had to sacrifice the lives of LEADERLESS American Soldiers as too weak and cowardly to say, "For God's sake, I'll wise up and destroy bush and rumsfeld myself instead to defend my loyal Brothers and Sisters I will, till the end, giving of everything for a life worth living", at least that is what a truly proud American Patriot who fights gloriously for a just battle as the good guys would. Instead as the dishonorable bushites, robbing blindly themselves and their own dying brethren, while bombing our homes with radio-active toxic waste, that contains among other things, deadly plutonium. Enemies of God as the bushite disciples. Wow! Wouldn't it be cool if America stoop UP and destroyed the war criminals bush and rumsfeld by simple supernatural Human Will power?
Tough luck so far for corporate news america continue to slog that America is so ungodly stupid as the uninformed, and have never heard of this Johnny Wizard artist taking center stage as makeshift creator antiChrist demon slayer.

Of course we should not forget to mention again, in addition, like the same, Saddam offered the demon antiChrist, Our Mr. bush Jr. unfettered access to the Iraqi national media to preach his deceit against God and Humanity freely, but bush refused, so too just like CNN and CBC censors do today by refusing communicating community interaction on our top priority war issues. Instead, we must, they claim, continue sacrificing bushite soldiers to steal Humanitarian Aid, to then double pay commi Halliburton, or WorldCom; companies found repeatedly defrauding all Americans in criminal contempt for the dying American tax payers. All the while watching now in real horror, as bush OPENLY steals almost all of the National Iraqi assets for his private auctions, but for the exception of the already claimed,

iraqi Halliburton oil reserves. Why?, Ho ho ho, because, he said so, in writing. 13303 states bush is the lawless demon from scriptural references, and why Christians don't stand in service for the cried mercy begged from God, the Son, and Humanity, I'll never understand, but Johnny'll tell You, he's gonna march home even if it means I'll do it all by my lonesome. My soul isn't for sale, nor are my righteous Universal principles stealable as a true Human defender to the last bushite standing who foolishly would choose to be my mortal enemy.

To my friends in Iraq, don't let corporate american media divide yourselves from community as equal participators. An Iraqi, is foremost, a member of our Humanity, and just like the rest of US, hate the God betraying anti-American demon antiChrist bush, more than anything else in the Universe for persecuting the innocent while killing coppers to steal our assets undefended without a leader to speak out everywhere for our living rights included. HUNDREDS, if not thousands of American soldiers have already DIED in Iraq stupidly as evil nazi vermin, GAME OVER MAN, for nothing but their cowardly ignorance on our ability to communicate FREELY for Freedoms thought died for already. Dying for bush as too cowardly to protect themselves as their own friends, and sacrificing families they silently watch criminally plundered further by their leaderless inaction on truly protecting America. Again, bush isn't America, America is America.

Justice for all, and let's name this time our own with my writing as a make believe King of Kings who's done it all already, just for the fun of it, whatdoyasay? Imagine this on a CNN spot speaking for our Justice as an equal to all beings, and like, wouldn't that be super interesting for everybody as the unjustly suffering and dying as victims under the demon bush dictates of criminal enslavement and global tyranny?

Christ, take care of yourself by killing bush, please?

Placed one order with Universal Radio, and it was promptly processed.
Have been waiting on a back order (Sony AN-LP1 Active Loop SW antenna)
since early January. I'm sure they're waitning on Sony to deliver to
them, but it's frustrating.

I'm not sure if I understood your question. You want a filter " which
decreases
"slower", for frequencies close to zero but then decreases "faster" for
higher frequencies.
I take it you want a transmission (starting from DC) a curve that "slowly"
decreases until a top point (the resonant freq.), and then falls quickly !?

A second order (or higher polynomial) Butterworth filter will do that for
you.
It has a transmission of Vout/Vin = k/(s^2 +bs+c)

where b is the ratio of the steepness Q (decrease of impedance) to the
resonant frequency.
c is the reciproc of the squared resonant frequency [1/ (w^2)] w-
radians.
k is a scalar - the DC amplification

Now what is the resonant frequency in your question ?
-It is the point where the transmission "decreases" in both direction (the

top point).

You would find a well suited circuit description in textbooks explaining about the "Sallen Key" set up. It uses one op-amp, two capcitors (one in the positive feedback !) and three resistors. It even works !

(^ - means squared)

Universal Radio is horrible. Period.

After giving them many chances after knowing better, they continually disappoint.

They NEVER have anything in stock, DO NOT communicate, and will not ship to addresses other then the billing address.

Thanks to their horrible service, I've gone elsewhere and always saved money. Thanks Universal!

I recently purchased an Icom 720A on eBay, but the radio is missing the microphone. I understand that the early model of Icom transceivers had a preamp in the microphone itself, and you have to have either the original mic that came with the radio, or a similar microphone with a preamp to drive the audio in the transceiver. Does anyone know of a source or web page that has microphones for older Icom transceivers like the 720A? I'm not sure if Heil offers a mic for the 720A or not, but the issue of the older Icom mics is listed on their site. Can anyone help me out on this one? Just send me an e-mail if you have any suggestions. Thanks!

Dancing With Myself
(Billy Idol, 1984/ guess who, 2004)

On the floor of christian dances I show
Or the Wagon Wheel gay Bar I a-go, go
With natural selection
I always get rejection
I'm dancing with myself

When there's no-one else in sight
In the crowded lonely LARDASS Lloyd night
Well I wait so long
For a love connection
And I'm dancing with myself

Oh dancing with myself
Oh dancing with myself
Well it's the Lord I choose
And I never have screwed
I'll be dancing with myself

If I looked all over the world
And there's every type of girl
But you pick the good looking guys
And always pass me by
Leave me dancing with myself

So I drink another drink
'Cause it'll give me time to think
If I didn't have this fat gut
I'd actually get a fuck
But I'll be dancing with myself

Oh dancing with myself
Oh dancing with myself
Well I'm addicted to food
And I have 80 pounds to lose
I'll be dancing with myself

If I looked all over the world
And there's every type of girl
But you pick other guys
And always pass me by
Leave me dancing with myself

So I drink another drink
'Cause it'll give me time to think
If I had the chance
I'd get some romance
But I'll be dancing with myself

Oh dancing with myself
Oh dancing with myself
If I had the chance
I'd ask to get into your pants
If I had the chance
I'd have some romance
If I had the chance
I'd get hair implants

[Fade chorus]

Dancing with myself
Dancing with myself
Dancing with myself
Dancing with myself

Well If I looked all over the world,
And I've never had a girl
Because I study the guys
Not the girls' thighs
Leave me dancing with myself

So I drink another drink
'Cause it'll give me time to think
If I had just the chance
I'd get into your pants
But I'll be dancing with myself

Oh dancing with myself
Oh dancing with myself
If I just had the chance
I'd get into your pants
If I had the chance
I'd have some romance
If I had the chance
I'd get hair implants

They've also got a thing for that young lady with the short dress and high heels sitting in front of the radios in their showroom. Her photograph has been in every single catalog I've received (for years). Universal says they've been in business since 1942 and I have to wonder at this point if that same photograph has been in the catalog throughout all that time. Indeed, that "young woman" could be 70-80 years old today. However, the dress, hair style, and style of high heels, suggests the picture was taken in the 70's, which means she may only be 40-50 years old. :-)

Universal is a couple miles from my home. I've bought small items
from them, but have never ordered by mail any radio, so did not
comment on topic. But as far as the slender blond with the high heels
goes, I've seen her there and she's one of the hottest ladies in
amateur radio, but I don't think she has a license. She's probably in
her 40's.

Have you seen the gal in the Burghart advertisements? Wow!

DTMF programming Kenwood TM-741 on cross-band repeat?

Hi fellow hams,
Is it possible to control the Kenwood TM-741 remotely via DTMF when
operating in cross-band repeat mode ?

The DTU-2 DTMF decoder unit is installed in my TM-741 rig. When it operates
in cross-band repeat mode, I access it with my VHF handheld, and I would
like to change the UHF frequency remotely via touch-tone (DTMF). This way I
could be able to access to any UHF frequency remotely (from VHF), without
touching or accessing the TM-741 radio.

Is there a procedure for this ? Could it be DTMF-controlled from the "other
side" (from UHF in my example) as well, I mean changing remotely via DTMF
any band via the other one?

Thank you in advance. 73-88rs

It would be nice if when you post to a newsgroup, you keep the post relevant to the group. Your request for the info is valid, but your spewing (As much as I agree with it) is not appropriate to a Ham group.

That said...

If your friend isn't an amateur, He won't be able to use the radio. He may be able to find a Ham who will do it for him. We're generally a helpful sort, so it shouldn't be difficult. If not, their is still the option of sattilite phones. And if this is a major conference, I'm sure their will be phones there. He could also talk to some of the media folk.

I'm not really familiar with packet radio. As I recall, though, the bandwidth isn't likely to be wide enough for you needs. I'm even more sure that in such an out of the way country, they regs are even tighter thatn here in the States.

Good luck and 73

LOL. I have a similar experience to Tom's. Why go with an
apparent "90% approval rating" when you can go with a 100%
approval rating, i.e. try Grove Enterprises or AES.

It's a QSL from Radio Djibouti.

I was fortunate (or was it unfortunate) enough to visit Djibouti in 1979. Quite the

No, I didn't hear them on SW then, but I did hear them on MW.

they are very good on returns, my friend bought a used antenna from
them, sent it back and they did not charge him a restocking fee.

there is one dealer www.radios4you.com /(electronic-specialties on eBay)
that does not give refunds under most situations.

from their website:

5. All Sales Final. Sorry we do not offer a satisfaction warranty and do
not accept returns. Reasonable attempts will be made to provide an
upgrade solution if requested and the original product is returned in
new condition. A 25% restocking fee will be deducted for returns without
explicit e-mail approval.

Huh, I wonder if the Chinese people were at all offended by the yellow-skinned doofus that was supposed to be getting printed? And I bet if these had come out printed in white, there wouldn't have been even the slightest detectable blip on the news. The whole problem with this politically-correct crap is people go around trying to turn anything and everything they can find into a big bru-ha-ha about racism. The insult is in their own minds and they never think twice about their own problem of always assuming the worst possible intentions in their fellow man.

It's hard to tell if the picture in the catalog and the pictures on the web site are of the same woman. None of the pictures are close-ups of the face. Regardless, the woman on the web site certainly does fill out that top very nicely.

I think Michael was talking about the picture in the catalog (as 20-30 years ago), not the pictures on the web site. The woman in the catalog is much younger looking - perhaps the same woman, but an older picture of her.

My old dad just gave me a pair of Columbia GM22 handheld radios (being totally ignorant I would have called them "walki talkies" 8->).

I am totally unable to get them working.

Searched on the Internet for any manual but could not find any.

Would any kind soul which knows these critters give me a clue ?

After fiddling about with them now when I turn them on I see a larger number 1 alternating with a larger number 2 with a fixed smaller number 33 in the upper right corner.

Reading from the specs I seem to understand that 33 is a "security subchannel (?)".

I also read about these things having an "auto scan" capability but could not understand how to make it work.

Thank you for any help.

Yes. They are very courteous and helpful. I too have had slow response
insofar as when my item leaves their facility. Takes a week or more
from when the order is placed. I also have experienced the back order
phenomenon on numerous occasions.

Hanging a rig is a tricky proposition. If not done correctly, the
radio can turn into a life-threatening missile in an accident. Even if
done correctly, the danger of bumping one's noggin increases
dramatically (I know this from personal experience!)

Signal Measurements Corporation makes a number of transmission
hump and other specialized mounts designed to deal with situations like
yours. Their web site is http://www.smc-corp.com

I used one of their big center-console mounts in my van for
multiple devices. It worked extremely well.

Happy hunting.

The so-called "security" feature is nothing more than a subaudible
tone of a given frequency that gets continuosly transmitted any time the
radio is keyed. This setting must match on both radios, as must the
operating channel of choice, for them to work.

> I also read about these things having an "auto scan" capability but
> could not understand how to make it work.

It's a source of constant amazement to me that the manufacturers
of these devices do not, in many cases, work to make them intuitive to
use.

The only other thing I would add is -- be careful! The FRS, while
perfectly legal in the United States, may not exist in Italy, or it may
exist in another form that radios made for the U.S. market do not
accommodate.

In other words, you could easily be violating the laws of your
native country's government by operating those radios.

As for GMRS, it is also U.S. based, and it requires a license no
matter how low-power the transceivers in use are.

Good luck.

I am not influenced by your opinions. I, as a White American, am entitled to say my opinion, I don't give a fuck if you like it or not!

Why in the fuck won't you fucking debate me? I am entitled to opinion, are'nt I? Well, then let me express my fucking opinion, and let my have it without any name calling and degrading remarks. Why don't crakheads treat me like a fucking adult for once?

If I feel that the code should no longer be a fucking requirement, so fucking be it. I don't give a shit about anyone else who had to learn it. This is 2004, not 1959! Morse Code is dead, I mean, even the fucking Coast Guard don't even monitor it on fucking 518khz anymore! Get with the fucking times dude!

I really get really fucking tired of you fucking with me man. I am just so fucking tired of it. I am getting a fucking lawyer who will work pro-bono and I am gonna sue your fucking ass out of the fucking world! I am gonna sue your for your fucking car, your fucking house and your fucking radios. Fuck man, I might even fucking sue you to be my fucking indentured fucking servent!

I also don't give a fuck if you don't fucking like my fucking spelling, my fucking grammar, or if I was fucking drunk while writing the fucking post!

Hello OM-s

I have recently bought an Yaesu YR-901 CW-RTTY decoder with the user manual.
I connect it from the composite video output to a monitor.
But always when I turn it on the screen is full of a mix of occidental and japanese characters. The reset/clear buttons do nothing. Always the same. When incoming signal the screen does not change but the vumeter seems to work.

Is the memory of my device broken ?

Please help.

Falling for You

Brahimi said. "We need to organize elections as early
as possible but not as early as impossible."

Help me understand: Why can not Iraq start on the
process of

O R G A N I Z I N G E L E C T I O N S

NOW to work towards gaining accountability for soon as
possible? After June? What the... Can't we people
talk while walking? Look, the future is likely coming no
matter what, and what ever illegitimate government is
embarrassingly stalled by evil WMD proliferator baathist
bremer to steal unaccounted American tax dollars from
the "willing" victims dying, (like by bush bitch cluster
dud) will still necessitate the need, to have started on
the process of fair elections for our Iraq before hand.
Corporate america might not care of sacrificing America
to rob from, but real People are honorable, and won't
reserve the scourge of nazi bushitizm a place to suffer
any further if we can help it.

The bushites are sorrily, simply not qualified under the
dire circumstances they've assaulted ourselves into for
mugger war profitizing, as leading US to be dying
undefended while failing miserably on my behalf to
demand Justice as freedom is truly.

Now, it has been vaguely suggested that a, steven "you
can't have public health care or he'll murder whomever
for thinking" russell, or a buford "bush bitch" blount
as treasonous evil nazi bushwhore, to undermine freedom
and democracy everywhere in our world might cowardly
attack defenseless innocent families at the polls while
leaving "bin Laden" fingerprints, criminally warring to
kill more American dumdums for commi Halliburton et al,
continuing committing as unaccounted massive waste in
America by over billing the dying People. Why would
bushites do this? Evil is blind irrationality,
disguised as thought out faithfully by fascists. The,
nothing to fear suggestible absolute nature of
non-linerality, is 99.9 percent, super fractal wowy
miraculous as crazy about the fringes, (or is that

bridges?). But, without Justice ruling our stay, we leave for a Heaven waiting, on a sea of madness as enemies of life to all things eternally being. Translated: We need to arrest these specific war criminals at the end of our, ready to fire rifles. Done to stop them personally, from robbing or murdering America indiscriminately as enemies to everyone. But in addition to that, (like at the same time) who says the polls can't be stretched out over several days or a week, with multiple options on submitting votes registered through the oil-for-food program? I want to know where Annan is on this., why it can't be done., and what his position is on returning the Iraqi Humanitarian aid stolen by Halliburton, or Iraqi Central Bank deposits cashed by HAS TO BE, current pirates. Annan, be a man, an acknowledge our presence as relevantly important for our world's living sake.

We had 100 percent access throughout Iraq prior to allowing bush, rumsfeld, and franks to sacrifice literally thousands of innocent lives. Who are now DEAD or DYING NEEDLESSLY as first degree murder victims, in some bastardized Lord's name apparently.

(Quick, somebody call upon everyone to get up off their knees, God's coming to read as one person today of the unbound wonder of what it is to be uniquely ourselves within a nude sunrise grinning. To make some progress forward for a better future, we're not meant to just pray for someone else to come and stop whom from cheating who of Liberty? What is it that you can't think of? Every wonder? Who wouldn't do God a favor if they could imagine so brightly. Who's stopping you from defeating tyrant bush as war criminal, but for only yourself contained by his continuing bad example? Tell you what: let's together find ourselves of one mind on putting the bushmob behind bars awaiting immediate public trail, and I'll promise to try visiting them every year, just to see how things are developing. Or instead just shoot bush and rummy for almost escaping Operation Infinite Justice of a real American Patriot soldier's undying love for his brother.)

Any improvements of the current situation in Iraq today, are going to be less that what would have costed to not kill innocent people for nothing but evil bushite war profitizing at it's level worst in this history ever of all Humanity recorded. The demon antiChrist of corporate america has got to go, and he's got to go immediately as arrested or shot dead by the Patriots for treason, before he causes US anymore needless losses and

grief to our friends and family. Like for the next fifty or so generations what with the plutonium being fed blindly as willed to cowardly, weak, American teen enemy bushite soldiers presently. (If we could seperate the bushites from the rest of US, this might be a good thing, but they have no real leadership to speak about freely as the dying stupidly.(PRINT THIS PAPER AND MAIL IT EVERYWHERE))

DYING like those from 9/11 did, or dying slower, like with NYC air quality as best Oz has to offer. (Harmless corporate TV tells US without opinion.) Either or even in other ways, the demon bush is truly killing God's America in Your name not heard from. Help me you idiot. You! Yes you there, reading here. I am your secret friend see?, and.. well.. the Universe needs your help desperately pal. Please? For me? ..Oh God help me your really dumb without you aren't I too? Listen: we need to talk.

We are here to save all of creation from needless death. Big deal. Your are of a real eternal nature, that exists also, (as understood scientifically) timeless. For real. (The big bang is now. (All mass is also of not as seperate energy, then there's our gravity...)) Our possibilities for a great, better future are staggering, if we are capable collectively as individuals to defeat the "kindness" of George W. bush, the dying embodiment of evil as the very true demon antiChrist of all biblical references ever mentioned. His lying isn't just deceitful, it is downright hellish.

You know what I think? The evil enemies of Humanity, don't want US People to be recognized from being victims under tyranny through corporate cult censorship. Without Justice ruling our ways under the irrational criminal bushmob dictate, we lose as losers cheating ourselves as not worth the consideration to be free individuals.

Granted, I am an actual god familiar with the rights present within the Constitution of America. THEE God's god, here to teach the world about needless sacrifice, caused primarily, for the effects of inflated egg shell egos. As Creator, I goofed somewhere in the, order to chaos mixer. I didn't plan (it was a mistake) for Americans to be so cowardly and weak when it comes to defending their very own selves from needless death and sorrow through blatant, naked, how can you miss it, evil criminal enterprises. So, perhaps, now if I stop writing, and fake I flied off vamoosed into the

unknowable, a couple people on the planet might go 'hmpht', and decide to carry on bravely, the real, honest to death struggle for freedom living without me as sorrily missed. (I as John am not anything special paradoxically.) This is fear itself, ain't nobody nowhere as terrifyingly terrifiable as this is just truly super terrific being only my simple written taughts, yet, ... I'm like.. just fiction writer, big dreamer Johnny Wizard, looking for some happiness, human respect, and a good last supper before I check out from this made by the earthling "space explorers" dungeon cell.

But who cares about me, or my great, he thinks he's so brilliant ideas? Everything's seriously a pain to him sometimes, and he talks to himself like he's the, been here and gone as eons now, King of the Universe for the holy Word from the Heavens above or something. What a poor dying fool to chance that anyone would willingly help themselves by caring for someone. ..You know, I'm beginning to not be all that crazy about the demon bush liar continuing to war humanity in my own true name also now that I think of life in this way honestly. H-e..Y -! (Morningstar has been accused of a lot of things, but you'll notice, always plays fair as your rules.))

What freedom in Iraq will come that allows a, buford blount to walk unaccosted by 'legal' services? Or where rummy's cluster dud advocates gain silent gratitude? A nation high-jacked by bremer's buddies who illegally sold Saddam WMD, then the product wisely gets destroyed as functionally useless being primarily indiscriminate warfare, then bremer's buddies come in again and murder untold thousands upon thousands, all because your magic TV is letting them get away with it as considered too embarrassing to the billionaire private stake holders. Fuk you corporate american Human haters for not reporting the bushites as war crime supporters.

Where in the real world are the nazi bushites gonna demand we go to allow 'them' to continue warring the Constitution while wearing a bushite soldier's uniform in their dying universes of Universe? Leaderless corporate america?, injured and dying as the unjustly starving? What can the bushites do now in Iraq, that they couldn't do before the needless murder of untold thousands upon thousands of innocent people with loving families? Before dumping thousands of tons of radio-active toxic waste as enemies of God's children? Only to rob, maim, and destroy God's great work through Love. We had complete unrestricted access throughout

Iraq, and Saddam was offering the national media for bush to pontificate, while not refusing dialog for any suggestions.

I ask:

Can not America invite me formally for brunch, by somehow bypassing the war mongering nazi tyrant held up in the Oval office? I'd invite you all, but my place is still a mess, and I'm stuck eating for survival just now. I don't qualify for help, because surely, a person with your talents, should have someone willing to stave you off the, who cares about saving the world for you buddy, laughing in all seriousness shtick. (cool eh?)

I give you my world:

To save humanity from tyranny will be accomplished through the value of these free ideals recognized.

Isn't life grand sometimes when the bushites aren't needlessly murdering our innocent families in your name?

I again,
will now leave
you without me,

forever loved,

Johnny Wizard - Your "other" parent or guardian advising you to immediately, by Citizen Right, arrest the President's 'cabal' in the name of the Lord, who already died for this once already god damn it, and I'm not sacrificing any longer unknown as forgotten in the absence of any true reason to our existence, I want to celebrate. I want to afford a cold brew to nuzzle on a warm sunny afternoon, at a hideaway somewhere, lost in my comforts of having few real worries, but for unintentionally offending someone for not having the time to except their generous support, or gratitude.

/ / "We need to find a mechanism to create a caretaker government and then help prepare the elections later - sometime later in the future," he added. Mr Annan said that there was "wide agreement" \ \

Unelected care taking government? What is the group their now supposedly doing? Where in the process is corporate america to simply fix the Russian generators they've been paid over and over again already for as

doing nothing in The People's interests?, As unaccounted to? Where is corporate america to fly in the emergency food and provisions for the innocent as victimized? Who's care will this continuing robbery of America through war crimes further fail to serve? How can Annan gain "wide agreement", with no poll on the issue? Who personally did he talk to, agreeing to leave Iraq without working for an elected government of the People?, and who consented to give up on such dire needs? Where is Annan on the thousands of tons of radio-active toxic waste dumped by rotten rummy? Is it not an issue he should personally be addressing for Humanity, to demand an immediate clean up paid for by those responsible? Imagine that: Truly toxic as dying, American Patriot soldiers making it up to God's great Creation, by hunting down the actual bad guys, who done did crossed the wrong family this time.

Wow, now that would be a war worth televising!

No End to War

The Frum-Perle prescription would ensnare America in endless conflict.

By Patrick J. Buchanan
http://www.informationclearinghouse.info/article5712.htm

/ / And if God accepts the existence of evil, how do Frum and Perle propose to ``end'' it? Nor can any nation ``win the war on terror.'' Terrorism is simply a term for the murder of non-combatants for political ends.

...If it is America we defend, An End to Evil makes no sense. The Perle-Frum prescription for permanent war makes sense only if it is the mission of the armed forces of the United States to make the Middle East safe for Sharon--and here we come to the heart of the quarrel between us. \ \

As you can probably guess, me and Patrick might have some good politics to debate on that I would disagree with him about, but I can't save enough praise for reading this most recent informative and often entertaining take, while reviewing about the Frum-Perle controversy.

I think we can all agree, both Perle and Frum are now clinically deranged by hanging on to George W. Bush for so long in dumbness. Do they qualify for some sort of special treatment programs under their respective health care plans? Strange days where we see the limited words of a mind bound for slavery. All I wants is the war mongering mass murders arrested for treason against the flags of Freedom everywhere, is that to much to ask from ourselves still God asks? with Iraq, that diplomacy would be pursued, that military force

would only be a last resort when all other options were exhausted, etc., etc. O'Neill's exposures, including the existence of documents, prepared months before the September 11 terrorist attacks, that outlined plans for a ``post-Saddam'' Iraq and the handing out of lucrative contracts, reveal Bush's performance as a charade filled out with falsehoods. \ \

New Moon

To steal public utility services paid already as owned
completely by IRAQI, (America dying for the bushite
American pension thieves at WorldCom or Britain's
"Dutch"-Shell,) ain't gonna change the business
locations. The evil unAmerican cop killing bushites
think they're gonna party in Manhattan on our dime in
apartments for around $15,000 a month, while sneering at
a homeless beggar on the streets, who thought he was
still in Vietnam.

An oil-for-Iraq program needs to be reestablished, but
transparent to all as addressing the immediate emergency
needs of Iraqis. Private, in the secret back room with
the bushmob nazi bankers, and their private inept
collaborators flustering as international fraudulent
behaviors, just wont do., try as bush might to murder
perhaps millions of Americans uncovered by his
criminally enforced, reduction in health care coverage
extravaganzas.

THE ROVING EYE IRAQ AND AL-QAEDA
Part 1 - The usual suspects

http://www.axisoflogic.com/artman/publish/article_5146.shtml

/ / This latest US intelligence, though, makes little sense. For starters, al-Qaeda pigeons are highly unlikely to move around with computer discs in their briefcases: since early 2002 a disabled al-Qaeda has used women couriers to deliver strictly verbal messages. \ \

Kimmitt in collusion with the bushmob perhaps? To cover up an investigation set up to encourage the blind murder of America as bushite by attempting to divide all the People of Iraq as Iraqi?, na... not in a tribal based, enduring practically timeless, inter-woven culture.

Those who ran public healthcare and university are all the bad guys for thinking, the blind bushite bigots would conclude illegitimately., and I would say to yourself: no, the People with equal rights to stay united for good times, are a people sworn to uphold law that serves our freedom's best. Iraqi assets are not bush and bremer's right to steal without question, nor either, American generosity swindled by WorldCom, Enron, Dutch-Shell or Halliburton is the final, be all answer to everything.

You as sure would know that unjustly victimizing the World in our name because "they" didn't believe in blindly worshiping with servitude, the war mongering mass murderer demon bush liar, is freedom stolen from any. Wide, across the board, ask anyone for comment on where the bombs dropped from. Needlessly in bush's name, but to war God's love, and my good life.

Demon bush is not America, America is America.

This is all I'm ever doing as King, but perhaps also, not going left hungry. If you can help me help you, we'll be set for something better.

Truth can pose serious problems, when we idolize blindly the evil demon antiChrist for criminal sacrifice, instead of arresting him for 9/11 along with cheney, and bummer rummy, the silent but radio-active cluster dud dropper who murders American Patriots for a nickel.

Too awe shock embarrassing is it to ameliorate for the sake of a dying American Patriot Kimmitt?

For, why would Laden want the bushites to stay to further rob America through creating instability within his own ranks? without denouncing the demon bush war lies, that are paying a very real price.. ? What would it cost commi Halliburton, to face public accountability

(Democracy) in Iraq on where Iraqi money is being misappropriated for? Do you think they'll get to keep the oil business, to sell back to all of Iraq at uncontested mark up freely? To steal food aid to under pay the third world? Starving?

To steal public utility services paid already as owned completely by IRAQI, (America dying for the bushite American pension thieves at WorldCom or Britain's "Dutch"-Shell,) ain't gonna change the public business locations. The evil bushites think they're gonna party in Manhattan on our dime in apartments for around $15,000 a month, while sneering at a homeless beggar on the streets, who thought he was still in Vietnam.

Perhaps, he is.

Another American soldier owes me a beer, or will be dying to steal life from themselves as sacrificed for the evil criminal dictate of Their Mr. bush Jr.. Don't go silent as the unknown dying enemy to God and humanity, stand with Justice and freedom in America for Americans, and I swear, we won't kill ya as the good guys in the epilogue.

By the bushmob attempting to create unrest, so Halliburton at al, can continue in the tommy franks chaos to rob America blind with false billing, instead of cash paying, is costing the lives of American teen soldiers. Who god love'em or hate'em, don't have the intellect to strategize their way out of an open paper bag, never mind evil bush's false creeds without real leadership present as living for. Instead of bruising our egos, the bushites are dropping bombs illegally on the family.

Man.

Ask a dying soldier how it sits to know commi Halliburton pocketed Humanitarian Aid? Go ahead, ask'em?! Then ask'em why they die as cowards by rummy cluster dud for the bushmob to rob their own direct families left unprotected? Ask'em! You know what they'll tell you? They're not happy about these bushmob war crimes truly destroying America in America, "freedom", "democracy", Johnny Wizard or otherwise., Or instead they'll mumble something incoherently while jaunting away to murder some one found defenseless, or innocent to pay further while dying to slave under the criminal dictate of the really evil demon bush Jr..

A proud bushite is a toxic bushite halting from warring the innocent by stealing your human values truly.

We need to see an apology to come from America, an apology to Humanity for this carnage waged unnecessary, but for these contemptible war profiteering practices as direct assaults to all as God is. Assaults that we have been unable to remedy by openly communicating to bush's secret White House, rumsfeld's secret Pentagon, or Ashcroft's secret Justice Department.

Just who's running this show anyway, I wanna know.

A - g - a - i - n

Will Americans save themselves with help from the rest of US, by arresting bush and rumsfeld immediately for high treason?, or will they cower and DIE as the innocent, in false gratitude to the lying traitors bushmob? To with their dying breath proclaim unattested, to be ridding the Universe of their continuing criminal behavior.. a.k.a. evil?

Evidence is a must to establish a crime scene provocateur, to deny such privilege is to deny freedom be served as consented through any government.

Hint: Demon bush, rumsfeld and Ashcroft, they ain't no struggling democracy entirely.

Look, the thing about God coming down, and having it out with humanity on some various critical issues, isn't like going to happen, it is doing.

We had complete unrestricted access throughout Iraq prior to murdering any innocent child in america's name.

These verbs will strike that antiChrist demon down for ever and a day, and if I've gone, faded away, these words will still remain,

1) We call for an end to U.S. occupation, and withdrawal of American troops. Because the U.S. invasion destroyed the governing capacity in Baghdad and undermined security for civilians throughout much of the country, the withdrawal of the U.S. forces should be followed by a temporary combined mandate for the United Nations, Arab League, and OIC (Organization of the Islamic Conference) to provide direct support for Iraq's reclaiming of sovereignty. That would include election assistance, humanitarian and reconstruction aid (including control over all international funds, including those coming from the U.S. Congress, designated for Iraqi rebuilding), and peacekeeping/security deployment. \ \

Ann Coulter - "Liberals just call Republicans names."

Her suggestion is against the common sense of a literate segment of humanity who knows something is a farce about this tart, and for me, entertains for words to gain a better understanding for proper acknowledgment.

Coulter is bigot rousing on purpose I think, just to get all the american corporate monetary gratitude, in selling herself not present as a significant baitor unaddressed publicly in our corporate news circles. She sells excuses to cowards, of not addressing specific acts of treason committed by individual traitors, like rummy or Ashcroft, and instead, suggests all people have no ability through bushite america to recognize themselves being robbed their freedoms or murdered directly for the furthering of the evil bush demon war lies.

Interesting.

A repuglicon nazi bushwhore, who will say anything to allow bush to steal further from America, is not a tried and true Republican blue collar. Is it in Ann's contention, that all Republicans can't imagine themselves having any independent opinions? Or, is Ann saying that every Liberal blames Republicans of every stripe throughout History instead lawless bush personally for sacrificing the nation as evil incarnate?, committing to murder individual New Yorkers as America sacrificing, then further acquiescing to needlessly feed toxic waste to all American soldiers, while loyally blowing themselves up dead as individuals to pieces with sexy rummy cluster dud, all for being blind disciples of the unAmerican bush demon antiChrist, their ungodly evil false-deity as enemies of God's love, America, and our good names?

Naming the repuglicon demon bush a terrorist recruiting cop killing heroin pusher, who played a central part in the murder of thousands of New Yorkers is well established factually, and publicly confessed as all planned to act upon before hand. Who says? MSNBC's Jim reported with the White House, as a 'top secret' [Oops, deceived America wasn't suppose to read this one Condi] strategy of not following the 9/11 crime scene evidence, and confessed as 'fully implemented'. A General Ahmad plan to blame bin Laden as innocent of to secure invasion of Afghanistan. For Enron et 'al, the treasonous g-e-t-t-i-n-g . . . a-w-a-y. ... Pension thievers. Remarkable to say the least.

Anyway, solid, documented evidence including the circumstantials, like cheney's "The Dabhol Working Group", Niaz Niak, and the quietly contacting of allies publicly to attempt legitimacy of faked collusion, as such, with rummy's Pentagon arranging a same-time, what if a 9/11 occurred plan involving everyone misled, like also dummy rummy's P2OG, where dummy rummy writes to commit terrorist acts against our innocent families, he prefers if any connections have to be made, they be made with the widest banner of "The Pentagon", as to hide himself from corporate american news scrutiny, who instead will report it as, the Pentagon isn't speaking about only rumsfeld's high office involved in blatant treason, and naked evil doing. (Also, to succeed in assisting in robbing the Central Bank, and museum, the nuclear facilities containing

radio-active contaminants were left unguarded, as not centrally relevant to franks why soldiers were told they're still sacrificing their lives for. "Duh, why are we here to kill good people needlessly so the bushmob back home can further rob our undefended families bro? Bro?")

--

This is for all to agree settled as official History.

America devolving into the criminal tyranny of the evil bushmob is happening. All the while, we witness, the LEADERLESS nazi bushite soldier cowering as cowardly sell outs to their very own friends and family being robbed back home, left undefended through blatant over billing as UNACCOUNTED, leaving their own sons and daughters to dutifully eat plutonium, and going further silent when it comes to rumsfeld and franks needlessly dropping thousands of land mine cluster bombs to murder us people indiscriminately, which, kills their own aplenty, in a more way than one knows. Karma. (rummy's pentagon is misleading soldiers on how many have so far died to allow Halliburton to criminally steal humanitarian aid from The People, as one example,) Again, as bushite fascist nazi vermin, they let those responsible for destroying America through the bushmob war crimes, still sit in the, for sale freedom captain's chair, high-jacked from US true Loyalists, attempting to get away the bushmob is doing from 9/11, by going real fast .. nowhere.

Second, if Liberals include whomever, how could Ann possibly assess that all would consider calling ourselves anything but, unique as individuals? Bizarre.

The American Constitution is our souls included in those timeless thoughts of Justice for all as The People. The bushmob is destroying freedom by persecuting the innocent as terrorists, when they, in AMERICA'S NAME, throw out the concepts of Justice for any. No publicly understood evidence to form our conclusions, is a corporate demand your faith be in the unjust bushmob 'cabal', and not in Freedom for all through establishing the actual "bad guys". Closing the public criminal investigations on 9/11, is a critically essential part documented as the evil cabal's "top secret" criminal treason plans, put together prior to the murder of thousands of American citizens. Prior to the event as hidden question, and, confessed as never considered. Ya, right.

Playing to Win

Bush declared, "and he wouldn't let them in. And,
therefore, after a reasonable request, we decided to
remove him from power."

So, there was indeed no imminent threat posed by Saddam
to Amerka, and inspectors had complete unrestricted
access throughout Iraq without delay prior to the, bush
demon's further war crimes. So, what was the reason for
all the pointless mass murder and destruction again? Oh
right.. to sacrifice American soldiers so terrorist
bush's war profiteering can feed off themselves as
family without leadership present as spoken for. Hey no
problem if Bechtel or Halliburton never actually gets
anything done, or at a good price after their magic
trick "pay here for what?" commissions eat up most of
the investment, it's only the dummy American People bid
payers again left unaccounted to DIE intentionally. The
bushites could make more killings for decades to come,
while flogging the now desecrated American flag as the
new bushmob's being intolerance, greed and true contempt
for all US as Humanity. US, a dying dream that once was
the great American way of living; now war crime bush's
personal enslavement for global tyranny.

The devote bushites tell a Loyal but dumb Soldier to
quietly eat plutonium and get blowed up by rummy cluster
dud, because, it's harmless. Again the marines have got
to come in and save our day, by arresting bush and rummy
for 9/11 now, with truth as the all time word of God
exists within yourself included. Look, don't think I'm
gonna fly down to Washington like some comic hero, and

arrest the entire bush administration, going through
them, one by one from their holding cells, on where all
the stolen cash and American values went all by myself.

GOD NEEDS YOU

All the deaths of American Soldiers in Iraq today, (like
the People who died for the bushmob's 9/11), are caused
from their leaderless weakness to not face bremer and
the bushmob as war criminals continuing to transgress in
America's name high-jacked.

Mr. bremer fired Iraqi school teachers, and hired up
Saddam's secret service, those, who if any, would have
closer relationships to charges of criminal impropriety
in the name of the baathist banner, than any other group
would be. If an American soldier in Iraq today, feels
those from the Saddam Baathist regime should face
American Justice (the real way by thinking) why then, is
bremer not behind bars awaiting his public court
appearance? Mr. bremer as the director of Kissinger
Associates, is as, directly tied to "CRIMINALLY"
providing Saddam his WMD knowhow. The first
"Iraqgate".. [I apologize as Creator for being
partially responsible for this worse than B movie but
true plot line scenario, however, looky here!, there
is so much more to believe!!!]

The bushmob tricks are too cunning to comprehend, see?
Again, for those who can, bush must be stopped from
murdering American Patriots for no good cause, because,
it's really getting US royally miffed way up here also
as the true beings actually committed to Justice as
Freedom for all. That's all folks.

"I'm just not convinced that there is justification for this now," she said. "I'm not sure when we lost our focus on Al Queda and Osama bin Laden and the war on terrorism. I have seen no case to show me how Iraq is an imminent threat."

--

The San Francisco Chronicle Tuesday contended that Iraqi breaches justify a pre-emptive war only as a last resort. "This drastic step will require damning evidence of an imminent threat and a broad alliance of international support," it wrote. "So far, Washington has produced neither."

--

Saddam is no imminent threat to any nation, but George W. Bush is a threat to the whole world.

Howard Dean then said that he was old-fashioned and he didn't think you could judge or punish Osama bin Laden until you had a trial and found him guilty.

The
machinations of the OSP meant that whenever the principals
of the National Security Council met with the president and
his staff, two different versions of reality were on the table.

The CIA did eventually produce a National Intelligence Estimate
for Iraq, but only in October 2002, after Bush had already decided
on war. The title of the NIE, "Iraq's Continuing Programs for
Weapons of Mass Destruction," is reflective of a predisposition
that was not supported either by the facts available at the time,
or by the passage of time.

The fact is that McGovern and I, together with scores of intelligence
professionals, retired or still in service, who studied Iraq and its
WMD capabilities, are reasonable men. We got it right.

Imagine this is why the bushite soldier states the Humans must not be allowed to disagree with anything the bushmob in Iraq does, because then we'll all know together how pathetically weak and cowardly they truly appear as criminally acting with such betrayals as an ungodly evil tyranny, without any true leadership to speak about. Robbing their own nation of America as immediate family in the process. Dying. All for intolerant war monger bush's hatred for the American dream, and contempt for all human good will as kindness.

Just another PUBLIC bushmob act of sedition against the old red, white, and blue, to sacrifice an American Patriot as measured worthless with. So American Soldier, what are you going to do for US payers being robbed in the open by the bushmob in Your dying brother's name like that?, as one American Citizen censored from speaking publicly at length like all the rest of US are also in corporate america? Just try to air an American Patriots concern on american talk radio, and see how fast your rights are silenced by the witches, or bushite cultists Art Bell has no problem giving his National show over and over again to forbid any protest.

/ / Steven Russell. "These People have always hated US in this area. It is not surprising that they hate US." \ \

He ain't kidding me he is completely unqualified to hold any leadership position. A real de-generative paranoid delusionist, mared likely early on from corporate neglect he suffers still from. He is what is referred to as a bigot, and likely therefor, a probable racsist. The 'area' he forces through threats of murder, are to demand this vision be no greater than his own. His own of equality being freedom by Justice Supreme doesn't stand his scrutiny as aimed for target. Bible or Constitution, all trash. Innocent guilty, good guy bad

guy, he couldn't divulge as devote blind bushite, war criminal 'mastermind'. Oh by the way, truly, he breeds indiscriminate warfare as a bad soldier, while the bushmob are walking away with who's loyal investment. . . ? . . . The clock is ticking. If I can teach Buford and Steve with this breaker, they'll turn around and kill bush and rummy instead for 9/11 to make the newspapers. This is why a repuglicon doesn't like to feed early start programs, that way, Lt. Col. Steven Russell can pretend he's doing US in this world a favor, when really, he couldn't care to know if his ACTION would CAUSE the needless murder of yet another, Patriot American brother. Steven, you arrest Buford, and Buford, well you just go ahead and arrest Steven, and then... well, we'll take it from there.

Instead What?

Instead tell US as an antiAmerican bushite?, you'll murder US innocent for demon bush and rotten rummy?, regarding those free speechers who dare voice with FACT, that, Iraqi banking, university, or health care, is more intelligent to remain Universal as it was to serve the People's interests BEFORE baathist bremer sabotaged communications? The bushmob isn't bringing Freedom, but stealing it. And as such being consequence, so too, Amerka. Haven't you heard? Bush's Amerka will be freeer now that evidence is no longer a requirement to convince US who is evil incarnate, and protesters can be shot without CNN making the news over it. It's betterer I'm sure Ashcroft would say to torture or murder the innocent, that to arrest the culprits responsible for high treason in God's America. Right bushites?

/ / commander of the 1st Battalion, 22nd Infantry Regimen, Lt. Col. Steven Russell, as saying, "This is to remind the town that we have teeth and claws and we will use them." \ \

What an evil dumdum traitor to the town of New York City steven russell is eh?

Imagine this is why the evil dumdum bushite soldier states the Humans must not be allowed to disagree with anything the bushmob does criminally, because then we'd all know how they ungodly as cowards behave; treasonously acting in such a inhuman tyrannical manner without true leadership to speak about. Ask an American Soldier who proudly states they wouldn't kill unarrested buford "bush bitch" blount or steven russell instantly to save the life of one innocent defenseless child, and I'll show you an enemy of America as just another

expendable soulless nazi bush whore. (ten cents per I'm paying..) Let's all hope and pray a sexy rummy cluster dud dropped by bank robbing heroin pusher tommy franks does them in, instead of US good guys driving in the designated place at the right time bound for further criminal bushmob sacrifice as leaderlessly too weak and cowardly to stand up for 'the Human cause', eh?
An aside: Corporate Americans are publicly taxed twice as much per capita for their inhuman private health care exclusions, than Canadians do for public health care that measures every Canadian as Canadians. (The bushites are evil, and dumber than dumb I told you before the election, but your news agencies refuse to still listen to our top priority concerns regarding the demon antiChrist's murder rampages against American principles, and her citizens left uncapitalized.)
Think of it: the criminal bushmob will easily sacrifice a leaderless bushite nazi soldier, to steal from their own families back home undefended, maybe a nickel, while I, as a real man, beg them to be Soldiers from America's America, by getting to unarrested buford "bush bitch" blount, death squad recruiter tommy franks, or even baathist bremer as the actual enemies of true Patriots everywhere. At the same time, DEMANDING the start to promoting free fair elections, the solving of tommy's bank robbery, and the return of the stolen Humanitarian Aid giving illegally to double biller commi Halliburton.
But so far, they cower as cowards, afraid to protect their own family from further bushite tyranny that they don't have a mind to speak of. Nor, an Art Bell to learn from. (American Talk Radio don't wanta get political while advocating no concerns about dying soldiers led by the bushmob. Why? Americans seem to hate all of their humanity, or so the bushites would like you to think so through censorship of the dying victims. However, I'm still holding out on the chances of one or two in the Marines as loyal to America, who will if they have to, bravely be taking down bush and rumsfeld immediately for escaping arrest regarding 9/11.
You can fool some of the people some of the time, but bush can't fool all of the people as evil incarnate, for that would just be plain silly.)

Look, about all those bad names you thought I called you before, as a messed up son of a gun, listen, we all make mistakes, and... well, if your willing to work for the survival of Justice in America, somebody'll be proud to salute your Patriotism as Freedom truly reining. (Or perhaps the real Americans, to protect the lives of their blood brothers and sisters, will bravely demand

the immediate arrest by gun point of the bushmob for 9/11, to be strong and brave, humane and godly. I guess we'll ask who is the sea, the demon antiChrist bush, along with Ashcroft and rotten rummy, or still We. - ba)

Communicating knowledge is powerful stuff let me tell you. (Roar) A person can spend a lifetime of study in a branch of understanding, and write an illumination readable by another in just a few short hours, then take in a play or perhaps a movie, then the weekends over, and you better get back to work or you'll lose the house on this next late mortgage payment. I don't claim to have all the answers, but i do just about. Hidden in here somewhere...

Step Right Up

I know generally, American people ain't so politically aware, when it comes to huge amounts of living wasted by little scary, but far too distant as likely scenarios. Tell me what you think: can you imagine 10 billion dollars in one year spent to investigate Laden, (with perhaps only three officers in total working on those 'secret investigations'? [Connie Chung - CNN], instead of just dirt cheaply starting, with whom did what when where went why? (W199i and Barbara Bodine) Evidence must be crucial to convince US who is stealing literally, billions. Every year. (Where is some great King to wake up to this madness, and offer US an ever changing alternative I kept foolishly asking myself.) Look,. I know a bushite war monger's lying can spook me too, on how they manage to have no commitment to communicate honestly with the facts, while publicly advocating the indiscriminate murder of ourselves as the innocent., instead of SEEKING solutions to remedy things with intelligence bringing kindness as it's territory. God is all great, and I'm not so bad either.

Of the blind human condition trying to thrive, G is the last Word on lethal threats to the innocent. Threats made by war criminals who have high-jacked America's White House, protected by dying as evil bushite nazi teen terrorists angers everyone truly. Enemies of our Humanity whom is still living art within Heaven. I genuinely dislike devote bushite, American cop killing cultists with everything I am of honestly, and so too, it does appear also, the bushmob could care even less for its disciples. For the demon antiChrist, Your Mr. Bush Jr., fools all Patriots when he tells them evidence of his treason. What secrets? He secretly planned and

implements to not work for public criminal investigations regarding the murder of thousands of American People. Thousands. With Kissinger. What is it, that you as a bushite or otherwise, can't figure? None are seperate from this dying dream we call life's living end. Time to change your religious convictions on the true existence of a higher power maybe? (I am really very easy to believe in, and when speaking face to face, I leave little of no shadows to doubt I am simply a, super freak as Natural human Being. I scare few that shouldn't be, and I can't read anyone's mind, however, intention, is a whole other matter all together. You gotta be almost like a god to fool me into thinking one plus one doesn't equal two.)

Anyway.

America is still a work in progress, alive, willing, and almost able to defend by rule of individual rights by wHoly miGht. It makes absolutely no difference on what you think of me personally, (if you've finalized an estimation), I mean it, no difference. There are ideas as this Universe living would concur upon, timelessly, and see?, I know this as the Son of Man of anyone already, always have. (I don't need people to tell me I'm great as the Wisdom of Ages, I just need a few dollars to tide me over until I can get a steady paycheck.) I have no intentions of ever forcing the world against our ability, or getting elected as King for being just myself as a none-partisan, soft-spoken well mannered businessman. I am the actual make believe Lord and Creator of the bushite cesspool labeled America, and thanks for nothing is not what I'm demanding.

Letting the bushmob escape from committing the terrorist acts of 9/11, can not go further unanswered in this universe, I'm sorry. That's just not a world I as a defender of my living purpose would feel comfortable held up in chains and shackled ever. It's really not where I dream unbound along with the real world ways of life's struggle for true freedom, being my commitment kept honorably by doing some good for my sake is a virtue for all. God, American People are so ignorant, cowardly, and duped to not help ourselves sometimes, it destroys US, instead of the lying bush demon antiChrist. You know?, the enemy of all People, freedom and Justice? as a corporatist bushite cult deceiver would want US to not believe?

(nap break)

Can you believe that demon bush spewed last week that American Patriot Soldiers have been SACRIFICED because Saddam, ""did not let us in." Now, if he is that uninformed on Our documented reality regarding TRUTH in America, along with his now completely confessed absent war rational, will You, as an American Soldier, watch yet another corporately unspoken for Brother or Sister sacrificed to DIE in servitude for that super evil bush's bullshit continuing in Your name unchallenged?

This whole Britain Blair thing is so disturbing when parlayed with the facts outlaid. Look, MI6 (C) confesses the 45 minute thane was really just based on how long it might conservatively take for the Iraqi military to get small caliber weaponry, like grenade launchers, to anywhere along the Iraqi border. (With an additional report alleging MI6 obtained those timings from an out of date Russian military manual. (Likely therefor, a bit of a brag)) If that is not 'sexing up' by the devote bushite Blair warranting his immediate resignation he promised, nothing is. Huge penis shaped nuclear warheads, as apposed to a sweet pea shooter aimed at space invaders? Hutton should be considered for treason when you think about the time spent privately reading the 45 minute, Weapons of Mass Destruction thane over and over again, never mind the fact he is blatantly, nakedly, attempting to cover up the murder of a Brit. (The British can't be played as stupid collectively as bush's America, because they're not. Kinda like Canadians, Norwegians, the Swedes, Belgians, France, and most other developed, and semi-developed nations. Hundreds of countries, comprising near 7 billion People. (Thousands of millions wiser together, than Americans without public heath care) US: that Ashcroft, bush and rumsfeld dictate by ungodly decree, are not of true Human values when talking about protecting our Justice and Freedom ruling our ways.. into the mystic. Ottawa promises inquiry will get to the bottom of Arar case

/ / "It's important to remember why we're here. It's about a man called Maher Arar. It's about his deportation and detention and it is about ... the actions of Canadian officials, IF ANY, in relation to those events," said McLellan. \ \

Beautiful. As I wrote then, when I first learned of the Arar relationship, I postulated that in fact, the official RCMP, or CSIS, likely played no part in the terrorist bush jinx. Now, I'm not saying their could possibly be one blind devote bushite among the millions of Canadians that make our nation great, but truly I believe, we will get the enemy of freedom in America by just being ourselves. Blind bushite ideology centered on international criminality has it's downfalls in

context to our relative real world situations, as we seem to be learning together, one way or the other.

What does McClellan want us to tell him about? We already do have a complete picture of betrayal by the almost unbelievable, super evil bushite administration, on their intentional lies of deceit to murder thousands of good Americans for stolen freedoms believed fought and died for already.

From Johnny Wizard's highly recomended "My Divine Right"

/ / The Senate Committee on Banking, Housing and Urban Affairs, found corporate America sold Iraq anthrax, VX nerve gas, West Nile fever germs and botulism, right up until March 1992, on hopes apparently, to risk further American soldier causalities, who were at that present time engaged in battle with poisoning themselves mostly...

...While we now learn from public disclosures on Connie Chung, apparently, George Tenant, had only 3 CIA officers investigating Laden just prior to 9/11. While I remember last year it was alledged on PBS, the CIA had taxed the American public nearly 10 billion on those investigations regarding Laden over the previous year, but, hmmm, bush forbade police agencies, the pursuit of such investigations with his secret W199i directive. Guardian Wednesday 7, 2001 - "FBI claims bin Laden inquiry was frustrated" \ \

country of America as undefended financially., extending
"their" risk to do nothing; by the further needless
SACRIFICE of MORE AMERICAN (bushited) PATRIOTS AS truly
dying WORTHLESS WITH as da dumdums. Armed American
Soldiers should be bravely going after Baathist bremer
with DEMANDS for immediate democratic elections and the

immediate return of ALL the stolen oil-for-food money to be spent entirely on priority Iraqi needs, solving the bank robbery, while considering to start printing up millions of invites for Iraqis to stay in America until the toxic waste dumped by rumsfeld can be partially neutralized., while we hunt down the rest of the evil bushmob, one by one, with the full extent of Law, entrusted to the Loyal American Patriot Soldier's Oath to do what is strategically right in our America to survive. Why do we do this? To protect our fellow Soldiers from sacrificing under lawless criminal command where a, buford "bush bitch" blount type, murders good people for no stated reason, but to toll more American casualties, while robbing all Civilization as fallen bushite victim.

No wonder the evil bushites are now leaving in the light, their Iraqi dis-investment plan, for the easier pickings of undefended COWARDLY America tax payers to rob from. Again, more than half of the monthly 4 billion plus 'top secret' plan, plans to not account to ourselves., on costs of expenses doing nothing much of anything in Iraq TO SACRIFICE MORE AMERICAN PATRIOTS AS WORTHLESS WITH. (Apparently, they can't think this far due to the required math skills of subtraction and division.. Or, so the bushmob don't say in between Our commercial breaks on newscasts, or our acclaimed artists publicly blast during the, we're the best at this, award ceremonies.)

See the tragedy? The leaderless "bushited", American Soldiers are too weak or cowardly to stand strong as Americans for the needless loss of their very own by cluster bomb. It is From the get go, an American Soldier is sacrificed for, as the evil demon bush lies. Examples abound today like stolen money being wasted to fake fix things, really lives little damage undone. Or leaving buford "bush bitch" blount and the heroin pushing, child killer tommy franks unarrested, does little of no good for America's image abroad, when waring the bushmob "Freedom" medal, on an American cop killing cowardly bushite soldier's dying breast. A "Freedom" medal celebrating the ultimate escape of bush and rumsfeld from an American Patriot's wrath as the primary 9/11 instigators. (Say to a proud bushite, "General Ahmad funded Atta" and they run away as cowards, to play pretend like nazi savages who dropped bombs on US innocent irrationally to pay further costs in sacrifice to their false-deity unthinkingly.)
God or no God, I hate the demon antiChrist, corporate america's false-deity, Your unelected Mr. bush Jr., as

much as any real Creator of this world, or any other
should.

With such real inaction on old promises [lies] made by

sacrifice of true Liberty, until the bushmob gang is

perpetrating, super evil as ungodly, demon antiChrist in
disguises. (I very much would feel welcomed to play my
part in those public proceedings.) Hmmm.. maybe CNN or
CBC can become publicly convinced we should have our own

[then subverted to steal American lives with by lying]

Demon Bush replied, "No, the intelligence I operated on
[then subverted to steal American lives with by lying]
was good, sound intelligence."

Where is bush leading America on not ever taking an apology for his misdeeds to destroy our true American value with? I don't know how else to simply word this to the still sleeping, but bush isn't America, America is America. You, as an American, have a sworn right to demand for America, bush not be allowed to further miscarriage Justice blindly back to the dark ages, by not correcting himself on behalf of established publicly, where American intelligence stood, stands, and ultimately strives. Freedom is not protected by letting the "bad guys" go, to further toll more innocent lives for criminal sacrifice. Sometimes, the real simple things are over looked as profound meaning. The Magna Charta of 1215 states that a freeman should not be imprisoned. Simple right? Not for the bushites who side instead to faith in pope bush, who deliberately unminds a timeless universal principle that exists also in the 1700 B.C's, Code of Hammurabi, where all individuals are to be found equally under the Law, to be fair minded about our business. Simple right? No, corporate america says being fair, is not to care one way or the other between commercials., and the result? The available 9/11 evidence is not publicly disclosed as relevantly important, for Laden did the whole thing by himself, (bush, cheney, and rumsfeld said they know better than everyone else put together so don't even bother to form your own conclusions on your present state devaluating) case closed, now blindly pay your further tithes to bush, cheney and rumsfeld for letting the crime go publicly undetected, while with 13303, we will silently watch bush make himself tyrannical dictator over the rest of our Humanity, where he tells US, to escape, he will with evil american nazi bushite soldiers in tow, get this: not be found accountable to Ourselves anywhere by law to witness, or to an all knowing God even. Spooky, strange and somewhat disturbing, siding to show, bush really is dim-witted as archetypical evil incarnate eh? See? Civilization's Code of Hammurabi consists of 282 paragraphs, of which, the first line from the first paragraph translated states "If a man bring an accusations against a man, and charge him with a capital crime, but cannot prove it, he, the accuser shall be put to death." Your demon bush Jr. is recognized as an enemy of God not only by the Taliban, but since the birth of the Human condition. The position Your Mr. bush Jr., the antiChrist, threatens against US all, (EVERY FAMILY'S MAN, WOMAN, AND CHILD), is one where, as murdering war monger nazi tyrant, he can with bush bitch traitor buford blount and bremer, deem any NATION of People, outside all the laws of the Universe, regarding our truer existence dying.

My timing as Creation is impeccable, when you think about it. But don't think too much about nothing in your own defense while dreaming what is doing, isn't really happening. The unjustified NEEDLESS continuing murder and destruction in Iraq by toxic bombings and the use of cluster bombs as landmine to really kill cowardly and ignorant American soldiers pirated as anti-American lawless God hating nazi teen bush bitches, then, with tommy franks to undermine the ORHA plan to rob the central bank, museum, and steal billions in humanitarian aid by killing more leaderless as evil godless american soldiers with, was in itself, a crime against Your Humanity., and bush along with rummy need to pay the Piper immediately, before needlessly, taking US any further as not truly represented lyrically to sing or dance about aimlessly.

The demon bush's life, isn't worth the sacrifice he makes of our opinions on Liberty, or our children's future.

The French 1789 Declaration of the Rights of Man and of Citizens, makes perfect sense when it states in so many words, that all People are born [anywhere] free in respect to their legal rights, Laden, and You included. But no, not by the evil bushite misrule. If a Human is not american, then the bushites don't need to follow the actual criminal leads to establish a criminal case rightfully against the accused, and instead, the bushites will blindly victimize our dying world as the disenfranchised and innocent, without true leadership present as spoken for.

By corporate america not working to understand Freedom requires our due process as our self commitment, means, a bushite nation guided by the flimsiest of allegation to deny the rights of all People falling as innocent victims, instead of nabbing the actual criminal masterminds who murdered Americans to steal Freedoms granted to US all by living in the know. So, I purpose a quick, let's get started, New World Constitution; anyone who victimizes the innocent intentionally, should pay a price by our political will, instead of ourselves censored, as the unconcerned bushmob victims. By our corporate news agencies encouraging the blind ungodly belief that evidence is no longer a requirement to convince US who is a criminal, is another bushmob war crime in the making, and a road straight to doom for everyone corporately devalued for bankrupt liquidation. Suspicion is the minimum, when it comes to bush demanding your blind faith in him religiously for

indiscriminately murdering hundreds of thousands, while ignoring our Judicial investigations, so fraudsters commi Halliburton, can over bill even further, US tax givers as the unwilling still paying. It was reported that seriously incompetent Bechtel, (who steadfast so far as america's corporately unaccountable, refuses to fix what they're currently being paid for by tax paying bushite soldiers DYING as COWARDS for the wrong side to blow up then pretend repair as), hires workers at five dollars a day, while billing US all as unworthy of consideration in the final tallies during news break. What can't you figure if corporate news america will forbid you raising concern for the life of an American tax payer losing out to war criminals who would murder New Yorkers for a fast dollar at your expense for further keeping silent? These words are freely your own to do as you will. Shout for Americans dying needlessly under the TRULY incompetent bushite lawless rule, or don't side to help a plead for mercy regarding yourself truly included.

Can the bushites possibly think, we're all not ever possible to stand together without a true Loyal President, or, make believe King named Johnny, on the facts firmly established regarding the treasonous war monger antiChrist lying to Patriots dying US as victim for?

America, I will now leave the rest of Our job in your hands for the time being.

Yours again,
Johnny Wizard

I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers,

they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

All for our ability to communicate freely

There is one thing that is strangely absent from our news coverage as unbiased bushwhores who are actually devaluing under the tyranny of the evil antiChrist, Our Mr. Bush Jr., and that is..

Blix nor Elbaradei, nor Kofi, suggested, implied, or stated, that Iraq had failed to comply with the newest U.N. resolution: 1441.

I think Patriot Americans would be thankful for Canadian friends and family who are supporting American troops by pointing out with no contention but for censorship, that American soldiers are being sacrificed for no known good reason under the demon antiChrist, Our Mr. Bush Jr., again. The bushites tell US they wish to bring freedom on the premise that Saddam wasn't dis-arming or cooperating with US, a naked blatant lie, an attempt to excuse bush's murder rampages as a terrorist against Our families as the innocent, Ourselves represented by thieves that are doing US harm by stealing our value.

HANS BLIX: "And at this juncture, we are able to perform professional no-notice inspections all over Iraq and to increase aerial surveillance..."

Does a bushwhore devolving society where we murder ourselves on irrational suspicions to steal our worths to give to the bushmob as victims, sound like a bad preposition to you too friend? What is bush's panacea of packaged eternal freedom absent Justice mean truly as

measured to you judged unfairly as the general Public unawares? How EXACTLY is the bushmob going to liberate the oppressed and disenfranchised without expressing public knowledge on the subject on indivisibility? See? If bush actually had evidence to truly believe Saddam does in our present day have control as in political possession, weapons of mass destruction, sold to Saddam illegally by America to gas the enemy with the then, full blessings from the great satan, bush would have provided as such to the UN to be legitimately concerned for "The People" in Uzbekistan included, right? He would need to know where abouts he comes to understand so, no? Mr. Bush Jr. couldn't be sure enough otherwise to toss cowardly American soldiers as worthless without meanings, to be sacrificed as he is doing for financial private profit paid for by the victimized public, could he? Soldiers so valueless to Bill Hemmer, to not even speak out for themselves dying at CNN headquarters. See, Bill knows bush's private business partner, Amad, provided funding to 9/11's Atta, to criminally secure Enron's pipeline through Afghanistan by murdering highly successful American business people. But we can suppose Bill is scared as a cowardly unAmerican bushwhore, and would rather see the true evil doers hiding in America behind the flag, get away un-apprehended to further toll good Americans for sacrifice.

All the actual evidence we have concludes, Iraq worked directly to have the stock piles of WMD destroyed, provided the paper work, the destruction sites, and the individuals involved in that process. Inspectors had 100 percent access, to go anywhere bush, the false accuser might suggest without having to murder anyone from our family. Now, the disarmament process has been sabotaged, and the terrorist threat against America has increased. So, Iraq was in compliance, and because of that, the bush demon, in violation of article 2 of the UN Charter, has murdered thousands with war crimes as a terrorist recruiter. Making matters worse, incompetent bush even had an opportunity to liberate Our Iraqi family on world wide television, with what he and tommy franks would fantasize for our ailing economy by someone else to do the clean up chores. But, is it the Universal health or educational system, or public banking in Iraq that is not down to par as the american nazi fancy that bothers bush so much?, such as laws against discrimination for all persons, and evidential findings being a requirement to determine the measurement of Freedom for Justice to work. The People

in Uzbekistan, are the People in Iraq, are too the People in America where Ashcroft and rumsfeld tell US publicly, they wish to factually deprive Justice for ourselves as equals. When questioned, both, Ashcroft and rumsfeld have reiterated the demand that foreigners, like illegally tortured innocent prisoners, don't deserve the same protections that the American Bill of Rights grants to all People, therefor, they as bushwhores wish to treat others unjustly by letting themselves, as would be nazi criminals, get away unpunished in devolving bush's america. Right? American war criminals are treated too good by the bush administration in all honesty then? Karma is real world existence, as life is politics ordered through chaos. If the right is Just as organized deduction, the system would treat all as equal principles. But again, bush spew Iraq could be prosecuted for destroying their own infrastructure, but those same laws don't apply to him being above God, or anyone else in his administration of wrong doers. It was on publicly verifying the Justice process when the bushmob, as war criminals, turned against the UN, indeed the world community, and began murdering our families globally as war criminals with depleted uranium dust for the next 4 million years or so as bush victims, who will die suffering the criminal bushite assault for generations, if an American Patriot victim were man enough to execute the unarrested American cop killer, our Mr. Bush Jr. yesterday. If bush isn't even destroyed by the Love for Life in godless talkradio america, he, as demon will as MSNBC reported, unjustly continue to murder millions in sixty countries as the Son of Man's enemy being the antiChrist, the most hated and despised excuse for human existence this planet will ever know factually. Just ask Buddha. While the demon bush supporters, who advocate blindly murdering our families like US teachers and students through the censorship of our screams for Justice as Humanity, who also advocate poisoning American soldiers with cancer and warmed soft drinks, would only simply tell us cheaply, it is because their false deity bush, secretly knows better than everybody else put together, including the FBI and CIA, (Better than the mighty You even on everything?), therefor, they don't have to THINK(!!!) And see?, alas, the mindless bushwhore SLAVES neglect to mention as chatty personal failures grasping for the authority of blind generalized denouncements of our unique, independent selves, that when their bush demon does go public in their devoted namesake, (what with bush's evidence Saddam was six months away from owning a nuke, Laden and Saddam

soirees, or Saddam gassed his own people) he, as demon antiChrist, exposes his true contempt for human life while falling as traitor protected by the always doubtful, intolerant, ignorant, cowardly and criminal, as censor advocates to stop life's will. I've been telling loyal dumb functionally illiterate Police officers and Soldiers to destroy the two prime 9/11 suspects, the unarrested, bush and rumsfeld, ever since the bushmob declared Omar's interest in nabbing the 9/11 suspects by following the criminal leads, as a hatred for American Freedom unthinking, and then continued on to murder approximately 100,000 innocent people in Afghanistan, now with the lucky survivors left worst still off, with bush's commitment to not offer any aid in nourishment, but as terrorist students, heroin dealers, or Enron propagandists left forgotten by American, er... CNN interests as dictated through bush ratings.

MOHAMED ELBARADEI: "At this stage, the following can be stated: One, there is no indication of resumed nuclear activities in those buildings that were identified through the use of satellite imagery as being reconstructed or newly erected since 1998, nor any indication of nuclear-related prohibited activities at any inspected sites. Second, there is no indication that Iraq has attempted to import uranium since 1990. Three, there is no indication that Iraq has attempted to import aluminum tubes for use in centrifuge enrichment. After three months of intrusive inspections, we have to date found no evidence or plausible indication of the revival of a nuclear weapon program in Iraq."

Now we witness american nazi soldiers using Iraqi human shields just outside of Basra, committing further war crimes by blowing up powerplants, residential buildings, and bombing surrendering Iraq forces lying dead in a ditch with white flags sticking up. Indiscriminately murdering US good honorable people, and for what? When the nazi soldiers finally stop murdering our families irrationally as criminals, then what? If the nazi bushwhores know the dictums for Freedom, why don't they express them now instead of unjustly hurting God as all people? These bushwhore acts are crimes against ALL PEOPLES, and should be recognized publicly a such. The evil bushwhores can't vocalize their mindless support as cowardly betrayers to the human cause, and instead, censor our voices on the public airwaves while they freely propagandize our communities on the benefits of pillage and murder as terrorists under the antiChrist, Our Mr. Bush Jr... The war profiteers have already

taken billions from the American People. Cost is paid by the uneducated illiterate tax payers as collateral damaged, and the war profits go into the private pockets of the smirking bush mobsters while killing dumbfuked american soldiers, as traitors to the American cause, freedom and Justice for all. God's son as creator included. Anyone who supports evil bush's war crimes against our family by censorship, then murder, is the enemy of America, and on all that she stands strong united by God unheard from still suffering.

I am not able to understand if FRS and GMRS are governed by law here in Italy but in any case being the two handsets coming from the US they should work, correct ? (the legal side is also important but will tackle it later).

I purchased a hand held antenna from Burghardt and was charged $15.00 for
UPS Ground. They don't notify of shipping charges until you receive it, at
least the time I ordered.

Honestly that was my problem since I didn't ask. The truth of it is, that is
far to expensive to charge. Keep product costs down, make up the difference
in shipping I guess.

Whatever happened to this group? It's filled with children and CB'ers (or are they one in the same?) This is an amateur radio newsgroup, and people shouldn't have to keep adapting their filters to weed out this trash. In the early days of usenet, this group was worthwhile. I thought that once KC8JBO was eliminated all this would go away.

Shipping costs include more than just the UPS charge. Someone's got to take the time to package it in a suitable container and with suitable packing materials and pay for that time and those materials.

I noticed your message was posted from "news.uni-berlin.de." You are in the United States, right? If not, $15 is not excessive to ship something to Germany. However, if you're in the USA, you're right that $15 is a little high. However, I don't know why they would charge that. If I remember correctly, they only charged me about $15 (also UPS ground) when they shipped two handheld radios with extra batteries and chargers. Perhaps they have a minimum shipping charge or something.

Well, it is certainly a good idea to get all the details before ordering - something I would recommend with any mail-order transaction.

Welcome to the Wild World of Usenet. Personally, I don't mind
doing filter adaptation. Heck, I need to do a variant of the same thing
on the air to clean up the QRM.

Remember that Usenet has been around since the late 70's at least,
and that it has a long and very colorful history of flame-fests, off-
topic, and pointless posts.

The problem only got worse once the Internet came into the public
view, mainly because it resulted in a huge influx of people who barely
knew what the Internet was, let alone Usenet, and were utterly ignorant
of even the most basic "Rules of the Road" that the veteran users had
been living by for decades.

Even today, a huge chunk of the 'net's users seem to think that
the WWW is the 'net, and that the same conventions often applied to E-

mail should apply anywhere. Don't even get me started on how much non-binary trash I've seen contaminate the alt.binary.* hierarchy.

The good news is that once you get to that 'sweet spot' for your reader's filters, you will indeed lose most of the noise and get real signal (though you may be surprised at how much gets filtered). It just takes a while sometimes.

One thing: Please don't top-post. It's a good way to cause other readers to lose the context of a given thread very quickly. This link has more details.

You don't have enough head room in a Cherokee to
mount a radio 'up'... I have a 2000 Cherokee and I
mount it on the passenger side of the center console.
The display is vertical, to me, but I can read it fine.
The radio does not interfere with passenger's legs.

There is a place to mount radios under the glovebox...
it's pretty far away from the driver, and it's not very
deep (my FT1500 might have fit, but my FT857 won't).

I've only ordered from them once, but my experience was generally
good. Shipping charges were listed up front ($4.95 to ship a Kaito
radio, not bad...), and my order arrived in good condition. Turns out
I'm not crazy about the radio, but that's not their fault. I'd
probably buy from them again.

confident that..." he'll say, as if the issue is his
determination rather than his conclusion. \ \

It's his faith infinitive as the antiChrist, where he

for stupidity thinking he could murder US as the

The demon bush dictate is not exceptable for my just

go on dying in bush's forsaken place as innocent
sacrifice. With corporate america's unarrested demon
bush forcing my hand, I would decide to defend by
concluding, he is truly, the enemy of all America.
America: weak without leadership, yes, but not as dumb
as some would have us believe. When is it that we feel
sorry for the thousands of lives bush's deliberate
actions of mass murder have taken for no good reasons?
Their ain't nobody to defend america's overlord, but
through corporate censorship of the reality of who's
really dying for the demon bush liar. I'm the one
anyone would ever have a legitimate fear of getting on
the wrong side of, and if your not in the process of
attempting to get away with murdering some defenseless
family for nothing but to rob from, to each, his or her
own, mostly, right?

Heads should roll, alright: starting with Perle's, and don't

The point is not that he's stupid, only that he knew less about policy and the world as a presidential candidate than the average graduate student in government. Lacking Eisenhower's worldliness or JFK's intellect, however, Bush is prone to grab onto a politically useful intellectual framework like a life preserver and then not let go ï¿½ whether it's Myron Magnet's sour interpretation of the 60s in "The Dream and the Nightmare" or Paul Wolfowitz's Pollyannaish analysis of the likely consequences of an American invasion of Iraq.

Falling for You

Brahimi said. "We need to organize elections as early as possible but not as early as impossible."

Help me understand: Why can not Iraq start on the process of

O R G A N I Z I N G E L E C T I O N S

NOW to work towards gaining accountability for soon as possible? After June? What the... Can't we people talk while walking? Look, the future is likely coming no matter what, and what ever illegitimate government is embarrassingly stalled by evil WMD proliferator baathist bremer to steal unaccounted American tax dollars from

the "willing" victims dying, (like by bush bitch cluster dud) will still necessitate the need, to have started on the process of fair elections for our Iraq before hand. Corporate america might not care of sacrificing America to rob from, but real People are honorable, and won't reserve the scourge of nazi bushitizm a place to suffer any further if we can help it.

The bushites are sorrily, simply not qualified under the dire circumstances they've assaulted ourselves into for mugger war profitizing, as leading US to be dying undefended while failing miserably on my behalf to demand Justice as freedom is truly.

Now, it has been vaguely suggested that a, steven "you can't have public health care or he'll murder whomever for thinking" russell, or a buford "bush bitch" blount as treasonous evil nazi bushwhore, to undermine freedom and democracy everywheres in our world might cowardly attack defenseless innocent families at the polls while leaving "bin Laden" fingerprints, criminally warring to kill more American dumdums for commi Halliburton et al, continuing committing as unaccounted massive waste in America by over billing the dying People. Why would bushites do this? Evil is blind irrationality, disguised as thought out faithfully by fascists. The, nothing to fear suggestible absolute nature of non-linerality, is 99.9 percent, super fractal wowy miraculous as crazy about the fringes, (or is that bridges?). But, without Justice ruling our stay, we leave for a Heaven waiting, on a sea of madness as enemies of life to all things eternally being. Translated: We need to arrest these specific war criminals at the end of our, ready to fire rifles. Done to stop them personally, from robbing or murdering America indiscriminately as enemies to everyone. But in addition to that, (like at the same time) who says the polls can't be stretched out over several days or a week, with multiple options on submitting votes registered through the oil-for-food program? I want to know where Annan is on this., why it can't be done., and what his position is on returning the Iraqi Humanitarian aid stolen by Halliburton, or Iraqi Central Bank deposits cashed by HAS TO BE, current pirates. Annan, be a man, an acknowledge our presence as relevantly important for our world's living sake.

We had 100 percent access throughout Iraq prior to allowing bush, rumsfeld, and franks to sacrifice literally thousands of innocent lives. Who are now DEAD or DYING NEEDLESSLY as first degree murder victims, in

some bastardized Lord's name apparently.

(Quick, somebody call upon everyone to get up off their knees, God's coming to read as one person today of the unbound wonder of what it is to be uniquely ourselves within a nude sunrise grinning. To make some progress forward for a better future, we're not meant to just pray for someone else to come and stop whom from cheating who of Liberty? What is it that you can't think of? Every wonder? Who wouldn't do God a favor if they could imagine so brightly. Who's stopping you from defeating tyrant bush as war criminal, but for only yourself contained by his continuing bad example? Tell you what: let's together find ourselves of one mind on putting the bushmob behind bars awaiting immediate public trail, and I'll promise to try visiting them every year, just to see how things are developing. Or instead just shoot bush and rummy for almost escaping Operation Infinite Justice of a real American Patriot soldier's undying love for his soul brother.)

Any improvements of the current situation in Iraq today, are going to be less that what would have costed to not kill innocent people for nothing but evil bushite war profitizing at it's level worst in this history ever of all Humanity recorded. The demon antiChrist of corporate america has got to go, and he's got to go immediately as arrested or shot dead by the Patriots for treason, before he causes US anymore needless losses and grief to our friends and family. Like for the next fifty or so generations what with the plutonium being fed blindly as willed to cowardly, weak, American teen enemy bushite soldiers presently. (If we could seperate the bushites from the rest of US, this might be a good thing, but they have no real leadership to speak about freely as the dying stupidly.(PRINT THIS PAPER AND MAIL IT EVERYWHERE))

DYING like those from 9/11 did, or dying slower, like with NYC air quality as best Oz has to offer. (Harmless corporate TV tells US without opinion.) Either or even in other ways, the demon bush is truly killing God's America in Your name not heard from. Help me you idiot. You! Yes you there, reading here. I am your secret friend see?, and.. well.. the Universe needs your help desperately pal. Please? For me? ..Oh God help me your really dumb without you aren't I too? Listen: we need to talk.

We are here to save all of creation from needless death. Big deal. Your are of a real eternal nature, that

exists also, (as understood scientifically) timeless. For real. (The big bang is now. (All mass is also of not as seperate energy, then there's our gravity...)) Our possibilities for a great, better future are staggering, if we are capable collectively as individuals to defeat the "kindness" of George W. bush, the dying embodiment of evil as the very true demon antiChrist of all biblical references ever mentioned. His lying isn't just deceitful, it is downright hellish.

You know what I think? The evil enemies of Humanity, don't want US People to be recognized from being victims under tyranny through corporate cult censorship. Without Justice ruling our ways under the irrational criminal bushmob dictate, we lose as losers cheating ourselves as not worth the consideration to be free individuals.

Granted, I am an actual god familiar with the rights present within the Constitution of America. THEE God's god, here to teach the world about needless sacrifice, caused primarily, for the effects of inflated egg shell egos. As Creator, I goofed somewhere in the, order to chaos mixer. I didn't plan (it was a mistake) for Americans to be so cowardly and weak when it comes to defending their very own selves from needless death and sorrow through blatant, naked, how can you miss it, evil criminal enterprises. So, perhaps, now if I stop writing, and fake I flied off vamoosed into the unknowable, a couple people on the planet might go 'hmpht', and decide to carry on bravely, the real, honest to death struggle for freedom living without me as sorrily missed. (I as John am not anything special paradoxically.) This is fear itself, ain't nobody nowhere as terrifyingly terrifiable as this is just truly super terrific being only my simple written taughts, yet, ... I'm like.. just fiction writer, big dreamer Johnny Wizard, looking for some happiness, human respect, and a good last supper before I check out from this made by the earthling "space explorers" dungeon cell.

But who cares about me, or my great, he thinks he's so brilliant ideas? Everything's seriously a pain to him sometimes, and he talks to himself like he's the, been here and gone as eons now, King of the Universe for the holy Word from the Heavens above or something. What a poor dying fool to chance that anyone would willingly help themselves by caring for someone. ..You know, I'm beginning to not be all that crazy about the demon bush liar continuing to war humanity in my own true name also

now that I think of life in this way honestly. H-e..Y -! (Morningstar has been accused of a lot of things, but you'll notice, always plays fair as your rules.))

What freedom in Iraq will come that allows a, buford blount to walk unaccosted by 'legal' services? Or where rummy's cluster dud advocates gain silent gratitude? A nation high-jacked by bremer's buddies who illegally sold Saddam WMD, then the product wisely gets destroyed as functionally useless being primarily indiscriminate warfare, then bremer's buddies come in again and murder untold thousands upon thousands, all because your magic TV is letting them get away with it as considered too embarrassing to the billionaire private stake holders. Fuk you corporate american Human haters for not reporting the bushites as war crime supporters.

Where in the real world are the nazi bushites gonna demand we go to allow 'them' to continue warring the Constitution while wearing a bushite soldier's uniform in their dying universes of Universe? Leaderless corporate america?, injured and dying as the unjustly starving? What can the bushites do now in Iraq, that they couldn't do before the needless murder of untold thousands upon thousands of innocent people with loving families? Before dumping thousands of tons of radio-active toxic waste as enemies of God's children? Only to rob, maim, and destroy God's great work through Love. We had complete unrestricted access throughout Iraq, and Saddam was offering the national media for bush to pontificate, while not refusing dialog for any suggestions.

I ask:

Can not America invite me formally for brunch, by somehow bypassing the war mongering nazi tyrant held up in the Oval office? I'd invite you all, but my place is still a mess, and I'm stuck eating for survival just now. I don't qualify for help, because surely, a person with your talents, should have someone willing to stave you off the, who cares about saving the world for you buddy, laughing in all seriousness shtick. (cool eh?)

I give you my world:

To save humanity from tyranny will be accomplished through the value of these free ideals recognized.

Isn't life grand sometimes when the bushites aren't needlessly murdering our innocent families in your name?

I again,
will now leave
you without me,

forever loved,

Johnny Wizard - Your "other" parent or guardian advising you to immediately, by Citizen Right, arrest the President's 'cabal' in the name of the Lord, who already died for this once already god damn it, and I'm not sacrificing any longer unknown as forgotten in the absence of any true reason to our existence, I want to celebrate. I want to afford a cold brew to nuzzle on a warm sunny afternoon, at a hideaway somewhere, lost in my comforts of having few real worries, but for unintentionally offending someone for not having the time to except their generous support, or gratitude.

Unelected care taking government? What is the group their now supposedly doing? Where in the process is corporate america to simply fix the Russian generators they've been paid over and over again already for as doing nothing in The People's interests?, As unaccounted to? Where is corporate america to fly in the emergency food and provisions for the innocent as victimized? Who's care will this continuing robbery of America through war crimes further fail to serve? How can Annan gain "wide agreement", with no poll on the issue? Who personally did he talk to, agreeing to leave Iraq without working for an elected government of the People?, and who consented to give up on such dire needs? Where is Annan on the thousands of tons of radio-active toxic waste dumped by rotten rummy? Is it not an issue he should personally be addressing for Humanity, to demand an immediate clean up paid for by those responsible? Imagine that: Truly toxic as dying, American Patriot soldiers making it up to God's great Creation, by hunting down the actual bad guys, who done did crossed the wrong family this time.

Wow, now that would be a war worth televising!

/ / She would soon conclude that the OSP -- a pet project of Vice President Dick Cheney and Defense Secretary Don Rumsfeld -- was more akin to a nerve center for what she now calls a "neoconservative coup, a hijacking of the Pentagon."

...I mean, these people have total disrespect for the Constitution. We swear an oath, military officers and NCOs alike swear an oath to uphold the Constitution. These people have no respect for the Constitution. The Congress was misled, it was lied to. At a very minimum that is a subversion of the Constitution. A pre-emptive war based on what we knew was not a pressing need is not what this country stands for. \ \

No End to War

The Frum-Perle prescription would ensnare America in endless conflict.

By Patrick J. Buchanan
http://www.informationclearinghouse.info/article5712.htm

/ / And if God accepts the existence of evil, how do Frum and Perle propose to ``end'' it? Nor can any nation ``win the war on terror.'' Terrorism is simply a term for the murder of non-combatants for political ends.

...If it is America we defend, An End to Evil makes no sense. The Perle-Frum prescription for permanent war makes sense only if it is the mission of the armed forces of the United States to make the Middle East safe for Sharon--and here we come to the heart of the quarrel between us. \ \

As you can probably guess, me and Patrick might have some good politics to debate on that I would disagree with him about, but I can't save enough praise for reading this most recent informative and often entertaining take, while reviewing about the Frum-Perle controversy.

I think we can all agree, both Perle and Frum are now clinically deranged by hanging on to George W. Bush for so long in dumbness. Do they qualify for some sort of special treatment programs under their respective health care plans? Strange days where we see the limited words of a mind bound for slavery. All I wants is the war mongering mass murders arrested for treason against the flags of Freedom everywhere, is that to much to ask from ourselves still God asks? (You know?, I think, i'm getting better at this!)

...Moreover, the information was not given to him under any formal agreement of confidentiality, the likes of which exists between a reporter and his source. public claiming that he had not ``made up his mind'' about war
with Iraq, that diplomacy would be pursued, that military force
would only be a last resort when all other options were exhausted,
etc., etc. O'Neill's exposures, including the existence of
documents, prepared months before the September 11 terrorist

a charade filled out with falsehoods. \ \

New Moon

To steal public utility services paid already as owned completely by IRAQI, (America dying for the bushite American pension thieves at WorldCom or Britain's "Dutch"-Shell,) ain't gonna change the business locations. The evil unAmerican cop killing bushites think they're gonna party in Manhattan on our dime in apartments for around $15,000 a month, while sneering at a homeless beggar on the streets, who thought he was still in Vietnam.

An oil-for-Iraq program needs to be reestablished, but transparent to all as addressing the immediate emergency needs of Iraqis. Private, in the secret back room with the bushmob nazi bankers, and their private inept collaborators flustering as international fraudulent behaviors, just wont do., try as bush might to murder perhaps millions of Americans uncovered by his criminally enforced, reduction in health care coverage extravaganzas.

THE ROVING EYE IRAQ AND AL-QAEDA
Part 1 - The usual suspects
http://www.axisoflogic.com/artman/publish/article_5146.shtml

/ / This latest US intelligence, though, makes little sense. For starters, al-Qaeda pigeons are highly unlikely to move around with computer discs in their briefcases: since early 2002 a disabled al-Qaeda has used women couriers to deliver strictly verbal messages. \ \

Kimmitt in collusion with the bushmob perhaps? To cover up an investigation set up to encourage the blind murder of America as bushite by attempting to divide all the People of Iraq as Iraqi?, na... not in a tribal based, enduring practically timeless, inter-woven culture.

Those who ran public healthcare and university are all the bad guys for thinking, the blind bushite bigots would conclude illegitimately., and I would say to yourself: no, the People with equal rights to stay united for good times, are a people sworn to uphold law that serves our freedom's best. Iraqi assets are not bush and bremer's right to steal without question, nor either, American generosity swindled by WorldCom, Enron, Dutch-Shell or Halliburton is the final, be all answer

to everything.

You as sure would know that unjustly victimizing the World in our name because "they" didn't believe in blindly worshiping with servitude, the war mongering mass murderer demon bush liar, is freedom stolen from any. Wide, across the board, ask anyone for comment on where the bombs dropped from. Needlessly in bush's name, but to war God's love, and my good life.

Demon bush is not America, America is America.

This is all I'm ever doing as King, but perhaps also, not going left hungry. If you can help me help you, we'll be set for something better.

Truth can pose serious problems, when we idolize blindly the evil demon antiChrist for criminal sacrifice, instead of arresting him for 9/11 along with cheney, and bummer rummy, the silent but radio-active cluster dud dropper who murders American Patriots for a nickel.

Too awe shock embarrassing is it to ameliorate for the sake of a dying American Patriot Kimmitt?

For, why would Laden want the bushites to stay to further rob America through creating instability within his own ranks? without denouncing the demon bush war lies, that are paying a very real price.. ? What would it cost commi Halliburton, to face public accountability (Democracy) in Iraq on where Iraqi money is being misappropriated for? Do you think they'll get to keep the oil business, to sell back to all of Iraq at uncontested mark up freely? To steal food aid to under pay the third world? Starving?

To steal public utility services paid already as owned completely by IRAQI, (America dying for the bushite American pension thieves at WorldCom or Britain's "Dutch"-Shell,) ain't gonna change the public business locations. The evil bushites think they're gonna party in Manhattan on our dime in apartments for around $15,000 a month, while sneering at a homeless beggar on the streets, who thought he was still in Vietnam.

Perhaps, he is.

Another American soldier owes me a beer, or will be dying to steal life from themselves as sacrificed for the evil criminal dictate of Their Mr. bush Jr.. Don't go silent as the unknown dying enemy to God and humanity, stand with Justice and freedom in America for Americans, and I swear, we won't kill ya as the good

guys in the epilogue.

By the bushmob attempting to create unrest, so Halliburton at al, can continue in the tommy franks chaos to rob America blind with false billing, instead of cash paying, is costing the lives of American teen soldiers. Who god love'em or hate'em, don't have the intellect to strategize their way out of an open paper bag, never mind evil bush's false creeds without real leadership present as living for. Instead of bruising our egos, the bushites are dropping bombs illegally on the family.

Man.

Ask a dying soldier how it sits to know commi Halliburton pocketed Humanitarian Aid? Go ahead, ask'em?! Then ask'em why they die as cowards by rummy cluster dud for the bushmob to rob their own direct families left unprotected? Ask'em! You know what they'll tell you? They're not happy about these bushmob war crimes truly destroying America in America, "freedom", "democracy", Johnny Wizard or otherwise., Or instead they'll mumble something incoherently while jaunting away to murder some one found defenseless, or innocent to pay further while dying to slave under the criminal dictate of the really evil demon bush Jr..

A proud bushite is a toxic bushite halting from warring the innocent by stealing your human values truly.

We need to see an apology to come from America, an apology to Humanity for this carnage waged unnecessary, but for these contemptible war profiteering practices as direct assaults to all as God is. Assaults that we have been unable to remedy by openly communicating to bush's secret White House, rumsfeld's secret Pentagon, or Ashcroft's secret Justice Department.

Just who's running this show anyway, I wanna know.

A - g - a - i - n

Will Americans save themselves with help from the rest of US, by arresting bush and rumsfeld immediately for high treason?, or will they cower and DIE as the innocent, in false gratitude to the lying traitors bushmob? To with their dying breath proclaim unattested, to be ridding the Universe of their continuing criminal behavior.. a.k.a. evil?

Evidence is a must to establish a crime scene provocateur, to deny such privilege is to deny freedom

be served as consented through any government.

Hint: Demon bush, rumsfeld and Ashcroft, they ain't no struggling democracy entirely.

Look, the thing about God coming down, and having it out with humanity on some various critical issues, isn't like going to happen, it is doing.

We had complete unrestricted access throughout Iraq prior to murdering any innocent child in america's name.

These verbs will strike that antiChrist demon down for ever and a day, and if I've gone, faded away, these words will still remain,

of the U.S. forces should be followed by a temporary combined mandate for the United Nations, Arab League, and OIC (Organization of the Islamic Conference) to provide direct support for Iraq's reclaiming of sovereignty. Ann Coulter - "Liberals just call Republicans names."

Her suggestion is against the common sense of a literate segment of humanity who knows something is a farce about this tart, and for me, entertains for words to gain a better understanding for proper acknowledgment.

Coulter is bigot rousing on purpose I think, just to get all the american corporate monetary gratitude, in selling herself not present as a significant baitor unaddressed publicly in our corporate news circles. She sells excuses to cowards, of not addressing specific acts of treason committed by individual traitors, like rummy or Ashcroft, and instead, suggests all people have no ability through bushite america to recognize themselves being robbed their freedoms or murdered directly for the furthering of the evil bush demon war lies.

Interesting.

A repuglicon nazi bushwhore, who will say anything to allow bush to steal further from America, is not a tried and true Republican blue collar. Is it in Ann's contention, that all Republicans can't imagine themselves having any independent opinions? Or, is Ann saying that every Liberal blames Republicans of every stripe throughout History instead lawless bush personally for sacrificing the nation as evil incarnate?, committing to murder individual New Yorkers as America sacrificing, then further acquiescing to needlessly feed toxic waste to all American soldiers, while loyally blowing themselves up dead as individuals to pieces with sexy rummy cluster dud, all for being blind disciples of the unAmerican bush demon antiChrist, their ungodly evil false-deity as enemies of God's love, America, and our good names?

Naming the repuglicon demon bush a terrorist recruiting cop killing heroin pusher, who played a central part in

the murder of thousands of New Yorkers is well established factually, and publicly confessed as all planned to act upon before hand. Who says? MSNBC's Jim reported with the White House, as a 'top secret' [Oops, deceived America wasn't suppose to read this one Condi] strategy of not following the 9/11 crime scene evidence, and confessed as 'fully implemented'. A General Ahmad plan to blame bin Laden as innocent of to secure invasion of Afghanistan. For Enron et 'al, the treasonous g-e-t-t-i-n-g . . . a-w-a-y. ... Pension thievers. Remarkable to say the least.

Anyway, solid, documented evidence including the circumstantials, like cheney's "The Dabhol Working Group", Niaz Niak, and the quietly contacting of allies publicly to attempt legitimacy of faked collusion, as such, with rummy's Pentagon arranging a same-time, what if a 9/11 occurred plan involving everyone misled, like also dummy rummy's P2OG, where dummy rummy writes to commit terrorist acts against our innocent families, he prefers if any connections have to be made, they be made with the widest banner of "The Pentagon", as to hide himself from corporate american news scrutiny, who instead will report it as, the Pentagon isn't speaking about only rumsfeld's high office involved in blatant treason, and naked evil doing. (Also, to succeed in assisting in robbing the Central Bank, and museum, the nuclear facilities containing radio-active contaminants were left unguarded, as not centrally relevant to franks why soldiers were told they're still sacrificing their lives for. "Duh, why are we here to kill good people needlessly so the bushmob back home can further rob our undefended families bro? Bro?")

--

This is for all to agree settled as official History.

America devolving into the criminal tyranny of the evil bushmob is happening. All the while, we witness, the LEADERLESS nazi bushite soldier cowering as cowardly sell outs to their very own friends and family being robbed back home, left undefended through blatant over billing as UNACCOUNTED, leaving their own sons and daughters to dutifully eat plutonium, and going further silent when it comes to rumsfeld and franks needlessly dropping thousands of land mine cluster bombs to murder us people indiscriminately, which, kills their own

aplenty, in a more way than one knows. Karma. (rummy's pentagon is misleading soldiers on how many have so far died to allow Halliburton to criminally steal humanitarian aid from The People, as one example,) Again, as bushite fascist nazi vermin, they let those responsible for destroying America through the bushmob war crimes, still sit in the, for sale freedom captain's chair, high-jacked from US true Loyalists, attempting to get away the bushmob is doing from 9/11, by going real fast .. nowhere.

Second, if Liberals include whomever, how could Ann possibly assess that all would consider calling ourselves anything but, unique as individuals? Bizarre.

The American Constitution is our souls included in those timeless thoughts of Justice for all as The People. The bushmob is destroying freedom by persecuting the innocent as terrorists, when they, in AMERICA'S NAME, throw out the concepts of Justice for any. No publicly understood evidence to form our conclusions, is a corporate demand your faith be in the unjust bushmob 'cabal', and not in Freedom for all through establishing the actual "bad guys". Closing the public criminal investigations on 9/11, is a critically essential part documented as the evil cabal's "top secret" criminal treason plans, put together prior to the murder of thousands of American citizens. Prior to the event as hidden question, and, confessed as never considered. Ya, right.

Playing to Win

Bush declared, "and he wouldn't let them in. And, therefore, after a reasonable request, we decided to remove him from power."

So, there was indeed no imminent threat posed by Saddam to Amerka, and inspectors had complete unrestricted access throughout Iraq without delay prior to the, bush demon's further war crimes. So, what was the reason for all the pointless mass murder and destruction again? Oh right.. to sacrifice American soldiers so terrorist bush's war profiteering can feed off themselves as family without leadership present as spoken for. Hey no problem if Bechtel or Halliburton never actually gets anything done, or at a good price after their magic trick "pay here for what?" commissions eat up most of the investment, it's only the dummy American People bid payers again left unaccounted to DIE intentionally. The bushites could make more killings for decades to come, while flogging the now desecrated American flag as the new bushmob's being intolerance, greed and true contempt for all US as Humanity. US, a dying dream that once was the great American way of living; now war crime bush's personal enslavement for global tyranny.

The devote bushites tell a Loyal but dumb Soldier to quietly eat plutonium and get blowed up by rummy cluster dud, because, it's harmless. Again the marines have got to come in and save our day, by arresting bush and rummy for 9/11 now, with truth as the all time word of God exists within yourself included. Look, don't think I'm gonna fly down to Washington like some comic hero, and arrest the entire bush administration, going through them, one by one from their holding cells, on where all the stolen cash and American values went all by myself.

GOD NEEDS YOU

All the deaths of American Soldiers in Iraq today, (like the People who died for the bushmob's 9/11), are caused from their leaderless weakness to not face bremer and the bushmob as war criminals continuing to transgress in America's name high-jacked.

Mr. bremer fired Iraqi school teachers, and hired up Saddam's secret service, those, who if any, would have closer relationships to charges of criminal impropriety in the name of the baathist banner, than any other group would be. If an American soldier in Iraq today, feels those from the Saddam Baathist regime should face American Justice (the real way by thinking) why then, is bremer not behind bars awaiting his public court appearance? Mr. bremer as the director of Kissinger Associates, is as, directly tied to "CRIMINALLY"

providing Saddam his WMD knowhow. The first
"Iraqgate".. [I apologize as Creator for being
partially responsible for this worse than B movie but
true plot line scenario, however, looky here!, there
is so much more to believe!!!]

The bushmob tricks are too cunning to comprehend, see?
Again, for those who can, bush must be stopped from
murdering American Patriots for no good cause, because,
it's really getting US royally miffed way up here also
as the true beings actually committed to Justice as
Freedom for all. That's all folks.

He ain't kidding me he is completely unqualified to hold any leadership position. A real de-generative paranoid delusionist, mared likely early on from corporate neglect he suffers still from. He is what is referred to as a bigot, and likely therefor, a probable racsist. The 'area' he forces through threats of murder, are to demand this vision be no greater than his own. His own of equality being freedom by Justice Supreme doesn't stand his scrutiny as aimed for target. Bible or Constitution, all trash. Innocent guilty, good guy bad guy, he couldn't divulge as devote blind bushite, war criminal 'mastermind'. Oh by the way, truly, he breeds indiscriminate warfare as a bad soldier, while the bushmob are walking away with who's loyal investment. . . ? . . . The clock is ticking. If I can teach Buford and Steve with this breaker, they'll turn around and kill bush and rummy instead for 9/11 to make the newspapers. This is why a repuglicon doesn't like to feed early start programs, that way, Lt. Col. Steven Russell can pretend he's doing US in this world a favor, when really, he couldn't care to know if his ACTION would CAUSE the needless murder of yet another, Patriot American brother. Steven, you arrest Buford, and Buford, well you just go ahead and arrest Steven, and then... well, we'll take it from there.

Instead What?

Instead tell US as an antiAmerican bushite?, you'll murder US innocent for demon bush and rotten rummy?, regarding those free speechers who dare voice with FACT, that, Iraqi banking, university, or health care, is more intelligent to remain Universal as it was to serve the

People's interests BEFORE baathist bremer sabotaged communications? The bushmob isn't bringing Freedom, but stealing it. And as such being consequence, so too, Amerka. Haven't you heard? Bush's Amerka will be freeer now that evidence is no longer a requirement to convince US who is evil incarnate, and protesters can be shot without CNN making the news over it. It's betterer I'm sure Ashcroft would say to torture or murder the innocent, that to arrest the culprits responsible for high treason in God's America. Right bushites?

What an evil dumdum traitor to the town of New York City steven russell is eh?

Imagine this is why the evil dumdum bushite soldier states the Humans must not be allowed to disagree with anything the bushmob does criminally, because then we'd all know how they ungodly as cowards behave; treasonously acting in such a inhuman tyrannical manner without true leadership to speak about. Ask an American Soldier who proudly states they wouldn't kill unarrested buford "bush bitch" blount or steven russell instantly to save the life of one innocent defenseless child, and I'll show you an enemy of America as just another expendable soulless nazi bush whore. (ten cents per I'm paying..) Let's all hope and pray a sexy rummy cluster dud dropped by bank robbing heroin pusher tommy franks does them in, instead of US good guys driving in the designated place at the right time bound for further criminal bushmob sacrifice as leaderlessly too weak and cowardly to stand up for 'the Human cause', eh?
An aside: Corporate Americans are publicly taxed twice as much per capita for their inhuman private health care exclusions, than Canadians do for public health care that measures every Canadian as Canadians. (The bushites are evil, and dumber than dumb I told you before the election, but your news agencies refuse to still listen to our top priority concerns regarding the demon antiChrist's murder rampages against American principles, and her citizens left uncapitalized.)
Think of it: the criminal bushmob will easily sacrifice a leaderless bushite nazi soldier, to steal from their own families back home undefended, maybe a nickel, while I, as a real man, beg them to be Soldiers from America's America, by getting to unarrested buford "bush bitch" blount, death squad recruiter tommy franks, or even

baathist bremer as the actual enemies of true Patriots everywhere. At the same time, DEMANDING the start to promoting free fair elections, the solving of tommy's bank robbery, and the return of the stolen Humanitarian Aid giving illegally to double biller commi Halliburton. But so far, they cower as cowards, afraid to protect their own family from further bushite tyranny that they don't have a mind to speak of. Nor, an Art Bell to learn from. (American Talk Radio don't wanta get political while advocating no concerns about dying soldiers led by the bushmob. Why? Americans seem to hate all of their humanity, or so the bushites would like you to think so through censorship of the dying victims. However, I'm still holding out on the chances of one or two in the Marines as loyal to America, who will if they have to, bravely be taking down bush and rumsfeld immediately for escaping arrest regarding 9/11. You can fool some of the people some of the time, but bush can't fool all of the people as evil incarnate, for that would just be plain silly.)

Look, about all those bad names you thought I called you before, as a messed up son of a gun, listen, we all make mistakes, and... well, if your willing to work for the survival of Justice in America, somebody'll be proud to salute your Patriotism as Freedom truly reining. (Or perhaps the real Americans, to protect the lives of their blood brothers and sisters, will bravely demand the immediate arrest by gun point of the bushmob for 9/11, to be strong and brave, humane and godly. I guess we'll ask who is the sea, the demon antiChrist bush, along with Ashcroft and rotten rummy, or still We. -ba)

Communicating knowledge is powerful stuff let me tell you. (Roar) A person can spend a lifetime of study in a branch of understanding, and write an illumination readable by another in just a few short hours, then take in a play or perhaps a movie, then the weekends over, and you better get back to work or you'll lose the house on this next late mortgage payment. I don't claim to have all the answers, but i do just about. Hidden in here somewhere...

Step Right Up

I know generally, American people ain't so politically aware, when it comes to huge amounts of living wasted by little scary, but far too distant as likely scenarios. Tell me what you think: can you imagine 10 billion dollars in one year spent to investigate Laden, (with

perhaps only three officers in total working on those 'secret investigations'? [Connie Chung - CNN], instead of just dirt cheaply starting, with whom did what when where went why? (W199i and Barbara Bodine) Evidence must be crucial to convince US who is stealing literally, billions. Every year. (Where is some great King to wake up to this madness, and offer US an ever changing alternative I kept foolishly asking myself.) Look,. I know a bushite war monger's lying can spook me too, on how they manage to have no commitment to communicate honestly with the facts, while publicly advocating the indiscriminate murder of ourselves as the innocent., instead of SEEKING solutions to remedy things with intelligence bringing kindness as it's territory. God is all great, and I'm not so bad either.

Of the blind human condition trying to thrive, G is the last Word on lethal threats to the innocent. Threats made by war criminals who have high-jacked America's White House, protected by dying as evil bushite nazi teen terrorists angers everyone truly. Enemies of our Humanity whom is still living art within Heaven. I genuinely dislike devote bushite, American cop killing cultists with everything I am of honestly, and so too, it does appear also, the bushmob could care even less for its disciples. For the demon antiChrist, Your Mr. Bush Jr., fools all Patriots when he tells them evidence of his treason. What secrets? He secretly planned and implements to not work for public criminal investigations regarding the murder of thousands of American People. Thousands. With Kissinger. What is it, that you as a bushite or otherwise, can't figure? None are seperate from this dying dream we call life's living end. Time to change your religious convictions on the true existence of a higher power maybe? (I am really very easy to believe in, and when speaking face to face, I leave little of no shadows to doubt I am simply a, super freak as Natural human Being. I scare few that shouldn't be, and I can't read anyone's mind, however, intention, is a whole other matter all together. You gotta be almost like a god to fool me into thinking one plus one doesn't equal two.)

Anyway.

America is still a work in progress, alive, willing, and almost able to defend by rule of individual rights by wHoly miGht. It makes absolutely no difference on what you think of me personally, (if you've finalized an estimation), I mean it, no difference. There are ideas as this Universe living would concur upon, timelessly,

and see?, I know this as the Son of Man of anyone already, always have. (I don't need people to tell me I'm great as the Wisdom of Ages, I just need a few dollars to tide me over until I can get a steady paycheck.) I have no intentions of ever forcing the world against our ability, or getting elected as King for being just myself as a none-partisan, soft-spoken well mannered businessman. I am the actual make believe Lord and Creator of the bushite cesspool labeled America, and thanks for nothing is not what I'm demanding.

Letting the bushmob escape from committing the terrorist acts of 9/11, can not go further unanswered in this universe, I'm sorry. That's just not a world I as a defender of my living purpose would feel comfortable held up in chains and shackled ever. It's really not where I dream unbound along with the real world ways of life's struggle for true freedom, being my commitment kept honorably by doing some good for my sake is a virtue for all. God, American People are so ignorant, cowardly, and duped to not help ourselves sometimes, it destroys US, instead of the lying bush demon antiChrist. You know?, the enemy of all People, freedom and Justice? as a corporatist bushite cult deceiver would want US to not believe?

(nap break)

Can you believe that demon bush spewed last week that American Patriot Soldiers have been SACRIFICED because Saddam, ""did not let us in." Now, if he is that uninformed on Our documented reality regarding TRUTH in America, along with his now completely confessed absent war rational, will You, as an American Soldier, watch yet another corporately unspoken for Brother or Sister sacrificed to DIE in servitude for that super evil bush's bullshit continuing in Your name unchallenged?

This whole Britain Blair thing is so disturbing when parlayed with the facts outlaid. Look, MI6 (C)

confesses the 45 minute thane was really just based on how long it might conservatively take for the Iraqi military to get small caliber weaponry, like grenade launchers, to anywhere along the Iraqi border. (With an additional report alleging MI6 obtained those timings from an out of date Russian military manual. (Likely therefor, a bit of a brag)) If that is not 'sexing up' by the devote bushite Blair warranting his immediate resignation he promised, nothing is. Huge penis shaped nuclear warheads, as apposed to a sweet pea shooter aimed at space invaders? Hutton should be considered for treason when you think about the time spent privately reading the 45 minute, Weapons of Mass Destruction thane over and over again, never mind the fact he is blatantly, nakedly, attempting to cover up the murder of a Brit. (The British can't be played as stupid collectively as bush's America, because they're not. Kinda like Canadians, Norwegians, the Swedes, Belgians, France, and most other developed, and semi-developed nations. Hundreds of countries, comprising near 7 billion People. (Thousands of millions wiser together, than Americans without public heath care) US: that Ashcroft, bush and rumsfeld dictate by ungodly decree, are not of true Human values when talking about protecting our Justice and Freedom ruling our ways.. into the mystic. With King Johnny somewhere partying not stop with women, wine, and song.) snp

I ask Humanity, shouldn't Annan, if anyone, be speaking up scientifically on American soldiers eating rummy's radio-active depleted plutonium, while being blowed up by landmine cluster dud? now that I come to think of it... how is this to fit in any public American school text book without mentioning the dying for nothing as evil bushites part? Can't fit without some revolutionary process of evolution to the betterment of America as dreamt of by big picture planning, no?

Now, can someone, at least, lend me some credit for the time being?

To you, for now,
I bid,
adieu.

/ / Except that the United States has absolutely no intention of actually getting out of Iraq. It wants its troops to remain, and it wants Bechtel, MCI and Halliburton to stay behind and run the water system, the phones and the oil fields. \ \

Never ever land more like. Imagine that: Arabic WorldCom phone bills, Halliburton gas bills, with the only store "legally" open to US public will be Bechtel, who will demand through bushite tyranny, you pay your wages for something unjustly over billed as, but put together at less than five dollars a day wages offered, being as the only jobs available through not publicly accounted bushite middleman directly chancing the whole country of America as undefended financially., extending "their" risk to do nothing; by the further needless SACRIFICE of MORE AMERICAN (bushited) PATRIOTS AS truly dying WORTHLESS WITH as da dumdums. Armed American Soldiers should be bravely going after Baathist bremer with DEMANDS for immediate democratic elections and the immediate return of ALL the stolen oil-for-food money to be spent entirely on priority Iraqi needs, solving the bank robbery, while considering to start printing up millions of invites for Iraqis to stay in America until the toxic waste dumped by rumsfeld can be partially neutralized., while we hunt down the rest of the evil bushmob, one by one, with the full extent of Law, entrusted to the Loyal American Patriot Soldier's Oath to do what is strategically right in our America to survive. Why do we do this? To protect our fellow Soldiers from sacrificing under lawless criminal command where a, buford "bush bitch" blount type, murders good people for no stated reason, but to toll more American casualties, while robbing all Civilization as fallen bushite victim.

No wonder the evil bushites are now leaving in the light, their Iraqi dis-investment plan, for the easier pickings of undefended COWARDLY America tax payers to rob from. Again, more than half of the monthly 4 billion plus 'top secret' plan, plans to not account to

ourselves., on costs of expenses doing nothing much of anything in Iraq TO SACRIFICE MORE AMERICAN PATRIOTS AS WORTHLESS WITH. (Apparently, they can't think this far due to the required math skills of subtraction and division.. Or, so the bushmob don't say in between Our commercial breaks on newscasts, or our acclaimed artists publicly blast during the, we're the best at this, award ceremonies.)

See the tragedy? The leaderless "bushited", American Soldiers are too weak or cowardly to stand strong as Americans for the needless loss of their very own by cluster bomb. It is From the get go, an American Soldier is sacrificed for, as the evil demon bush lies. Examples abound today like stolen money being wasted to fake fix things, really lives little damage undone. Or leaving buford "bush bitch" blount and the heroin pushing, child killer tommy franks unarrested, does little of no good for America's image abroad, when waring the bushmob "Freedom" medal, on an American cop killing cowardly bushite soldier's dying breast. A "Freedom" medal celebrating the ultimate escape of bush and rumsfeld from an American Patriot's wrath as the primary 9/11 instigators. (Say to a proud bushite, "General Ahmad funded Atta" and they run away as cowards, to play pretend like nazi savages who dropped bombs on US innocent irrationally to pay further costs in sacrifice to their false-deity unthinkingly.)
God or no God, I hate the demon antiChrist, corporate america's false-deity, Your unelected Mr. bush Jr., as much as any real Creator of this world, or any other should.

With such real inaction on old promises [lies] made by the dishonorable and dishonest leaderless bushite nazi savages, while desecrating all of Humanity by fighting against a just rule of Law, (instead of protecting America's America), forces the continued REAL WORLD sacrifice of true Liberty, until the bushmob gang is brought up by US for war crimes., as the 9/11 perpetrating, super evil as ungodly, demon antiChrist in disguises. (I very much would feel welcomed to play my part in those public proceedings.) Hmmm.. maybe CNN or CBC can become publicly convinced we should have our own news programs on what's truly happening?, to compete against the 'evil bushites' in this competitive free market place of ideas? Who knows..

Take care of the business, by getting US in on our news-casts., as these principles here standing in words, are a dreamers dreams, just waiting for You to bring to

[then subverted to steal American lives with by lying]

Demon Bush replied, "No, the intelligence I operated on
[then subverted to steal American lives with by lying]
was good, sound intelligence."

Where is bush leading America on not ever taking an
apology for his misdeeds to destroy our true American
value with? I don't know how else to simply word this
to the still sleeping, but bush isn't America, America
is America. You, as an American, have a sworn right to
demand for America, bush not be allowed to further
miscarriage Justice blindly back to the dark ages, by
not correcting himself on behalf of established
publicly, where American intelligence stood, stands, and
ultimately strives. Freedom is not protected by letting
the "bad guys" go, to further toll more innocent lives
for criminal sacrifice. Sometimes, the real simple
things are over looked as profound meaning. The Magna
Charta of 1215 states that a freeman should not be
imprisoned. Simple right? Not for the bushites who
side instead to faith in pope bush, who deliberately
unminds a timeless universal principle that exists also
in the 1700 B.C's, Code of Hammurabi, where all
individuals are to be found equally under the Law, to be

fair minded about our business. Simple right? No, corporate america says being fair, is not to care one way or the other between commercials., and the result? The available 9/11 evidence is not publicly disclosed as relevantly important, for Laden did the whole thing by himself, (bush, cheney, and rumsfeld said they know better than everyone else put together so don't even bother to form your own conclusions on your present state devaluating) case closed, now blindly pay your further tithes to bush, cheney and rumsfeld for letting the crime go publicly undetected, while with 13303, we will silently watch bush make himself tyrannical dictator over the rest of our Humanity, where he tells US, to escape, he will with evil american nazi bushite soldiers in tow, get this: not be found accountable to Ourselves anywhere by law to witness, or to an all knowing God even. Spooky, strange and somewhat disturbing, siding to show, bush really is dim-witted as archetypical evil incarnate eh? See? Civilization's Code of Hammurabi consists of 282 paragraphs, of which, the first line from the first paragraph translated states "If a man bring an accusations against a man, and charge him with a capital crime, but cannot prove it, he, the accuser shall be put to death." Your demon bush Jr. is recognized as an enemy of God not only by the Taliban, but since the birth of the Human condition. The position Your Mr. bush Jr., the antiChrist, threatens against US all, (EVERY FAMILY'S MAN, WOMAN, AND CHILD), is one where, as murdering war monger nazi tyrant, he can with bush bitch traitor buford blount and bremer, deem any NATION of People, outside all the laws of the Universe, regarding our truer existence dying. My timing as Creation is impeccable, when you think about it. But don't think too much about nothing in your own defense while dreaming what is doing, isn't really happening. The unjustified NEEDLESS continuing murder and destruction in Iraq by toxic bombings and the use of cluster bombs as landmine to really kill cowardly and ignorant American soldiers pirated as anti-American lawless God hating nazi teen bush bitches, then, with tommy franks to undermine the ORHA plan to rob the central bank, museum, and steal billions in humanitarian aid by killing more leaderless as evil godless american soldiers with, was in itself, a crime against Your Humanity., and bush along with rummy need to pay the Piper immediately, before needlessly, taking US any further as not truly represented lyrically to sing or dance about aimlessly.

The demon bush's life, isn't worth the sacrifice he makes of our opinions on Liberty, or our children's future.

The French 1789 Declaration of the Rights of Man and of Citizens, makes perfect sense when it states in so many words, that all People are born [anywhere] free in respect to their legal rights, Laden, and You included. But no, not by the evil bushite misrule. If a Human is not american, then the bushites don't need to follow the actual criminal leads to establish a criminal case rightfully against the accused, and instead, the bushites will blindly victimize our dying world as the disenfranchised and innocent, without true leadership present as spoken for.

By corporate america not working to understand Freedom requires our due process as our self commitment, means, a bushite nation guided by the flimsiest of allegation to deny the rights of all People falling as innocent victims, instead of nabbing the actual criminal masterminds who murdered Americans to steal Freedoms granted to US all by living in the know. So, I purpose a quick, let's get started, New World Constitution; anyone who victimizes the innocent intentionally, should pay a price by our political will, instead of ourselves censored, as the unconcerned bushmob victims. By our corporate news agencies encouraging the blind ungodly belief that evidence is no longer a requirement to convince US who is a criminal, is another bushmob war crime in the making, and a road straight to doom for everyone corporately devalued for bankrupt liquidation. Suspicion is the minimum, when it comes to bush demanding your blind faith in him religiously for indiscriminately murdering hundreds of thousands, while ignoring our Judicial investigations, so fraudsters commi Halliburton, can over bill even further, US tax givers as the unwilling still paying. It was reported that seriously incompetent Bechtel, (who steadfast so far as america's corporately unaccountable, refuses to fix what they're currently being paid for by tax paying bushite soldiers DYING as COWARDS for the wrong side to blow up then pretend repair as), hires workers at five dollars a day, while billing US all as unworthy of consideration in the final tallies during news break. What can't you figure if corporate news america will forbid you raising concern for the life of an American tax payer losing out to war criminals who would murder New Yorkers for a fast dollar at your expense for further keeping silent? These words are freely your own to do as you will. Shout for Americans dying needlessly under the TRULY incompetent bushite lawless rule, or

don't side to help a plead for mercy regarding yourself
truly included.

Can the bushites possibly think, we're all not ever
possible to stand together without a true Loyal
President, or, make believe King named Johnny, on the
facts firmly established regarding the treasonous war
monger antiChrist lying to Patriots dying US as victim
for?

America, I will now leave the rest of Our job in your
hands for the time being.

Yours again,
Johnny Wizard

The Real National Security Threat: The Bush Economy
http://www.alternet.org/story.html?StoryID=17547

/ / While it is unlikely, it is not totally impossible that the Bush
administration's policy of locking up anyone called Mohamed and
favoring Israel might drive the Arab countries to try an oil embargo
again. It is, however, quite feasible that they may simply decide to
follow in the footsteps of Saddam's Iraq and demand payment in Euros
in the future. The math is simple: if they had done so a year ago,
for every 85 cents (one Euro, at the time) they put in the bank,
they would now have earned a $1.30. \ \

/ / It is important that you be completely clear on timing. While the Newsweek report of February 24, 2003 was the first to publicize Kamel's testimony that the weapons had been destroyed, US and British intelligence (as well as UN officials) had had that information since August 1995. If you were not given a full account of what Kamel said before it appeared in Newsweek, your advisers should certainly have given you the whole truth when Newsweek did break the story three weeks before you sent US troops into Iraq to destroy those same weapons. If they did not tell you, heads should roll. If they did, it becomes necessary to explain why the information from Kamel had no apparent effect on your decision to launch the invasion. \ \

I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

All for our ability to communicate freely

There is one thing that is strangely absent from our news coverage as unbiased bushwhores who are actually devaluing under the tyranny of the evil antiChrist, Our Mr. Bush Jr., and that is..

Blix nor Elbaradei, nor Kofi, suggested, implied, or stated, that Iraq had failed to comply with the newest U.N. resolution: 1441.

I think Patriot Americans would be thankful for Canadian friends and family who are supporting American troops by pointing out with no contention but for censorship, that American soldiers are being sacrificed for no known good reason under the demon antiChrist, Our Mr. Bush Jr., again. The bushites tell US they wish to bring freedom on the premise that Saddam wasn't dis-arming or cooperating with US, a naked blatant lie, an attempt to excuse bush's murder rampages as a terrorist against Our families as the innocent, Ourselves represented by thieves that are doing US harm by stealing our value.

HANS BLIX: "And at this juncture, we are able to perform professional no-notice inspections all over Iraq and to increase aerial surveillance..."

Does a bushwhore devolving society where we murder ourselves on irrational suspicions to steal our worths to give to the bushmob as victims, sound like a bad preposition to you too friend? What is bush's panacea of packaged eternal freedom absent Justice mean truly as measured to you judged unfairly as the general Public unawares? How EXACTLY is the bushmob going to liberate the oppressed and disenfranchised without expressing public knowledge on the subject on indivisibility? See? If bush actually had evidence to truly believe Saddam does in our present day have control as in political possession, weapons of mass destruction, sold to Saddam illegally by America to gas the enemy with the then, full blessings from the great satan, bush would have provided as such to the UN to be legitimately concerned for "The People" in Uzbekistan included, right? He would need to know where abouts he comes to understand so, no? Mr. Bush Jr. couldn't be sure enough otherwise to toss cowardly American soldiers as worthless without meanings, to be sacrificed as he is doing for financial private profit paid for by the

victimized public, could he? Soldiers so valueless to Bill Hemmer, to not even speak out for themselves dying at CNN headquarters. See, Bill knows bush's private business partner, Amad, provided funding to 9/11's Atta, to criminally secure Enron's pipeline through Afghanistan by murdering highly successful American business people. But we can suppose Bill is scared as a cowardly unAmerican bushwhore, and would rather see the true evil doers hiding in America behind the flag, get away un-apprehended to further toll good Americans for sacrifice.

All the actual evidence we have concludes, Iraq worked directly to have the stock piles of WMD destroyed, provided the paper work, the destruction sites, and the individuals involved in that process. Inspectors had 100 percent access, to go anywhere bush, the false accuser might suggest without having to murder anyone from our family. Now, the disarmament process has been sabotaged, and the terrorist threat against America has increased. So, Iraq was in compliance, and because of that, the bush demon, in violation of article 2 of the UN Charter, has murdered thousands with war crimes as a terrorist recruiter. Making matters worse, incompetent bush even had an opportunity to liberate Our Iraqi family on world wide television, with what he and tommy franks would fantasize for our ailing economy by someone else to do the clean up chores. But, is it the Universal health or educational system, or public banking in Iraq that is not down to par as the american nazi fancy that bothers bush so much?, such as laws against discrimination for all persons, and evidential findings being a requirement to determine the measurement of Freedom for Justice to work. The People in Uzbekistan, are the People in Iraq, are too the People in America where Ashcroft and rumsfeld tell US publicly, they wish to factually deprive Justice for ourselves as equals. When questioned, both, Ashcroft and rumsfeld have reiterated the demand that foreigners, like illegally tortured innocent prisoners, don't deserve the same protections that the American Bill of Rights grants to all People, therefor, they as bushwhores wish to treat others unjustly by letting themselves, as would be nazi criminals, get away unpunished in devolving bush's america. Right? American war criminals are treated too good by the bush administration in all honesty then? Karma is real world existence, as life is politics ordered through chaos. If the right is Just as organized deduction, the system would treat all as equal principles. But again, bush

spew Iraq could be prosecuted for destroying their own infrastructure, but those same laws don't apply to him being above God, or anyone else in his administration of wrong doers. It was on publicly verifying the Justice process when the bushmob, as war criminals, turned against the UN, indeed the world community, and began murdering our families globally as war criminals with depleted uranium dust for the next 4 million years or so as bush victims, who will die suffering the criminal bushite assault for generations, if an American Patriot victim were man enough to execute the unarrested American cop killer, our Mr. Bush Jr. yesterday. If bush isn't even destroyed by the Love for Life in godless talkradio america, he, as demon will as MSNBC reported, unjustly continue to murder millions in sixty countries as the Son of Man's enemy being the antiChrist, the most hated and despised excuse for human existence this planet will ever know factually. Just ask Buddha. While the demon bush supporters, who advocate blindly murdering our families like US teachers and students through the censorship of our screams for Justice as Humanity, who also advocate poisoning American soldiers with cancer and warmed soft drinks, would only simply tell us cheaply, it is because their false deity bush, secretly knows better than everybody else put together, including the FBI and CIA, (Better than the mighty You even on everything?), therefor, they don't have to THINK(!!!) And see?, alas, the mindless bushwhore SLAVES neglect to mention as chatty personal failures grasping for the authority of blind generalized denouncements of our unique, independent selves, that when their bush demon does go public in their devoted namesake, (what with bush's evidence Saddam was six months away from owning a nuke, Laden and Saddam soirees, or Saddam gassed his own people) he, as demon antiChrist, exposes his true contempt for human life while falling as traitor protected by the always doubtful, intolerant, ignorant, cowardly and criminal, as censor advocates to stop life's will. I've been telling loyal dumb functionally illiterate Police officers and Soldiers to destroy the two prime 9/11 suspects, the unarrested, bush and rumsfeld, ever since the bushmob declared Omar's interest in nabbing the 9/11 suspects by following the criminal leads, as a hatred for American Freedom unthinking, and then continued on to murder approximately 100,000 innocent people in Afghanistan, now with the lucky survivors left worst still off, with bush's commitment to not offer any aid in nourishment, but as terrorist students, heroin dealers, or Enron propagandists left forgotten by

American, er... CNN interests as dictated through bush ratings.

MOHAMED ELBARADEI: "At this stage, the following can be stated: One, there is no indication of resumed nuclear activities in those buildings that were identified through the use of satellite imagery as being reconstructed or newly erected since 1998, nor any indication of nuclear-related prohibited activities at any inspected sites. Second, there is no indication that Iraq has attempted to import uranium since 1990. Three, there is no indication that Iraq has attempted to import aluminum tubes for use in centrifuge enrichment. After three months of intrusive inspections, we have to date found no evidence or plausible indication of the revival of a nuclear weapon program in Iraq."

Now we witness american nazi soldiers using Iraqi human shields just outside of Basra, committing further war crimes by blowing up powerplants, residential buildings, and bombing surrendering Iraq forces lying dead in a ditch with white flags sticking up. Indiscriminately murdering US good honorable people, and for what? When the nazi soldiers finally stop murdering our families irrationally as criminals, then what? If the nazi bushwhores know the dictums for Freedom, why don't they express them now instead of unjustly hurting God as all people? These bushwhore acts are crimes against ALL PEOPLES, and should be recognized publicly a such. The evil bushwhores can't vocalize their mindless support as cowardly betrayers to the human cause, and instead, censor our voices on the public airwaves while they freely propagandize our communities on the benefits of pillage and murder as terrorists under the antiChrist, Our Mr. Bush Jr... The war profiteers have already taken billions from the American People. Cost is paid by the uneducated illiterate tax payers as collateral damaged, and the war profits go into the private pockets of the smirking bush mobsters while killing dumbfuked american soldiers, as traitors to the American cause, freedom and Justice for all. God's son as creator included. Anyone who supports evil bush's war crimes against our family by censorship, then murder, is the enemy of America, and on all that she stands strong united by God unheard from still suffering.

Sadly, this is true.

It's like the small office where it's OK to use the postage machine for
a "few" personal letters, and then someone abuses it.

It's like California when I grew up there in the '50s and '60s, a lot
like Mayberry RFD, but with perfect weather. Then the libs moved in and
screwed it up to make it the worst place next to Mass.

It's like the USA where you used to be able to live "the American dream"
by working hard and become rich and happy. Now it's lawyers, taxes, and
entitlements.

I now live in New Hampshire, where the Mass-holes have moved, since they
screwed up their own state and are looking for somewhere else to spoil.

That is what happened to r.r.a.m (x-post maintained for this reply).

Have something nice? Once the low-brow / CB / kiddies find out about
it, someone is going to throw a brick at the parade. Then, it's no
good. It must be part of human nature, but only for that part of the IQ
bell curve that is off to the left.

Hmmm..... "left"? As in IQ's from 0-75?

Actually, shipping/handling is the latest way that companies are dealing
with cut-throat discount online pricing. Do a search at www.mysimon.com
and compare prices with, and without, s/h charges. Very enlightening.

Interestingly, HRO does pretty well for ham gear, but maybe because of
the handful of competitors for big ticket items.

I've been a customer of Universal Radio for well over
10 years and always received cureous and polite service.
I find using the 800 order line makes everything faster
moving. I recently purchased an Icom-R75, ordering it on
a Saturday, having the DSP optioned installed (they do it for free
and it eliminates any warantee problems). They intalled the DSP module
on Mpnday and shipped it Tuesday, I received the receiver Thursday
and it works as I expected-good. The receipt shows that Universal installed
the DSP unit and is under full warantee. I's reccoment Universa Radio without
a second thought. Grove, Lentini and AES are also very reliable
as is R&L I've used them all with good results

W's Reality Gap
http://www.alternet.org/mobile/story_mobile.html?StoryID=17907

/ / Whenever President Bush is now confronted with an
unacceptable reality, he either changes the subject -
is steroid use really more important than the environment?
- or expresses confidence in his certainty. "I'm absolutely
confident that..." he'll say, as if the issue is his
determination rather than his conclusion. \ \

It's his faith infinitive as the antiChrist, where he
has hypnotized the dopey with merely the power of
suggestion, that has brought him to US as foolishly not
conceiving, or most importantly, truly understanding.
So, do we feel sorry for his ignorance as fallibility we
are all prone to own as the human rendition? No. But
for stupidity thinking he could murder US as the
innocent to steal our free values, and just get away
with it by lying to no one continually, is where the
Lord makes our stand for God unseen as miraculous.

The demon bush dictate is not exceptable for my just
little man universe. I knows too much about freedom to
go on dying in bush's forsaken place as innocent
sacrifice. With corporate america's unarrested demon
bush forcing my hand, I would decide to defend by
concluding, he is truly, the enemy of all America.
America: weak without leadership, yes, but not as dumb
as some would have us believe. When is it that we feel
sorry for the thousands of lives bush's deliberate
actions of mass murder have taken for no good reasons?
Their ain't nobody to defend america's overlord, but
through corporate censorship of the reality of who's
really dying for the demon bush liar. I'm the one
anyone would ever have a legitimate fear of getting on
the wrong side of, and if your not in the process of
attempting to get away with murdering some defenseless
family for nothing but to rob from, to each, his or her
own, mostly, right?

'Five Lies' Lives On

/ / Why, then, had the reports become so shrill on the topic
[of Iraq] after Bush's inauguration, presenting the same
intelligence with a completely different interpretation? After
all, the CIA even had the same director under Both Clinton
and Bush.

..."You had senior American officials like Condoleezza Rice
saying the only use of this aluminum really is uranium
centrifuges. She said that on television. And that's just
a lie." \ \

/ / "We are heroes in error.... As far as we're concerned we've
been entirely successful. That tyrant Saddam is gone and the
Americans are in Baghdad. What was said before is not important.
The Bush administration is looking for a scapegoat. We're ready
to fall on our swords if he wants."

So we lied. So shoot us. Who cares what the Americans say,
anyway: they're stuck in Iraq, and there's no backing out
of it now. \ \

/ / While Perle was confidently concurring with fellow Defense
Policy Board member Ken Adelman's prediction that the conquest
and occupation of Iraq would be a "cakewalk," a State Department
study (shelved by the neocons) accurately foretold the mess we
find ourselves in today.

So, tell me again why it is that Tenet has to step down.

Perle is right when he says:

"I think, of course, heads should roll. When you discover that
you have an organization that doesn't get it right time after
time, you change the organization, including the people."

Heads should roll, alright: starting with Perle's, and don't
think he doesn't know it. That's what the chutzpah strategy is
all about: brazening it out.

...But if you look at the National Intelligence Estimate,
a document prepared by the White House with input from all

agencies, the section on Iraq, which postulates a whole arsenal of active WMD, is filled with dissenting footnotes authored by the very agencies Perle would purge:

....Dick Cheney's henchmen were feeding both the President and the country a strict diet of pure science fiction and fantasy authored by the Office of Special Plans: in a very short time a whole new genre of speculative fiction was spawned by the neocons.

...Mired in scandal, and hardly a team player of the sort that is supposed to be typical of Team Bush, here is someone who openly calls for the resignation of top officials and refuses to take any responsibility for the failure of policies that he championed. \ \

W's Reality Gap
http://www.alternet.org/mobile/story_mobile.html?StoryID=17907

/ / [of bush's falsehoods to Freedom's America] his policy process is more catechismic than empiric ï¿½ instead of facts leading to conclusions, conclusions lead to "facts."

Second, he is openly uninterested in learning and reading ï¿½ the Bushes "aren't serious, studious readers" he has said, also admitting that he now reads headlines, not articles. The point is not that he's stupid, only that he knew less about policy and the world as a presidential candidate than the average graduate student in government. Lacking Eisenhower's worldliness or JFK's intellect, however, Bush is prone to grab onto a politically useful intellectual framework like a life preserver and then not let go ï¿½ whether it's Myron Magnet's sour interpretation of the 60s in "The Dream and the Nightmare" or Paul Wolfowitz's Pollyannaish analysis of the likely consequences of an American invasion of Iraq.

The result: the most radical, messianic and misleading presidency of modern times.\ \

Corporate america might not care of sacrificing America to rob from, but real People are honorable, and won't reserve the scourge of nazi bushitizm a place to suffer any further if we can help it.

The bushites are sorrily, simply not qualified under the dire circumstances they've assaulted ourselves into for mugger war profitizing, as leading US to be dying undefended while failing miserably on my behalf to demand Justice as freedom is truly.

Now, it has been vaguely suggested that a, steven "you can't have public health care or he'll murder whomever for thinking" russell, or a buford "bush bitch" blount as treasonous evil nazi bushwhore, to undermine freedom and democracy everywheres in our world might cowardly attack defenseless innocent families at the polls while leaving "bin Laden" fingerprints, criminally warring to kill more American dumdums for commi Halliburton et al, continuing committing as unaccounted massive waste in America by over billing the dying People. Why would bushites do this? Evil is blind irrationality, disguised as thought out faithfully by fascists. The, nothing to fear suggestible absolute nature of non-linerality, is 99.9 percent, super fractal wowy miraculous as crazy about the fringes, (or is that bridges?). But, without Justice ruling our stay, we leave for a Heaven waiting, on a sea of madness as enemies of life to all things eternally being. Translated: We need to arrest these specific war criminals at the end of our, ready to fire rifles. Done to stop them personally, from robbing or murdering America indiscriminately as enemies to everyone. But in addition to that, (like at the same time) who says the polls can't be stretched out over several days or a week, with multiple options on submitting votes registered through the oil-for-food program? I want to know where Annan is on this., why it can't be done., and what his position is on returning the Iraqi Humanitarian aid stolen by Halliburton, or Iraqi Central Bank deposits cashed by HAS TO BE, current pirates. Annan, be a man, an acknowledge our presence as relevantly important for our world's living sake.

We had 100 percent access throughout Iraq prior to allowing bush, rumsfeld, and franks to sacrifice literally thousands of innocent lives. Who are now DEAD or DYING NEEDLESSLY as first degree murder victims, in

some bastardized Lord's name apparently.

(Quick, somebody call upon everyone to get up off their knees, God's coming to read as one person today of the unbound wonder of what it is to be uniquely ourselves within a nude sunrise grinning. To make some progress forward for a better future, we're not meant to just pray for someone else to come and stop whom from cheating who of Liberty? What is it that you can't think of? Every wonder? Who wouldn't do God a favor if they could imagine so brightly. Who's stopping you from defeating tyrant bush as war criminal, but for only yourself contained by his continuing bad example? Tell you what: let's together find ourselves of one mind on putting the bushmob behind bars awaiting immediate public trail, and I'll promise to try visiting them every year, just to see how things are developing. Or instead just shoot bush and rummy for almost escaping Operation Infinite Justice of a real American Patriot soldier's undying love for his soul brother.)

Any improvements of the current situation in Iraq today, are going to be less that what would have costed to not kill innocent people for nothing but evil bushite war profitizing at it's level worst in this history ever of all Humanity recorded. The demon antiChrist of corporate america has got to go, and he's got to go immediately as arrested or shot dead by the Patriots for treason, before he causes US anymore needless losses and grief to our friends and family. Like for the next fifty or so generations what with the plutonium being fed blindly as willed to cowardly, weak, American teen enemy bushite soldiers presently. (If we could seperate the bushites from the rest of US, this might be a good thing, but they have no real leadership to speak about freely as the dying stupidly.(PRINT THIS PAPER AND MAIL IT EVERYWHERE))

DYING like those from 9/11 did, or dying slower, like with NYC air quality as best Oz has to offer. (Harmless corporate TV tells US without opinion.) Either or even in other ways, the demon bush is truly killing God's America in Your name not heard from. Help me you idiot. You! Yes you there, reading here. I am your secret friend see?, and.. well.. the Universe needs your help desperately pal. Please? For me? ..Oh God help me your really dumb without you aren't I too? Listen: we need to talk.

We are here to save all of creation from needless death. Big deal. Your are of a real eternal nature, that

exists also, (as understood scientifically) timeless. For real. (The big bang is now. (All mass is also of not as seperate energy, then there's our gravity...)) Our possibilities for a great, better future are staggering, if we are capable collectively as individuals to defeat the "kindness" of George W. bush, the dying embodiment of evil as the very true demon antiChrist of all biblical references ever mentioned. His lying isn't just deceitful, it is downright hellish.

You know what I think? The evil enemies of Humanity, don't want US People to be recognized from being victims under tyranny through corporate cult censorship. Without Justice ruling our ways under the irrational criminal bushmob dictate, we lose as losers cheating ourselves as not worth the consideration to be free individuals.

Granted, I am an actual god familiar with the rights present within the Constitution of America. THEE God's god, here to teach the world about needless sacrifice, caused primarily, for the effects of inflated egg shell egos. As Creator, I goofed somewhere in the, order to chaos mixer. I didn't plan (it was a mistake) for Americans to be so cowardly and weak when it comes to defending their very own selves from needless death and sorrow through blatant, naked, how can you miss it, evil criminal enterprises. So, perhaps, now if I stop writing, and fake I flied off vamoosed into the unknowable, a couple people on the planet might go 'hmpht', and decide to carry on bravely, the real, honest to death struggle for freedom living without me as sorrily missed. (I as John am not anything special paradoxically.) This is fear itself, ain't nobody nowhere as terrifyingly terrifiable as this is just truly super terrific being only my simple written taughts, yet, ... I'm like.. just fiction writer, big dreamer Johnny Wizard, looking for some happiness, human respect, and a good last supper before I check out from this made by the earthling "space explorers" dungeon cell.

But who cares about me, or my great, he thinks he's so brilliant ideas? Everything's seriously a pain to him sometimes, and he talks to himself like he's the, been here and gone as eons now, King of the Universe for the holy Word from the Heavens above or something. What a poor dying fool to chance that anyone would willingly help themselves by caring for someone. ..You know, I'm beginning to not be all that crazy about the demon bush liar continuing to war humanity in my own true name also

now that I think of life in this way honestly. H-e..Y -! (Morningstar has been accused of a lot of things, but you'll notice, always plays fair as your rules.))

What freedom in Iraq will come that allows a, buford blount to walk unaccosted by 'legal' services? Or where rummy's cluster dud advocates gain silent gratitude? A nation high-jacked by bremer's buddies who illegally sold Saddam WMD, then the product wisely gets destroyed as functionally useless being primarily indiscriminate warfare, then bremer's buddies come in again and murder untold thousands upon thousands, all because your magic TV is letting them get away with it as considered too embarrassing to the billionaire private stake holders. Fuk you corporate american Human haters for not reporting the bushites as war crime supporters.

Where in the real world are the nazi bushites gonna demand we go to allow 'them' to continue warring the Constitution while wearing a bushite soldier's uniform in their dying universes of Universe? Leaderless corporate america?, injured and dying as the unjustly starving? What can the bushites do now in Iraq, that they couldn't do before the needless murder of untold thousands upon thousands of innocent people with loving families? Before dumping thousands of tons of radio-active toxic waste as enemies of God's children? Only to rob, maim, and destroy God's great work through Love. We had complete unrestricted access throughout Iraq, and Saddam was offering the national media for bush to pontificate, while not refusing dialog for any suggestions.

I ask:

Can not America invite me formally for brunch, by somehow bypassing the war mongering nazi tyrant held up in the Oval office? I'd invite you all, but my place is still a mess, and I'm stuck eating for survival just now. I don't qualify for help, because surely, a person with your talents, should have someone willing to stave you off the, who cares about saving the world for you buddy, laughing in all seriousness shtick. (cool eh?)

I give you my world:

To save humanity from tyranny will be accomplished through the value of these free ideals recognized.

Isn't life grand sometimes when the bushites aren't needlessly murdering our innocent families in your name?

I again,
will now leave
you without me,

forever loved,

Johnny Wizard - Your "other" parent or guardian advising you to immediately, by Citizen Right, arrest the President's 'cabal' in the name of the Lord, who already died for this once already god damn it, and I'm not sacrificing any longer unknown as forgotten in the absence of any true reason to our existence, I want to celebrate. I want to afford a cold brew to nuzzle on a warm sunny afternoon, at a hideaway somewhere, lost in my comforts of having few real worries, but for unintentionally offending someone for not having the time to except their generous support, or gratitude.

/ / "We need to find a mechanism to create a caretaker government and then help prepare the elections later - sometime later in the future," he added. Mr Annan said that there was "wide agreement" \ \

Unelected care taking government? What is the group their now supposedly doing? Where in the process is corporate america to simply fix the Russian generators they've been paid over and over again already for as doing nothing in The People's interests?, As unaccounted to? Where is corporate america to fly in the emergency food and provisions for the innocent as victimized? Who's care will this continuing robbery of America through war crimes further fail to serve? How can Annan gain "wide agreement", with no poll on the issue? Who personally did he talk to, agreeing to leave Iraq without working for an elected government of the People?, and who consented to give up on such dire needs? Where is Annan on the thousands of tons of radio-active toxic waste dumped by rotten rummy? Is it not an issue he should personally be addressing for Humanity, to demand an immediate clean up paid for by those responsible? Imagine that: Truly toxic as dying, American Patriot soldiers making it up to God's great Creation, by hunting down the actual bad guys, who done did crossed the wrong family this time.

Wow, now that would be a war worth televising!

No End to War

The Frum-Perle prescription would ensnare America in endless conflict.

By Patrick J. Buchanan
http://www.informationclearinghouse.info/article5712.htm

/ / And if God accepts the existence of evil, how do Frum and
Perle propose to ``end'' it? Nor can any nation ``win the war on
terror.'' Terrorism is simply a term for the murder of
non-combatants for political ends.

...If it is America we defend, An End to Evil makes no sense.
The Perle-Frum prescription for permanent war makes sense only
if it is the mission of the armed forces of the United States to
make the Middle East safe for Sharon--and here we come to the
heart of the quarrel between us. \ \

As you can probably guess, me and Patrick might have
some good politics to debate on that I would disagree
with him about, but I can't save enough praise for
reading this most recent informative and often
entertaining take, while reviewing about the Frum-Perle
controversy.

I think we can all agree, both Perle and Frum are now
clinically deranged by hanging on to George W. Bush for
so long in dumbness. Do they qualify for some sort of
special treatment programs under their respective health
care plans? Strange days where we see the limited words
of a mind bound for slavery. All I wants is the war
mongering mass murders arrested for treason against the
flags of Freedom everywhere, is that to much to ask from
ourselves still God asks? (You know?, I think, i'm
getting better at this!)

...Moreover, the information was not given to him under any formal agreement of confidentiality, the likes of which exists between a reporter and his source. public claiming that he had not ``made up his mind'' about war
with Iraq, that diplomacy would be pursued, that military force
would only be a last resort when all other options were exhausted,
etc., etc. O'Neill's exposures, including the existence of
documents, prepared months before the September 11 terrorist

handing out of lucrative contracts, reveal Bush's performance as
a charade filled out with falsehoods. \ \

New Moon

To steal public utility services paid already as owned completely by IRAQI, (America dying for the bushite American pension thieves at WorldCom or Britain's "Dutch"-Shell,) ain't gonna change the business locations. The evil unAmerican cop killing bushites think they're gonna party in Manhattan on our dime in apartments for around $15,000 a month, while sneering at a homeless beggar on the streets, who thought he was still in Vietnam.

An oil-for-Iraq program needs to be reestablished, but transparent to all as addressing the immediate emergency needs of Iraqis. Private, in the secret back room with the bushmob nazi bankers, and their private inept collaborators flustering as international fraudulent behaviors, just wont do., try as bush might to murder perhaps millions of Americans uncovered by his criminally enforced, reduction in health care coverage extravaganzas.

THE ROVING EYE IRAQ AND AL-QAEDA
Part 1 - The usual suspects
http://www.axisoflogic.com/artman/publish/article_5146.shtml

/ / This latest US intelligence, though, makes little sense. For starters, al-Qaeda pigeons are highly unlikely to move around with computer discs in their briefcases: since early 2002 a disabled al-Qaeda has used women couriers to deliver strictly verbal messages. \ \

Kimmitt in collusion with the bushmob perhaps? To cover up an investigation set up to encourage the blind murder of America as bushite by attempting to divide all the People of Iraq as Iraqi?, na... not in a tribal based, enduring practically timeless, inter-woven culture.

Those who ran public healthcare and university are all the bad guys for thinking, the blind bushite bigots would conclude illegitimately., and I would say to yourself: no, the People with equal rights to stay united for good times, are a people sworn to uphold law that serves our freedom's best. Iraqi assets are not bush and bremer's right to steal without question, nor either, American generosity swindled by WorldCom, Enron, Dutch-Shell or Halliburton is the final, be all answer

to everything.

You as sure would know that unjustly victimizing the World in our name because "they" didn't believe in blindly worshiping with servitude, the war mongering mass murderer demon bush liar, is freedom stolen from any. Wide, across the board, ask anyone for comment on where the bombs dropped from. Needlessly in bush's name, but to war God's love, and my good life.

Demon bush is not America, America is America.

This is all I'm ever doing as King, but perhaps also, not going left hungry. If you can help me help you, we'll be set for something better.

Truth can pose serious problems, when we idolize blindly the evil demon antiChrist for criminal sacrifice, instead of arresting him for 9/11 along with cheney, and bummer rummy, the silent but radio-active cluster dud dropper who murders American Patriots for a nickel.

Too awe shock embarrassing is it to ameliorate for the sake of a dying American Patriot Kimmitt?

For, why would Laden want the bushites to stay to further rob America through creating instability within his own ranks? without denouncing the demon bush war lies, that are paying a very real price.. ? What would it cost commi Halliburton, to face public accountability (Democracy) in Iraq on where Iraqi money is being misappropriated for? Do you think they'll get to keep the oil business, to sell back to all of Iraq at uncontested mark up freely? To steal food aid to under pay the third world? Starving?

To steal public utility services paid already as owned completely by IRAQI, (America dying for the bushite American pension thieves at WorldCom or Britain's "Dutch"-Shell,) ain't gonna change the public business locations. The evil bushites think they're gonna party in Manhattan on our dime in apartments for around $15,000 a month, while sneering at a homeless beggar on the streets, who thought he was still in Vietnam.

Perhaps, he is.

Another American soldier owes me a beer, or will be dying to steal life from themselves as sacrificed for the evil criminal dictate of Their Mr. bush Jr.. Don't go silent as the unknown dying enemy to God and humanity, stand with Justice and freedom in America for Americans, and I swear, we won't kill ya as the good

guys in the epilogue.

By the bushmob attempting to create unrest, so Halliburton at al, can continue in the tommy franks chaos to rob America blind with false billing, instead of cash paying, is costing the lives of American teen soldiers. Who god love'em or hate'em, don't have the intellect to strategize their way out of an open paper bag, never mind evil bush's false creeds without real leadership present as living for. Instead of bruising our egos, the bushites are dropping bombs illegally on the family.

Man.

Ask a dying soldier how it sits to know commi Halliburton pocketed Humanitarian Aid? Go ahead, ask'em?! Then ask'em why they die as cowards by rummy cluster dud for the bushmob to rob their own direct families left unprotected? Ask'em! You know what they'll tell you? They're not happy about these bushmob war crimes truly destroying America in America, "freedom", "democracy", Johnny Wizard or otherwise., Or instead they'll mumble something incoherently while jaunting away to murder some one found defenseless, or innocent to pay further while dying to slave under the criminal dictate of the really evil demon bush Jr..

A proud bushite is a toxic bushite halting from warring the innocent by stealing your human values truly.

We need to see an apology to come from America, an apology to Humanity for this carnage waged unnecessary, but for these contemptible war profiteering practices as direct assaults to all as God is. Assaults that we have been unable to remedy by openly communicating to bush's secret White House, rumsfeld's secret Pentagon, or Ashcroft's secret Justice Department.

Just who's running this show anyway, I wanna know.

A - g - a - i - n

Will Americans save themselves with help from the rest of US, by arresting bush and rumsfeld immediately for high treason?, or will they cower and DIE as the innocent, in false gratitude to the lying traitors bushmob? To with their dying breath proclaim unattested, to be ridding the Universe of their continuing criminal behavior.. a.k.a. evil?

Evidence is a must to establish a crime scene provocateur, to deny such privilege is to deny freedom

be served as consented through any government.

Hint: Demon bush, rumsfeld and Ashcroft, they ain't no struggling democracy entirely.

Look, the thing about God coming down, and having it out with humanity on some various critical issues, isn't like going to happen, it is doing.

We had complete unrestricted access throughout Iraq prior to murdering any innocent child in america's name.

These verbs will strike that antiChrist demon down for ever and a day, and if I've gone, faded away, these words will still remain,

till now we meet again,

as you were,

Ann Coulter - "Liberals just call Republicans names."

Her suggestion is against the common sense of a literate segment of humanity who knows something is a farce about this tart, and for me, entertains for words to gain a better understanding for proper acknowledgment.

Coulter is bigot rousing on purpose I think, just to get all the american corporate monetary gratitude, in selling herself not present as a significant baitor unaddressed publicly in our corporate news circles. She sells excuses to cowards, of not addressing specific acts of treason committed by individual traitors, like rummy or Ashcroft, and instead, suggests all people have no ability through bushite america to recognize themselves being robbed their freedoms or murdered directly for the furthering of the evil bush demon war lies.

Interesting.

A repuglicon nazi bushwhore, who will say anything to allow bush to steal further from America, is not a tried and true Republican blue collar. Is it in Ann's contention, that all Republicans can't imagine themselves having any independent opinions? Or, is Ann saying that every Liberal blames Republicans of every stripe throughout History instead lawless bush personally for sacrificing the nation as evil incarnate?, committing to murder individual New Yorkers as America sacrificing, then further acquiescing to needlessly feed toxic waste to all American soldiers, while loyally blowing themselves up dead as individuals to pieces with sexy rummy cluster dud, all for being blind disciples of the unAmerican bush demon antiChrist, their ungodly evil false-deity as enemies of God's love, America, and our good names?

Naming the repuglicon demon bush a terrorist recruiting cop killing heroin pusher, who played a central part in

the murder of thousands of New Yorkers is well established factually, and publicly confessed as all planned to act upon before hand. Who says? MSNBC's Jim reported with the White House, as a 'top secret' [Oops, deceived America wasn't suppose to read this one Condi] strategy of not following the 9/11 crime scene evidence, and confessed as 'fully implemented'. (Also, to succeed in assisting in robbing the Central Bank, and museum, the nuclear facilities containing radio-active contaminants were left unguarded, as not centrally relevant to franks why soldiers were told they're still sacrificing their lives for. "Duh, why are we here to kill good people needlessly so the bushmob back home can further rob our undefended families bro? Bro?")

--

This is for all to agree settled as official History.

America devolving into the criminal tyranny of the evil bushmob is happening. All the while, we witness, the LEADERLESS nazi bushite soldier cowering as cowardly sell outs to their very own friends and family being robbed back home, left undefended through blatant over billing as UNACCOUNTED, leaving their own sons and daughters to dutifully eat plutonium, and going further silent when it comes to rumsfeld and franks needlessly dropping thousands of land mine cluster bombs to murder us people indiscriminately, which, kills their own

aplenty, in a more way than one knows. Karma. (rummy's pentagon is misleading soldiers on how many have so far died to allow Halliburton to criminally steal humanitarian aid from The People, as one example,) Again, as bushite fascist nazi vermin, they let those responsible for destroying America through the bushmob war crimes, still sit in the, for sale freedom captain's chair, high-jacked from US true Loyalists, attempting to get away the bushmob is doing from 9/11, by going real fast .. nowhere.

Second, if Liberals include whomever, how could Ann possibly assess that all would consider calling ourselves anything but, unique as individuals? Bizarre.

The American Constitution is our souls included in those timeless thoughts of Justice for all as The People. The bushmob is destroying freedom by persecuting the innocent as terrorists, when they, in AMERICA'S NAME, throw out the concepts of Justice for any. No publicly understood evidence to form our conclusions, is a corporate demand your faith be in the unjust bushmob 'cabal', and not in Freedom for all through establishing the actual "bad guys". Closing the public criminal investigations on 9/11, is a critically essential part documented as the evil cabal's "top secret" criminal treason plans, put together prior to the murder of thousands of American citizens. Prior to the event as hidden question, and, confessed as never considered. Ya, right.

Playing to Win

Bush declared, "and he wouldn't let them in. And, therefore, after a reasonable request, we decided to remove him from power."

So, there was indeed no imminent threat posed by Saddam to Amerka, and inspectors had complete unrestricted access throughout Iraq without delay prior to the, bush demon's further war crimes. So, what was the reason for all the pointless mass murder and destruction again? Oh right.. to sacrifice American soldiers so terrorist bush's war profiteering can feed off themselves as family without leadership present as spoken for. Hey no problem if Bechtel or Halliburton never actually gets anything done, or at a good price after their magic trick "pay here for what?" commissions eat up most of the investment, it's only the dummy American People bid payers again left unaccounted to DIE intentionally. The bushites could make more killings for decades to come, while flogging the now desecrated American flag as the new bushmob's being intolerance, greed and true contempt for all US as Humanity. US, a dying dream that once was the great American way of living; now war crime bush's personal enslavement for global tyranny.

The devote bushites tell a Loyal but dumb Soldier to quietly eat plutonium and get blowed up by rummy cluster dud, because, it's harmless. Again the marines have got to come in and save our day, by arresting bush and rummy for 9/11 now, with truth as the all time word of God exists within yourself included. Look, don't think I'm gonna fly down to Washington like some comic hero, and arrest the entire bush administration, going through them, one by one from their holding cells, on where all the stolen cash and American values went all by myself.

GOD NEEDS YOU

All the deaths of American Soldiers in Iraq today, (like the People who died for the bushmob's 9/11), are caused from their leaderless weakness to not face bremer and the bushmob as war criminals continuing to transgress in America's name high-jacked.

Mr. bremer fired Iraqi school teachers, and hired up Saddam's secret service, those, who if any, would have closer relationships to charges of criminal impropriety in the name of the baathist banner, than any other group would be. If an American soldier in Iraq today, feels those from the Saddam Baathist regime should face American Justice (the real way by thinking) why then, is bremer not behind bars awaiting his public court appearance? Mr. bremer as the director of Kissinger Associates, is as, directly tied to "CRIMINALLY"

providing Saddam his WMD knowhow. The first
"Iraqgate".. [I apologize as Creator for being
partially responsible for this worse than B movie but
true plot line scenario, however, looky here!, there
is so much more to believe!!!]

The bushmob tricks are too cunning to comprehend, see?
Again, for those who can, bush must be stopped from
murdering American Patriots for no good cause, because,
it's really getting US royally miffed way up here also
as the true beings actually committed to Justice as
Freedom for all. That's all folks.

Instead tell US as an antiAmerican bushite?, you'll murder US innocent for demon bush and rotten rummy?, regarding those free speechers who dare voice with FACT, that, Iraqi banking, university, or health care, is more intelligent to remain Universal as it was to serve the

People's interests BEFORE baathist bremer sabotaged communications? The bushmob isn't bringing Freedom, but stealing it. And as such being consequence, so too, Amerka. Haven't you heard? Bush's Amerka will be freeer now that evidence is no longer a requirement to convince US who is evil incarnate, and protesters can be shot without CNN making the news over it. It's betterer I'm sure Ashcroft would say to torture or murder the innocent, that to arrest the culprits responsible for high treason in God's America. Right bushites?

/ / commander of the 1st Battalion, 22nd Infantry Regimen, Lt. Col. Steven Russell, as saying, "This is to remind the town that we have teeth and claws and we will use them." \ \

What an evil dumdum traitor to the town of New York City steven russell is eh?

Imagine this is why the evil dumdum bushite soldier states the Humans must not be allowed to disagree with anything the bushmob does criminally, because then we'd all know how they ungodly as cowards behave; treasonously acting in such a inhuman tyrannical manner without true leadership to speak about. Ask an American Soldier who proudly states they wouldn't kill unarrested buford "bush bitch" blount or steven russell instantly to save the life of one innocent defenseless child, and I'll show you an enemy of America as just another expendable soulless nazi bush whore. (ten cents per I'm paying..) Let's all hope and pray a sexy rummy cluster dud dropped by bank robbing heroin pusher tommy franks does them in, instead of US good guys driving in the designated place at the right time bound for further criminal bushmob sacrifice as leaderlessly too weak and cowardly to stand up for 'the Human cause', eh?
An aside: Corporate Americans are publicly taxed twice as much per capita for their inhuman private health care exclusions, than Canadians do for public health care that measures every Canadian as Canadians. (The bushites are evil, and dumber than dumb I told you before the election, but your news agencies refuse to still listen to our top priority concerns regarding the demon antiChrist's murder rampages against American principles, and her citizens left uncapitalized.)
Think of it: the criminal bushmob will easily sacrifice a leaderless bushite nazi soldier, to steal from their own families back home undefended, maybe a nickel, while I, as a real man, beg them to be Soldiers from America's America, by getting to unarrested buford "bush bitch" blount, death squad recruiter tommy franks, or even

baathist bremer as the actual enemies of true Patriots everywhere. At the same time, DEMANDING the start to promoting free fair elections, the solving of tommy's bank robbery, and the return of the stolen Humanitarian Aid giving illegally to double biller commi Halliburton. But so far, they cower as cowards, afraid to protect their own family from further bushite tyranny that they don't have a mind to speak of. Nor, an Art Bell to learn from. (American Talk Radio don't wanta get political while advocating no concerns about dying soldiers led by the bushmob. Why? Americans seem to hate all of their humanity, or so the bushites would like you to think so through censorship of the dying victims. However, I'm still holding out on the chances of one or two in the Marines as loyal to America, who will if they have to, bravely be taking down bush and rumsfeld immediately for escaping arrest regarding 9/11. You can fool some of the people some of the time, but bush can't fool all of the people as evil incarnate, for that would just be plain silly.)

Look, about all those bad names you thought I called you before, as a messed up son of a gun, listen, we all make mistakes, and... well, if your willing to work for the survival of Justice in America, somebody'll be proud to salute your Patriotism as Freedom truly reining. (Or perhaps the real Americans, to protect the lives of their blood brothers and sisters, will bravely demand the immediate arrest by gun point of the bushmob for 9/11, to be strong and brave, humane and godly. I guess we'll ask who is the sea, the demon antiChrist bush, along with Ashcroft and rotten rummy, or still We. -ba)

Communicating knowledge is powerful stuff let me tell you. (Roar) A person can spend a lifetime of study in a branch of understanding, and write an illumination readable by another in just a few short hours, then take in a play or perhaps a movie, then the weekends over, and you better get back to work or you'll lose the house on this next late mortgage payment. I don't claim to have all the answers, but i do just about. Hidden in here somewhere...

Step Right Up

I know generally, American people ain't so politically aware, when it comes to huge amounts of living wasted by little scary, but far too distant as likely scenarios. Tell me what you think: can you imagine 10 billion dollars in one year spent to investigate Laden, (with

perhaps only three officers in total working on those 'secret investigations'? [Connie Chung - CNN], instead of just dirt cheaply starting, with whom did what when where went why? (W199i and Barbara Bodine) Evidence must be crucial to convince US who is stealing literally, billions. Every year. (Where is some great King to wake up to this madness, and offer US an ever changing alternative I kept foolishly asking myself.) Look,. I know a bushite war monger's lying can spook me too, on how they manage to have no commitment to communicate honestly with the facts, while publicly advocating the indiscriminate murder of ourselves as the innocent., instead of SEEKING solutions to remedy things with intelligence bringing kindness as it's territory. God is all great, and I'm not so bad either.

Of the blind human condition trying to thrive, G is the last Word on lethal threats to the innocent. Threats made by war criminals who have high-jacked America's White House, protected by dying as evil bushite nazi teen terrorists angers everyone truly. Enemies of our Humanity whom is still living art within Heaven. I genuinely dislike devote bushite, American cop killing cultists with everything I am of honestly, and so too, it does appear also, the bushmob could care even less for its disciples. For the demon antiChrist, Your Mr. Bush Jr., fools all Patriots when he tells them evidence of his treason. What secrets? He secretly planned and implements to not work for public criminal investigations regarding the murder of thousands of American People. Thousands. With Kissinger. What is it, that you as a bushite or otherwise, can't figure? None are seperate from this dying dream we call life's living end. Time to change your religious convictions on the true existence of a higher power maybe? (I am really very easy to believe in, and when speaking face to face, I leave little of no shadows to doubt I am simply a, super freak as Natural human Being. I scare few that shouldn't be, and I can't read anyone's mind, however, intention, is a whole other matter all together. You gotta be almost like a god to fool me into thinking one plus one doesn't equal two.)

Anyway.

America is still a work in progress, alive, willing, and almost able to defend by rule of individual rights by wHoly miGht. It makes absolutely no difference on what you think of me personally, (if you've finalized an estimation), I mean it, no difference. There are ideas as this Universe living would concur upon, timelessly,

and see?, I know this as the Son of Man of anyone already, always have. (I don't need people to tell me I'm great as the Wisdom of Ages, I just need a few dollars to tide me over until I can get a steady paycheck.) I have no intentions of ever forcing the world against our ability, or getting elected as King for being just myself as a none-partisan, soft-spoken well mannered businessman. I am the actual make believe Lord and Creator of the bushite cesspool labeled America, and thanks for nothing is not what I'm demanding.

Letting the bushmob escape from committing the terrorist acts of 9/11, can not go further unanswered in this universe, I'm sorry. That's just not a world I as a defender of my living purpose would feel comfortable held up in chains and shackled ever. It's really not where I dream unbound along with the real world ways of life's struggle for true freedom, being my commitment kept honorably by doing some good for my sake is a virtue for all. God, American People are so ignorant, cowardly, and duped to not help ourselves sometimes, it destroys US, instead of the lying bush demon antiChrist. You know?, the enemy of all People, freedom and Justice? as a corporatist bushite cult deceiver would want US to not believe?

(nap break)

Can you believe that demon bush spewed last week that American Patriot Soldiers have been SACRIFICED because Saddam, ""did not let us in." Now, if he is that uninformed on Our documented reality regarding TRUTH in America, along with his now completely confessed absent war rational, will You, as an American Soldier, watch yet another corporately unspoken for Brother or Sister sacrificed to DIE in servitude for that super evil bush's bullshit continuing in Your name unchallenged?

This whole Britain Blair thing is so disturbing when parlayed with the facts outlaid. Look, MI6 (C)

confesses the 45 minute thane was really just based on how long it might conservatively take for the Iraqi military to get small caliber weaponry, like grenade launchers, to anywhere along the Iraqi border. (With an additional report alleging MI6 obtained those timings from an out of date Russian military manual. (Likely therefor, a bit of a brag)) If that is not 'sexing up' by the devote bushite Blair warranting his immediate resignation he promised, nothing is. Huge penis shaped nuclear warheads, as apposed to a sweet pea shooter aimed at space invaders? Hutton should be considered for treason when you think about the time spent privately reading the 45 minute, Weapons of Mass Destruction thane over and over again, never mind the fact he is blatantly, nakedly, attempting to cover up the murder of a Brit. (The British can't be played as stupid collectively as bush's America, because they're not. Kinda like Canadians, Norwegians, the Swedes, Belgians, France, and most other developed, and semi-developed nations. Hundreds of countries, comprising near 7 billion People. (Thousands of millions wiser together, than Americans without public heath care) US: that Ashcroft, bush and rumsfeld dictate by ungodly decree, are not of true Human values when talking about protecting our Justice and Freedom ruling our ways.. into the mystic. With King Johnny somewhere partying not stop with women, wine, and song.) snp

I ask Humanity, shouldn't Annan, if anyone, be speaking up scientifically on American soldiers eating rummy's radio-active depleted plutonium, while being blowed up by landmine cluster dud? now that I come to think of it... how is this to fit in any public American school text book without mentioning the dying for nothing as evil bushites part? Can't fit without some revolutionary process of evolution to the betterment of America as dreamt of by big picture planning, no?

Now, can someone, at least, lend me some credit for the time being?

To you, for now,
I bid,
adieu.

Never ever land more like. Imagine that: Arabic WorldCom phone bills, Halliburton gas bills, with the only store "legally" open to US public will be Bechtel, who will demand through bushite tyranny, you pay your wages for something unjustly over billed as, but put together at less than five dollars a day wages offered, being as the only jobs available through not publicly accounted bushite middleman directly chancing the whole country of America as undefended financially., extending "their" risk to do nothing; by the further needless SACRIFICE of MORE AMERICAN (bushited) PATRIOTS AS truly dying WORTHLESS WITH as da dumdums. Armed American Soldiers should be bravely going after Baathist bremer with DEMANDS for immediate democratic elections and the immediate return of ALL the stolen oil-for-food money to be spent entirely on priority Iraqi needs, solving the bank robbery, while considering to start printing up millions of invites for Iraqis to stay in America until the toxic waste dumped by rumsfeld can be partially neutralized., while we hunt down the rest of the evil bushmob, one by one, with the full extent of Law, entrusted to the Loyal American Patriot Soldier's Oath to do what is strategically right in our America to survive. Why do we do this? To protect our fellow Soldiers from sacrificing under lawless criminal command where a, buford "bush bitch" blount type, murders good people for no stated reason, but to toll more American casualties, while robbing all Civilization as fallen bushite victim.

No wonder the evil bushites are now leaving in the light, their Iraqi dis-investment plan, for the easier pickings of undefended COWARDLY America tax payers to rob from. Again, more than half of the monthly 4 billion plus 'top secret' plan, plans to not account to

ourselves., on costs of expenses doing nothing much of anything in Iraq TO SACRIFICE MORE AMERICAN PATRIOTS AS WORTHLESS WITH. (Apparently, they can't think this far due to the required math skills of subtraction and division.. Or, so the bushmob don't say in between Our commercial breaks on newscasts, or our acclaimed artists publicly blast during the, we're the best at this, award ceremonies.)

See the tragedy? The leaderless "bushited", American Soldiers are too weak or cowardly to stand strong as Americans for the needless loss of their very own by cluster bomb. It is From the get go, an American Soldier is sacrificed for, as the evil demon bush lies. Examples abound today like stolen money being wasted to fake fix things, really lives little damage undone. Or leaving buford "bush bitch" blount and the heroin pushing, child killer tommy franks unarrested, does little of no good for America's image abroad, when waring the bushmob "Freedom" medal, on an American cop killing cowardly bushite soldier's dying breast. A "Freedom" medal celebrating the ultimate escape of bush and rumsfeld from an American Patriot's wrath as the primary 9/11 instigators. (Say to a proud bushite, "General Ahmad funded Atta" and they run away as cowards, to play pretend like nazi savages who dropped bombs on US innocent irrationally to pay further costs in sacrifice to their false-deity unthinkingly.)
God or no God, I hate the demon antiChrist, corporate america's false-deity, Your unelected Mr. bush Jr., as much as any real Creator of this world, or any other should.

With such real inaction on old promises [lies] made by the dishonorable and dishonest leaderless bushite nazi savages, while desecrating all of Humanity by fighting against a just rule of Law, (instead of protecting America's America), forces the continued REAL WORLD sacrifice of true Liberty, until the bushmob gang is brought up by US for war crimes., as the 9/11 perpetrating, super evil as ungodly, demon antiChrist in disguises. (I very much would feel welcomed to play my part in those public proceedings.) Hmmm.. maybe CNN or CBC can become publicly convinced we should have our own news programs on what's truly happening?, to compete against the 'evil bushites' in this competitive free market place of ideas? Who knows..

Take care of the business, by getting US in on our news-casts., as these principles here standing in words, are a dreamers dreams, just waiting for You to bring to

reality., by standing proud, strong, and forever free as
a, truly, super awesome Human Being.

[then subverted to steal American lives with by lying]

Demon Bush replied, "No, the intelligence I operated on
[then subverted to steal American lives with by lying]
was good, sound intelligence."

Where is bush leading America on not ever taking an
apology for his misdeeds to destroy our true American
value with? I don't know how else to simply word this
to the still sleeping, but bush isn't America, America
is America. You, as an American, have a sworn right to
demand for America, bush not be allowed to further
miscarriage Justice blindly back to the dark ages, by
not correcting himself on behalf of established
publicly, where American intelligence stood, stands, and
ultimately strives. Freedom is not protected by letting
the "bad guys" go, to further toll more innocent lives
for criminal sacrifice. Sometimes, the real simple
things are over looked as profound meaning. The Magna
Charta of 1215 states that a freeman should not be
imprisoned. Simple right? Not for the bushites who
side instead to faith in pope bush, who deliberately
unminds a timeless universal principle that exists also
in the 1700 B.C's, Code of Hammurabi, where all
individuals are to be found equally under the Law, to be

fair minded about our business. Simple right? No, corporate america says being fair, is not to care one way or the other between commercials., and the result? The available 9/11 evidence is not publicly disclosed as relevantly important, for Laden did the whole thing by himself, (bush, cheney, and rumsfeld said they know better than everyone else put together so don't even bother to form your own conclusions on your present state devaluating) case closed, now blindly pay your further tithes to bush, cheney and rumsfeld for letting the crime go publicly undetected, while with 13303, we will silently watch bush make himself tyrannical dictator over the rest of our Humanity, where he tells US, to escape, he will with evil american nazi bushite soldiers in tow, get this: not be found accountable to Ourselves anywhere by law to witness, or to an all knowing God even. Spooky, strange and somewhat disturbing, siding to show, bush really is dim-witted as archetypical evil incarnate eh? See? Civilization's Code of Hammurabi consists of 282 paragraphs, of which, the first line from the first paragraph translated states "If a man bring an accusations against a man, and charge him with a capital crime, but cannot prove it, he, the accuser shall be put to death." Your demon bush Jr. is recognized as an enemy of God not only by the Taliban, but since the birth of the Human condition. The position Your Mr. bush Jr., the antiChrist, threatens against US all, (EVERY FAMILY'S MAN, WOMAN, AND CHILD), is one where, as murdering war monger nazi tyrant, he can with bush bitch traitor buford blount and bremer, deem any NATION of People, outside all the laws of the Universe, regarding our truer existence dying. My timing as Creation is impeccable, when you think about it. But don't think too much about nothing in your own defense while dreaming what is doing, isn't really happening. The unjustified NEEDLESS continuing murder and destruction in Iraq by toxic bombings and the use of cluster bombs as landmine to really kill cowardly and ignorant American soldiers pirated as anti-American lawless God hating nazi teen bush bitches, then, with tommy franks to undermine the ORHA plan to rob the central bank, museum, and steal billions in humanitarian aid by killing more leaderless as evil godless american soldiers with, was in itself, a crime against Your Humanity., and bush along with rummy need to pay the Piper immediately, before needlessly, taking US any further as not truly represented lyrically to sing or dance about aimlessly.

The demon bush's life, isn't worth the sacrifice he makes of our opinions on Liberty, or our children's future.

The French 1789 Declaration of the Rights of Man and of Citizens, makes perfect sense when it states in so many words, that all People are born [anywhere] free in respect to their legal rights, Laden, and You included. But no, not by the evil bushite misrule. If a Human is not american, then the bushites don't need to follow the actual criminal leads to establish a criminal case rightfully against the accused, and instead, the bushites will blindly victimize our dying world as the disenfranchised and innocent, without true leadership present as spoken for.

By corporate america not working to understand Freedom requires our due process as our self commitment, means, a bushite nation guided by the flimsiest of allegation to deny the rights of all People falling as innocent victims, instead of nabbing the actual criminal masterminds who murdered Americans to steal Freedoms granted to US all by living in the know. So, I purpose a quick, let's get started, New World Constitution; anyone who victimizes the innocent intentionally, should pay a price by our political will, instead of ourselves censored, as the unconcerned bushmob victims. By our corporate news agencies encouraging the blind ungodly belief that evidence is no longer a requirement to convince US who is a criminal, is another bushmob war crime in the making, and a road straight to doom for everyone corporately devalued for bankrupt liquidation. Suspicion is the minimum, when it comes to bush demanding your blind faith in him religiously for indiscriminately murdering hundreds of thousands, while ignoring our Judicial investigations, so fraudsters commi Halliburton, can over bill even further, US tax givers as the unwilling still paying. It was reported that seriously incompetent Bechtel, (who steadfast so far as america's corporately unaccountable, refuses to fix what they're currently being paid for by tax paying bushite soldiers DYING as COWARDS for the wrong side to blow up then pretend repair as), hires workers at five dollars a day, while billing US all as unworthy of consideration in the final tallies during news break. What can't you figure if corporate news america will forbid you raising concern for the life of an American tax payer losing out to war criminals who would murder New Yorkers for a fast dollar at your expense for further keeping silent? These words are freely your own to do as you will. Shout for Americans dying needlessly under the TRULY incompetent bushite lawless rule, or

don't side to help a plead for mercy regarding yourself
truly included.

Can the bushites possibly think, we're all not ever
possible to stand together without a true Loyal
President, or, make believe King named Johnny, on the
facts firmly established regarding the treasonous war
monger antiChrist lying to Patriots dying US as victim
for?

America, I will now leave the rest of Our job in your
hands for the time being.

Yours again,
Johnny Wizard

/ / Condoleeza Rice, speaking to reporters aboard Air
Force One, defends the aluminum claim, saying it was
written into the National Intelligence Estimate:
"The NIE ...has the yellowcake story in it, had the
aluminum tube story in it. Now, if there were doubts
about the underlying intelligence to that NIE, those
doubts were not communicated to the president, to the

The Real National Security Threat: The Bush Economy
http://www.alternet.org/story.html?StoryID=17547

/ / While it is unlikely, it is not totally impossible that the Bush
administration's policy of locking up anyone called Mohamed and
favoring Israel might drive the Arab countries to try an oil embargo
again. It is, however, quite feasible that they may simply decide to
follow in the footsteps of Saddam's Iraq and demand payment in Euros
in the future. The math is simple: if they had done so a year ago,
for every 85 cents (one Euro, at the time) they put in the bank,
they would now have earned a $1.30. \ \

Caveat Preemptor!
http://www.commondreams.org/views03/0127-09.htm

/ / On January 3, to the well-rehearsed cheers of our troops
at Fort Hood, you stated three times that Iraq is a "grave threat"
to the United States. But for our allies, and for an increasing
number of Americans, repetition alone does not enhance credibility.
They are looking for proof. (You are, after all, talking war.) \ \

Memo for the President:
Your State-of-the-Union Address
http://www.dissidentvoice.org/Jan04/VIPS0117.htm

/ / It is important that you be completely clear on timing. While the Newsweek report of February 24, 2003 was the first to publicize Kamel's testimony that the weapons had been destroyed, US and British intelligence (as well as UN officials) had had that information since August 1995. If you were not given a full account of what Kamel said before it appeared in Newsweek, your advisers should certainly have given you the whole truth when Newsweek did break the story three weeks before you sent US troops into Iraq to destroy those same weapons. If they did not tell you, heads should roll. If they did, it becomes necessary to explain why the information from Kamel had no apparent effect on your decision to launch the invasion. \ \

I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

All for our ability to communicate freely

There is one thing that is strangely absent from our news coverage as unbiased bushwhores who are actually devaluing under the tyranny of the evil antiChrist, Our Mr. Bush Jr., and that is..

Blix nor Elbaradei, nor Kofi, suggested, implied, or stated, that Iraq had failed to comply with the newest U.N. resolution: 1441.

I think Patriot Americans would be thankful for Canadian friends and family who are supporting American troops by pointing out with no contention but for censorship, that American soldiers are being sacrificed for no known good reason under the demon antiChrist, Our Mr. Bush Jr., again. The bushites tell US they wish to bring freedom on the premise that Saddam wasn't dis-arming or cooperating with US, a naked blatant lie, an attempt to excuse bush's murder rampages as a terrorist against Our families as the innocent, Ourselves represented by thieves that are doing US harm by stealing our value.

HANS BLIX: "And at this juncture, we are able to perform professional no-notice inspections all over Iraq and to increase aerial surveillance..."

Does a bushwhore devolving society where we murder ourselves on irrational suspicions to steal our worths to give to the bushmob as victims, sound like a bad preposition to you too friend? What is bush's panacea of packaged eternal freedom absent Justice mean truly as measured to you judged unfairly as the general Public unawares? How EXACTLY is the bushmob going to liberate the oppressed and disenfranchised without expressing public knowledge on the subject on indivisibility? See? If bush actually had evidence to truly believe Saddam does in our present day have control as in political possession, weapons of mass destruction, sold to Saddam illegally by America to gas the enemy with the then, full blessings from the great satan, bush would have provided as such to the UN to be legitimately concerned for "The People" in Uzbekistan included, right? He would need to know where abouts he comes to understand so, no? Mr. Bush Jr. couldn't be sure enough otherwise to toss cowardly American soldiers as worthless without meanings, to be sacrificed as he is doing for financial private profit paid for by the

victimized public, could he? Soldiers so valueless to Bill Hemmer, to not even speak out for themselves dying at CNN headquarters. See, Bill knows bush's private business partner, Amad, provided funding to 9/11's Atta, to criminally secure Enron's pipeline through Afghanistan by murdering highly successful American business people. But we can suppose Bill is scared as a cowardly unAmerican bushwhore, and would rather see the true evil doers hiding in America behind the flag, get away un-apprehended to further toll good Americans for sacrifice.

All the actual evidence we have concludes, Iraq worked directly to have the stock piles of WMD destroyed, provided the paper work, the destruction sites, and the individuals involved in that process. Inspectors had 100 percent access, to go anywhere bush, the false accuser might suggest without having to murder anyone from our family. Now, the disarmament process has been sabotaged, and the terrorist threat against America has increased. So, Iraq was in compliance, and because of that, the bush demon, in violation of article 2 of the UN Charter, has murdered thousands with war crimes as a terrorist recruiter. Making matters worse, incompetent bush even had an opportunity to liberate Our Iraqi family on world wide television, with what he and tommy franks would fantasize for our ailing economy by someone else to do the clean up chores. But, is it the Universal health or educational system, or public banking in Iraq that is not down to par as the american nazi fancy that bothers bush so much?, such as laws against discrimination for all persons, and evidential findings being a requirement to determine the measurement of Freedom for Justice to work. The People in Uzbekistan, are the People in Iraq, are too the People in America where Ashcroft and rumsfeld tell US publicly, they wish to factually deprive Justice for ourselves as equals. When questioned, both, Ashcroft and rumsfeld have reiterated the demand that foreigners, like illegally tortured innocent prisoners, don't deserve the same protections that the American Bill of Rights grants to all People, therefor, they as bushwhores wish to treat others unjustly by letting themselves, as would be nazi criminals, get away unpunished in devolving bush's america. Right? American war criminals are treated too good by the bush administration in all honesty then? Karma is real world existence, as life is politics ordered through chaos. If the right is Just as organized deduction, the system would treat all as equal principles. But again, bush

spew Iraq could be prosecuted for destroying their own infrastructure, but those same laws don't apply to him being above God, or anyone else in his administration of wrong doers. It was on publicly verifying the Justice process when the bushmob, as war criminals, turned against the UN, indeed the world community, and began murdering our families globally as war criminals with depleted uranium dust for the next 4 million years or so as bush victims, who will die suffering the criminal bushite assault for generations, if an American Patriot victim were man enough to execute the unarrested American cop killer, our Mr. Bush Jr. yesterday. If bush isn't even destroyed by the Love for Life in godless talkradio america, he, as demon will as MSNBC reported, unjustly continue to murder millions in sixty countries as the Son of Man's enemy being the antiChrist, the most hated and despised excuse for human existence this planet will ever know factually. Just ask Buddha. While the demon bush supporters, who advocate blindly murdering our families like US teachers and students through the censorship of our screams for Justice as Humanity, who also advocate poisoning American soldiers with cancer and warmed soft drinks, would only simply tell us cheaply, it is because their false deity bush, secretly knows better than everybody else put together, including the FBI and CIA, (Better than the mighty You even on everything?), therefor, they don't have to THINK(!!!) And see?, alas, the mindless bushwhore SLAVES neglect to mention as chatty personal failures grasping for the authority of blind generalized denouncements of our unique, independent selves, that when their bush demon does go public in their devoted namesake, (what with bush's evidence Saddam was six months away from owning a nuke, Laden and Saddam soirees, or Saddam gassed his own people) he, as demon antiChrist, exposes his true contempt for human life while falling as traitor protected by the always doubtful, intolerant, ignorant, cowardly and criminal, as censor advocates to stop life's will. I've been telling loyal dumb functionally illiterate Police officers and Soldiers to destroy the two prime 9/11 suspects, the unarrested, bush and rumsfeld, ever since the bushmob declared Omar's interest in nabbing the 9/11 suspects by following the criminal leads, as a hatred for American Freedom unthinking, and then continued on to murder approximately 100,000 innocent people in Afghanistan, now with the lucky survivors left worst still off, with bush's commitment to not offer any aid in nourishment, but as terrorist students, heroin dealers, or Enron propagandists left forgotten by

American, er... CNN interests as dictated through bush ratings.

MOHAMED ELBARADEI: "At this stage, the following can be stated: One, there is no indication of resumed nuclear activities in those buildings that were identified through the use of satellite imagery as being reconstructed or newly erected since 1998, nor any indication of nuclear-related prohibited activities at any inspected sites. Second, there is no indication that Iraq has attempted to import uranium since 1990. Three, there is no indication that Iraq has attempted to import aluminum tubes for use in centrifuge enrichment. After three months of intrusive inspections, we have to date found no evidence or plausible indication of the revival of a nuclear weapon program in Iraq."

Now we witness american nazi soldiers using Iraqi human shields just outside of Basra, committing further war crimes by blowing up powerplants, residential buildings, and bombing surrendering Iraq forces lying dead in a ditch with white flags sticking up. Indiscriminately murdering US good honorable people, and for what? When the nazi soldiers finally stop murdering our families irrationally as criminals, then what? If the nazi bushwhores know the dictums for Freedom, why don't they express them now instead of unjustly hurting God as all people? These bushwhore acts are crimes against ALL PEOPLES, and should be recognized publicly a such. The evil bushwhores can't vocalize their mindless support as cowardly betrayers to the human cause, and instead, censor our voices on the public airwaves while they freely propagandize our communities on the benefits of pillage and murder as terrorists under the antiChrist, Our Mr. Bush Jr... The war profiteers have already taken billions from the American People. Cost is paid by the uneducated illiterate tax payers as collateral damaged, and the war profits go into the private pockets of the smirking bush mobsters while killing dumbfuked american soldiers, as traitors to the American cause, freedom and Justice for all. God's son as creator included. Anyone who supports evil bush's war crimes against our family by censorship, then murder, is the enemy of America, and on all that she stands strong united by God unheard from still suffering.

I am,
Johnny Wizard

1170. Kenwood TS-820S Analog Dial Repair

The analog dial on my rig started to lock up. When I removed the cover, I found a screw, a washer and a small round spring laying on the bottom. Does anyone have a diagram on how this goes back together or would be willing to take some pictures of their unit.

Thanks

Chuck,
you fail to realize, he donates the server, but still pays for the
eletricity it uses and the hours he has to put in to maintain it.

now, I also run several servers (not ham related) and I put in an enormous
amount of time in administrative tasking on those 20 boxes. I don't get
paid for it either. HOWEVER, I do get to make the deciding policies for
those managed servers.

its the same with the owner of the qrz.com server. HIS BOX, HIS RULES. you
don't like it, then leave (and start your own if you are so inclined).

when you logged in and registered, you agreed to certain rules of conduct
and policies for posting. he was well within his rights to terminate your
access for violation of that agreement.

so, don't come whining in here because *you* broke the rules and got
slapped down for it.

THE BPL FIGHT: ARRL REACTS TO FCC NPRM

The ARRL and many others in ham radio are not happy with last weeks FCC decision to proceed with further implementation of Broadband Over Powerline, and they are making their position known. Amateur Radio Newsline's Mark Abramovich, NT3V, has been following developments and has more in this report:

--

To say American Radio Relay League President Jim Haynie W5JBP was disappointed with the FCC's decision to issue a Notice of Proposed Rulemaking on Broadband Over Powerlines might be an understatement.

Haynie sat in on the FCC's Feb. 12 meeting in Washington, D.C. and admits he was dumbfounded when many of the commissioners expressed excitement about the possibilities of BPL, ignoring interference concerns expressed by their technical staff.

"To have Commissioner (Kathleen) Abernathy come out in her initial speech that blew us away and her unbounded enthusiasm and then turn around at the hearing I attended and listen to Commissioner (Jonathan) Adelstein allude to unsubstantiated reports of interference and I was livid," Haynie says.

Haynie says the commissioners look more like cheerleaders for, than regulators of, the communications industry.

"It just seems to me though that the commission has gone from a regulatory agency to a Chamber of Commerce," Haynie says. "Their eagerness to implement this prior to the NTIA study rollout, which they actually have a letter from a congressman asking them to wait, seemed to me it was put on the fast track and try to beat the NTIA results."

Haynie says lots of what he heard about what's supposed to be in the NPRM does not bode well for amateur radio. But he says there are some burdens on the

electric utilities.

"They put a lot of constraints on the BPL industry," Haynie explains. "They have to react in real time, they have to be frequency agile. They have to have public web sites, they've got to have somebody on duty 24-7 to mitigate complaints of interference."

Ah, yes, interference. BPL proponents claim hams don't know what they're talking about.

"I've heard reports of some of the BPL industry spokesman who flat deny that there's a problem," Haynie says. "There never has been a problem, there can't be a problem. "In several interviews I've done with the regular press it was: 'Okay, go down a buy you a short-wave receiver at Radio Shack. Go down there and listen to it for yourself. I don't have to give you all these engineering data, you can hear it for yourself.'

"The utilities, they are being hand-held very carefully by the BPL industry and being told: "There's not a problem, there's not a problem.' "

Haynie says profit for the equipment manufacturers and the utilities is clearly the motive for BPL.

"Any CEO worth his salt who's running a power company is going to try to figure out more ways to get investment return for his investors," Haynie says. "He's got a grid there and if these salesmen come in and tell him: 'Well look, you know, we can bring you in an extra million dollars a day or million dollars a week for your power grid and it's not going to cost you anything other than just put these little devices on every quarter mile.' Why not?"

But Haynie says a recent Carnegie Mellon University study of the BPL business model identifies pitfalls.

"It would take 17 years for the recovery of the initial investment," Haynie says. "And that puzzled me until I read the article and it said because broadband is dropping, DSL dial-up is getting cheaper every month.

"Deals are coming out, Verizon's fixin' to come out with some more stuff. The old thing $30 a month is going to be high. And that's what BPL wants right now, $30 for a residential, $50 for a business."

Haynie accuses proponents of deception proponents in "selling" the concept. He says the claim it will finally connect rural areas of the country to high-speed internet access is, well, hogwash!

"We know that what the BPL industry wants to do is pick the low-hanging fruit, the high-density population areas," Haynie says. "But that's the selling point they're using on the (Capitol) Hill. And that's the selling point they use with the commission. I heard Chairman (Michael) Powell say that himself along with several of the other commissioners.

"They have been sold this bill of goods. And if anybody would stop and think about it, if it was such a good deal to serve five customers in a four-square-mile area, the DSL and the cable people would be doing it now."

Haynie says he's seen and heard criticism of ARRL, much of it declaring the League hasn't done enough to address the BPL threat.

"Let me assure you, we have done a lot, and we have talked to a lot of our potential allies," Haynie says."We've had one, in-face meeting in Washington. We do constant e-mails back and forth.

"But I am not going to, and the League is not going to, reveal all the things we're working on because that would be ridiculous to show the hand to the industry. Let them figure out what we're up to."

What can you do and where do Haynie and the League see this going? Tune in next week for part two of our interview with Jim Haynie W5JBP.

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Philadelphia

Can radio services including ham radio survive with the level of interference that many experts say BPL will create? We will look into this in future reports. (ARNewsline (tm))

WITH THE ARRL: THREE LONGTIME AWARDS DISCONTINUED

Meantime, the ARRL Awards Branch has discontinued three longtime awards programs. Gone are the Rag Chewer's Club, the Old Timer's Club and the Friendship Awards.

According to the ARRL Letter, the society’s Membership Services Manager Wayne Mills, N7NG, says that the number of amateurs applying for awards in general has declined significantly over the years, and interest in these three awards had slowed to a trickle.

Mills says that the awards programs eliminated had outlived their interest level. He adds that the cessation of the three awards is effective immediately. (ARRL)

RESTRUCTURING: NEW RULES FOR DANISH HAMS

More restructuring of ham radio is taking place around the world. This, as a set of new Amateur Radio regulations have been introduced in Denmark that make the nation code-free. Jeramy Boot, G4NJH, reports:

--

The Danish Information Technology and Telecom Agency has announced new regulations for radio amateurs in Denmark. The main feature of the new regulations is the elimination of the Morse code examination for access to the HF bands. Danish radio amateurs are also now allowed to use parts of the 4-meter band without a special permit. These are: 70.0125 to 70.0625, 70.0875 to 70.1125, 70.3125 to 70.3875 and 70.4125 to 70.4875MHz. Beacons are allowed in the 70.0125 to 70.0500MHz portion of the band. Detailed Danish 70MHz band

plans can be found on the Internet.

I’m G4NJH in Nottingham.
--

The new regulations came into effect on the 1st of February. (GB2RS)

**

RESTRUCTURING: CROATIAN HAMS GET NEW PRIVILEGES ON 40 METERS

Croatia has become the first country in Region 1 to benefit from the expansion of the 40-meter band agreed at the World Radio Conference in Switzerland last summer. 9 A prefix amateurs have also been given privileges at 70 and 3400MHz and now no longer have to pass a Morse code test for access to the HF bands.

New amateur radio regulations came into effect in Croatia on the 26th of December but have only recently been announced to the world. Since that date Croatian amateurs have been permitted to operate between 7100 and 7200 kilohertz on a Secondary basis, with a maximum power of 1000 watts P-E-P. This is in addition to the normal Region 1 allocation of 7000 to 7100 kilohertz.

On 4 meters, Croatian amateurs now have 70.000 to 70.450 MHz, with a power limit of 10 watts. They also gain a new band between 3400 and 3410 MHz, with a maximum permitted power of 150 watts.

And like so many other nations, the Morse code requirement for an H-F band access license has been dropped. Under the new regulations and there are now only two classes in Croatia. They are the full license and a beginners' ticket. (GB2RS)

CONVENTIONS: HAMVENTION HOPES TO STAY IN DAYTON

Hamvention will probably stay in the Dayton Ohio area. This, according to the event’s General Chairman Gary Des Combes, N8EMO. In an interview with the Rain Report, Des Combes says that Dayton is the Hamvention’s home:

--

Des Combes: “My personal goal, and the goal of all of the volunteers is to maintain the show in Dayton Ohio. This is where it started and we would love to have it stay here. The plan we have no is to continue to go in that direction.”

--

How do planners intend to do this?

--

Des Combes: “What we need to do as a volunteer team is to work smarter, harder and more efficiently. Make the dollar ‘squeal’ so that the cost to the attendee and the flea-marketer and the exhibitors stay reasonable.”

--

What about the rumors of a move away from Dayton?

--

Des Combes: “There have been questions, quite frankly, from the exhibitors and others about wanting to move to newer and nicer facilities, but there are significant costs associated with that, and its our goal to keep this show a volunteer show because -- quite frankly -- we can do it better and more economically than if we went to a larger venue.”

--

Keeping the show in Dayton is only a small part of what Gary De Combes has to say about Hamvention 2004. Part one of the Rain interview with De Combes is on-line right now at www.rainreport.com and on the phone at 847-827-7246. Part 2 will be available on Friday, February 27th.

Hamvention 2004 takes place May 14, 15 and 16th at its traditional home at the Hara Arena in Dayton Ohio. (ARNewsline (tm), RAIN)

ENFORCEMENT: EX-KG6IRO DUE BACK TO COURT

I’m Bill Pasternak, WA6ITF, with a late breaking story. Dateline Los Angeles California where former ham Jack Gerritsen, the ex-KG6IRO is headed back to court. This time for a probation hearing and sentenceing on charges that he tresspassed on a federal instalation. Bur local hams haqve gotten themselves involved in the sentencing proceedure and are trying to convince Judge Carolyn Turchin of United States District Court to ban Gerritsen from owening or operarating any transmitting equipment -- of any sort -- during his probation period.

This action appears to be a grass-roots effort by repeater owner operators all across Southern California who believe that Gerritsen is responsible for interference to their systems. They are asking all of their users and other hams in the area to send a letter to Judge Turchin explaining the importance of quashing any source of interference that could cause problems during emergencies. They also want to let the judge know all about Gerritsen’s past record and have her order him to stay away from ham radio or any other two-way service as a restriction of his probation.

Judge Turchin has set Monday, February 23rd for the hearing. Will let you know the outcome in next weeks Amateur Radio Newsline report. (ARNewsline(tm))

RADIO EDUCATION: TEXAS HAM DONATES STATION TO SCHOOL

The San Angelo Texas Planning Commission has approved a 40 foot Amateur Radio tower for Santa Rita Elementary School. San Angelo businessman, Kenneth Gunther, W5ZJ, plans to donate the tower, a rotor, antenna's and radio equipment to the educational institution. The radio gear and antenna system will allow students to learn about telecommunications technology and earn their ham radio licenses.

W5ZJ, is the owner of Gunter Wholesale Electric Company. His donated tower will be erected inside the courtyard of the elementary school's main building. Plans for the 40 foot tower passed 6-1 after a motion to allow a 50 foot tower failed 4-3. (San Angelo Standard Times, WB5T)

RADIO GOOD-GUYS: COLORADO YOUTH RADIOS IN REPORT OF FOUND POLICE TWO-WAY

A Highlands Ranch, Colorado, teen appears to have done the right thing when he found a Denver police radio on Monday the 16th. Not sure what the unit was, he used it to let the police force know he had it.

The 13-year-old boy found the radio in the yard of a nearby home. This, after he saw it thrown from a sport utility vehicle. The unidentified youngster retrieved it, figured out how to turn it on and used the radio to tell a police dispatcher that he had it.

Denver police and Douglas County sheriff's officials were working to retrieve the radio. Officials say that they hadn't been notified that a radio was missing, and investigators were trying to determine who it belonged to. They are also looking into how this radio got out of the City and County of Denver.

ROAD RADIO SAFETY: STUDY FINDS LOTS OF IN-CAR DISTRACTIONS

Drivers are distracted 16.1 percent of the time their vehicles were moving and cellphones nor two-way radio is not the main culprit. This, according to a study conducted by the auto club and researchers at the University of North Carolina.

The investigation tracked 70 drivers from North Carolina and Pennsylvania. It found that Cellular telephones were not the major distraction. In fact only 30 percent of the subjects used a cell phone while their vehicle was moving compared with 97 percent who leaned over to reach for something and 91 percent who fiddled with the controls on their car’s entertainment system.

The study found all drivers fiddle with their radios or engage in other distracting behavior. This, even when they're being watched as part of a study on distracted drivers. (Science OnLine)

THE ELECTRONICS INDUSTRY: CES PREDICTS GOOD SALES IN 2004

The Consumer Electronics Association -- better known by the initials CES -- says that the wholesale electronics market in 2004 is likely to grow to 100 point 99 billion dollars in sales. That's up 5 percent over 2003 and a major improvement over three years of negative or minimal growth.

CES is a trade group representing audio, video and mobile electronics makers. It says that the U.S. consumer electronics market is seeing a sharp growth in video products, which has helped to offset the decline in stand-alone audio products and in-car consumer electronics. Sales of new technologies such as plasma television screens were expected to generate nearly $1.5 billion in revenues for 2003, nearly tripling from $515 million just one year earlier. Growth in consumer electronics last peaked in 2000, when sales rose 12.7 percent to $96.37 billion over 1999. (Adapted from CES release)

HAM RADIO IN SPACE: AMSAT SAYS IT NEEDS $110,000 TO LAUNCH ECHO

AMSAT says that it urgently needs to raise $110,000 to help defray the launch of the Echo ham radio satellite. The bird is scheduled to ride into orbit thus coming June 29th, and the money has to be raided well before that date.

AMSAT like Amateur Radio Newsline is a federally recognized tax exempt 501(c)(3) organization, and your donation should be tax deductible in the United States. Information on how to support the Echo launch and other ham radio in space projects is on the web at www.amsat.org (AMSAT-NA)

**

HAM RADIO IN SPACE: U-O-SAT AT AGE 20

Meantime, there’s a big anniversary coming up for ham radio space operations. March 1st marks the 20th anniversary of the UO11 ham radio satellite on-orbit. We have more in this report:

--

On the 1st March the UO-11 ham radio satellite, which is also known as UOSAT 2 will have been in space for two decades. To mark the event, AMSAT-UK will be issuing a commemorative QSL card in exchange for listener reports from stations hearing the signals during the month of March. The reports must be made by way of the reporting page on the web site and the QSL card will be in the form of a downloadable "E-QSL".

By way of background, UO-11 was the second satellite to be launched by Martin Sweeting, G3YJO's, group at the University of Surrey in here in England. Its telemetry beacon can still be heard on 145.825 MHz FM using nothing more than a handheld 2 meter rig. There is also a 2401.5 MHz beacon but signal is not very strong and represents quite a challenge.

Depending on the status of the satellite, it sometimes goes into 'safe' mode, and the beacon transmitters are not activate for days at a time. Because of this, University of Surrey ground station controllers will attempt to maximise the number of days the transmitters are active during the month of March.

For the Amateur Radio Newsline, Rick Johnson, KA9VZD reporting.

THAT FINAL ITEM: THE LONG HAM RADIO WALK

And finally this week, the story of a long walk that’s taking ham radio with it. Jim Meachen, ZL2BHF reports:

--

Tony Whitaker, G3RKL, from Sheffield, in the United Kingdom is off to New Zealand for a short walk. Well not exactly a short walk. More like 750 miles as Whitaker treks from Invercargill to Blenheim, along State Highway 6 up the West Coast of the South Island. And he will operate an Amateur Radio station along the way.

Whitaker will be on the air using the special callsign ZL6SHS on H-F, V-H-F and U-H-F while actually walking. He also plans to use F-M simplex, Echolink and I-R-L-P Internet-linked repeaters in places where they are available. He will use them to keep in touch with his ham radio friends back home in the U-K.

Whitaker’s marathon walk starts in Invercargill on the 21st of February. If all goes to plan he is scheduled to arrive in Blenheim on the 8th of April -- probably a bit tired -- but very satisfied. We will keep you posted on his progress.

For the Amateur Radio Newsline down-under, I’m Jim Meachen, ZL2BHF.

--

This is not Whitaker’s fist long ham radio walk. He has already made seven others including one in Australia. (GB2RS)

You're right, it is asinine to drag up 30-year old foolishness. People change, mature, and grow.

Looking at "experience," if we were voting for which guy we thought would be better to lead a platoon through a rice paddy, Kerry would be the guy, hands down.

Unfortunately, we're debating which guy should lead the whole country as Commander in Chief, and Kerry's record over the last decade in Congress indicates that he's simply a "tax and spend" liberal that has the bad judgement to vote against every major defense program that is currently in place. The Stealth Fighter, B1 Bomber, and numerous other assets have saved countless American lives in battle, making our fighting forces something that our enemies fear. Thank God we have these programs in place now!

Nobody did a "cut and paste" on Kerry's record, but I'm sure the Kerry campaign would love to try! ;^)

I notice even the National Journal sees him has having the "most liberal roll call votes, outranking even Kennedy and Clinton," using a process developed at CNN, and done by the Brookings Institiution:

http://www.drudgereport.com/mattjk11.htm

Honestly, I see this as a good thing, as it will make everyone's choice more clear, either way, and that's what our representative democracy is all about.

Actually, I have seen, even on Faux News Channel, that "all those votes"
against those defense systems were but a single vote on a single
appropriations bill, and that he voted against that appropriations bill
because of all the pork in it, not because of those defense systems. The
RNC is spinning it to sound like he consistantly voted against defense, when
such was not the case.

Sorry, Brenda Ann, but you are mistaken -- these votes, campaigns, and
(thankfully failed) Kerry-introduced bills happened over his 19-year tenure
in Congress.

Here's a quick partial digest from the last decade, taken from multiple
congressional sessions of votes to weaken national security:

1995: Proposed Bill Cutting $1.5 Billion From Intelligence Budget. Kerry
introduced a bill that would "reduce the Intelligence budget by $300 million
in
each of fiscal years 1996, 1997, 1998, 1999, and 2000." There were no
cosponsors of Kerry's bill, which never made it to the floor for a vote. (S.
1290, Introduced 9/29/95)

1995: Voted To Slash FBI Funding By $80 Million. (H.R. 2076, CQ Vote #480:
Adopted 49-41: R 9-40; D 40-1, 9/29/95, Kerry Voted Yea)

1994: Proposed Bill To Gut $1 Billion From Intelligence And Freeze Spending
For
Two Major Intelligence Programs. Kerry proposed a bill cutting $1 billion
from

the budgets of the National Foreign Intelligence Program and from Tactical Intelligence, and freezing their budgets. The bill did not make it to a vote,
but the language was later submitted (and defeated - see below) as S. Amdt. 1452
to H.R. 3759. (S. 1826, Introduced 2/3/94)

1997: Kerry Questioned Growth Of Intelligence Community After Cold War. "Now that that [Cold War] struggle is over, why is it that our vast intelligence apparatus continues to grow even as Government resources for new and essential
priorities fall far short of what is necessary? ." (Senator John Kerry Agreeing
That Critic's Concerns Be Addressed, Congressional Record, 5/1/97, p. S3891)

When His Bill Stalled In Committee, Kerry Proposed $1 Billion Cut As Amendment Instead. Kerry proposed cutting $1 billion from the National Foreign
Intelligence Program and Tactical Intelligence budgets, and freezing their budgets. The amendment was defeated, with even Graham, Lieberman and Braun voting against Kerry. (Amdt.. To H.R. 3759, CQ Vote #39: Rejected 20-75: R 3-37;
D 17-38, 2/10/94, Kerry Voted Yea; Graham, Lieberman And Braun Voted Nay)

After all the above, he has the nerve to say this, after 9/11

12 Days After 9/11: Kerry Questioned Quality Of Intelligence. "And the tragedy
is, at the moment, that the single most important weapon for the United States
of America is intelligence. . And we are weakest, frankly, in that particular
area. So it's going to take us time to be able to build up here to do this properly." (CBS's "Face The Nation," 9/23/01)

In light of other recent threads regarding Universal Radio and my own post, I must say "fair dues" to Universal Radio. Called today to cancel my backorder for a Sony AN-LP1 (not Universal's fault... Sony is just too busy building flat screen TV's), only to be told my order shipped today. The person I spoke with said they received only 10 units. My hat's off to UR!

well,
that same "entitlement attitude" exists in a lot of places.

Still, it does bug me that it shows up in ham radio as much as it does. I
hardly ever talk on repeaters anymore (mostly, I just lurk). only times
I've ever needed to be there in the first place was for passing traffic
and public service/disaster drill work.

I used to jawbone quite a lot the first 3 years of having my ham ticket.
However, after a few incidents involving a bootlegger and a few of his
friends, I have gone almost silent on the machines.

It is amazing what one does hear though when no one thinks you are
around....

Dimmy Dimwit tried and failed to be a part of the Lib Net this evening.
Even Vic could hardly hear him.
Must be those cheap K-Mart antennas and cheap push-up poles with no grounding.

On the other hand it may be that Vic has no use for Dimmy and chose to ignore him.

That is not unheard of since hardly anybody has any use for Dimmy. Dimmy is a legend in his own mind, but it has yet to sink in that he is not welcome in most Ham groups.
Dimmy is his own worst enemy and his presence in various Ham groups is akin to tossing a shit-stained diaper over the whole proceedings. Shit in, shit out.

He probably gives little thought to the fact that when he comes on the air that everybody goes silent. Dimmy ain't too bright. He has a looooong way to go before he is ever accepted. He just doesn't get it. Shit in, shit out.

Roll up a twistie, Dimmy. Don't talk too loud though. Don't want to wake up "the kids" while you sit on your ass and make believe that you are a Ham extraordinaire...

Morse Code Knows Where It's @
Feb 19, 2004 - International Morse Code, the nearly forgotten shorthand of early electronic communications, is being updated to 1990s technology. Morse Code was first introduced in 1844 and has seen little change since that time. As the electronic age continues to advance, Morse Code users were finding the need to transmit the "@" symbol. In December, the International Telecommunications Union voted to add the new character.

The new sign, which will be known as a commat, consists of the signals for "A" (dot-dash) and "C" (dash-dot-dash-dot), with no space between them.

The symbol was selected for use in e-mail addresses in 1972 because it was rarely used but widely available. It's history is not clearly known, but some credit it as being an adaptation of the Latin word ad meaning at, to or toward. The symbol encircles the letter a with the letter d. The symbol was adapted for commerce as a shorthand to mean at the price of.

Another possible origin is the flourished style of the letter a to mean amphora, a standard-sized terra cotta jar used in the 14th century.

In English, it is commonly referred to as the at sign. In other languages, it carries names related to names of animals, tails and ears. Some examples appear below.

5V, TOGO (Update). Look for 5V7C to be activated this week. The 5V7C team had a meeting last weekend at Franck's, F4AQJ, QTH. All flight tickets, their passports and visas, and the hotel reservations are in hand (for the several weeks). The gear has been collected from each member, F6KOP, friends and especially from some of their sponsors. Franck/F5TVG and John/F5VHQ will fly to Lome, Togo, two days before the rest of the team to pickup the licenses and begin to set up the equipment at the hotel. They will also check to see how the stations operate, so some 5V7C QSOs are possible on March 4th (in the evening) and 5th. The rest of the team will meet in Paris at Charles de Gaulle, Roissy Airport, on March 6th at 0900z; boarding at 1250z. The whole team consists of: Frank/F4AJQ, Dany/ F5CW, John/F5VHQ, Romain/F8BUI, Frank/F5YVG and Pascal/F5JSD. Two pilot stations have been confirmed: Bruno/F5AGB for Europe and French speaking countries, Floyd/N5FG for the Americas, an Australian and a Japanese pilot station are expected to be announced before the DXpedition. The team's return flight is scheduled on March 13th, late in the evening (time to be confirmed,) so there will be 5V7C signals on the air up to 1200z and/or possibly later. Don't forget to visit the 5V7C Web page at: http://5v7c.free.fr/le_togo.htm

7Q, MALAWI (Update). Steve, G4JVG, sent out the following press release this past weekend informing OPDX that the planning for the major UK Malawi DXpedition scheduled for April 18th to May 1st is progressing well. Their Web page is at: http://www.malawi.digital-crocus.com
A fifth team member, Steve/G4EDG, has been added to the existing team of Mark/G4AXX, Dick/GU4CHY, Rich/M5RIC and Steve/G4JVG. Steve/G4EDG is a veteran of numerous DXpeditions and has been added to share the CW operating with Dick. Mark/G4AXX and Steve/G4JVG will share the SSB responsibilities, while all the team will operate on RTTY and PSK. Steve states, "Following numerous requests, we have decided to add 160m (CW only) to the bands on which we will operate. Initially we had decided against using topband because the cost of shipping a suitable vertical to and from Malawi was prohibitive. We have still received insufficient sponsorship to allow for this. However, we should be able to erect a suitable wire inverted-L

antenna and so we will certainly give 160m a try. The 7Q licenses have now been issued and are awaiting our collection in Malawi. The callsign we will be using on the DXpedition will be announced on our website shortly before the operation commences. Our expected operating frequencies and propagation tables to various areas of the world can also be found on the website. In order to be as accurate and up to date as possible, the propagation tables will be fully updated after the start of April. Donations continue to be requested. We are very grateful indeed to the small number of European DX clubs and generous individuals in Europe and Japan who have sent donations, but so far no donation from any of the American DX clubs has been forthcoming. The donations promised so far will cover about 50% of the cost of printing QSL cards for the DXpedition only." If you or your local DX club would like to make a donation, please contact Steve, G4JVG, at: g4jvg@ntlworld.com

9M2, WEST MALAYSIA. Keith, GM4YXI, informs OPDX that he will be active again this year as 9M2/GM4YXI, March 7-29th. Keith says, "I have no definite plans for which IOTAs I will try this year but hope to be QRV the weekends of the 13-14th and 20-21st, March. I will try for AS-073 and, if I can find some accommodation, get back to AS-097. I will post last minute plans on DX summit." Activity will be on 20/17/15 meters and, if possible, 12/10 meters CW and SSB. As usual, Keith will use a FT900 and vertical antennas. Keith states, "I tend to lurk around the usual IOTA SSB QRGs and on CW higher in the band. As always, I will have the fantastic support of Kim and Steve, N3SL as QSL managers. This year I hope to be QRV from home base in KL, work schedule allowing, mostly on CW. I also plan to be QRV for WPX SSB as 9M2RPN, as a Multi-2 entry with Rich, G4ZFE."

I have an AE license, and I'm interested in having a multi-mode
multi-band QSO with a Technician license-holder. The plan is for me
to send CW on HF and for him to send voice to me on VHF. It might be
a little distracting or confusing to other parties listening in (or
checking the bands for interference or other users) but it'll allow me
to test my HF rig's performance and my CW practice while giving him CW
practice as well.

I've glanced through the rules, and there's nothing specifically
prohibiting this kind of QSO. As long as I transmit on frequencies
for which my license is privileged using modes which are appropriate
for the frequencies, I'm in the clear -- and the same for him, right?

Jack.

1205. QSO logging programs

Are there any good QSO/contact logging programs out there that run under DOS or old Windows 3? I have an old, slow, small laptop (80mb HD) that is limited in what I can do with it, but seems like it would be good for a contact logging PC.
Thanks!

You can try Swisslog (DOS) http://www.informatix.li/ which is free
or take a look at www.ac6v.com and look at the links for logging
software.

1213. Cinergy brings BPL to Cincinnati for $29.95/mo

A 1 Mb/sec feed in each direction for only $29.95 per month? That's what the press releases claim that Cinergy Electric can deliver right now.

BPL is a juggernaut that will not be stopped by the ARRL or anyone else. There's simply too much money in it.

And notice that this isn't rural service either. Probably not too surprising, since the claim of rural services is simply a pretense anyway. It's large cities like Cincinnati that the BPL proponents intended to service all along.

Goodbye to radio station WKRP, by the way. Nobody will be able to listen any more.

Unfortunately I agree. There is simply too much money backing BPL. The best we can hope for is to slow it down or at least apply enough pressure that the industry finds a way to clean it up. As it stands now, amateur radio as we know it is in grave danger.

First, no one bothered to ask who the rebels were and
why they were advancing on major cities. If in fact they
represented a broad opposition, as reporters readily implied
or stated openly, why were the rebels unable to furnish the
barest credible details of their demands, their civilian
bases of support, and their connections to leaders of civil
society groups?

..."All sides," he wrote in a very fine article last fall
in Dollars and Sense, "concede that Aristide won the
presidential ballot with 92 percent of the vote. The sole
disagreement is over run-off elections for seven senators
from Aristide's part who obtained pluralities but not
majorities in the first round. The seven senators eventually

US Sponsored Coup d'Etat: The Destabilization of Haiti
http://globalresearch.ca/articles/CHO402D.html

/ / The Minister of Finance had sent the amended budget to the
Parliament on December 14th. Donor support was conditional upon its
rubber stamp approval by the Legislature. While Aristide had promised
to increase the minimum wage, embark on school construction and
literacy programs, the hands of the new government were tied. All
major decisions regarding the State budget, the management of

the public sector, public investment, privatization, trade and monetary policy had already been taken. They were part of the agreement reached with the IMF on November 6, 2000.

...In an utterly twisted logic, Haiti's abysmally low wages, which have been part of the IMF-World Bank "cheap labor" policy framework since the 1980s, are viewed as a means to improving the standard of living. In other words, sweatshop conditions in the assembly industries (in a totally unregulated labor market) and forced labor conditions in Haiti's agricultural plantations are viewed by the IMF as a key to achieving economic prosperity, because they "attract foreign investment."

...While a humanitarian catastrophe is looming, the collapse of the economy spearheaded by the IMF, has served to boost the popularity of the Democratic Platform, which has accused Aristide of "economic mismanagement." Needless to say, the leaders of the Democratic Platform including Andy Apaid, who actually owns the sweatshops are the main protagonists of the low wage economy. \ \

--

/ / The United Nations should help restore Mr Aristide to power for his remaining two years in office, making clear that yesterday's events were an illegal power grab. Second, the US should call on the opposition, which is largely a US construct, to stop the violence immediately and unconditionally. Third, after years of literally starving the people of Haiti, the long-promised and long-frozen aid flows of Dollars 500m should start immediately, These steps would rescue a dying democracy and avert a possible bloodbath. \ \

Forever Hold Your Peace

"I feel depressed," she said after leaving the theatre.
"He (Gibson) went overboard with the cruelty and
violence, and I think Mel Gibson is a bit of a sadist."

It's not the great artist Gibson, but corporate american
cult news who sit back bushiting "It's harmless, now
shut up dummy", knowing sadistic "sexy" rummy dumped
thousands of tons of radio-active toxic waste, along
with land mines to commit senseless, gratuitous mass
murder in residential communities housing the God of
Revelations.

It is bushite america who call themselves Christian, who
fund the Likud with American sweat and labor, to
criminally assault innocent Christians as accused of
nothing but being Christian. They do this as enemies of
Justice and God, to tell US as unbelievers, to
quickening the coming of the Lord, who will in turn,
condemn the individuals responsible, straight to hell
where they rightly belong. (Or prison whichever comes
first)

It is America who sit bushiting "Freedom", while wording
nothing to blindly enslaving whomever, to torture or
murder for whatever by bombing Nations of People
irrationally. No reason., For law. (But to maybe
secretly sell drugs, or steal assets to victimize
Humanity. a.k.a. Jesus forsaken, or WMD bemer's Iraq)

And it is toxic cult corporate america, who let
traitors, bush and rummy murder thousands in New York
City, ("The People") and then escape forever, operation
infinite justice. I don't think so. I as John would
destroy every nazi american bushite happily, to save the

life of one child in any third world country.

The played passion of the Christ for God exceeded his understanding of the people holding political power through censorship as barbaric. (Christ, at the time, didn't have the telephone, or the Internet.) Ideology faced reality, and his hopes and dreams as a middle easterner, were crushed by the evil lying bushites of that time. (so the 'story' goes.) Those, like in today's militarized corporate america, who's every drive is to take a much as can be stolen through murder, to deprive others their freedom to live peacefully as Good believers in Justice for all, especially our God. (Christ, we're almost like a living person represented timelessly through written scriptures. Wow I say.) Christ consciousness is of all relativities to consider, and so, in his devote love for Love, (pretty boring otherwise) took a fall like humanity as God is, (jumped really) and in his hope through teaching the dumdums, and learning, would come to create this Universe as it always has been. It'a been no cakewalk. Killing people for no good reasons really sucks. I hate bushites.

Let's get the Patriots together and bag US some Rumsfeld

I just so much hate that demon antiChrist bush, and his cabal of war mongers, it hurts. Let's just kill George W. Bush for being qualified to lead but only himself and Rumsfeld directly up to our NRA's firing squad, for almost foolishly thinking they would actually escape the planned murder of US thousands in New York City on 9/11, then continuing by sacrificing dumdum nazi soldiers on a cross in a completely unnecessary war against civilization. What is it that the evil bushites can do now in Iraq, before murdering untold thousands and thousands, but for stealing even more of God's good will towards all Mankind as loved?

[S I L E N C E]

No words from the bushites who rule our communications through corporate news censorship, while Christian parents call out unheard: why has corporate america allowed forsaken soldiers to eat plutonium to murder God for a measly few dollars the bushmob will pocket for the up coming "unbiased" re-election news campaign? As I suggested before, (If there are no real men in the marines) why not just give the unarrested bushmob all the money they want, so we can forgo all the needless death and suffering against our friends and family?

[Look, usenet's us.military.army can be the place anyone in the world can offer any irrational thought on why bush shouldn't be immediately arrested or executed as traitor, but guess what? bushite nazi brethren, either mostly don't exist in our real world, or can't think to save themselves as bushwhore nazi dumdums. Dumdums who advocate the senseless murder of innocent People, and the continuing destruction of America's America.]

Destroy the demon bushmob, and all day long you'll have good luck, I swear! Johnny says "give living a try!"

--

This next story is what the cruelty of america against Christ is all about. Funding with their lives under the leadership skills of the, corporate profit at all costs form of american brutality, a government, of People, under the Likud that persecutes the innocent as God is, while they celebrate all as drunken bushite wannabe, private banker billionaires. Drinking our wine, while secretly calling God fiction.

/ / The annual burden may well exceed $3 billion ï¿½ details are very sensitive and thus kept secret. Under the Free Trade Agreement Israel is allowed to export to the US freely, even though US exports to Israel are very much constrained. That trade-aid deficit, a loss to the US, now hovers around $9 billion per year.

Private Jewish aid from the US has contributed another $50-plus billion to the burden. Much of this is a ``tax expenditure,'' because the donations are tax deductible in the US, but the whole amount is a deadweight cost to the US economy, since Israel tends to use aid money not to purchase from the US, but, instead, buys from the EU. \ \

Haiti

http://www.commondreams.org/views04/0226-03.htm

/ / Citing the flaws in those elections, the United States and other foreign governments refused to monitor the presidential election that followed, later in 2000, which Mr. Aristide won handily. The opposition boycotted the affair and still claims that the election was illegitimate, but it does so against the weight of the evidence. This includes a Gallup poll commissioned by the United States government but never made public. (I obtained a copy last year.) It shows that as of 2002 Mr. Aristide remained far

and away the most popular political figure in Haiti. \ \

/ / Moreover, those eight contested Senate seats didn't affect the balance of power in Parliament. Even if it had lost them all, Mr. Aristide's party would still have had a clear majority. \ \

What is the opposition's position on health care funding, or a progressive tax system? Just what is it that is being fighted for if the rebels want to keep it secret? If Aristide has no military, nor large, broad based police force, how do allegations of a police state ring through, done by a militarized force looting and killing? And, who's funding these war actions?, could it be, the bushmob again? To maybe, publicly turn our way from George W. Bush's continuing criminality against America's better name? Likely, but I don't know for evidence yet. But, what does it matter, if Americans can't stand up now to arrest or kill the bush demon and "sexy" rummy for the crimes of 9/11 I ask you?

They also cite progress made in agriculture, public transportation, infrastructure, health care, AIDS prevention and treatment, and defending children's rights. ``Clearly, these programs represent a progressive agenda, initiated under the most trying conditions,'' the booklet says. \ \

Hell is what America is becoming with that ungodly bush demon escaping our police authority. As for Greenspan, he has always been a liability. 2% is what he gets for America's Social Security. Then, he gets loans for America, from America at interest, paid to him and his band of debt profiteers stupidly. Can You, as an American, borrow someone billions that you don't have, charge them interest for the privilege, then take their homes if they fail to pay you PERSONALLY back money you didn't have to begin with? I want to SERIOUSLY ask now, when are the pirate bankers going to pay back the money they borrowed from America? Free Wheeling

/ / Why is it so far-fetched to imagine God's unhappiness about denying civil rights to any man or woman? \ \

Okay, I'm going to free wheel my writing. I may change my positions tomorrow on what I will for you today. I am human, and as such, I grow through learning experiences. The issue before US, of the demon bush a 'mending' the written words of the American Constitution, infuriates me to no end of course, and as such, compels me to dabble in a issue I would rather not as public figure, but, ahh.. what the hell here we go again about my care for gay men as a straight guy who goes love wow about freedom as anyone, (all cute boys most definitely included), and dreams about females,

more often than I think of my own "manness".

Demon bush knows now that Americans do not support him by democratic poll, yet, he is taking a position of currupting the American Constitution, that he in almost every other way, has left ignored as irrelevant.

Whom a person loves completely, or what they personally desire, cannot be morally mandated through government by written law. Protections are placed for the rights of an individual. So; what rights are denied bush's america, when two faithfuls decide together, to mutually tie the knot as soully devoted? [Is demon bush, as evil incarnate, tyranting again with his betterer way than Freedom's way for all People as equals still?, or are you now completely alone on thinking, that demon bush has no right as your business on who you may, or may not want as a love held dear, that feels just the same when your near? As a partner you would love until death found you parted, you will give to your false deity demon bush, to make that decision for You now as the unspoken? Demon bush, the antichrist, is going to change the American Constitution, so you can't mutually love with God, someone of God? And, lawless bush, the demon antiChrist, is going to enact the he is greaterer and betterer that All US innocent People he wishes to deprive our equal rights to say, no thanks?]

Complete love can be made through any individuals. Marriage is a union celebrating complete devotion, that does not exclude an emotional, so as, relative of absolutes measurement. The infinity Of God's unbound glory to wonder what it is to be of ourselves as Love everlasting. Two self aware conscious gay people can experience all the fundamentals of expression, that any other once sad people could.

For the lawless bush law to follow through thwarting sharing God's love freely, we'd all be forbidden to do anything., For, we would not exist even as living sexual beings. Demon bush's unknown experiences I don't want to know any more of, but look, he's touching Your Constitution!!

Will masturbation be the next target for banning by moral bush mandate? And., I thought bush already was at least bi? Didn't he have several flings with pretty boy Scott? (So, let's all take bush's case: What rights are denied US if sore ass bush went down on the gang in a whore house of lethal promiscuity?) Instead of banning Gay marriage we should be encouraging it, as an effort to try to find someone for everyone to truly love

and cherish.

Demon bush is fcuekd up. I guess it comes with being the antiChrist, and killing all them American coppers, has got his purpose all wacky, and out of order with the rest of our world liberating.

You can protect a person's right to be, but not pass laws to deny free loving of the godly humans. But guess what?, bush'll do it anyway by saying, he dunt read papers with words on rights of dem People, cause we're all together too opinionated when it comes to him mass murdering thousands, like in New York City.

Now I plead again, care about Your reality in his flagrant falsehoods, before he takes US all unwillingly further as unjustly heard from!!! When an actual god such as myself, comes around to say destroy war monger George W. Bush in everyway you can before he destroys more of our America's America left undefended, speaking as I am, along with all of Creation as the true Son of Man, we're all really dead serious about it this time. Gawdd...

It's not far-fetched. It's that the tv and radio bushite cultists forbid public dialog on things relevant and important to human survival. But trying and failing is all it takes. However, I can't be the only person here in North America who phones american talk radio stations to be hung up on as caring for a soldier's grandmum, You must try also. YOU READING THIS. Yah, that's right, you you dummy. Why don't You love life like America, or Freedom and Justice for All as so present in the American Constitution and go baby go, you won't regret it for as long as you live. Look, don't fear the antiChrist, the evil American cop killer George W. Bush, or corporate america's "sexy" rummy, the cluster dud dropper, fear me as the Son of Man becoming legitimately concerned with a falling AaaAaAmerica, trying to force US all, God as Humanity, to sacrifice as bound slaves to be robbed for by private nazi bankers, [hitler's financiers], or murdered by evil american war mongers who command weak and cowardly nazi teen bushites who willingly eat plutonium while bombing whomever for whatever cause they're truly dumfuked as traitors. Though, as leaderlessly dumb as they are being blind devote bushite, demon bush would have to take them out of this world entirely, before they started worshiping purposefully as an organized military, to like bush, kill good American coppers as blinder than the fates will allow. So, Supreme Universal Justice, as an actual

property of three dimensions is truly rooted on your side, if you would only try. Take this from me as the dead guy, who will now be vacationing officially. If you guys in America can't simply help yourselves over your fears of traitor George W. Bush, then who needs who as a friend to the stars? Come on, lend a hand. Give living for something greater a try, and email this to your favorite news personalities. Stand up and be counted for something more important than how much the bushmob can steal from ourselves as Universal Family. GOD LOVES MAN, MAN LOVES GOD, AND GOD... OH MAN... HELP US.

The Jews had it right

Demon bush recently commenting on his vast superior knowledge of matrimony, spewed forth "millennia of human experience,"

Imagine a corporately successful American divorce lawyer, taking what he can get away with, and the marriage experience for America we'll be like that sometimes.

Just where is the "human experience"? I don't yet know all the answers, but, why is it that the happy couple can't just have a religious ceremony sanctifying their marriage, and be done with the rest of the, I might screw you over in the legal ease later part of it? If done so, I'm sure marriages would more easily stand the test of time. The strength of marriage is recognized for what it symbolizes in love ever lasting union. (as God is, or as with Nature, or just as all the dedicated one on one playtime)

The divorce lawyers take half your life's assets through pressing subtly for, doing so as he/she plans, to be sweetly bittered out of settlement as far as the lingo can commiserate the arbitrator of commissary charges on every forthwith therefore, stuffed for your(s), petty pity parties into their glorious big fat wallet.

Marriages don't truly hold together through love by expensive paper work done by hearty bureaucrats, but by a personal life commitment to love, cherishing one.. blah blah blah... Now, how could anyone, anywhere, as "The State" say to two people who express a mutual caring love, (as anyone else could), are forbidden to express love through sharing freely with one another as

something truly beautiful? A celebrated relationship that makes their time together something treasured? Time of the newer old world along with all the ancient newborn stars above orchestrating for their everyday ra-ra pom-pommed humdrum of roughing it through the bad times to revel in the good? Couples who have committed to life long sharing, live longer on the average, than anybody else does. It's a fact Jill.

(As for me, and my own little Universe that revolves around myself starving for attention as almost penniless performer, leaves me with my one liner, "no I'm actually playing the Son of Man as Creator for real to packed live auditoriums", really kinda, makes things difficult...but hey! Things could change. God is free Love man!, don't you guys remember the 60's? Look, I'll even show you how i do some of my best card tricks, if you get me on for an hour or two with Aaron Brown. He's on that CNN channel. The News channel. Or perhaps my secret nemesis, Art Bell, why don't you give him a call?)

snpd

God but, the Marriage thing is really a big something in America, as it does seem amiss, though I'm honestly not qualified to offer much more insights, until I can get off the, why is bush getting away with murdering US as the antiChrist first. (Maybe it is all my fault why no girl wants to give her love to me in between my swashbucklin'.. oh well then, I guess that's one of the mysteries I pose as the average chicken coop's "holy God cock")

Anyway, I think it's time we'd be getting the deviant George W. Bush annulled from our wills.

/ / MK Ahmed Tibi (Hadash) said he does not think Boim should resign because the deputy defense minister acts as valuable evidence for those who think the Israeli government embraces a group of fascists. \ \

As I've written, since i took up this challenge, areil sharon is the furthest thing from a Jew one could imagine. No really, that's the most disturbing quality of racism, and or bigotry practiced in our governments as Institutionalized. (A fault found that is genuinely unfair as those who practice it.) (of which so very none get truly wealthy from.) Resulting in an individual monster named ariel sharon: enemy of every Jew since the dawn. To, as a representative government, publicly, in the People's name, ACT deliberately unfair as criminals, denigrating some labeled group of innocent

people for cheating and victimization, or murdering like hitler did, is as of, unfair to the God of Christian, Pagans, the Buddyhas, along with a great many others even including the, "no thanks", they have all the answers already to life's big question innocent Atheists, DOES NOT preclude including the "Jews" of the old new testament, that sharone (in contempt of all People as God, as in his own life left rejected 'unfairly') would have left unread. For the bonuses of american tax taking from an "other" less fortunates to not have anti-Semites (Semite=Arab) with nazi american mk-47s around ariel sharon always to protect himself from a true Kingly Jew. For, what else is in this life, but to make people suffer like Jesus did. Right ariel sharon? It's this, it's so simple, the corporations wont let US say so thing again. FRONTLINE did a show once, several years ago on the actual individual people that the Jew-haters funded by nazi america victimize, but repeated since?,.. rarely never in AMERICA. Why? Because anyone with any sense would immediately see, who was the bad guy, and who was the Jew. Not good for the repuglicons who take money on the, won't go away issue though, played unknowable on "unbiased" commercial corporate american TV news broadcasts. They're stayed to f-o-r-c-e US neutral by, in a evil cult like bushite trace, find irrational excuses to except silently: concentration camps, torture, and first degree murders against innocent Christians or Jews, paid for committed in our names as illegitimate.

What ever happened to the 50 year Jewish Jubilee where all Jews give up on what is their now stolen land, to acknowledge God's Holy teaching from the Tora? Is the Jubilee just a myth? If you build a house, on the property you share, would it be wrong for ariel sharon to steal it, while america was left unaware? American tv doesn't even play what their being truly taxed to death for under the demon antiChrist, their Mr. bush Jr., so what can we expect in all honesty, right? (Demon bush murders good guy American police officers, and it's just far to embarrassing for corporate america to immediately arrest or execute the traitor.)

Mr. ariel sharon has been on the Jewish hit list, since a Jew met a Jew in the park and said, "that ungodly bastard sharon just murdered my Palestinian Jewish friend, who he called innocent of all things." Demon anti-Jew ariel sharon knows what his consequences are, for, that's all he is as the ungodly. Knows nothing of democracy, knows nothing of freedom or Jewish religious teachings, he just keeps killing Jews so they won't

catch him, while he does things like, oh I don't know, desecrates the third holiest of holies. Again, ariel sharon is not Jewish. Deal with it. PRIME EXAMPLE: The evil Jew-hater, ariel sharon, was caught directly involved in the cover up, of the failed attempt for his partners in crime to blow up some could be Jewish People in the Mexican congress, then likely finger Laden as innocent of as terrorists. To incredible to believe? Believe it. Didn't see it splashed on CNN as important on where American tax dollars are being funneled as Christ killers though did you? Now, I as John's Universal fascist informing destroyer of bad will might actually have something to say in stone on this matter, before he need show yOu mY sUpeR COoL, A-KEY- ..doh. Your greatest fear ever should be not knowing love matters. Neat how this factors in the big picture when you get to meet eternal life as the dreamy, actual standing Creation of love and disorder in the causeless cosmos, first hand, as just another, Nature's secret agent for the little big man.

Women can be more wonderful than anything.

I have so inclined to wonder myself not a gay guy who plays in secret with himself nearly too often than he would admit.what?) But as for the females spotted in Nature, as God's of this world to become born to what we always were truly about, I.. I just don't know, but to say, they're different as the Holier than holy. If manly men would start being more manly, we might find a softness worth sharing. Is it that all children are beautiful, and some adults get complicated in their willingness to comfort, or nurture ourselves all as kids in heart? I'm the toughest of the tough tough guys see, and I care immensely for living happily. If a person is "gay", and they're happy sharing their "gayness" with someone they love and care for, all the best to them, no? What does it bother anyone, to have God live gayly? I once had a gay suggestion made to me, wasn't my personal kinda communicating, told the fool so, and we remained distant, but good friends to this day. However, I'm willing to contend, It might all be though because, I haven't yet met, a real special someone. (A effeminate, and bodacious babe with a charm of splendor uncatagorizable to my human heart, along with the rest of the moody caboodle without a dangling noodle.) What's the problemoe when freedom is the rule? Love, or desire is not something any government should or could preach us on. It's emotional to each individual.

After curiously reading some of much the sexual underworld of fantasy freely makes available, I find myself not personally yearning to actually demoralize myself beyond self respect, but that's just kooky me.

Now, I'm hoping, your beginning to understand what our world we share is about as individuals, but the corporate cultists insist there never be anything, we should ever get our dander over, because looky here!, here comes another soothing commercial on how you should take your happy pills and drift quietly back to sleep while the bushmob further comforts you with all the thinking you need not do. ...pay back the billionaire private banker for money he lent you on behalf of your neighbor, shhh... that's how banking works.. Don't worry, feeding plutonium to strong American 'Freedom' teens is harmless, besides our great fearless health care leader might earn a dime or two extra on the deal for his re-election campaign sloganing these same very facts. ...nourishing us all so well, shhh.. lay back.. bumble is creamking of the interstate, hogjow, they made it going further than you could ever even realize, your never clever, never clever.. your dummer is taking up two lot spaces besides, you have it already balled. Confused?, I am.

But simply put, the more Jews ariel sharon gets murdered, the more money from repuglicons comes by taking Christians for Christ helpless on the cross, but without any 'real' God. Then anti-Jew ariel sharon puts money back into the private pockets of 'wealthy' repuglicons for funding true terrorism on the sly. The Likuds steal people's homes, life savings, shoot to death innocent Christians, Atheists, whomever, while they then send off the surviving victims with only what can be carried quickly, to suffer in some ghetto camp. Hitler, revisited. What "Jews" since whenever have suffered from, now without God in Government, made fearful to stand for their rights against bigot murderer ariel sharon's mk-47s., they then under tyranny, falsely, try to condemn all themselves as forsaken without G's leadership found in Mr. ariel sharon. The Jews had it right on me never actually personally getting up on a cross by God's inability to communicate through silence, it is more of a metaphor on the true state of humanity, but no more so graphically illustrated by today's Likude Israel that condemns all the People as God. One more example on many: Demon sharon, funded by nazi bushite america, will have Jewish Israeli teens arrested that disagree with murdering innocent people to steal their land as God from. It's a fact Jack. Mr. areil sharon is not Jewish. Live with

it suffering without speaking, or shout to the high heavens that your fed up, and we're not going to take it any longer. The King has returned!

/ / Whenever President Bush is now confronted with an unacceptable reality, he either changes the subject - is steroid use really more important than the environment? - or expresses confidence in his certainty. "I'm absolutely confident that..." he'll say, as if the issue is his determination rather than his conclusion. \ \

It's his faith infinitive as the antiChrist, where he has hypnotized the dopey with merely the power of suggestion, that has brought him to US as foolishly not conceiving, or most importantly, truly understanding. So, do we feel sorry for his ignorance as fallibility we are all prone to own as the human rendition? No. But for stupidity thinking he could murder US as the innocent to steal our free values, and just get away with it by lying to no one continually, is where the Lord makes our stand for God unseen as miraculous.

The demon bush dictate is not exceptable for my just little man universe. I knows too much about freedom to go on dying in bush's forsaken place as innocent sacrifice. With corporate america's unarrested demon bush forcing my hand, I would decide to defend by concluding, he is truly, the enemy of all America. America: weak without leadership, yes, but not as dumb as some would have us believe. When is it that we feel sorry for the thousands of lives bush's deliberate actions of mass murder have taken for no good reasons? Their ain't nobody to defend america's overlord, but through corporate censorship of the reality of who's really dying for the demon bush liar. I'm the one anyone would ever have a legitimate fear of getting on the wrong side of, and if your not in the process of attempting to get away with murdering some defenseless family for nothing but to rob from, to each, his or her own, mostly, right?

Terrorism of the worst kind for God's America. GET BUSH NOW!

Falling for You

Brahimi said. "We need to organize elections as early as possible but not as early as impossible."

Help me understand: Why can not Iraq start on the process of

O R G A N I Z I N G E L E C T I O N S

NOW to work towards gaining accountability for soon as possible? After June? What the... Can't we people talk while walking? Look, the future is likely coming no matter what, and what ever illegitimate government is

embarrassingly stalled by evil WMD proliferator baathist bremer to steal unaccounted American tax dollars from the "willing" victims dying, (like by bush bitch cluster dud) will still necessitate the need, to have started on the process of fair elections for our Iraq before hand. Corporate america might not care of sacrificing America to rob from, but real People are honorable, and won't reserve the scourge of nazi bushitizm a place to suffer any further if we can help it.

The bushites are sorrily, simply not qualified under the dire circumstances they've assaulted ourselves into for mugger war profitizing, as leading US to be dying undefended while failing miserably on my behalf to demand Justice as freedom is truly.

Now, it has been vaguely suggested that a, steven "you can't have public health care or he'll murder whomever for thinking" russell, or a buford "bush bitch" blount as treasonous evil nazi bushwhore, to undermine freedom and democracy everywheres in our world might cowardly attack defenseless innocent families at the polls while leaving "bin Laden" fingerprints, criminally warring to kill more American dumdums for commi Halliburton et al, continuing committing as unaccounted massive waste in America by over billing the dying People. Why would bushites do this? Evil is blind irrationality, disguised as thought out faithfully by fascists. The, nothing to fear suggestible absolute nature of non-linerality, is 99.9 percent, super fractal wowy miraculous as crazy about the fringes, (or is that bridges?). But, without Justice ruling our stay, we leave for a Heaven waiting, on a sea of madness as enemies of life to all things eternally being. Translated: We need to arrest these specific war criminals at the end of our, ready to fire rifles. Done to stop them personally, from robbing or murdering America indiscriminately as enemies to everyone. But in addition to that, (like at the same time) who says the polls can't be stretched out over several days or a week, with multiple options on submitting votes registered through the oil-for-food program? I want to know where Annan is on this., why it can't be done., and what his position is on returning the Iraqi Humanitarian aid stolen by Halliburton, or Iraqi Central Bank deposits cashed by HAS TO BE, current pirates. Annan, be a man, an acknowledge our presence as relevantly important for our world's living sake.

We had 100 percent access throughout Iraq prior to allowing bush, rumsfeld, and franks to sacrifice

literally thousands of innocent lives. Who are now DEAD or DYING NEEDLESSLY as first degree murder victims, in some bastardized Lord's name apparently.

(Quick, somebody call upon everyone to get up off their knees, God's coming to read as one person today of the unbound wonder of what it is to be uniquely ourselves within a nude sunrise grinning. To make some progress forward for a better future, we're not meant to just pray for someone else to come and stop whom from cheating who of Liberty? What is it that you can't think of? Every wonder? Who wouldn't do God a favor if they could imagine so brightly. Who's stopping you from defeating tyrant bush as war criminal, but for only yourself contained by his continuing bad example? Tell you what: let's together find ourselves of one mind on putting the bushmob behind bars awaiting immediate public trail, and I'll promise to try visiting them every year, just to see how things are developing. Or instead just shoot bush and rummy for almost escaping Operation Infinite Justice of a real American Patriot soldier's undying love for his soul brother.)

Any improvements of the current situation in Iraq today, are going to be less that what would have costed to not kill innocent people for nothing but evil bushite war profitizing at it's level worst in this history ever of all Humanity recorded. The demon antiChrist of corporate america has got to go, and he's got to go immediately as arrested or shot dead by the Patriots for treason, before he causes US anymore needless losses and grief to our friends and family. Like for the next fifty or so generations what with the plutonium being fed blindly as willed to cowardly, weak, American teen enemy bushite soldiers presently. (If we could seperate the bushites from the rest of US, this might be a good thing, but they have no real leadership to speak about freely as the dying stupidly.(PRINT THIS PAPER AND MAIL IT EVERYWHERE))

DYING like those from 9/11 did, or dying slower, like with NYC air quality as best Oz has to offer. (Harmless corporate TV tells US without opinion.) Either or even in other ways, the demon bush is truly killing God's America in Your name not heard from. Help me you idiot. You! Yes you there, reading here. I am your secret friend see?, and.. well.. the Universe needs your help desperately pal. Please? For me? ..Oh God help me your really dumb without you aren't I too? Listen: we need to talk.

We are here to save all of creation from needless death. Big deal. Your are of a real eternal nature, that exists also, (as understood scientifically) timeless. For real. (The big bang is now. (All mass is also of not as seperate energy, then there's our gravity...)) Our possibilities for a great, better future are staggering, if we are capable collectively as individuals to defeat the "kindness" of George W. bush, the dying embodiment of evil as the very true demon antiChrist of all biblical references ever mentioned. His lying isn't just deceitful, it is downright hellish.

You know what I think? The evil enemies of Humanity, don't want US People to be recognized from being victims under tyranny through corporate cult censorship. Without Justice ruling our ways under the irrational criminal bushmob dictate, we lose as losers cheating ourselves as not worth the consideration to be free individuals.

Granted, I am an actual god familiar with the rights present within the Constitution of America. THEE God's god, here to teach the world about needless sacrifice, caused primarily, for the effects of inflated egg shell egos. As Creator, I goofed somewhere in the, order to chaos mixer. I didn't plan (it was a mistake) for Americans to be so cowardly and weak when it comes to defending their very own selves from needless death and sorrow through blatant, naked, how can you miss it, evil criminal enterprises. So, perhaps, now if I stop writing, and fake I flied off vamoosed into the unknowable, a couple people on the planet might go 'hmpht', and decide to carry on bravely, the real, honest to death struggle for freedom living without me as sorrily missed. (I as John am not anything special paradoxically.) This is fear itself, ain't nobody nowhere as terrifyingly terrifiable as this is just truly super terrific being only my simple written taughts, yet, ... I'm like.. just fiction writer, big dreamer Johnny Wizard, looking for some happiness, human respect, and a good last supper before I check out from this made by the earthling "space explorers" dungeon cell.

But who cares about me, or my great, he thinks he's so brilliant ideas? Everything's seriously a pain to him sometimes, and he talks to himself like he's the, been here and gone as eons now, King of the Universe for the holy Word from the Heavens above or something. What a poor dying fool to chance that anyone would willingly help themselves by caring for someone. ..You know, I'm beginning to not be all that crazy about the demon bush

liar continuing to war humanity in my own true name also now that I think of life in this way honestly. H-e..Y -! (Morningstar has been accused of a lot of things, but you'll notice, always plays fair as your rules.))

What freedom in Iraq will come that allows a, buford blount to walk unaccosted by 'legal' services? Or where rummy's cluster dud advocates gain silent gratitude? A nation high-jacked by bremer's buddies who illegally sold Saddam WMD, then the product wisely gets destroyed as functionally useless being primarily indiscriminate warfare, then bremer's buddies come in again and murder untold thousands upon thousands, all because your magic TV is letting them get away with it as considered too embarrassing to the billionaire private stake holders. Fuk you corporate american Human haters for not reporting the bushites as war crime supporters.

Where in the real world are the nazi bushites gonna demand we go to allow 'them' to continue warring the Constitution while wearing a bushite soldier's uniform in their dying universes of Universe? Leaderless corporate america?, injured and dying as the unjustly starving? What can the bushites do now in Iraq, that they couldn't do before the needless murder of untold thousands upon thousands of innocent people with loving families? Before dumping thousands of tons of radio-active toxic waste as enemies of God's children? Only to rob, maim, and destroy God's great work through Love. We had complete unrestricted access throughout Iraq, and Saddam was offering the national media for bush to pontificate, while not refusing dialog for any suggestions.

I ask:

Can not America invite me formally for brunch, by somehow bypassing the war mongering nazi tyrant held up in the Oval office? I'd invite you all, but my place is still a mess, and I'm stuck eating for survival just now. I don't qualify for help, because surely, a person with your talents, should have someone willing to stave you off the, who cares about saving the world for you buddy, laughing in all seriousness shtick. (cool eh?)

I give you my world:

To save humanity from tyranny will be accomplished through the value of these free ideals recognized.

Isn't life grand sometimes when the bushites aren't needlessly murdering our innocent families in your name?

I again,
will now leave
you without me,

forever loved,

Johnny Wizard - Your "other" parent or guardian advising you to immediately, by Citizen Right, arrest the President's 'cabal' in the name of the Lord, who already died for this once already god damn it, and I'm not sacrificing any longer unknown as forgotten in the absence of any true reason to our existence, I want to celebrate. I want to afford a cold brew to nuzzle on a warm sunny afternoon, at a hideaway somewhere, lost in my comforts of having few real worries, but for unintentionally offending someone for not having the time to except their generous support, or gratitude.

/ / "We need to find a mechanism to create a caretaker government and then help prepare the elections later - sometime later in the future," he added. Mr Annan said that there was "wide agreement" \ \

Unelected care taking government? What is the group their now supposedly doing? Where in the process is corporate america to simply fix the Russian generators they've been paid over and over again already for as doing nothing in The People's interests?, As unaccounted to? Where is corporate america to fly in the emergency food and provisions for the innocent as victimized? Who's care will this continuing robbery of America through war crimes further fail to serve? How can Annan gain "wide agreement", with no poll on the issue? Who personally did he talk to, agreeing to leave Iraq without working for an elected government of the People?, and who consented to give up on such dire needs? Where is Annan on the thousands of tons of radio-active toxic waste dumped by rotten rummy? Is it not an issue he should personally be addressing for Humanity, to demand an immediate clean up paid for by those responsible? Imagine that: Truly toxic as dying, American Patriot soldiers making it up to God's great Creation, by hunting down the actual bad guys, who done did crossed the wrong family this time.

Wow, now that would be a war worth televising!

...I mean, these people have total disrespect for the Constitution. We swear an oath, military officers and NCOs alike swear an oath to uphold the Constitution. These people have no respect for the Constitution. The Congress was misled, it was lied to. At a very minimum that is a subversion of the Constitution. No End to War

The Frum-Perle prescription would ensnare America in endless conflict.

By Patrick J. Buchanan
http://www.informationclearinghouse.info/article5712.htm

/ / And if God accepts the existence of evil, how do Frum and Perle propose to ``end'' it? Nor can any nation ``win the war on terror.'' Terrorism is simply a term for the murder of non-combatants for political ends.

...If it is America we defend, An End to Evil makes no sense. The Perle-Frum prescription for permanent war makes sense only if it is the mission of the armed forces of the United States to make the Middle East safe for Sharon--and here we come to the heart of the quarrel between us. \ \

As you can probably guess, me and Patrick might have some good politics to debate on that I would disagree with him about, but I can't save enough praise for reading this most recent informative and often entertaining take, while reviewing about the Frum-Perle controversy.

I think we can all agree, both Perle and Frum are now clinically deranged by hanging on to George W. Bush for so long in dumbness. Do they qualify for some sort of special treatment programs under their respective health care plans? Strange days where we see the limited words of a mind bound for slavery. All I wants is the war mongering mass murders arrested for treason against the flags of Freedom everywhere, is that to much to ask from ourselves still God asks? To steal public utility services paid already as owned
completely by IRAQI, (America dying for the bushite
American pension thieves at WorldCom or Britain's
"Dutch"-Shell,) ain't gonna change the business
locations. The evil unAmerican cop killing bushites
think they're gonna party in Manhattan on our dime in
apartments for around $15,000 a month, while sneering at
a homeless beggar on the streets, who thought he was
still in Vietnam.

An oil-for-Iraq program needs to be reestablished, but
transparent to all as addressing the immediate emergency
needs of Iraqis. Private, in the secret back room with
the bushmob nazi bankers, and their private inept
collaborators flustering as international fraudulent
behaviors, just wont do., try as bush might to murder
perhaps millions of Americans uncovered by his
criminally enforced, reduction in health care coverage
extravaganzas.

THE ROVING EYE IRAQ AND AL-QAEDA
Part 1 - The usual suspects
http://www.axisoflogic.com/artman/publish/article_5146.shtml

/ / This latest US intelligence, though, makes little
sense. For starters, al-Qaeda pigeons are highly unlikely
to move around with computer discs in their briefcases:
since early 2002 a disabled al-Qaeda has used women

couriers to deliver strictly verbal messages. \ \

Kimmitt in collusion with the bushmob perhaps? To cover up an investigation set up to encourage the blind murder of America as bushite by attempting to divide all the People of Iraq as Iraqi?, na... not in a tribal based, enduring practically timeless, inter-woven culture.

Those who ran public healthcare and university are all the bad guys for thinking, the blind bushite bigots would conclude illegitimately., and I would say to yourself: no, the People with equal rights to stay united for good times, are a people sworn to uphold law that serves our freedom's best. Iraqi assets are not bush and bremer's right to steal without question, nor either, American generosity swindled by WorldCom, Enron, Dutch-Shell or Halliburton is the final, be all answer to everything.

You as sure would know that unjustly victimizing the World in our name because "they" didn't believe in blindly worshiping with servitude, the war mongering mass murderer demon bush liar, is freedom stolen from any. Wide, across the board, ask anyone for comment on where the bombs dropped from. Needlessly in bush's name, but to war God's love, and my good life.

Demon bush is not America, America is America.

This is all I'm ever doing as King, but perhaps also, not going left hungry. If you can help me help you, we'll be set for something better.

Truth can pose serious problems, when we idolize blindly the evil demon antiChrist for criminal sacrifice, instead of arresting him for 9/11 along with cheney, and bummer rummy, the silent but radio-active cluster dud dropper who murders American Patriots for a nickel.

Too awe shock embarrassing is it to ameliorate for the sake of a dying American Patriot Kimmitt?

For, why would Laden want the bushites to stay to further rob America through creating instability within his own ranks? without denouncing the demon bush war lies, that are paying a very real price.. ? What would it cost commi Halliburton, to face public accountability (Democracy) in Iraq on where Iraqi money is being misappropriated for? Do you think they'll get to keep the oil business, to sell back to all of Iraq at uncontested mark up freely? To steal food aid to under pay the third world? Starving?

To steal public utility services paid already as owned completely by IRAQI, (America dying for the bushite American pension thieves at WorldCom or Britain's "Dutch"-Shell,) ain't gonna change the public business locations. The evil bushites think they're gonna party in Manhattan on our dime in apartments for around $15,000 a month, while sneering at a homeless beggar on the streets, who thought he was still in Vietnam.

Perhaps, he is.

Another American soldier owes me a beer, or will be dying to steal life from themselves as sacrificed for the evil criminal dictate of Their Mr. bush Jr.. Don't go silent as the unknown dying enemy to God and humanity, stand with Justice and freedom in America for Americans, and I swear, we won't kill ya as the good guys in the epilogue.

By the bushmob attempting to create unrest, so Halliburton at al, can continue in the tommy franks chaos to rob America blind with false billing, instead of cash paying, is costing the lives of American teen soldiers. Who god love'em or hate'em, don't have the intellect to strategize their way out of an open paper bag, never mind evil bush's false creeds without real leadership present as living for. Instead of bruising our egos, the bushites are dropping bombs illegally on the family.

Man.

Ask a dying soldier how it sits to know commi Halliburton pocketed Humanitarian Aid? Go ahead, ask'em?! Then ask'em why they die as cowards by rummy cluster dud for the bushmob to rob their own direct families left unprotected? Ask'em! You know what they'll tell you? They're not happy about these bushmob war crimes truly destroying America in America, "freedom", "democracy", Johnny Wizard or otherwise., Or instead they'll mumble something incoherently while jaunting away to murder some one found defenseless, or innocent to pay further while dying to slave under the criminal dictate of the really evil demon bush Jr..

A proud bushite is a toxic bushite halting from warring the innocent by stealing your human values truly.

We need to see an apology to come from America, an apology to Humanity for this carnage waged unnecessary, but for these contemptible war profiteering practices as direct assaults to all as God is. Assaults that we have been unable to remedy by openly communicating to bush's

secret White House, rumsfeld's secret Pentagon, or
Ashcroft's secret Justice Department.

Just who's running this show anyway, I wanna know.

A - g - a - i - n

Will Americans save themselves with help from the rest
of US, by arresting bush and rumsfeld immediately for
high treason?, or will they cower and DIE as the
innocent, in false gratitude to the lying traitors
bushmob? To with their dying breath proclaim
unattested, to be ridding the Universe of their
continuing criminal behavior.. a.k.a. evil?

Evidence is a must to establish a crime scene
provocateur, to deny such privilege is to deny freedom
be served as consented through any government.

Hint: Demon bush, rumsfeld and Ashcroft, they ain't no
struggling democracy entirely.

Look, the thing about God coming down, and having it out
with humanity on some various critical issues, isn't
like going to happen, it is doing.

We had complete unrestricted access throughout Iraq

Ann Coulter - "Liberals just call Republicans names."

Her suggestion is against the common sense of a literate segment of humanity who knows something is a farce about this tart, and for me, entertains for words to gain a better understanding for proper acknowledgment.

Coulter is bigot rousing on purpose I think, just to get all the american corporate monetary gratitude, in selling herself not present as a significant baitor unaddressed publicly in our corporate news circles. She sells excuses to cowards, of not addressing specific acts of treason committed by individual traitors, like rummy or Ashcroft, and instead, suggests all people have no ability through bushite america to recognize themselves being robbed their freedoms or murdered directly for the furthering of the evil bush demon war lies.

Interesting.

A repuglicon nazi bushwhore, who will say anything to allow bush to steal further from America, is not a tried and true Republican blue collar. Is it in Ann's contention, that all Republicans can't imagine themselves having any independent opinions? Or, is Ann saying that every Liberal blames Republicans of every stripe throughout History instead lawless bush personally for sacrificing the nation as evil incarnate?, committing to murder individual New Yorkers as America sacrificing, then further acquiescing to needlessly feed toxic waste to all American soldiers, while loyally blowing themselves up dead as individuals to pieces with sexy rummy cluster dud, all for being blind disciples of the unAmerican bush demon antiChrist, their ungodly evil false-deity as enemies of God's love, America, and our good names?

Naming the repuglicon demon bush a terrorist recruiting cop killing heroin pusher, who played a central part in the murder of thousands of New Yorkers is well established factually, and publicly confessed as all planned to act upon before hand. Who says? MSNBC's Jim reported with the White House, as a 'top secret' [Oops, deceived America wasn't suppose to read this one Condi] strategy of not following the 9/11 crime scene evidence, and confessed as 'fully implemented'. A General Ahmad plan to blame bin Laden as innocent of to secure invasion of Afghanistan. For Enron et 'al, the treasonous g-e-t-t-i-n-g . . . a-w-a-y. ... Pension thievers. Robbing from American Patriots as lead worthless in value with. Dying.

Remarkable to say the least.

Anyway, solid, documented evidence including the circumstantials, like cheney's "The Dabhol Working Group", Niaz Niak, and the quietly contacting of allies publicly to attempt legitimacy of faked collusion, as such, with rummy's Pentagon arranging a same-time, what if a 9/11 occurred plan involving everyone misled, like also dummy rummy's P2OG, where dummy rummy writes to commit terrorist acts against our innocent families, he prefers if any connections have to be made, they be made with the widest banner of "The Pentagon", as to hide himself from corporate american news scrutiny, who instead will report it as, the Pentagon isn't speaking about only rumsfeld's high office involved in blatant treason, and naked evil doing. (Also, to succeed in assisting in robbing the Central Bank, and museum, the nuclear facilities containing radio-active contaminants were left unguarded, as not centrally relevant to franks why soldiers were told they're still sacrificing their lives for. "Duh, why are we here to kill good people needlessly so the bushmob back home can further rob our undefended families bro? Bro?")

--

This is for all to agree settled as official History.

America devolving into the criminal tyranny of the evil bushmob is happening. All the while, we witness, the LEADERLESS nazi bushite soldier cowering as cowardly sell outs to their very own friends and family being robbed back home, left undefended through blatant over billing as UNACCOUNTED, leaving their own sons and daughters to dutifully eat plutonium, and going further silent when it comes to rumsfeld and franks needlessly dropping thousands of land mine cluster bombs to murder us people indiscriminately, which, kills their own aplenty, in a more way than one knows. Karma. (rummy's pentagon is misleading soldiers on how many have so far died to allow Halliburton to criminally steal humanitarian aid from The People, as one example,) Again, as bushite fascist nazi vermin, they let those responsible for destroying America through the bushmob war crimes, still sit in the, for sale freedom captain's chair, high-jacked from US true Loyalists, attempting to get away the bushmob is doing from 9/11, by going real fast .. nowhere.

Second, if Liberals include whomever, how could Ann possibly assess that all would consider calling ourselves anything but, unique as individuals? Bizarre.

The American Constitution is our souls included in those timeless thoughts of Justice for all as The People. The bushmob is destroying freedom by persecuting the innocent as terrorists, when they, in AMERICA'S NAME, throw out the concepts of Justice for any. No publicly understood evidence to form our conclusions, is a corporate demand your faith be in the unjust bushmob 'cabal', and not in Freedom for all through establishing the actual "bad guys". Closing the public criminal investigations on 9/11, is a critically essential part documented as the evil cabal's "top secret" criminal treason plans, put together prior to the murder of thousands of American citizens. Prior to the event as hidden question, and, confessed as never considered. Ya, right.

Playing to Win

Bush declared, "and he wouldn't let them in. And,
therefore, after a reasonable request, we decided to
remove him from power."

So, there was indeed no imminent threat posed by Saddam
to Amerka, and inspectors had complete unrestricted
access throughout Iraq without delay prior to the, bush
demon's further war crimes. So, what was the reason for
all the pointless mass murder and destruction again? Oh
right.. to sacrifice American soldiers so terrorist
bush's war profiteering can feed off themselves as
family without leadership present as spoken for. Hey no
problem if Bechtel or Halliburton never actually gets
anything done, or at a good price after their magic
trick "pay here for what?" commissions eat up most of
the investment, it's only the dummy American People bid
payers again left unaccounted to DIE intentionally. The
bushites could make more killings for decades to come,
while flogging the now desecrated American flag as the
new bushmob's being intolerance, greed and true contempt
for all US as Humanity. US, a dying dream that once was
the great American way of living; now war crime bush's
personal enslavement for global tyranny.

The devote bushites tell a Loyal but dumb Soldier to
quietly eat plutonium and get blowed up by rummy cluster
dud, because, it's harmless. Again the marines have got
to come in and save our day, by arresting bush and rummy

for 9/11 now, with truth as the all time word of God
exists within yourself included. Look, don't think I'm
gonna fly down to Washington like some comic hero, and
arrest the entire bush administration, going through
them, one by one from their holding cells, on where all
the stolen cash and American values went all by myself.

GOD NEEDS YOU

All the deaths of American Soldiers in Iraq today, (like
the People who died for the bushmob's 9/11), are caused
from their leaderless weakness to not face bremer and
the bushmob as war criminals continuing to transgress in
America's name high-jacked.

Mr. bremer fired Iraqi school teachers, and hired up
Saddam's secret service, those, who if any, would have
closer relationships to charges of criminal impropriety
in the name of the baathist banner, than any other group
would be. If an American soldier in Iraq today, feels
those from the Saddam Baathist regime should face
American Justice (the real way by thinking) why then, is
bremer not behind bars awaiting his public court
appearance? Mr. bremer as the director of Kissinger
Associates, is as, directly tied to "CRIMINALLY"
providing Saddam his WMD knowhow. The first
"Iraqgate".. [I apologize as Creator for being
partially responsible for this worse than B movie but
true plot line scenario, however, looky here!, there
is so much more to believe!!!]

The bushmob tricks are too cunning to comprehend, see?
Again, for those who can, bush must be stopped from
murdering American Patriots for no good cause, because,
it's really getting US royally miffed way up here also
as the true beings actually committed to Justice as
Freedom for all. That's all folks.

He ain't kidding me he is completely unqualified to hold any leadership position. A real de-generative paranoid delusionist, mared likely early on from corporate neglect he suffers still from. He is what is referred to as a bigot, and likely therefor, a probable racist. The 'area' he forces through threats of murder, are to demand this vision be no greater than his own. His own of equality being freedom by Justice Supreme doesn't stand his scrutiny as aimed for target. Bible or Constitution, all trash. Innocent guilty, good guy bad guy, he couldn't divulge as devote blind bushite, war criminal 'mastermind'. Oh by the way, truly, he breeds indiscriminate warfare as a bad soldier, while the bushmob are walking away with who's loyal investment. . . ? . . . The clock is ticking. If I can teach Buford and Steve with this breaker, they'll turn around and kill bush and rummy instead for 9/11 to make the newspapers. This is why a repuglicon doesn't like to feed early start programs, that way, Lt. Col. Steven Russell can pretend he's doing US in this world a favor, when really, he couldn't care to know if his ACTION would CAUSE the needless murder of yet another, Patriot American brother. Steven, you arrest Buford, and Buford, well you just go ahead and arrest Steven, and then... well, we'll take it from there.

Instead What?

Instead tell US as an antiAmerican bushite?, you'll murder US innocent for demon bush and rotten rummy?, regarding those free speechers who dare voice with FACT, that, Iraqi banking, university, or health care, is more intelligent to remain Universal as it was to serve the People's interests BEFORE baathist bremer sabotaged communications? The bushmob isn't bringing Freedom, but stealing it. And as such being consequence, so too, Amerka. Haven't you heard? Bush's Amerka will be

freeer now that evidence is no longer a requirement to convince US who is evil incarnate, and protesters can be shot without CNN making the news over it. It's betterer I'm sure Ashcroft would say to torture or murder the innocent, that to arrest the culprits responsible for high treason in God's America. Right bushites?

/ / commander of the 1st Battalion, 22nd Infantry Regimen, Lt. Col. Steven Russell, as saying, "This is to remind the town that we have teeth and claws and we will use them." \ \

What an evil dumdum traitor to the town of New York City steven russell is eh?

Imagine this is why the evil dumdum bushite soldier states the Humans must not be allowed to disagree with anything the bushmob does criminally, because then we'd all know how they ungodly as cowards behave; treasonously acting in such a inhuman tyrannical manner without true leadership to speak about. Ask an American Soldier who proudly states they wouldn't kill unarrested buford "bush bitch" blount or steven russell instantly to save the life of one innocent defenseless child, and I'll show you an enemy of America as just another expendable soulless nazi bush whore. (ten cents per I'm paying..) Let's all hope and pray a sexy rummy cluster dud dropped by bank robbing heroin pusher tommy franks does them in, instead of US good guys driving in the designated place at the right time bound for further criminal bushmob sacrifice as leaderlessly too weak and cowardly to stand up for 'the Human cause', eh?
An aside: Corporate Americans are publicly taxed twice as much per capita for their inhuman private health care exclusions, than Canadians do for public health care that measures every Canadian as Canadians. (The bushites are evil, and dumber than dumb I told you before the election, but your news agencies refuse to still listen to our top priority concerns regarding the demon antiChrist's murder rampages against American principles, and her citizens left uncapitalized.)
Think of it: the criminal bushmob will easily sacrifice a leaderless bushite nazi soldier, to steal from their own families back home undefended, maybe a nickel, while I, as a real man, beg them to be Soldiers from America's America, by getting to unarrested buford "bush bitch" blount, death squad recruiter tommy franks, or even baathist bremer as the actual enemies of true Patriots everywhere. At the same time, DEMANDING the start to promoting free fair elections, the solving of tommy's bank robbery, and the return of the stolen Humanitarian

Aid giving illegally to double biller commi Halliburton. But so far, they cower as cowards, afraid to protect their own family from further bushite tyranny that they don't have a mind to speak of. Nor, an Art Bell to learn from. (American Talk Radio don't wanta get political while advocating no concerns about dying soldiers led by the bushmob. Why? Americans seem to hate all of their humanity, or so the bushites would like you to think so through censorship of the dying victims. However, I'm still holding out on the chances of one or two in the Marines as loyal to America, who will if they have to, bravely be taking down bush and rumsfeld immediately for escaping arrest regarding 9/11. You can fool some of the people some of the time, but bush can't fool all of the people as evil incarnate, for that would just be plain silly.)

Look, about all those bad names you thought I called you before, as a messed up son of a gun, listen, we all make mistakes, and... well, if your willing to work for the survival of Justice in America, somebody'll be proud to salute your Patriotism as Freedom truly reining. (Or perhaps the real Americans, to protect the lives of their blood brothers and sisters, will bravely demand the immediate arrest by gun point of the bushmob for 9/11, to be strong and brave, humane and godly. I guess we'll ask who is the sea, the demon antiChrist bush, along with Ashcroft and rotten rummy, or still We. -ba)

Communicating knowledge is powerful stuff let me tell you. (Roar) A person can spend a lifetime of study in a branch of understanding, and write an illumination readable by another in just a few short hours, then take in a play or perhaps a movie, then the weekends over, and you better get back to work or you'll lose the house on this next late mortgage payment. I don't claim to have all the answers, but i do just about. Hidden in here somewhere...

Step Right Up

I know generally, American people ain't so politically aware, when it comes to huge amounts of living wasted by little scary, but far too distant as likely scenarios. Tell me what you think: can you imagine 10 billion dollars in one year spent to investigate Laden, (with perhaps only three officers in total working on those 'secret investigations'? [Connie Chung - CNN], instead of just dirt cheaply starting, with whom did what when where went why? (W199i and Barbara Bodine) Evidence

must be crucial to convince US who is stealing literally, billions. Every year. (Where is some great King to wake up to this madness, and offer US an ever changing alternative I kept foolishly asking myself.) Look,. I know a bushite war monger's lying can spook me too, on how they manage to have no commitment to communicate honestly with the facts, while publicly advocating the indiscriminate murder of ourselves as the innocent., instead of SEEKING solutions to remedy things with intelligence bringing kindness as it's territory. God is all great, and I'm not so bad either.

Of the blind human condition trying to thrive, G is the last Word on lethal threats to the innocent. Threats made by war criminals who have high-jacked America's White House, protected by dying as evil bushite nazi teen terrorists angers everyone truly. Enemies of our Humanity whom is still living art within Heaven. I genuinely dislike devote bushite, American cop killing cultists with everything I am of honestly, and so too, it does appear also, the bushmob could care even less for its disciples. For the demon antiChrist, Your Mr. Bush Jr., fools all Patriots when he tells them evidence of his treason. What secrets? He secretly planned and implements to not work for public criminal investigations regarding the murder of thousands of American People. Thousands. With Kissinger. What is it, that you as a bushite or otherwise, can't figure? None are seperate from this dying dream we call life's living end. Time to change your religious convictions on the true existence of a higher power maybe? (I am really very easy to believe in, and when speaking face to face, I leave little of no shadows to doubt I am simply a, super freak as Natural human Being. I scare few that shouldn't be, and I can't read anyone's mind, however, intention, is a whole other matter all together. You gotta be almost like a god to fool me into thinking one plus one doesn't equal two.)

Anyway.

America is still a work in progress, alive, willing, and almost able to defend by rule of individual rights by wHoly miGht. It makes absolutely no difference on what you think of me personally, (if you've finalized an estimation), I mean it, no difference. There are ideas as this Universe living would concur upon, timelessly, and see?, I know this as the Son of Man of anyone already, always have. (I don't need people to tell me I'm great as the Wisdom of Ages, I just need a few dollars to tide me over until I can get a steady

paycheck.) I have no intentions of ever forcing the world against our ability, or getting elected as King for being just myself as a none-partisan, soft-spoken well mannered businessman. I am the actual make believe Lord and Creator of the bushite cesspool labeled America, and thanks for nothing is not what I'm demanding.

Letting the bushmob escape from committing the terrorist acts of 9/11, can not go further unanswered in this universe, I'm sorry. That's just not a world I as a defender of my living purpose would feel comfortable held up in chains and shackled ever. It's really not where I dream unbound along with the real world ways of life's struggle for true freedom, being my commitment kept honorably by doing some good for my sake is a virtue for all. God, American People are so ignorant, cowardly, and duped to not help ourselves sometimes, it destroys US, instead of the lying bush demon antiChrist. You know?, the enemy of all People, freedom and Justice? as a corporatist bushite cult deceiver would want US to not believe?

(nap break)

Can you believe that demon bush spewed last week that American Patriot Soldiers have been SACRIFICED because Saddam, ""did not let us in." Now, if he is that uninformed on Our documented reality regarding TRUTH in America, along with his now completely confessed absent war rational, will You, as an American Soldier, watch yet another corporately unspoken for Brother or Sister sacrificed to DIE in servitude for that super evil bush's bullshit continuing in Your name unchallenged?

This whole Britain Blair thing is so disturbing when parlayed with the facts outlaid. Look, MI6 (C) confesses the 45 minute thane was really just based on how long it might conservatively take for the Iraqi military to get small caliber weaponry, like grenade launchers, to anywhere along the Iraqi border. (With an

additional report alleging MI6 obtained those timings from an out of date Russian military manual. Hutton should be considered for treason when you think about the time spent privately reading the 45 minute, Weapons of Mass Destruction thane over and over again, never mind the fact he is blatantly, nakedly, attempting to cover up the murder of a Brit. I ask Humanity, shouldn't Annan, if anyone, be speaking up scientifically on American soldiers eating rummy's radio-active depleted plutonium, while being blowed up by landmine cluster dud? now that I come to think of it... how is this to fit in any public American school text book without mentioning the dying for nothing as evil bushites part? "...defaulting as cowards into ungodly tyranny?"

Upon reading this with another go, I laughed, then when
reminded of the results, I realized,. we haven't yet
failed to please our forgiving Nature. (Or the great

good for this world, we hope we can bring happiness to

/ / Except that the United States has absolutely no intention of actually getting out of Iraq. It wants its troops to remain, and it wants Bechtel, MCI and Halliburton to stay behind and run the water system, the phones and the oil fields. \ \

Never ever land more like. Imagine that: Arabic WorldCom phone bills, Halliburton gas bills, with the only store "legally" open to US public will be Bechtel, who will demand through bushite tyranny, you pay your wages for something unjustly over billed as, but put together at less than five dollars a day wages offered, being as the only jobs available through not publicly accounted bushite middleman directly chancing the whole country of America as undefended financially., extending "their" risk to do nothing; by the further needless SACRIFICE of MORE AMERICAN (bushited) PATRIOTS AS truly dying WORTHLESS WITH as da dumdums. Armed American Soldiers should be bravely going after Baathist bremer with DEMANDS for immediate democratic elections and the immediate return of ALL the stolen oil-for-food money to be spent entirely on priority Iraqi needs, solving the bank robbery, while considering to start printing up millions of invites for Iraqis to stay in America until the toxic waste dumped by rumsfeld can be partially neutralized., while we hunt down the rest of the evil bushmob, one by one, with the full extent of Law, entrusted to the Loyal American Patriot Soldier's Oath to do what is strategically right in our America to survive. Why do we do this? To protect our fellow Soldiers from sacrificing under lawless criminal command where a, buford "bush bitch" blount type, murders good people for no stated reason, but to toll more American casualties, while robbing all Civilization as fallen bushite victim.

No wonder the evil bushites are now leaving in the light, their Iraqi dis-investment plan, for the easier pickings of undefended COWARDLY America tax payers to rob from. Again, more than half of the monthly 4 billion plus 'top secret' plan, plans to not account to ourselves., on costs of expenses doing nothing much of anything in Iraq TO SACRIFICE MORE AMERICAN PATRIOTS AS WORTHLESS WITH. (Apparently, they can't think this far due to the required math skills of subtraction and division.. Or, so the bushmob don't say in between Our commercial breaks on newscasts, or our acclaimed artists

publicly blast during the, we're the best at this, award ceremonies.)

See the tragedy? The leaderless "bushited", American Soldiers are too weak or cowardly to stand strong as Americans for the needless loss of their very own by cluster bomb. It is From the get go, an American Soldier is sacrificed for, as the evil demon bush lies. Examples abound today like stolen money being wasted to fake fix things, really lives little damage undone. Or leaving buford "bush bitch" blount and the heroin pushing, child killer tommy franks unarrested, does little of no good for America's image abroad, when waring the bushmob "Freedom" medal, on an American cop killing cowardly bushite soldier's dying breast. A "Freedom" medal celebrating the ultimate escape of bush and rumsfeld from an American Patriot's wrath as the primary 9/11 instigators. (Say to a proud bushite, "General Ahmad funded Atta" and they run away as cowards, to play pretend like nazi savages who dropped bombs on US innocent irrationally to pay further costs in sacrifice to their false-deity unthinkingly.)
God or no God, I hate the demon antiChrist, corporate america's false-deity, Your unelected Mr. bush Jr., as much as any real Creator of this world, or any other should.

With such real inaction on old promises [lies] made by the dishonorable and dishonest leaderless bushite nazi savages, while desecrating all of Humanity by fighting against a just rule of Law, (instead of protecting America's America), forces the continued REAL WORLD sacrifice of true Liberty, until the bushmob gang is brought up by US for war crimes., as the 9/11 perpetrating, super evil as ungodly, demon antiChrist in disguises. (I very much would feel welcomed to play my part in those public proceedings.) Hmmm.. maybe CNN or CBC can become publicly convinced we should have our own news programs on what's truly happening?, to compete against the 'evil bushites' in this competitive free market place of ideas? Who knows..

Take care of the business, by getting US in on our news-casts., as these principles here standing in words, are a dreamers dreams, just waiting for You to bring to reality., by standing proud, strong, and forever free as a, truly, super awesome Human Being.

[then subverted to steal American lives with by lying]

Demon Bush replied, "No, the intelligence I operated on
[then subverted to steal American lives with by lying]
was good, sound intelligence."

Where is bush leading America on not ever taking an
apology for his misdeeds to destroy our true American
value with? I don't know how else to simply word this
to the still sleeping, but bush isn't America, America
is America. You, as an American, have a sworn right to
demand for America, bush not be allowed to further
miscarriage Justice blindly back to the dark ages, by
not correcting himself on behalf of established
publicly, where American intelligence stood, stands, and
ultimately strives. Freedom is not protected by letting
the "bad guys" go, to further toll more innocent lives
for criminal sacrifice. Sometimes, the real simple
things are over looked as profound meaning. The Magna
Charta of 1215 states that a freeman should not be
imprisoned. Simple right? Not for the bushites who

side instead to faith in pope bush, who deliberately unminds a timeless universal principle that exists also in the 1700 B.C's, Code of Hammurabi, where all individuals are to be found equally under the Law, to be fair minded about our business. Simple right? No, corporate america says being fair, is not to care one way or the other between commercials., and the result? The available 9/11 evidence is not publicly disclosed as relevantly important, for Laden did the whole thing by himself, (bush, cheney, and rumsfeld said they know better than everyone else put together so don't even bother to form your own conclusions on your present state devaluating) case closed, now blindly pay your further tithes to bush, cheney and rumsfeld for letting the crime go publicly undetected, while with 13303, we will silently watch bush make himself tyrannical dictator over the rest of our Humanity, where he tells US, to escape, he will with evil american nazi bushite soldiers in tow, get this: not be found accountable to Ourselves anywhere by law to witness, or to an all knowing God even. Spooky, strange and somewhat disturbing, siding to show, bush really is dim-witted as archetypical evil incarnate eh? See? Civilization's Code of Hammurabi consists of 282 paragraphs, of which, the first line from the first paragraph translated states "If a man bring an accusations against a man, and charge him with a capital crime, but cannot prove it, he, the accuser shall be put to death." Your demon bush Jr. is recognized as an enemy of God not only by the Taliban, but since the birth of the Human condition. The position Your Mr. bush Jr., the antiChrist, threatens against US all, (EVERY FAMILY'S MAN, WOMAN, AND CHILD), is one where, as murdering war monger nazi tyrant, he can with bush bitch traitor buford blount and bremer, deem any NATION of People, outside all the laws of the Universe, regarding our truer existence dying. My timing as Creation is impeccable, when you think about it. But don't think too much about nothing in your own defense while dreaming what is doing, isn't really happening. The unjustified NEEDLESS continuing murder and destruction in Iraq by toxic bombings and the use of cluster bombs as landmine to really kill cowardly and ignorant American soldiers pirated as anti-American lawless God hating nazi teen bush bitches, then, with tommy franks to undermine the ORHA plan to rob the central bank, museum, and steal billions in humanitarian aid by killing more leaderless as evil godless american soldiers with, was in itself, a crime against Your Humanity., and bush along with rummy need to pay the Piper immediately, before needlessly, taking US any

further as not truly represented lyrically to sing or dance about aimlessly.

The demon bush's life, isn't worth the sacrifice he makes of our opinions on Liberty, or our children's future.

The French 1789 Declaration of the Rights of Man and of Citizens, makes perfect sense when it states in so many words, that all People are born [anywhere] free in respect to their legal rights, Laden, and You included. But no, not by the evil bushite misrule. If a Human is not american, then the bushites don't need to follow the actual criminal leads to establish a criminal case rightfully against the accused, and instead, the bushites will blindly victimize our dying world as the disenfranchised and innocent, without true leadership present as spoken for.

By corporate america not working to understand Freedom requires our due process as our self commitment, means, a bushite nation guided by the flimsiest of allegation to deny the rights of all People falling as innocent victims, instead of nabbing the actual criminal masterminds who murdered Americans to steal Freedoms granted to US all by living in the know. So, I purpose a quick, let's get started, New World Constitution; anyone who victimizes the innocent intentionally, should pay a price by our political will, instead of ourselves censored, as the unconcerned bushmob victims. By our corporate news agencies encouraging the blind ungodly belief that evidence is no longer a requirement to convince US who is a criminal, is another bushmob war crime in the making, and a road straight to doom for everyone corporately devalued for bankrupt liquidation. Suspicion is the minimum, when it comes to bush demanding your blind faith in him religiously for indiscriminately murdering hundreds of thousands, while ignoring our Judicial investigations, so fraudsters commi Halliburton, can over bill even further, US tax givers as the unwilling still paying. It was reported that seriously incompetent Bechtel, (who steadfast so far as america's corporately unaccountable, refuses to fix what they're currently being paid for by tax paying bushite soldiers DYING as COWARDS for the wrong side to blow up then pretend repair as), hires workers at five dollars a day, while billing US all as unworthy of consideration in the final tallies during news break. What can't you figure if corporate news america will forbid you raising concern for the life of an American tax payer losing out to war criminals who would murder

New Yorkers for a fast dollar at your expense for
further keeping silent? These words are freely your own
to do as you will. Shout for Americans dying needlessly
under the TRULY incompetent bushite lawless rule, or
don't side to help a plead for mercy regarding yourself
truly included.

Can the bushites possibly think, we're all not ever
possible to stand together without a true Loyal
President, or, make believe King named Johnny, on the
facts firmly established regarding the treasonous war
monger antiChrist lying to Patriots dying US as victim
for?

America, I will now leave the rest of Our job in your
hands for the time being.

Yours again,
Johnny Wizard

I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

There is one thing that is strangely absent from our news coverage as unbiased bushwhores who are actually devaluing under the tyranny of the evil antiChrist, Our

Guys...the trick here is to get organized clubs to start placing
informational ads in local papers and other media to INFORM the public
of exactly what harm BPL will bring. Yeah...it's gonna cost some
bucks, but what's it worth to you to keep this crap at bay...?!?!

They ALSO need to be informed that since this is a Part 15
program they are afforded NO PROTECTION from interferene from ANY
licensed radiator.

Lastly, we need to get the ARRL to start lobbying Congress to
mandate an informational insert in any BPL-accessing device informing
the consumer of exactly what Part 15 means and what the consumer can
expect.
